

PROJECT 10073 RECORD

1. DATE - TIME GROUP 16 February 66 16/2330Z	2. LOCATION Brunswick Naval Air Station, Maine
3. SOURCE Civilian & Military	10. CONCLUSION 1. Astro (JUPITER) 2. INSUFFICIENT DATA
4. NUMBER OF OBJECTS Two	
5. LENGTH OF OBSERVATION 3 1/2 Hours	11. BRIEF SUMMARY AND ANALYSIS Object was described as being 15 ft thick with red, blue, and green lights around the edges which flashed erratically. The objects seemed to hover for periods then make quick starts and stops. A second object which was not mentioned in the initial report, was reported on the follow-up 164 to circle the first object three times then seemed to land.
6. TYPE OF OBSERVATION Ground-Visual	
7. COURSE Hovering, quick starts	
8. PHOTOS ☐ Yes ☒ No	The description of the first object is with no doubt a star/planet sighting. Jupiter (RA 5.21) is at 250 deg azimuth and 60 deg elevation at 2030L, and at 2050L at 2050L. Stellar mag -2.0. Therefore it is of my opinion that the observer was evidently confused in direction and was looking to the East rather than the East. The second object was probably an A/C. However the data is Insufficient to make an evaluation as such.
9. PHYSICAL EVIDENCE ☐ Yes ☒ No	(2 Witnesses)

14. Did the object disappear while you were watching it? If so, how? Yes - disappeared into trees + bushes when it landed. It appeared as a big salmon (light) color then dimmed to a smaller light. Then at approx. 11:30, it disappeared completely.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

No

Don't Know.

IF you answered YES, then tell what

it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

No

Don't Know.

IF you answered YES, then tell what

in front of: _____

17. Tell in a few words the following things about the object:

a. Sound 2nd UFO - smooth power sound

b. Color grayish metal - #

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

Object would have covered match head at least ten times.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

particular

20. Do you think you can estimate the speed of the object?

(Circle One)

☒ Yes

No

IF you answered YES, then what speed would you estimate?

When the second UFO was circling around the 1st UFO, a plane was flying to the air base. The UFO was traveling about 5 times the speed of the plane.

21. Do you think you can estimate how far away from you the object was?

(Circle One)

☒ Yes

No

IF you answered YES, then how far away would you say it was?

1st UFO landed approx. 3 miles from my car. 2nd UFO landed approx. 1 to 1 1/2 miles

22. Where were you located when you saw the object?

(Circle One):

a. Inside a building

☒ b. In a car ~~then we went~~

☒ c. Outdoors

d. In an airplane (type)

e. At sea

f. Other _____

23. Were you (Circle One)

a. In the business section of a city?

b. In the residential section of a city?

☒ c. In open countryside?

☒ d. Near an airfield?

e. Flying over a city?

f. Flying over open country?

g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North

c. East

e. South

g. West

b. Northeast

d. Southeast

f. Southwest

h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

Yes

No

25. Did you observe the object through any of the following?

a. Eyeglasses

Yes

☒ No

e. Binoculars

Yes

No

b. Sun glasses

Yes

☒ No

f. Telescope

Yes

No

c. Windshield

☒ Yes

h. Other

part of the time - we stayed outside for a while

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

A perhaps common object that gives about a same appearance as the 1st UFO while it ~~was~~ landed - looking ~~to~~ in a rear view mirror and seeing new ~~street~~ light.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you last saw it. Place an "A" on the compass when you first saw it. Place a "B" on the compass where you last saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

2nd seemed to flicker on & off. Impossible to see it clearly - many bushes & trees in area, but when we moved car - saw it very clearly. Something went off completely.

29. IF there was MORE THAN ONE object, then how many were there? 2

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

about 1/2 hr. afterward, the 2nd UFO returned & circled several times approximately 3 times

car

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

Auburn, Maine

During the 1st week of Sept., an object which seemed brighter than a star appeared - it moved at a tremendous speed. it was very very high - seemed to be four colors, but the speedy movement blended colors together.

31. Was anyone else with you at the time you saw the object? (Circle One)

Yes

No

31.1 IF you answered YES, did they see the object too? (Circle One)

Yes

No

31.2 Please list their names and addresses:

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

Brief summary which might be clearer:

Spotted UFO & succeeded in following it to landing point, approximately 3 miles away. When object landed, light colors had changed from red, blue & green to light-salmon color. It was a fixed light, did not flicker. UFO seemed to ~~fluctuate~~ move every 10 or 15 minutes & seemed to follow the pattern (example 28). After approximately 30 to 45 minutes, the 2nd UFO left the landing point & we did not see where it went ~~but~~ ^{only} ~~it~~ ^{it} moved in an easterly direction and then faded. About 30 minutes later, ~~the~~ 2nd or a 3rd UFO appeared from a south-easterly direction and circled the area. It came very close to ground (this is when I saw the shape of object). It then landed about 1 to 1 1/2 miles between the car & the 1st UFO. It was impossible to see the 2nd UFO because it was ^{surrounded} in thick trees. About every 10 minutes, object would flicker & then go off - color seemed white. A short while after (am not sure of time) the light of the 1st UFO went off completely. Friend & myself ^{decided} to leave, about 20 minutes later we returned & parked the car about 1/2 mile farther than we were. We stopped at that particular spot because ~~we~~ ^{we} saw a large light-salmon colored light & we assumed it was the 2nd UFO. We stayed there ~~about~~ ^{until} 5 minutes - it went off - about 5 minutes.
