Department of the
United States Air Force
Washington, D.C.

Dear Sir:

I am a freshman in El Campo High and I, along with other friends have been keeping data on UFO's. So I want to know a little information about a certain aircraft if it exist and is possessed by the Air Force.

On Oct. 14, 1965 I spotted a blinking red and white object in the sky. It had no exhaust vapor or any type of engine running whatsoever. It was traveling in a circular pattern and when it completed about $\frac{1}{3}$ of the circle it fired another blinking light from the left side forming two objects. Then as they completed the circle their engines came on for about 2 minutes and then quit and they glided in the circular pattern and came together and the blinking light that was fired from the side disappeared in the other and only one object could be seen. So what I want to know before

I put on my records if that object was an
Air Force aircraft or an UFO. If my
writing on this object I have a map drawn
which is not clear is ~~not clear~~.

Another thing I'd like if you could
send me some information on UFOs such
as when they started and sightings since
then could be sent to me. And the
natural phenomena of these flying objects.
If pictures could be sent, I'd like I don't
because they cost quite a bit could
be sent. It's not very important to have the
pictures but I would like to have
such information asked for could be sent
to me. It will be greatly appreciated.

Your friend,

~~XXXXXXXXXX~~

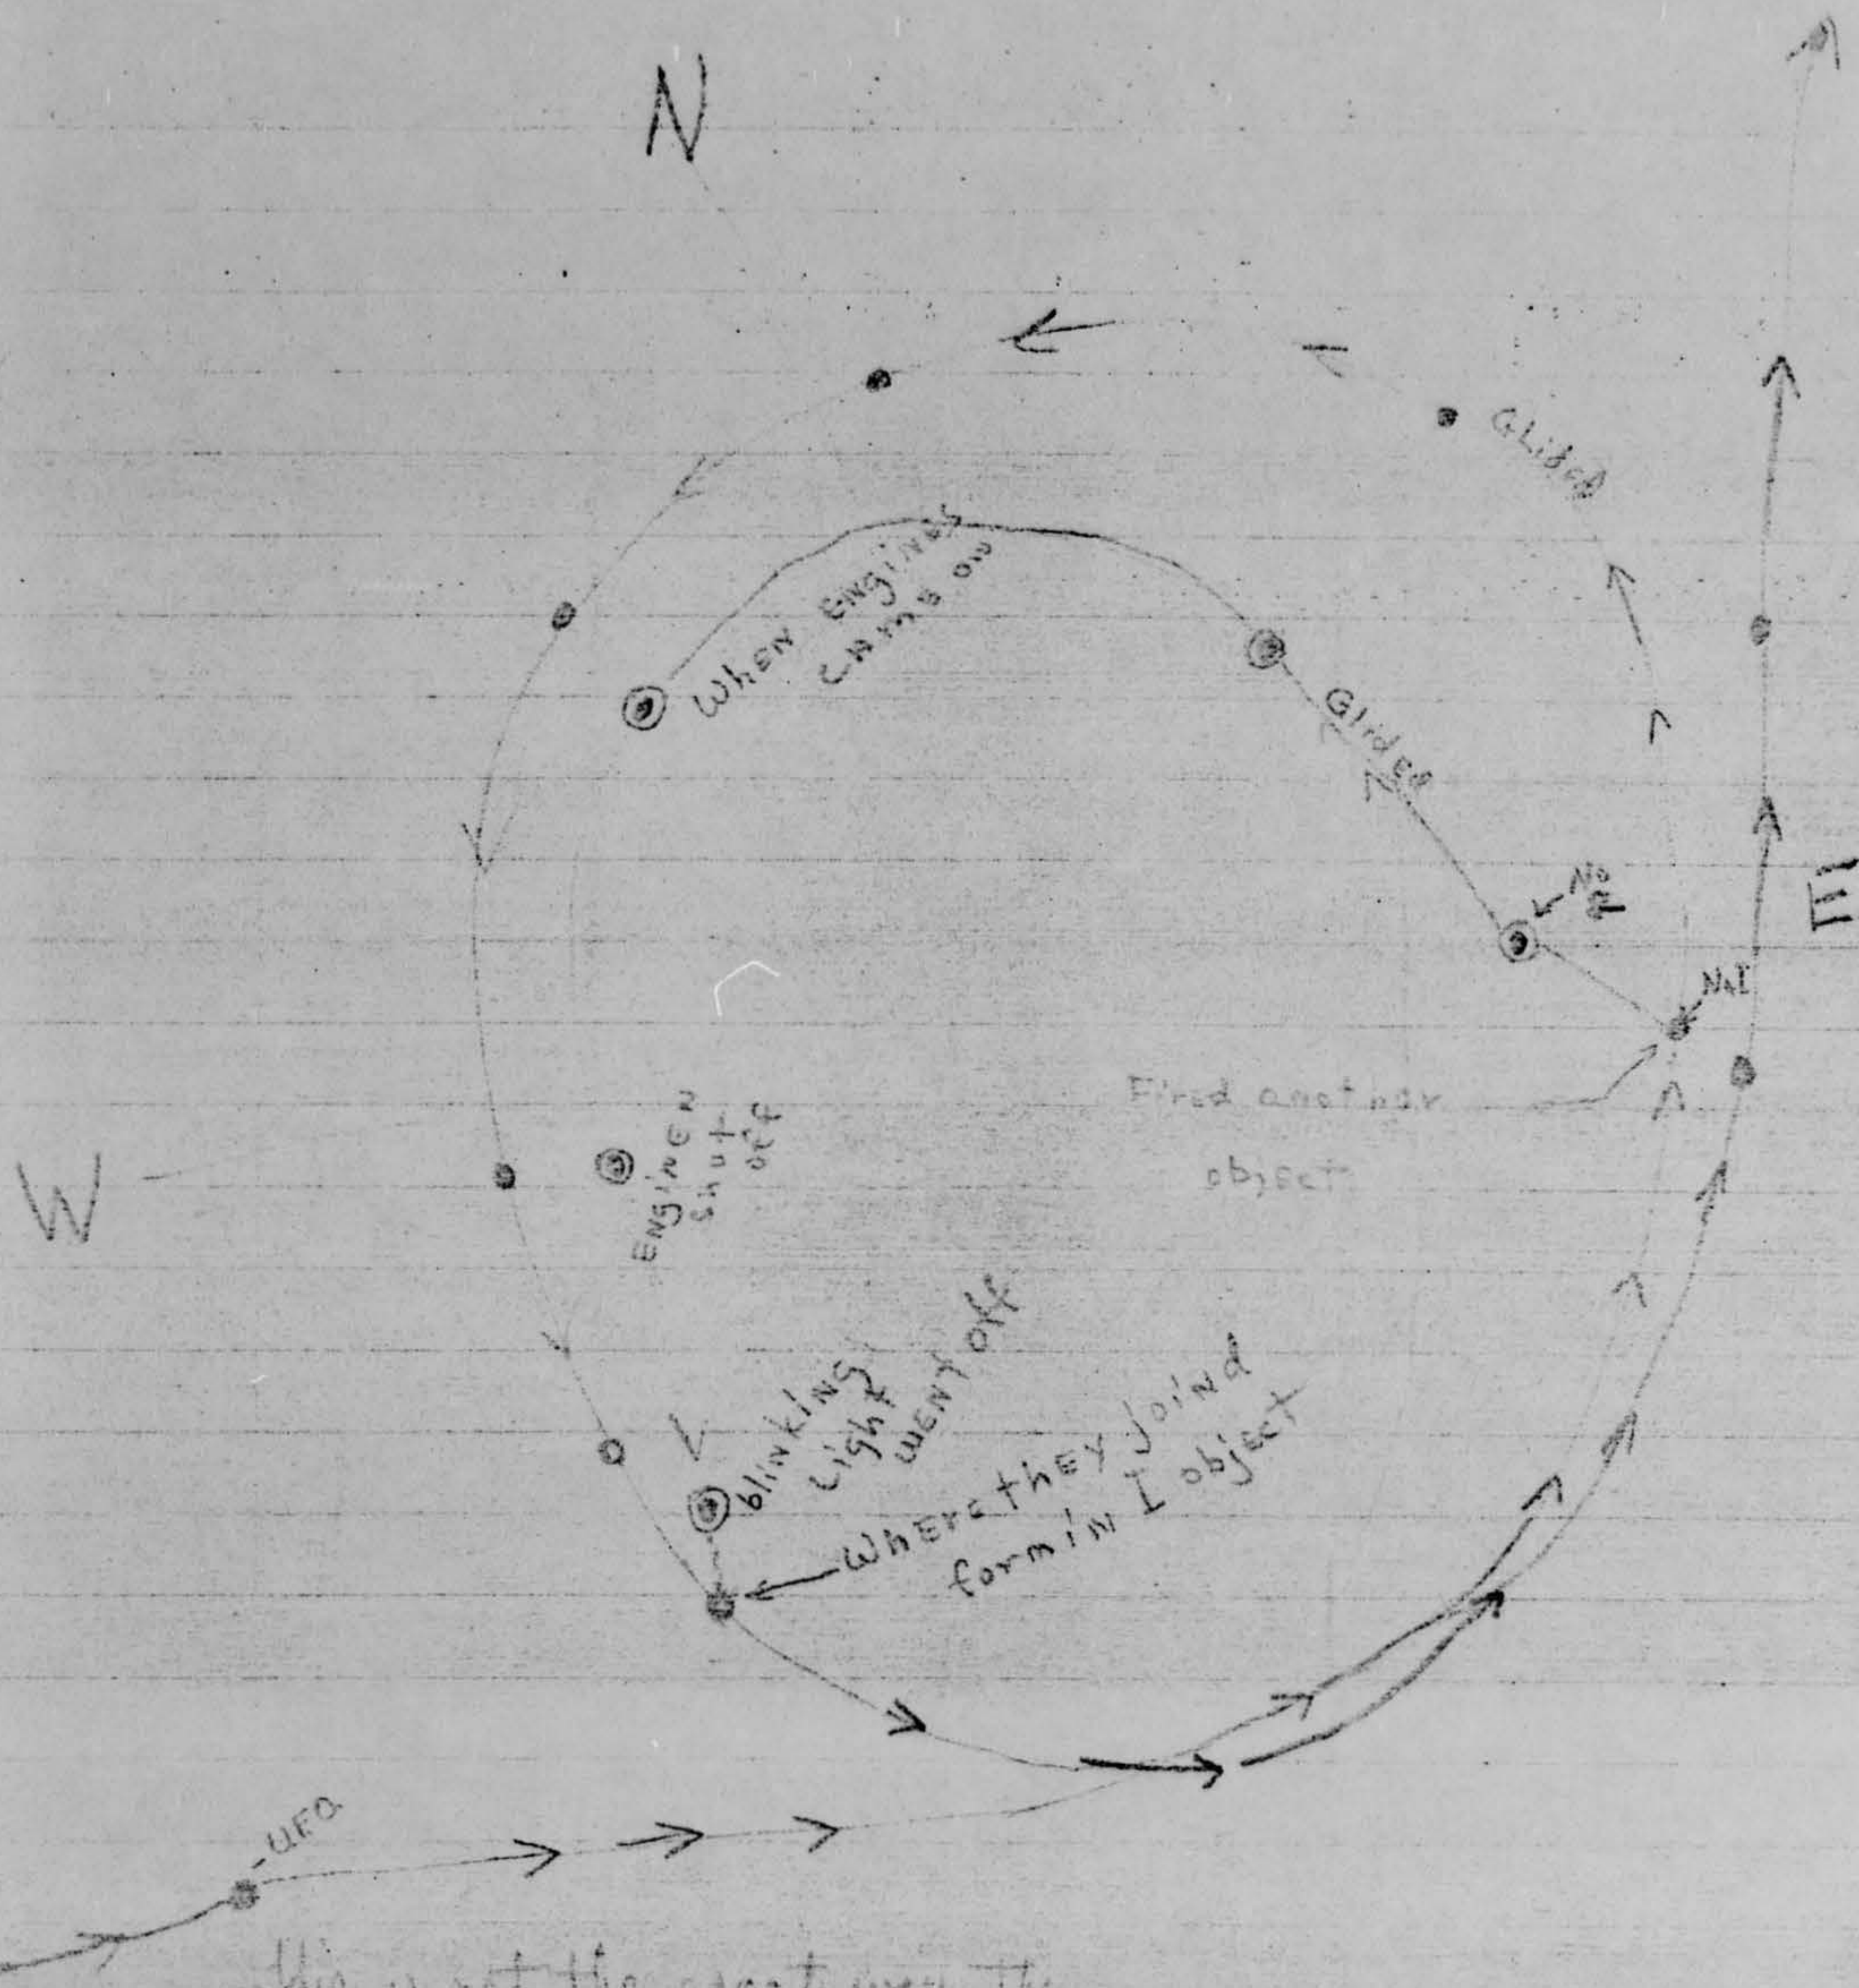

The duration of the flight was
Time: 7:30 PM

Place: EL Campo TEXAS

DATE: Oct. 14, 1965

PATTERN: A circular pattern

was bright and was a little larger than a
star.

This is not the exact way the flight duration happened, but it gives an idea of how it happened. S
