Gentle men:

Last week about
5 A.M. I was putting up my
shade & the house over looked
N. Y. Bay out toward the Atlantic
Ocean. Our house is high.
Out over the Atlantic Ocean.
I saw the same object
described on page 72 in May's
Reader's Digest. About a huge
object a circle of brilliant
pulsating red lights but I
didn't see it side ways I
was looking thru the circle.
It stayed in one spot about
two minutes then drifted
out to sea slowly. It looked
like a blinker light only
it was a circle of red lights
send (164)

2

I didn't tell any one until I
read the item in Reader's
Digest + the picture. The ring
of lights wasn't exactly round
But a plane doesn't stand
still + then go a few miles
+ stop again like this did.

I would say it was east
of Atlantic City over the ocean.
I was looking south east
from Staten Island N.Y.

Sincerely

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

I got up one morning about 4:30 AM. I always get up early & my bedroom is in the attic & when I raised my shade toward the southeast I saw this round pulsating circle of lights. I watched it for about 4 or 5 mins. I would have forgotten about it, if I hadn't read the same story in Reader's Digest "May". The object was too high to be on the beach & it was not a plane, I've seen too many. It was stationary then it moved south & floated south east. It was still moving when I left the window. & the pulsating lights never stopped. J. Kohn
