

PROJECT 10073 RECORD

1. DATE - TIME GROUP 15 October 65 16/0230Z	2. LOCATION Sunnyvale, California
3. SOURCE Civilian	10. CONCLUSION Astro (METEOR) ✓ Possible meteor if estimate on duration high.
4. NUMBER OF OBJECTS One	
5. LENGTH OF OBSERVATION 15-20 seconds	11. BRIEF SUMMARY AND ANALYSIS
6. TYPE OF OBSERVATION Ground Visual	Object was a white ball followed by red trail. Straight overhead from NW to SE. Duty officer at Mofett NAS stated that the area of the sighting is located between a municipal airport and a NAS. Seven military and a large number of civilian aircraft were operating in the area at the time of the sighting. No reports from the many a/c in area at time of sighting. Possible meteor if duration estimate high. Possible a/c with afterburner if duration estimate low. More likely meteor since no sound reported.
7. COURSE SE	
8. PHOTOS ☐ Yes ☒ No	
9. PHYSICAL EVIDENCE ☐ Yes ☒ No	

about 1/4 of a mile away. James viewed it from about 500 feet away at his closest vantage point. The object hovered in a 45° position about 15 feet over the stacks. It seemed to have a dull non-reflective finish. Its edges were blurred giving the impression of a glowing sphere. Although a definite outline could be plainly seen like a cigar. The object seemed to have a slight hum near the rear. James was facing ESE when viewing the object. He noticed a small light fair being let out of a balloon coming from the object. Almost as soon as he finished and got off his bicycle the object started to rise from its hovering position. The light which had been seen began to flicker. After the object rose about 100 feet its light went out and it moved off into the darkness and out of sight. James had viewed the object both through and above his eyes. The object hovered away into the sky.

EVALUATION:

James impressed me as being a very sincere boy. I received the immediate impression that he was telling the truth. He had called the police soon after his sighting. They mistook him for his father. When I checked with the police they confirmed his phone call and their sending a cruiser to investigate. When they got there the object was gone. The police told me that a woman phoned them about a "flying saucer" in the same area later on that evening but she refused to give their name. They told me that the U.S. Coast Guard had received many calls concerning the object. I phoned the Coast Guard. They advised that they had received calls in UFO sightings in the area that night but would not give me the names and addresses of the witnesses. I phoned the FBI and they told me they had nothing on the matter. I phoned the FBI again on the charge that someone was trying to keep the object out of the public eye and had.

James had read a few articles on UFOs before but not extensively. The sighting with two lights, the 45° position, the swaying motion as it hovered, the light glowing from the rear are all typical UFO characteristics. The fact that the Coast Guard admitted receiving calls from other witnesses is significant as well as the unknown woman witness phoned the police. It is strange that James did not remember seeing the object. James seemed to be very sincere and factual in his report. He was not aware that others had seen the object. Overall speaking I think the weight of the evidence points to a genuine UFO sighting. I believe the Coast Guard would not release more information. I believe the admission of receiving many calls from other witnesses is a definite indication of this sighting. If further information is available I will send you an addition.

Report submitted,

[illegible]

REPORT ON IDENTIFIED FLYING OBJECT

1. This report was prepared by the U.S. Air Force and by other Armed Forces' Investigating agencies, and additional agencies, and is not to be used for full publication by NICAP.

2. The information has been carefully studied, the conclusions of our evaluation Panel will be published by NICAP in its regularly scheduled report. Please try to answer as many questions as possible. Should you need additional copies, please print or type them. Your assistance is of great value and is genuinely appreciated. Thank you.

