The history of Glacier National Park is a story of discovery and preservation. Blackfoot Indians who lived here for centuries saw the mountains and the lake as a sacred place. In 1895, the park was established as a national monument. It was later redesignated as a national park in 1910. The park is named after the Flathead River, which flows through the park. The park is a beautiful area with many scenic views and recreational opportunities. It is a great place to visit for anyone who enjoys nature and outdoor activities.

Three of the five entrances and oldest of all the national parks in Montana. (1) the north entrance at the town of Glacier, which is reached by the scenic highway which climbs via a series of switchbacks to the top of the mountain. (2) the west entrance at the town of West Yellowstone, which is reached by the scenic highway which follows the Yellowstone River and the world-famous fishing and the world-famous fishing. (3) the south entrance at the town of Gardiner, which is reached by the scenic highway which follows the Yellowstone River and the world-famous fishing.

The history of Glacier National Park is a story of rugged mountains, scenic lakes, and a rich natural heritage. The park, lying in a rugged mountain range, is named not for the rugged mountains, but because of the huge ice age glaciers that once covered the area. The park is a treasure trove of natural wonders, including the world-famous Going to the Sun Road, which is one of the most scenic drives in the world. The park is also home to many rare and endangered species, including the bighorn sheep, the mountain goat, and the grizzly bear.

The BIG

NOW

Glacier NATIONAL PARK

above photo . . . Many Glacier Hotel by Marion Lacy

The history of Glacier National Park begins with the Blackfeet Indians who lived under the spell of the majestic mountains. Regarding the mountain vastness with awe they entered this abode of spirits only to fast or to cross to the Flathead country.

The park, lying in a rugged section of the Montana Rockies, is named not from the 60-odd glaciers of today, but because huge Ice Age glaciers carved the rugged scenery of what is now Glacier National Park. Here two hundred glacial lakes stud the valleys or are set like jewels in rocky cirques. Streams of crystal clear water

offer good fishing . . . and no fishing license. Fields of brilliant mountain wildflowers, cascades, falls, sheer cliffs, dense forests, inquisitive marmots and proud mountain goats make a panorama.

Going-to-the-Sun Road, a spectacular highway running east and west through the park, crosses the Continental Divide at Logan Pass and towers Garden Wall. Much of the park is accessible by auto and more than a thousand miles of trails lead into untouched wilderness or to isolated resorts. Some of the glaciers are visible from the road; others are easily accessible on foot or horseback. Horses are available; riding experience not necessary.

Warm sunny days and cool starry nights throughout the summer. Early season visitors enjoy the most glorious and mountainous scenery. In the fall, deciduous trees play brilliant colors, highest peaks glisten with white dusting of snow and skies deepen to blue.

Going-to-the-Sun Road, open about June 10, remains open well into October. Accommodations are conveniently located at the park fringes. Accommodations in the park are available from about June 10 to September 15.

This million acre alpine wonderland was established by Congress as a national park on May 11, 1910. The United States section of Watkins International Peace Park.

Yellowstone NATIONAL PARK

Three of the five entrances to Yellowstone, the largest and oldest of all the national parks, are in Montana: (1) the north entrance at Gardiner is reached by the historic Yellowstone River route through beautiful Paradise Valley and Yankee Jim Canyon. (2) the northeast entrance is reached by the spectacular Beartooth Highway which climbs via a series of amazing switchbacks to nearly 11,000 feet in Montana's rugged Beartooth Mountains. (3) West Yellowstone, Montana, gives entrance to Yellowstone National Park on the west . . . reached by two scenic highways along the picturesque Gallatin River and the world-famed Madison River . . . the trout fisherman's paradise . . . the river which feeds earthquake-created Quake Lake.

Yellowstone National Park was first discovered by a frontiersman, John Colter, in the winter of 1807-1808, but his friends refused to believe the tales of the fantastic land he had seen. Twenty years later, Jim Bridger, a rugged Montana trapper and scout, gave similar descriptions of the area, and eventually explored the Yellowstone country extensively.

Often termed "nature's wonderland", Yellowstone is renowned for spouting geysers, brilliant pools, bubbling mud caldrons, mountains, canyons, streams and lakes,

forest and waterfalls . . . 2,221,000 acres. Park wildlife includes buffalo, moose, elk, Big Horn sheep and—favorite of all—black bear. Fishing is excellent in the park and NO fishing license is required.

Congress established Yellowstone National Park March 1, 1872, after the Washburn-Denig Survey headed by H.D. Washburn, Surveyor-General.

Accommodations are available all year at the park entrances and from about May 1 to October 15.

