PN2 Curtis Breuold, calling for O.D. Lt. Carter, called from Willow Grove NAS, Penn. to report a UFO reported to him.

I informed him that standard procedures for air bases reporting existed, but that I was not sure that this applied to a NAS as these procedures were covered in an Air Force Reg. So the following data was submitted by him.

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

The object looked like the red light on an airplane. No noise, or other lights or outline of a plane was seen.

If it was a plane, it was very high for a plane. My guess to the height is well over 2000 feet but I have no facts as to height.

As a habit, I watch for echo I & II. I saw a star that I thought looked like it was moving. It was not, the object was moving and made the star to appear to move.

Would I be informed of what the "decision" on what it was, is?
