BRIEF SUMMARY AND ANALYSIS<br>Observer noted object that resembled a satellite such as Echo, however the performance was not that of an orbital path. Object was in an oblique pacing movement with three aircraft flying in formation in a N.E. direction. Object was silvery and red in color being exceptionally bright. Since Echo I was in the area 20 minutes earlier and witness said object was observed at about 0140Z it is quite possible the witness was observing Echo I. |
