

PROJECT 10073 RECORD

1. DATE - TIME GROUP 6 April 66 07/0407Z	2. LOCATION Wauwatosa, Wisconsin (1 Witness)
3. SOURCE Civilian	10. CONCLUSION Astro (METEOR) ✓ <i>fold</i>
4. NUMBER OF OBJECTS One	
5. LENGTH OF OBSERVATION 3 - 5 Seconds	11. BRIEF SUMMARY AND ANALYSIS Object appeared as a bright light about -2 or -3 magnitude. Appeared to be larger than Venus or Jupiter. The color of the object was a steady white. Estimated speed at mach 2 or 3. Object moved from Zenith to horizon in 3-5 seconds. No sound, trail, tail or exhaust was reported.
6. TYPE OF OBSERVATION Ground-Visual	
7. COURSE Zenith to 340-350 Deg	
8. PHOTOS ☐ Yes ☒ No	
9. PHYSICAL EVIDENCE ☐ Yes ☒ No	

U.F.O. REPORT

NAME: [REDACTED]
Address: [REDACTED]
Telephone: [REDACTED]
AGE: 21
JOB: Student
Education: - 8 years elementary education
- 4 years High School
- Presently working toward degree in meteorology and/or secondary education

ADDITIONAL

INFORMATION: I Have been a co-op weather observer for Milwaukee Weather Bureau since June of 1958. I have become quite accurate in estimation of cloud heights from visual observation.

R E P O R T

Date: Wednesday April 6 1966
Time: 0407Z. 2207C.
Location: 65th and Lloyd Street.

Type of Object: Bright light, Magnitude about -2 or -3.
Size unknown as well as shape due to distance and height but appeared to be approximately or slightly larger than the planet Jupiter or Venus.

COLOR AND APPEARANCE: Steady white - No additional colors, marks, or identifiable criterion.

SPEED: Estimated speed Mach 2 or 3. This is based on computations taking the figure of 2 1/2 miles visible from horizon to Zenith Point. Object moved from Zenith to Horizon in a period of 3 to 5 seconds. *NO NOISE FROM OBJECT - NO SONIC CRASH.*

COURSE: This was a straight line course with no apparent vacillations. Course heading from Zenith to 340° or 350°.

Height: The height of this object was estimated to be 4,000 to 6,000 feet M.S.L. Any possible major error in this height was discounted due to an Alto-cumulus layer (Overcast) at 6,000' to 8,000' M.S.L.

REPORTED WEATHER: MILWAUKEE GENERAL MITCHEL FIELD

300
200 DE 60 @ 15+

MILWAUKEE TIMMERMAN FIELD

300 DE 60 @ 15+

WAUWATOSA (65TH AND WEST NORTH AVE.) 300 DE 70 @ 15+