The Treasure State

Montana, for centuries the home of Indians and buffalo, was first seen by white men—the Verendryes, French fur-traders—in 1743.

In 1805-1806, Lewis and Clark explored the area, then part of the Louisiana Territory.

In 1807 Manuel Lisa, a fur-trader, built Montana's first trading post.

The first permanent white settlement was St. Mary's Mission at Stevensville, founded in 1841 . . . still standing today.

In 1862 a rich gold strike at Bannack brought a rush of prospectors. With gold discoveries at Virginia City and Helena, thousands more followed. Outlaws flourished in the surging gold camps until the Vigilantes organized and dispensed justice.

The great cowboy era began in 1866 when the first herd of longhorn cattle was trailed in from Texas.

The growing intrusion of white men into the Indians' homeland, the disappearance of buffalo and failure of white men to keep their treaties, brought the Indian wars of the '60's and '70's. Custer's Last Stand occurred in 1876. A year later the major battles ended with Chief Joseph's surrender at the Battle of the Bear's Paw.

The fourth largest state, Montana averages 550 miles in length and 275 miles in width. The Continental Divide runs north and south through the western section. The highest point is Granite Peak, 12,799 feet; the lowest is 1,920 feet on the Kootenai River at the Idaho Line.

Climate varies with topography and altitude. Average

temperatures range from 100° in the south to 0° in the north. Principal crops are wheat, barley, oats, safflower, alfalfa seed, mustard seed, flax seed, beans and cherries. Principal livestock are cattle and sheep. Montana is a large supplier of stocker and feeder cattle.

The State's mineral resources offer important sources of employment and income to the State. Annual mineral production averages around \$185,000,000 chiefly from petroleum and copper production. Other leading minerals are sand and gravel, zinc, silver, building stone, lead and gold.

The timber industry is highly important to Montana's economy and contributes approximately \$130,000,000 annually. Products include lumber, plywood, pulp and paper, and manufactured wood products. Four million or more Christmas trees are harvested each year and marketed widely throughout the country.

Most of the power in the State is generated hydro-electrically by the Federal dams located at Fort Peck, Hungry Horse, and Canyon Ferry (Yellowtail Dam near Hardin is under construction); by the Montana Power Company with Kerr Dam, Holter Dam and 11 other sites, and by the Washington Water Power Company with its dam at Noxon Rapids. There are five steam generating plants in the State using coal as a fuel source. The largest, located at Sidney, is operated by the Montana Dakota Utilities Company.

Manufacturing in Montana is primarily based on the processing of its abundant raw materials including refining of copper, zinc, aluminum, and petroleum pro-

Fishing and Hunting

MONTANA offers some of the best trout fishing in the nation. Four major watersheds—the Missouri, Yellowstone, Kootenai and Clark Fork—with their many tributaries reaching into the high mountain areas, give the angler a wide choice. Montana's many lakes and streams provide plenty of fish, including the brown, rainbow, cutthroat and lake trout, Dolly Varden, whitefish, the rare grayling, pike, perch, bass, paddlefish, ling and kokanee (sockeye). In addition, Montana's vast reaches of native wilderness provide outdoorsmen and nature lovers with a look at untouched country as it was many decades ago. Herds of antelope, deer, elk, Big Horn sheep, plus moose, mountain goats and grizzly bear have continued to thrive due to careful management. In eleven national forests and eight wilderness areas, natural conditions provide hunting of the highest quality.

For the bird hunter, a variety of upland game is available. Species such as the sharp-tailed grouse, sage grouse, blue grouse, Franklin's grouse, ruffed grouse, ring-necked pheasant, Hungarian partridge, wild turkey and chukar provide hunters with a variety of enjoyment.

Non-residents may purchase a 6 day limited fishing license for \$3 . . . or a seasonal fishing license for \$10. For non-resident hunters the \$100 license includes deer, elk, bear (black or grizzly) plus the right to enter the drawing for sheep, goats, and moose. The \$100 license also includes fishing and upland game birds.

The Treasure State

Montana, for centuries the home of Indians and buffalo, was first seen by white men—the Verendryes, French fur-traders—in 1743.

In 1805-1806, Lewis and Clark explored the area, then part of the Louisiana Territory.

In 1807 Manuel Lisa, a fur-trader, built Montana's first trading post.

The first permanent white settlement was St. Mary's Mission at Stevensville, founded in 1841 . . . still standing today.

In 1862 a rich gold strike at Bannack brought a rush of prospectors. With gold discoveries at Virginia City and Helena, thousands more followed. Outlaws flourished in the surging gold camps until the Vigilantes organized and dispensed justice.