Name: [REDACTED] (Age 16)

Place of Employment

Address: [REDACTED]

Occupation **Student**

Salem, Massachusetts

Education **Junior Year**
Special Training **St. John's Prep.**
Military Service **Danvers, Mass.**

Date of Observation **2 October 1965**

Time **8:20 AM** PM Time Zone **EDT**

Location of Observation **[REDACTED] then corner [REDACTED] Salem, Mass. *****

How long did you see the object? Hours Minutes 5 Seconds

3. Please describe the weather conditions and the type of sky (i.e., bright daylight, nighttime, dusk, etc.) **A few Cirro-Cumulous clouds.**

4. Position of the Sun or Moon (in relation to the object and to you) **Don't remember seeing moon.**

5. If seen at night, twilight, or dawn, were the stars or moon visible? **Saw some stars**

6. Were there more than one object? **One** If so, please tell how many, and draw a sketch of what you saw, indicating direction of movement, if any. **Moved off into SSW after hovering 5 minutes.**

7. Please describe the object(s) in detail. For example, did it (they) appear solid, or only as a source of light; was it revolving, etc. Please give position of lights of parts, if necessary. **Solid/Cigar-shaped-Two white lights, one on each end-had hump near back.**

8. Was the object(s) brighter than the background of the sky? **Lights were**

9. Describe the brightness with the sun, moon, or lights, etc. **Dark shape silhouetted**

10. Did the object(s) make any sound? (Please elaborate, if you can give details.)

a. Did it appear to vibrate at any time? **Hovered in 45° position-swayed a little**

b. Did it suddenly speed up or slow down at any time? **Rose 100 feet slowly, lights went out**

c. Did it break up into parts or explode? **no**

d. Did it emit smoke? **no**

e. Did it leave any visible trail? **no**

f. Did it drop anything? **no**

g. Did it change brightness? **no, but lights flickered when it started moving**

h. Did it change shape? **no**

i. Did it change color? **no**

j. **Color - Dark**

11. Did you observe the object(s) through an optical instrument or other aid, windshield, window pane, storm window, screening, etc.? **In front of clouds.**

12. Were there any clouds? **???** If so, please give direction and speed.

13. Did you observe the object(s) through an optical instrument or other aid, windshield, window pane, storm window, screening, etc.? **Eyeglasses and over eyeglasses.**

14. Did you observe any sound? **Yes** What kind? **Like air being let out of toy balloon.** How loud? **very soft**

15. Did you observe the object(s) in any other way?

16. Describe the object(s) in detail. **Edges blurred hiding exact shape although a crude outline could be plainly seen like a cigar.**

*** **UFO hovered over N.E. Power Station, 24 Fort Ave., Salem, Mass.**

Unidentified?

Dull finish? - seemed a dull finish

Reflecting?

Transparent?

When assumed 45° position it rose about 100 feet, lights went out, disappeared from sight.

Apparent size of the object(s) when compared with the following held at arm's length:

a. Pinhead
b. Pea
c. Dime

d. Nickel
e. Half dollar
f. X Silver dollar

g. Orange
h. Grapefruit
i. Larger

Or, if easier, give apparent size in inches on a ruler held at arm's length.

How did you happen to notice the object(s)? Riding bicycle-saw lights and dark shape between lights-rode within 500 feet of station to investigate-moved off just as I drew near. It hovered 15 feet from stacks of plant.

Should the object(s) disappear from view? Into darkness when lights went out.

Compare the speed of the object(s) with a piston or jet aircraft at the same apparent altitude. ?????

Were there any conventional aircraft in the location at the time or immediately afterwards? If so, please elaborate. No

Please estimate the distance of the object(s). 1/4 mile 1st & then 500 feet.

What was the elevation of the object(s) in the sky? Please mark on this hemisphere sketch:

Number and addresses of other witnesses, if any. Investigator's notes-Coast Guard received several UFO reports which they referred to USAF-Names withheld.

Please draw a map of the locality of the observation showing North; your position; the direction from which the object(s) appeared and disappeared from view; the direction of its course over the area; roads, towns, villages, railroads, and other landmarks within a mile.

Is there an airport, military, governmental, or research installation in the area? U.S. Guard Station

Have you seen other objects of an unidentified nature? If so, please describe these observations, using a separate sheet of paper. Saw lights over Power Plant the previous evening-did not investigate.

Please enclose photographs, motion pictures, news clippings, notes of radio or television programs (include time, station and date, if possible) regarding this or similar observations, or any other background material. We will return the material to you.

