35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

If some body could come to my home I could explain it a lot better. & let me know when they are coming.

When I first seen the Object Object it was about 15 or 20 ft. off the ground. I could see under it there were no wheels no wings or tail only the red light on top. The funny thing about it there was a car coming around a curve down the road from where I live. The red light went off after the car went through - the red light came on there were no markings on the Object