The great cowboy era began in 1866 when the first herd of longhorn cattle was trailed in from Texas.

The growing intrusion of white men into the Indians' homeland, the disappearance of buffalo and failure of white men to keep their treaties, brought the Indian wars of the '60's and '70's. Custer's Last Stand occurred in 1876. A year later the major battles ended with Chief Joseph's surrender at the Battle of the Bear's Paw.

The fourth largest state, Montana averages 550 miles in length and 275 miles in width. The Continental Divide runs north and south through the western section. The highest point is Granite Peak, 12,799 feet; the lowest is 1,820 feet on the Kootenai River at the Idaho Line.

Climate varies with topography and altitude. Average annual rainfall throughout the state is 15" and varies from a minimum 9.69" to over 100" on some mountain tops. Average daytime temperatures vary from an average 28°F in January to 84.5° in July.

Nine railroads, ten bus lines and four air lines serve Montana; 10,293 miles of paved urban, secondary, primary and interstate highways cross the state.

Vast lands suited to cultivation and grazing, water, minerals, and timber are Montana's most valuable resources.

The value of income from farms and ranches totals over \$430,000,000 annually. Major crops are winter and spring wheat, hay, barley, sugar beets, corn, oats, pota-

toes, safflower, alfalfa seed, mustard seed, flax seed, beans and cherries. Principal livestock are cattle and sheep. Montana is a large supplier of stocker and feeder cattle.

The State's mineral resources offer important sources of employment and income to the State. Annual mineral production averages around \$185,000,000 chiefly from petroleum and copper production. Other leading minerals are sand and gravel, zinc, silver, building stone, lead and gold.

The timber industry is highly important to Montana's economy and contributes approximately \$130,000,000 annually. Products include lumber, plywood, pulp and paper, and manufactured wood products. Four million or more Christmas trees are harvested each year and marketed widely throughout the country.

Most of the power in the State is generated hydro-electrically by the Federal dams located at Fort Peck, Hungry Horse, and Canyon Ferry (Yellowtail Dam near Hardin is under construction); by the Montana Power Company with Kerr Dam, Holler Dam and 11 other sites, and by the Washington Water Power Company with its dam at Noxon Rapids. There are five steam generating plants in the State using coal as a fuel source. The largest, located at Sidney, is operated by the Montana Dakota Utilities Company.

Manufacturing in Montana is primarily based on the processing of its abundant raw materials including refining of copper, zinc, aluminum, and petroleum, production of elemental phosphorus, wood products and cement. Sugar refining and flour milling are also very important to the State's economy. The value added by manufacturing approximates \$220,000,000 annually.

Lewis and Clark Caverns STATE PARK

LEWIS and CLARK CAVERNS, Montana's featured state park, are the largest limestone caverns in the Northwest. Located in the heart of Montana's vacationland between Glacier and Yellowstone National Parks, Lewis and Clark Caverns are easy to reach and FUN to explore.

The colorful stalactites, stalagmites, clusterites and flowstone, produced by a million years of natural processes, form interesting and unusual sights and provide more variety of typical cavern formations than any other single group of caverns in the nation.

The caverns are all electrically lighted, and are safe and comfortable to visit. An open-air jeep railroad runs along the hillside from park headquarters to near the caverns entrance and an electric tram completes the trip.

Inside the caverns, where natural air-conditioning maintains a year-round temperature of 46°, well constructed walks lead through the caverns.

Guided tours last 90 minutes. Admission charge (including jeep railway and tram ride) is \$1.00 for adults; 50c for children.

Tours operate at frequent intervals daily as follows:

May 1 - June 15: 8 a.m. to 5 p.m.

June 15 - Labor Day: 8 a.m. to 8 p.m.

Labor Day - September 30: 8 a.m. to 5 p.m.

Free picnicking and camping facilities are provided.

TO: TDETR (Maj Quintanilla)

1. The data submitted is not sufficient to make a firm analysis of this sighting. However, it appears feasible to eliminate aircraft as a possible target, since the speed of 2300 mph is too high for any known aircraft. The target could conceivably be a missile of some type, considering speed alone; but it is highly unlikely that a missile would provide a greater radar return than an F-4D airplane, unless it were equipped with a beacon operating at the F-4 radar frequency. Further, it would appear that a missile, fired intentionally or otherwise, would have been noted by others in the area.

2. (U) Since other F-4D's in the area noted nothing unusual, the only possibilities appear to be either an "angel" or a momentary equipment malfunction. These are offered as possibilities only, since there is no positive evidence supporting either condition.