Were you interrogated by Air Force investigators? by any other federal, state, county, or local officials? If so, please state the name and rank or title of the agent, his office, and details as to where and when the questioning took place.

Were you asked or told not to reveal or discuss the incident? If so, were any reasons or official orders mentioned? Please indicate carefully.

We would like permission to quote your name in connection with this report. This action will encourage other responsible citizens to report similar observations to the USAF. However, if you prefer, we will keep your name confidential. Please note that in checking the proper state to forward in any case, please fill in all parts of the form, for our own confidential files, and for your cooperation.

Very truly yours,

✓

Please keep my name confidential.

Southington, Connecticut
2 Oct 65

SAUCER LANDING IN CONNECTICUT: Just before press time, we learned of a sensational incident that occurred on the nights of October 2nd, 3rd, and 4th, in Southington, Conn. A local youth named Ronald Rubenstein saw a UFO low over his car on these three consecutive evenings. On one night it was hovering only 50 feet above him. He described it as being $2\frac{1}{2}$ car lengths in diameter, and $3\frac{1}{2}$ car lengths long. It had a "corrugated bottom," and numerous lights, including four "porthole type lights" on the dome. After several seconds it swooped away and landed on a high hill about a mile away.

A search of the hill by news reporters a few days later disclosed a charred area on a ridge overlooking the countryside.

Rubenstein took a picture on one of the occasions, but it shows only a white spot at some distance from the camera, against the night sky.

South America

4 October 65

Page

Throughout October, November, and December, dozens of UFO incidents continued to occur throughout South America, especially in Argentina. Among the most startling was an incident reported on October 4th, concerning three children who claimed they were almost abducted by small humanoid creatures while on their way to school. This occurred in Salta. A similar incident took place at about the same time in Santiago del Este, where a gigantic creature disappeared "enveloped in a cloud of dirt" before the eyes of several children who had gone to get water from a dam. In neither of these cases was a flying saucer seen, according to our information.

January 13, 1966

Mrs Hunt/sh/SAFOICC/72842/11 Jan 66

Dear Mr. [REDACTED]

I apologize for the delay in answering your letter regarding unidentified flying objects.

I am inclosing a copy of the report on Project Blue Book, the Air Force UFO project. This report contains information on our project since its origin in 1948.

Articles such as those published by you in the Napa Register on October 7 and 8 do much toward placing this unusual phenomenon in its proper perspective.

Our case files for 1965 were screened for sightings from the San Francisco area. Multiple reports were received from Hamilton Air Force Base. These reports originated from Walnut Creek, San Rafael, San Francisco, Pleasant Hill, and the surrounding area. They were evaluated as satellites and various observations of stars and planets.

Photographs of UFOs are submitted to the Air Force for evaluation only. The original negatives and prints are returned to the owners. Permission to use these prints and pictures must be obtained from the owners. As of this date, the objects in photographs which have been submitted to the Air Force for evaluation have been identified as known natural or convention objects such as aircraft, balloons, stars and planets, lens flares, emulsion flaws, light cracks in the camera, and reflections.

Thank you for your letter and for your interest in Air Force matters.

Sincerely,

1 Atch

Wash D C 20330

Reference the attached letter from [REDACTED] reporter for the [REDACTED]. The following is a suggested reply:

a. Dear Sir,

The enclosed fact sheet is provided as general information on the results of Project Blue Book. This brochure explains the success of our investigations since its inception in 1947.

Articles such as those published by you in the [REDACTED] on Oct 7 and Oct 8 do much toward placing this unusual phenomenon in its proper perspective. The case files for 1965 were screened for sightings from the San Francisco area. Multiple reports were received from Hamilton Air Force Base during the period 4 to 8 Aug 65. These reports were from Walnut Creek, San Rafael, San Francisco, Pleasant Hill and the surrounding area and were evaluated as a satellite and various observations of stars and planets. Mars, Arcturus, and Venus were the major astronomical objects observed.

