

PROJECT 10073 RECORD

1. DATE - TIME GROUP 21 January 65 22/0700Z	2. LOCATION Big Sur Hot Springs, California
3. SOURCE Civilian	10. CONCLUSION ALCRAFT <i>Pro A/C</i>
4. NUMBER OF OBJECTS Two	No data presented to indicate object could NOT have been an A/C.
5. LENGTH OF OBSERVATION 4 - 5 Minutes	11. BRIEF SUMMARY AND ANALYSIS The main object appeared as a bright light about the size of a softball. Its color was bluish white and was moving slowly across the sky parallel to the horizon. The secondary object was red in color, moved at the same speed as the main object and seemed to be following it. Observer stated that it looked like a tail light on a small plane but the two objects did not appear to be connected. Observer estimated the speed of the objects to be about 60 mph.
6. TYPE OF OBSERVATION Ground-Visual	
7. COURSE Northerly	
8. PHOTOS ☐ Yes ☒ No	
9. PHYSICAL EVIDENCE ☐ Yes ☒ No