3. Offered as a remote possibility is an accidental, or perhaps intentional, encounter with an ECM deception device. A range and angle deceptive repeater, properly deployed and operated, could conceivably cause the phenomena reported by the aircrew. The U.S. Air Force, as well as the French, are probably experimenting with such devices.

TRAFFIC REGULATIONS AND SAFETY RULES

1. Montana speed limits: Daylight—reasonable and prudent speed; 55 miles per hour during the hours when lights are required, except where zoned and posted. Trucks in excess of 8,000 pounds gross weight—50 miles per hour. Vehicles towing house trailers—50 miles per hour. Speed limit on roads under construction—35 miles per hour.
2. Vehicles entering main highways from side road or drive must yield right-of-way to vehicles traveling main highways.
3. Vehicles must drive to right of center line at all times except when passing another car. Never pass on hills or curves. Be sure you can see far enough ahead to make a safe passing.
4. Proper signal must be given when passing another vehicle, changing direction, stopping or slowing down on the highway. Sound horn to warn the car ahead you are going to pass; left turn, left hand and arm extended horizontally; right turn, left hand and arm extended upward; stop or slow down, left arm extended downward. Electrical turn indicators are legal.
5. Obey all warning signs, such as School Zone, Stop, Slow, Danger, Curve Yield Right-of-Way, and others.
6. Never drive at a speed greater than that at which you can stop in the clear road visible ahead. Slow down at night or when the road is wet or icy.
7. When approaching another car from either the front or rear, dim your lights, don't be afraid to dim first. Courtesy promotes safety.
8. Slow down when approaching any child, pedestrian, bicycle, livestock, parked car, or other obstruction of the highway. Be prepared for the unexpected.
9. Don't stop or park on the main-traveled portion of the highway, especially on hills or curves. Pull out on the shoulder. It's safer for you and other cars.
10. Accidents resulting in death, personal injury, or property damage of an apparent extent of \$100 or more requires immediate notification to Sheriff, Police or Highway Patrol by quickest means of communication. This notice must be followed by a written report to Montana Highway Patrol Board, Helena, Montana within ten days.
11. When approaching school busses loading or unloading school children, drivers must stop and not proceed until school bus resumes motion.
12. Littering highways prohibited—HELP KEEP MONTANA CLEAN.
13. PREVENT FOREST FIRES—USE YOUR ASH TRAY.
14. During the forest fire season every vehicle going into forested areas must be equipped with a serviceable shovel, axe, and bucket, except when traveling numbered state and federal highways.
15. Montana highway regulations provide that no combination of auto and trailer shall exceed 60 ft. in length, or 96 in. in total outside width, or 13 ft. 6 in. in height except with permit. Trailers should carry red lights to the rear; green, amber or white lights to the front and amber side lights. The speed limit for vehicles towing house trailers is 50 miles per hour. No person shall occupy a house trailer while it is being moved upon the highway.

MONTANA ROADS OPEN FOR WINTER TRAVEL

Modern maintenance equipment enables Montana to keep all primary roads (shown in red) open during winter months except for very short periods during or immediately after a severe storm. Make local inquiry regarding conditions during storms. Carry chains and a shovel. Reduce speed.

All main highway passes are kept open all winter. Passes that are closed to traffic for several months are:

Beartooth Pass on U. S. 212, from 12 miles south of Red Lodge over Beartooth Plateau to Cooke City.

Logan Pass in Glacier National Park, closed from about Oct. 15 to June 1.

Skalkaho Pass on Montana 38 between Anaconda and Hamilton.

Yellowstone National Park roads subject to closure after Oct. 31, except for Gardiner-Cooke City road via Mammoth which remains open year around.