Photographs of UFOs are submitted to the Air Force for evaluation only. The original negatives and prints are returned to the owners. Permission to use these prints and pictures must be obtained from the owners. As of this date, no photographs have been submitted to the Air Force which have not been identified as known or conventional objects such as aircraft, balloons, stars, etc. Also, evaluations include lens flares, emulsion flaws, light cracks in the camera, reflections, etc. Names of UFO witnesses are not released by the Air Force. However, if the name of a witness is released through other sources such as newspapers, books, or magazine articles, the name is regarded in the field of public domain and can be used in association with UFO reports.

YOU - THE NUCLEUS OF SECURITY!

Balloon, Or?

Oct. 8, 1965

Title: "The Saga of Flying Objects."

Scene: The office of a Napa Medical Group doctor on Lincoln Avenue. The time is 3 p.m. Wednesday.

Action: Dennis Roberts, 6, is about to leave the doctor's office with his grandmother when the physician rewards him for submitting to medical ministrations by handing the youngster a large balloon filled with gas—red on one end and white on the other.

Dennis walks out on the street, lets go of grandma's hand and lets go of the balloon.

Dennis: "Shucks."

Grandma: "Look, the atmosphere certainly makes the balloon way up there look weird. It's floating over Bel Aire and up toward Calistoga!"

Dennis: "Shucks."

Scene: Near a home in the Bel Aire section. The time about 3 p.m. Wednesday.

Action: Housewife and others see what they can hardly believe—a revolving flying object at about 3,000 feet headed for Calistoga. The oblong object was red on one end and white on the other end, and had no wings.

Some thought the flying object might have come from outer space because it made no sound, indicating it could be powered by magnetic force.

Scene: The Napa Register office Friday morning.

Action: Voice that does not wish to be identified reports Thursday between 3 and 3:30 p.m. saw an oblong object without wings, that made no noise, silver colored, and was red on one end.

Voice states the object coming south from Calistoga, veered over Las Amigas area then south in direction of Napa County Airport.

Problem: Was there any connection between the visit to the doctor's office and the sighting Wednesday? Did some other youngster go to the doctor yesterday? Or, are the incidents absolutely unrelated? No one seems to know for certain, but there are no other explanations at this time.

Thursday, October 7, 1965

Flying Object Seen In Area

A flying object "that had to be from outer space" was sighted over Napa about 3 p.m. yesterday a housewife and a television repairman who is also a pilot.

Weston Moser, owner of the Television Center, 1601 Lincoln Ave., was repairing a set at a home in the Bel Aire section of Napa when a woman called him outside to verify what she could hardly believe.

Moser said the silver object was traveling north toward Calistoga at about 3,000 feet. He estimated its speed at between 350 and 500 miles per hour. The wingless craft was roughly about 15 or 20 feet long and oblong in shape, he said.

The clincher in Moser's belief the unidentified flying object was from another planet was the fact that there was no sound.

"This means it must have been propelled by magnetic force," Moser reasoned. "It couldn't have been jet or gas powered, and we can't propel aircraft by magnetic force yet."

"It had to come from some place and it was not made here on earth," he concluded.

Moser did not think what he saw was a military craft. He did not see any lettering on the body of the object.

The woman, who got the first look at the UFO, said the saucer was revolving, and that one end was red and the other end white.

She reported the incident to The Napa Register and the police department, but asked that she not be identified.

FOR THE COMMANDER

Major H Quintanilla is the project officer of Project Blue Book. Should you desire further information on this subject, please contact: Hq USAF SAFOIC, Wash D C 20330.

NAPA, CALIFORNIA

Air Technical Center
Wright Patterson Air Force Base
Wright Patterson Air Force Base, Ohio

Dear Sirs:

There have been some unidentified flying objects sighted by residents in the Napa County, California area. The office would like to know if there have been previous sightings in the San Francisco Bay area or Napa County area in the past few years.

We have notified Hamilton Air Force Base, Marin County and officials there have referred us to your office for further details.

Also, any information that would be forwarded to our office that would enlighten the general public as to how to report such sightings, what to look for, etc., would be of help. Any formal reports from this area that could be sent would be appreciated. Also, if your office has any photos that could be used would aid in an article for the paper.

