| 5. LENGTH OF OBSERVATION<br>10 Minutes                                                         | 11. BRIEF SUMMARY AND ANALYSIS<br>Looked like a star, size of a pinhead, white color, seemed to be hovering over the ocean. Visible for ten minutes then just disappeared.<br>Recent sightings in the area could have prompted this report, Probably a star which disappeared behind a cloud. Clouds were high and thinly scattered over that area. |
| 6. TYPE OF OBSERVATION<br>Ground-Visual                                                        | <i>No follow up —</i><br><br><i>164 ?</i>                                                                                                                                                                                                                                                                                                           |