BIG SKY COUNTRY POINTS OF INTEREST

1. **LAST CHANCE GULCH (E-4).** Gold was discovered on July 14, 1864. Third Territorial and present State Capital. Capitol Building and Historical Museum visitors welcome. Conducted tour of Helena by Last Chancer Tour Train. Carroll College, Veteran's Hospital, Vocational School for girls.
2. **RICHEST HILL ON EARTH (F-4).** Gold, silver, copper and zinc from deep mines and open pits. World Museum of Mining, 33 acres of history and relics of mining of yesterday to present. Montana College of Mineral Science and Technology.
3. **CUSTER BATTLEFIELD NATIONAL MONUMENT (G-9).** June 25, 1876, Battle of the Little Big Horn. Gen. George A. Custer and his Seventh Cavalry were slain to the last man by the combined Sioux and Cheyenne Indian Forces.
4. **FORT PECK DAM AND RESERVOIR (C-10).** World's largest earth-filled dam impounds the Missouri River forming reservoir 189 miles in length with over 1,600 miles of shoreline. Boating and fishing. Hell Creek, Rock Creek State Parks and Recreation Areas.
5. **GATES OF THE MOUNTAINS (D-4).** Wilderness Area, discovered and named July 19, 1895 by Lewis and Clark. Sheer cliffs rise to 1,200 feet above the Missouri River. Abounds with interesting wildfowl, deer, bear and mountain goats. Launch trips.
6. **GREAT FALLS OF THE MISSOURI RIVER (C-5).** Discovered in 1805 by Lewis and Clark. Giant Springs, world's largest fresh water spring. Picnic grounds. Five hydroelectric dams. College of Great Falls, Montana School Deaf and Blind, Maimstrom Airforce Base, Cowboy artist Charles M. Russell original cabin and Art Gallery.
7. **LEWIS AND CLARK CAVERNS STATE PARK (F-5).** One of the nation's largest limestone caverns. Colorful stalactites, stalagmites, clusterites, and flowstone provide an exciting 90 minute guided tour.
8. **MADISON CANYON EARTHQUAKE AREA (H-5).** At 11:37 p.m., August 17, 1959 an awesome earthquake slid half a mountain into the canyon creating a giant dam and Quake Lake. Memorial and visitors vista.
9. **NATIONAL BISON RANGE (D-2).** Large herd of bison, also elk, pronghorns, whitetail and mule deer. Some longhorn cattle and many upland birds and waterfowl. Conducted auto tours from late June until Labor Day.
10. **YELLOWTAIL DAM UNDER CONSTRUCTION (G-9).** 520 foot multi-million dollar hydroelectric dam being built in spectacular Big Horn Canyon. Visitors vista.
11. **MUSEUM OF THE PLAINS INDIAN (B-3).** An exhibition and crafts center portraying the life of the Northern Plains Indians "in the days when buffalo ran". Open June through Sept. under supervision of the Blackfoot Indian Agency.
12. **COW CAPITAL OF THE WEST (E-11).** Range Riders Museum, a memorial to those who rode the unfenced range. Custer County Junior College, State Industrial School, Agricultural Experiment Station and Veteran's Administration Hospital.
13. **ST. IGNATIUS MISSION (D-2).** Established in 1854 for the Flathead Indians. The present church is said to be the third most beautiful in the world. A visit is a very rewarding experience.
14. **MEDICINE ROCK STATE PARK (F-12).** 220 acres containing numerous weird and oddly-shaped sandrock formations, a result of wind erosion. Carter Co. Museum at Ekalaka, exhibits specimens of prehistoric times, dinosaurs, fossils, etc.

rear, green, amber or white lights to the front and amber side lights. The speed limit for vehicles towing house trailers is 50 miles per hour. No person shall occupy a house trailer while it is being moved upon the highway.

MONTANA ROADS OPEN FOR WINTER TRAVEL

Modern maintenance equipment enables Montana to keep all primary roads (shown in red) open during winter months except for very short periods during or immediately after a severe storm. Make local inquiry regarding conditions during storms. Carry chains and a shovel. Reduce speed.

All main highway passes are kept open all winter. Passes that are closed to traffic for several months are:

Beartooth Pass on U.S. 212, from 12 miles south of Red Lodge over Beartooth Plateau to Cooke City.

Logan Pass in Glacier National Park, closed from about Oct. 15 to June 1.

Skalkaho Pass on Montana 38 between Anaconda and Hamilton.

Yellowstone National Park roads subject to closure after Oct. 31, except for Gardiner-Cooke City road via Mammoth which remains open year around.