Enclosed are some clippings from the paper, The [REDACTED] on the sightings. Any comment referring to the clippings would help us in reporting such events accurately.

Thank you,
[REDACTED]

Friday, Oct. 5, 1967

The Sky Is Full of Mysteries

Gary Gillis, Daily Breeze photographer, didn't see the object until he printed the photo, but there it was just above the heads of two girls in a routine pic-

ture. The bottom photo is a blown-up section of the sky showing the strange object. Is it a flying saucer?

UFO Crossing South Bay Skies?

set west Spain? deep tie as eve?

Routine Photo, Then...

A Bright Spot Appears

"I was developing these negatives from a shooting assignment in Lomita," Breeze photographer Gary Gillis said, "and it showed up on the negatives."

"What showed up?"

"At the risk of sounding foolish, it looks kind of saucer-shaped."

Whatever Gillis picked up in the picture is shown above, for you to decide for yourself.

The photographer said he saw nothing

while shooting the pictures, and that to his knowledge no fluke in the developing process would leave the above image.

The picture was shot with a twin lens reflex camera at 1/250th of a second at f/16.

Is it a bird, a plane, or . . .

We don't know.

Oh, by the way, the girls are (from left) Trina Sagers, Toni Gray, Evelyn Rodriguez, Toni Villani and Carol Weston. All are contestants in the Miss Lomita-Harbor City Beauty Pageant.

FLYING SAUCER INVESTIGATING COMMITTEE

Regular Meeting ---First Friday of each Month --- 8:30 P.M.

November 5, 1965 --- Central Y.M.C.A. on Center & Bowery Streets - Akron, O.

SIGHTINGS

Several sightings have been reported to F S I C during the month of October. Information is continuing to come in relation to the summer sightings, and the reports have continued into the fall months.

N.I.C.A.P. Investigators in the Pittsburgh, Pa., area have completed an investigation of a photograph of a U.F.O. taken in Beaver County, Pa., on August 8th. It's a night photo; it shows a disc-like object with a tapering trail which extends down toward the trees over which it maneuvered. The trail was not visible to the witnesses. The picture was declared genuine by three professional photographers. The picture was taken from an estimated one-fourth-mile.....

DAYLIGHT

Locally, a daylight sighting was made by two employees of Columbia Chemical of Pittsburgh Plate Glass Co, in Barberton, O. (16th St.)

The time was 1045 AM. on Friday, the 30th of October, 1965. The day was clear and mild. Gerald Lucart and Ernest Krasovic were working outdoors in the yard. They stopped to admire a high-flying jet that was trailing a long vapor trail.

A few moments later, as they crossed a part of the field, Lucart pointed to a place considerably lower than the jet-trail and asked Krasovic what it was he was seeing. Krasovic didn't see it immediately but then both men were observing a clearly outlined, very shiny bright, chrome-like ball. It came out of the north and approached until it took a stationary position at an elevation of 20 degrees. It remained in that position for from 11 to 15 seconds. It then changed shape and became a long narrow cigar-like object tapering from its middle to the rounded ends of the object. Suddenly after the elapsed time aforementioned, it accelerated away in a matter of from 4 to 6 seconds!! Lucart tried to alert welders some yards away but was apparently unsuccessful. It disappeared into the N.E.-losing none of it's elevation in relation to the horizon. Around 11:30 A.M. both men related that the sky was full of vapor trails made by criss-crossing planes in the same area the object had been in. This was also verified by other alert watchers in the Akron area. This lasted until 3:00 P.M. Both men declared that a camera would have recorded a picture. An estimate at altitude by Lucart was, 8,000 feet. Krasovic estimated its distance at 8 to 10 miles.

The object's intense brilliance did not change during the shape-changing maneuver. Both men were at a loss to explain its stationary position, its meteoric speed, its lack of aerodynamic features, and its extreme reflectivity or luminosity. No sound, trail etc was noted. No details marred its smooth surface.

