I was walking on gravel when I saw it, so did Tracy. Then we saw a military plane fly north under it. It seemed like a star when it changed into a silver ball. The private plane went under it coming from the north. It disappeared over the skyline leaving only a long vapor trail. After I turned my head away from it for a moment, I could find no sign of its vapor trail.

Dear Sir:

On January 4, 1966 at 5:05 P.M.
~~I (Saw)~~ a star-like object with a long report trail.
As it flew over me it began to look more
like a shiny sphere. Two pieces flew
under it. It went faster than a jet and
gave off no sound. I ~~then~~ turned my
head around for a second and when
I look back the report trail was gone.
You may ask any other questions concerning
the UFO.

Very truly yours,