BIG SKY COUNTRY POINTS OF INTEREST

- LAST CHANCE GULCH (E-4).** Gold was discovered on July 14, 1864. Third Territorial and present State Capital. Capitol Building and Historical Museum visitors welcome. Conducted tour of Helena by Last Chancer Tour Train. Carroll College, Veteran's Hospital, Vocational School for girls.
- RICHEST HILL ON EARTH (F-4).** Gold, silver, copper and zinc from deep mines and open pits. World Museum of Mining, 33 acres of history and relics of mining of yesterday to present. Montana College of Mineral Science and Technology.
- CUSTER BATTLEFIELD NATIONAL MONUMENT (G-9).** June 25, 1876, Battle of the Little Big Horn. Gen. George A. Custer and his Seventh Cavalry were slain to the last man by the combined Sioux and Cheyenne Indian Forces.
- FORT PECK DAM AND RESERVOIR (C-10).** World's largest earth-filled dam impounds the Missouri River forming reservoir 189 miles in length with over 1,600 miles of shoreline. Boating and fishing. Hell Creek, Rock Creek State Parks and Recreation Areas.
- GATES OF THE MOUNTAINS (D-4).** Wilderness Area, discovered and named July 19, 1805 by Lewis and Clark. Sheer cliffs rise to 1,200 feet above the Missouri River. Abounds with interesting wildfowl, deer, bear and mountain goats. Launch trips.
- GREAT FALLS OF THE MISSOURI RIVER (C-5).** Discovered in 1805 by Lewis and Clark. Giant Springs, world's largest fresh water spring. Picnic grounds. Five hydroelectric dams. College of Great Falls, Montana School Deaf and Blind, Malmstrom Air Force Base, Cowboy artist Charles M. Russell original cabin and Art Gallery.
- LEWIS AND CLARK CAVERNS STATE PARK (F-5).** One of the nation's largest limestone caverns. Colorful stalactites, stalagmites, clusterites, and flowstone provide an exciting 90 minute guided tour.
- MADISON CANYON EARTHQUAKE AREA (H-5).** At 11:37 p.m., August 17, 1959 an awesome earthquake slid half a mountain into the canyon creating a giant dam and Quake Lake. Memorial and visitors vista.
- NATIONAL BISON RANGE (D-2).** Large herd of bison, also elk, pronghorns, whitetail and mule deer. Some longhorn cattle and many upland birds and waterfowl. Conducted auto tours from late June until Labor Day.
- YELLOWTAIL DAM UNDER CONSTRUCTION (G-9).** 520 foot multi-million dollar hydroelectric dam being built in spectacular Big Horn Canyon. Visitors vista.
- MUSEUM OF THE PLAINS INDIAN (B-3).** An exhibition and crafts center portraying the life of the Northern Plains Indians "in the days when buffalo ran". Open June through Sept. under supervision of the Blackfoot Indian Agency.
- COW CAPITAL OF THE WEST (E-11).** Range Riders Museum, a memorial to those who rode the unfenced range. Custer County Junior College, State Industrial School, Agricultural Experiment Station and Veteran's Administration Hospital.
- ST. IGNATIUS MISSION (D-2).** Established in 1854 for the Flathead Indians. The present church is said to be the third most beautiful in the world. A visit is a very rewarding experience.
- MEDICINE ROCK STATE PARK (F-12).** 220 acres containing numerous weird and oddly-shaped sandrock formations, a result of wind erosion. Carter Co. Museum at Ekalaka, exhibits specimens of prehistoric times, dinosaurs, fossils, etc.
- GEORGETOWN LAKE AREA (F-3).** Rockhounding country, ghost towns, camping, fishing, hunting. World's largest smoke stack at Anaconda Smelter.
- BOWDOIN NATIONAL WILDLIFE REFUGE (B-9).** Abounds with resident and migratory waterfowl, Canadian geese, ducks of all species, colonial nesting birds, and upland game birds. Also antelope, deer, and occasionally even elk.
- ALDER GULCH (G-4).** Rich gold placer diggings were discovered in the spring of 1863. Historic Virginia City soon became the second Territorial Capital. Reconstructed ghost towns and rockhound country.
- MIDLAND EMPIRE MAGIC CITY (F-8).** Yellowstone Museum, Range Rider Monument, Boothill Cemetery, Eastern Montana College and Rocky Mountain College. Area Office Bureau of Indian Affairs.
- DILLON AREA (G-4).** Ghost town of Bannack, gold was discovered in July 1862. Beaverhead County Museum, archaeology and geology exhibits. Western Montana College. Fishing and hunting country.
- HISTORIC BITTERROOT VALLEY (E-2).** Stevensville, St. Mary's Mission established in 1841. Fort Owen now a State Monument was established in 1850. Hamilton U.S. Public Health, Rocky Mountain Laboratory.
- GALLATIN EMPIRE (G-5).** Bozeman, named for John M. Bozeman, pioneer wagonmaster of the early sixties. Montana State University, Montana Experiment Station.
- HUB OF FIVE GREAT VALLEYS (D-2).** Missoula, University of Montana, Northern Region Headquarters, U.S. Forest Service and Aerial Fire Depot, Smoke Jumpers Center. Missoula Snow Bowl site of 1967 Winter Olympic Trials.
- FLATHEAD LAKE AREA (C-2).** Center of great year around playground: skiing, big game hunting and fishing in every direction, with water sports, camping and outdoor recreation unlimited.
- TRIBAL ARTS AND CRAFTS (B-11).** Poplar, over 3,000 Assiniboin and Sioux Indians welcome you to their million acre reservation.
- GLACIER NATIONAL PARK (A-3).** Going to the Sun Road, an engineering masterpiece, overlooks the most spectacular scenery in the world.
- POMPEYS PILLAR (F-8).** July 25, 1805, Capt. William Clark carved his name and date on this towering 200 foot high rock formation. The signature is still there. Registered National Historic Landmark.
- BEARTOOTH COUNTRY (G-7).** Travel this scenic switchback highway to an elevation of almost 11,000 feet for a magnificent panorama of the country below. Early mining camps, fishing and hunting country. Winter sports area.
- MAKOSHIKA STATE PARK (D-12).** Erosion by wind and water have created this colorful badlands. Glendive Museum displaying prehistoric reptile bones. Dawson County Junior College.
- LEWISTOWN AREA (D-7).** Fishing, hunting, winter sports, ghost towns, and rockhound country. Montana Center for the Aged.
- YELLOWSTONE NATIONAL PARK (H-5).** A world apart of natural wonders, colorful canyons, sparkling waters, interesting geysers and abundant wildlife.

