①

Dear Sirs,

I am writing this letter more or less as a report on 2 unidentified flying objects, seen by my wife, & accompanying incidents witnessed by myself. I hesitate to report this to local authority, on insistence by my wife for fear of ridicule, harassment etc. as usually accompanies such reports. My wife was so taken aback by this, I spent nearly the entire night trying to calm her nerves. She describes the 2 objects as, very beautiful, weird, as I write this letter, she says the experience was as though she were witnessing the civilization of another world in action. Please bear in mind, this is not another "suck pot" or "hallucination" report, but rather

②

one of a very serious nature. Ridiculous or not, I feel it my duty to report this incident so someone of proper authority can weigh its value. Following is a description of our experience, close in detail as we can gather. My wife & I were fishing on a quiet, calm evening on Potato Lake, 12 miles east of Spruce Meadows one He was 70. It was still light enough to plainly see any aircraft or "fly" in sky, & yet just dark enough to see brighter stars & any light in sky. The lake began to act up, much like the gently rocking of a fish bowl then shortly after my wife noticed 2 circular, distinct, brightly lighted revolving, objects, with bright orange light in superstructure & revolving lights on main body, no sound what ~~ever~~ ^{soever}. Low in sky

(3)

one directly behind & above the lead object. My wife watched in astonishment & then called my attention, but I wasn't in time to see objects nor did I hear any sound. I more or less passed it off as a meteorite until she began to describe "Vehicles".

Her description: 2 disk like, whirling brightly lighted, definite outline of superstructure, Beautifully, orange light in upper section, lights on main section revolving with main body. Definitely not an airplane, helicopter or conventional aircraft but something unbelievably constructed & controlled. This was followed by very bright satellite object crossing horizon shortly afterwards. This obj or satellite was apparently very high taking 30 minutes or so to cross

(4)

Loizon.

Accompanying letter is much
the same information, but written
down immediately after incident
to better preserve details.

It is my very sincere & honest
opinion that this ~~case~~ incident
warrants attention, & utmost
consideration should be given
this report.

Sincerely

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

This is an honest + true picture of 2 vehicles, solid + rotating slowly, moving slowly in a uniform line, one behind + a little above the other, definite outline of 2 discs with superstructures + square windows, approx. 4 all rotating together a bright orange glow from within square windows, a row of "sparkle" like lights across lower body, rotating in a line with body as if stationary, not appearing as a reflection nothing noticeable on outer ring of objects. Definite squares on a brownish like lower body, giving the impression of a "turtle shell" or "checkerboard". No sound noticeable. Definitely not aircraft or helicopter. This is an exceptionally good sighting, that can only be defined as very weird, ~~un~~explainable. Weather balloons, reflections, clouds, gass etc must be ruled out in this case. This was just at dusk, just light enough to see all features + yet dark enough to see "lights" + "sparkles". Bottoms of objects not visible to observer.

Upper part - light orange