On August 11, 1965 at 6:50 P.M. Gary Tolz reported seeing a clearly outlined round object he could not identify. It had a dull silver color. It came from the area of the sun and took only 8 seconds to move from an elevation of 30 degrees to a position almost overhead. He was driving on East Ave. near Battles Ave. Its path was generally S.W. to N.E....

On July 18, 1965, at 2:00 P.M., Joseph Bralok was driving N. on Brown St. near Cole & Lovers Lane. The day was clear and cool with a few clouds. Through his windshield he saw silvery, round object. Its size was "like a dime in the sky", said Bralok. He stopped his car, got out, but there was nothing there to see, not even an airplane.

Cleveland, O. -- Oct. 9, 1965 -- (1) 8:40 P.M. -- Round disc with rotating lights on edge -- seen under cloud layer-drizzle (2) 10:00 P.M. -- triangular shape -- 42 tel. calls --

Get that witness (Oct 4/29)
Fixed yet?

FLYING SAUCER REVIEW
Jan-Feb 66

9 Oct 65
Tours, France

FRANCE Looping UFO

Le Maine Libre of October 11, 1965 carried the following account: "Shortly before mid-day on Saturday (October 9), a machine in the shape of a plate was seen in the sky over Tours (Indre et Loire) by four persons.

"One of the witnesses explained that as he was leaving his office, he had seen the object in the sky, and had immediately called three of his colleagues who, like himself, watched it manoeuvre.

"It is impossible to say how surprised we were, for never for a solitary instant did we think there was any question of its being an aircraft," he explained. "We were unable to see more than a point in the sky, for it was at a great height. The flying saucer executed several loops, and we saw that one side was silvery and the other side black. Then, at a dizzy speed, the machine made off towards the north."

(Trans. C.B.)

(Credit: Mme S. Saunier)

MEMO FOR THE RECORD

UFO SIGHTING

Empire AFB, Michigan

UFO Sighting 12:30 Sun. morning, Oct 10...Steady white glow moving South to East (4 or 5 min)...Appeared to be 20,000 ft. up....Stopped 3 to 4 min., started and flowed in same path. Sgt. Moody explained that it appears to be an air craft. However, Empire should send a complete report.
(Also, sky was cloudy)

Information Only

Source: Saucer News, Vol 13, #1, Mar 66

Berlin, Connecticut
12 October 1965

On October 12th several Connecticut newspapers published a UFO photo taken at about 2:45 p.m. the previous day by a Berlin, Connecticut boy named Roger Labas. The boy was doing schoolwork when he heard a humming sound which later increased in intensity and became a high pitch. After spotting the strange-looking object, he rushed indoors again for his camera, and took a fairly clear picture before the whirling craft climbed rapidly upwards into the sky and disappeared. The boy said that he saw things on it that looked like periscopes, and that it was traveling about 700 miles per hour.....

14 OCT 65
NORTH FIELD,
MIAMI

Hi —

A bunch of us say the strangest thing last night. We've been trying to figure out if we should call the Air Force or Fort Snodgrass or just keep it to ourselves. Help!

Sue and Dave and I had just left Goodhue after dinner at about a quarter of six. We crossed the bridge and were on the south side of the lake admiring the bright star-like thing they've been seeing, which the astro prof says is Venus.

We turned left (to the SE) to take the road up to Hoursey where we saw this thing at about 5:50 pm. It was right next to Evans (well, actually it would be back a ways) even with the third floor — about 20° up from the horizon.

At first it was very faintly blinking about 3 red lights—very sharp and irregular. As we watched, the lights got much larger and brighter and more of them—was the thing coming toward us possibly? If it was, it was probably coming sideways, what we saw later makes us think. The lights were mainly red and white, the Sue and I saw 2 or 3 green flashes right at first. Dave didn't, but he seems to have a slight green color blindness.

The lights all the time we watched it were never like plane lights. Plane lights are soft and fuzzy, sort of, and you can usually pick out the 3 or 4 lights. These lights were very bright and glaring, sort of like X instead of O, which plane lights do, and had almost the intensity of burning magnesium. The flashed in all different places on this thing in all sorts of combinations and very irregularly and very rapidly.