or white lights to the front and amber side lights. The vehicles towing house trailers is 50 miles per hour. No person is to be in a house trailer while it is being moved upon the highway.

ROADS OPEN FOR WINTER TRAVEL

equipment enables Montana to keep all primary roads during winter months except for very short periods during a severe storm. Make local inquiry regarding conditions chains and a shovel. Reduce speed.

Passes are kept open all winter. Passes that are closed to months are:

- S. 212, from 12 miles south of Red Lodge over Beartooth City.
- for National Park, closed from about Oct. 15 to June 1.
- Montana 38 between Anaconda and Hamilton.
- all Park roads subject to closure after Oct. 31, except for city road via Mammoth which remains open year around.

BIG SKY COUNTRY

POINTS OF INTEREST

GULCH (E-4). Gold was discovered on July 14, 1864. and present State Capital. Capitol Building and Historical welcome. Conducted tour of Helena by Last Chancer Tour College, Veteran's Hospital, Vocational School for girls.

ON EARTH (F-4). Gold, silver, copper and zinc from open pits. World Museum of Mining, 33 acres of history of yesterday to present. Montana College of Mineral technology.

FIELD NATIONAL MONUMENT (G-9). June 25, the Little Big Horn. Gen. George A. Custer and his Seventh main to the last man by the combined Sioux and Cheyenne

DAM AND RESERVOIR (C-10). World's largest earth-ounds the Missouri River forming reservoir 189 miles in r 1,600 miles of shoreline. Boating and fishing, Hell Creek, te Parks and Recreation Areas.

E MOUNTAINS (D-4). Wilderness Area, discovered and 1805 by Lewis and Clark. Sheer cliffs rise to 1,200 feet ouri River. Abounds with interesting wildfowl, deer, bear goats. Launch trips.

S OF THE MISSOURI RIVER (C-5). Discovered in 1805 Clark. Giant Springs, world's largest fresh water spring. Five hydroelectric dams. College of Great Falls, Montana Blind, Malmstrom Airforce Base, Cowboy artist Charles M. cabin and Art Gallery.

ARK CAVERNS STATE PARK (F-5). One of the nation's one caverns. Colorful stalactites, stalagmites, clusterites, provide an exciting 90 minute guided tour.

ANYON EARTHQUAKE AREA (H-5). At 11:37 p.m., an awesome earthquake slid half a mountain into the can- giant dam and Quake Lake. Memorial and visitors vista.

BISON RANGE (D-2). Large herd of bison, also elk, prong-ail and mule deer. Some longhorn cattle and many upland erfowl. Conducted auto tours from late June until Labor Day.

DAM UNDER CONSTRUCTION (G-9). 520 foot multi-hydroelectric dam being built in spectacular Big Horn ors vista.

THE PLAINS INDIAN (B-3). An exhibition and crafts ying the life of the Northern Plains Indians "in the days ran". Open June through Sept. under supervision of the an Agency.

AL OF THE WEST (E-11). Range Riders Museum, a memorial rode the unfenced range. Custer County Junior College, al School, Agricultural Experiment Station and Veteran's n Hospital.

US MISSION (D-2). Established in 1854 for the Flathead present church is said to be the third most beautiful in the is a very rewarding experience.

OCK STATE PARK (F-12). 220 acres containing numerous dly-shaped sandrock formations, a result of wind erosion. useum at Ekalaka, exhibits specimens of prehistoric times, ssils, etc.