Then the thing headed north until it was over the arb or the farms behind the arb. Then it seemed to turn and move almost straight west. After it got partway to Goodhue, it seemed to drop lower and start moving faster.

At the time when it turned west, we began to see a dart shape behind the lights. When it appeared to drop in altitude and speed up, we saw the shape definitely. It was cigar-shaped—a variety of different shapes would have looked like that at that angle—and looked black against the twilight sky.

It was flying just above the treetops. Just before it came to a taller tree, the main blinking lights seemed to be on the back. When it came from behind the tree, most of the flashing lights were around the front end. Its shape was even more definite at that point.

Then we picked up a lighted strip running along the length of the craft. This was a soft, reddish-orange light and didn't flash. When we saw this strip of light, the flashing lights started flashing all over the thing, making it hard to watch. The 3 of us have slightly different impressions of this strip of light - portholes? -- because of differing eyesight. I saw [redacted] -- I'm not sure about the right side (hind end) because there were too many flashing lights. I saw [redacted], and Sue saw [redacted] -- the left side. I saw [redacted] too.

...dropping lower as it moved west. Finally, it
...of the Brighton water tower at the second crossing - about
...horizon (a hill and trees) -, disappeared behind 2 tall
...and never came from behind them. This happened at about
... (our watches, of course, didn't agree), so the whole
...about 7 or 8 minutes.

There was no sound at all during any of this, and it was the kind of night when any noise would have carried perfectly. No plane sound or jet sound or anything. We never saw any wings either.

During its last couple minutes around the water tower it seemed a bit smaller than a jet does at a half mile and was moving about the speed a jet a half mile away moves as it's coming in for a landing (as I remember driving past O'Hare). Dave's roommate suggested that maybe it was 1 to 3 miles away coming in for a landing at the Minneapolis International Airport. But no ordinary plane would show up that large at that distance. Either this thing was big and within a mile or so of us or it was something unbelievably huge. We phoned the Northfield Airport north of town, and they said the last plane in the area had landed at 5:30 - 20 minutes before we saw this thing in the east. As far as we can determine from topographic maps, the area where this thing disappeared is too hilly and full of river to contain a private airstrip.

Dave has been in the Ground Observer Corps, and he says he's never seen a plane or plane lights that looked and acted like this.

I suppose another possibility might be that it's a weather balloon or something of that sort, maybe belonging to that place north of Fortfield that produced Echo. But do weather balloons have lots of flashing lights and something like portholes?

Watching the thing with us were 2 fresh girls. Unfortunately, they were so scared that their reports of the thing are completely off. For instance, they claim that the thing took 20 minutes to disappear into the sky and that it hovered over the lakes for 5 minutes. We aren't sure exactly how long we watched the thing, but I do know that it was under 10 minutes. We're afraid to report

this thing because the great discrepancies between the stories of 2 panic-stricken freshmen and the 3 of us, who stayed remarkably calm and took notes as soon as we got ahold of paper, will probably cause the whole thing to be discredited.

But we did see something, and it's something that none of us has ever seen before.

There were about 10 other people who saw the thing, but only these 2 girls stayed around for the whole show and left us their names. Everyone else glanced at it, said "how unusual" and went to dinner.

We called the Northfield airport; the phone operator tried to get us through to the Minneapolis airport but couldn't -- we're going to try them again today to see if they have flight plans for anything going over this area. We called the local civil defense people, but if they were interested, they sure didn't show it; I guess they have to prevent panic. We may contact Fort Snelling if the Cities airport says no plane was around here. Sue has written to her dad to see if he has any contacts that might be useful to us.

After the thing disappeared behind the trees, the 3 of us ran up the hill behind Goodhue and to the college farm and watertower. When we got to the top right in the area where the thing disappeared, we saw a huge dark shape with lights in a field behind some bushes. Panic! Oy! We bravely crept up on it and found -- a tractor and combine. Relief! But the combine and tractor weren't what we saw flying across the sky. We walked quite a ways down the highway looking for the thing or a landing strip, but no luck, so we went back to the campus and started making phone calls.

Tonight we're going to be out there with camera and binocs for a long time in hopes (??) that it will come again. I think we're all so scared that we'd prefer it doesn't come again, but in the interests of science...

Sunday Dave and I saw 3 unusual things. Two of them were bright white, blinked while moving across the sky, then disappeared in midair. The third was bright white, moved halfway up into the sky, then just stood still there for as long as we were out. More excitement!

Other than being very shook, we're all fine. Alice is due to come tonight. Could you please send a photocopy of this letter to me? And do you think we should notify someone? Who? I've got to run to class now. Don't worry about us -- we'll be careful chasing these things -- we'll carry our water pistols!

Much love, Carol

Department of Defense; Air Force
Washington, D. C.

Gentlemen:

What is the truth about unidentified flying objects? Are they interplanetary, intergalactic? Also is it true that two space vehicles were found, geometrically perfect and enclosed in them were men?

I, myself, and a friend have spotted three that are not from this planet. We are certain of this because we observed them through the help of my 175X refractor telescope.

Yesterday, October 15, a shiny object was spotted moving slowly, straight, . Also previously, at night, moving slowly across the sky: ~~stars~~ ^{bright} lights.

Thank-you.

Observer, Amateur Astronomer,
[REDACTED]

SUBJECT: UFO Report - 2 October 1965 - Salem, Massachusetts
DATE: 26 October 1965
FROM: Raymond E. Fowler
Chairman: NICAP Massachusetts Investigating Subcommittee
TO: NICAP
Washington, D.C. - Attention: Richard Hall
CC: PROJECT BLUEBOOK

The attached is a UFO Report concerning a sighting of a cigar-shaped UFO hovering over the New England Power Plant in Salem, Massachusetts by James Centorino on October 2, 1965 at 8:20 PM EDT. The U.S. Coast Guard received reports from other people in the area concerning a UFO but refused to give out their names and addresses. An addendum will follow if other witnesses are identified and are willing to report to NICAP.

Respectfully submitted,

Raymond E. Fowler

UFO SUMMARY SHEET

UFO REPORT - 10/2/65

WITNESSES:

[REDACTED] (Age 16)
 Salem, Massachusetts
 Junior Year, St. John's Prep.
 Danvers, Massachusetts
 (Father - Professor, Metacology)
 (Salem State Teacher's College)

Many unknown witnesses
 Input-U.S. Coast Guard,
 Salem, Massachusetts

PLACES:

1. [REDACTED] Salem, Massachusetts
2. Corner Columbus and Fore Avenues

TIME:

8:20 PM EDT

BACKGROUND:

The Salem Evening News carried the story of this UFO Sighting and mistakenly stated that Professor Centorino was the witness.

SEENING ACCOUNT:

James was riding up [REDACTED] Avenue to his home when he noticed the bright white lights over the three chimneys of the N.E. Power Station, [REDACTED] Avenue in Salem, Massachusetts. Each chimney had two lights on top but the white lights puzzled him as they were above the chimneys. He thought he could see a dark shape passing that so he bicycled up the street for a closer look. He stopped across the street from the power plant which sets several hundred feet behind fencing. There, hovering over the chimneys was a dark cigar shaped object having a slight hump toward the rear and carrying a bright white light on each end.

SIGHTING DATA:

Diagram illustrating the sighting data:

3 smoke stacks on Power Station. Each stack has two red lights.

Note: U.S. Coast Guard has perfect view of this Power Station but said they knew of no one at the station who observed the UFO.

James was riding there on an unlit street. There were a few clouds in the sky. James had no idea what time it was. The moon was at first quarter and set at 11:00 PM. The object was a cigar shape of a silver dollar held to width length. Its apparent size agreed exactly with the previous sightings James had given us before he went to the spot where he saw it. The object was 1/2 mile away from him. The apparent size of 2 1/2 chimneys was about 100 ft. When 10:00 AM, the object was