VN LAKE AREA (F-3). Rockhounding country, ghost towns, hing, hunting. World's largest smoke stack at Anaconda

NATIONAL WILDLIFE REFUGE (B-9). Abounds with res-igratory waterfowl, Canadian geese, ducks of all species, ing birds, and upland game birds. Also antelope, deer, and even elk.

CH (G-4). Rich gold placer diggings were discovered in the 53. Historic Virginia City soon became the second Territorial nstructed ghost towns and rockhound country.

EMPIRE MAGIC CITY (F-8). Yellowstone Museum, Range ment. Boothill Cemetery, Eastern Montana College and Rocky llege. Area Office Bureau of Indian Affairs.

REA (G-4). Ghost town of Bannack, gold was discovered in eaverhead County Museum, archaeology and geology exhibits. ntana College. Fishing and hunting country.

BITTERROOT VALLEY (E-2). Stevensville, St. Mary's blished in 1841. Fort Owen now a State Monument was es-1850. Hamilton U.S. Public Health, Rocky Mountain Laboratory.

EMPIRE (G-5). Bozeman, named for John M. Bozeman, gonmaster of the early sixties. Montana State University, periment Station.

VE GREAT VALLEYS (D-2). Missoula, University of Montana, egion Headquarters, U.S. Forest Service and Aerial Fire Depot, pers Center. Missoula Snow Bowl site of 1967 Winter Olympic

LAKE AREA (C-2). Center of great year around playground: ame hunting and fishing in every direction, with water sports, d outdoor recreation unlimited.

RTS AND CRAFTS (B-11). Poplar, over 3,000 Assiniboinne ndians welcome you to their million acre reservation.

NATIONAL PARK (A-3). Going to the Sun Road, an engineer-iece, overlooks the most spectacular scenery in the world.

PILLAR (F-8). July 25, 1806, Capt. William Clark carved his ate on this towering 200 foot high rock formation. The signa- there. Registered National Historic Landmark.

TH COUNTRY (G-7). Travel this scenic switchback highway tion of almost 11,000 feet for a magnificent panorama of the low. Early mining camps, fishing and hunting country. Winter

KA STATE PARK (D-12). Erosion by wind and water have is colorful badlands. Glendive Museum displaying prehistoric es. Dawson County Junior College.

YN AREA (D-7). Fishing, hunting, winter sports, ghost towns, und country. Montana Center for the Aged.

ONE NATIONAL PARK (H-5). A world apart of natural colorul canyons, sparkling waters, interesting geysers and wildlife.

THIS UFO REPORT IN 13 PARTS.

PART 1. ONE UFO WAS OBSERVED ON AIRBORNE RADAR AND WAS NOT SEEN VISUALLY. THE SIZE OF THE RADAR FLIP WAS LARGER THAN THAT MADE BY AN F-4 AIRCRAFT.

PART 2. OBSERVING PILOTS FIRST NOTICED THE UFO WHILE PRACTICING AIR TO AIR INTERCEPT AT 36000 FT ON TRUE HEADING OF 060 AND AIRSPEED OF POINT 85 MACH. ON 50 NM AIR SEARCH MODE THE UFO APPEARED 28 NM OUT AND 55 DEGREES TO STARBOARD AT SAME ALTITUDE AS THEIR AIRCRAFT. AS UFO APPROACHED, THEY TRACKED IT. CLOSING SPEED BETWEEN THE F-4D AND UFO WAS 2700 MPH OR MORE. (F-4 INTERCEPT COMPUTER CAN NOT REGISTER ABOVE

PAGE 2 RUFPAO 85 [REDACTED]

2700 MPH.) THE UFO RAPIDLY APPROACHED THE OBSERVING F-4 AND PASSED UNDER AT UNKNOWN ALTITUDE HEADING ABOUT 255 DEGREES. AIR INTERCEPT RADAR BROKE TRACKING AT 55 DEGREES DOWN WITH CLOSING SPEED STILL AT 2700 MPH. THE PILOTS THEN TURNED THE AIRCRAFT UPSIDE DOWN TO ATTEMPT VISUAL SIGHTING. THIS MANEUVER TOOK SEVERAL SECONDS BY WHICH TIME THE UFO WAS WELL BEHIND THE F-4 AND NO VISUAL SIGHTING WAS MADE. THE UFO'S FLIGHT PATH WAS ALMOST STRAIGHT CURVING SLIGHTLY TOWARD THE F-4 ON HEADING OF 255 DEGREES AT LESS THAN 36000 FT. OBSERVATION TIME WAS LESS THAN 40 SECONDS.

PART 3. OBSERVATION WAS ON AIR INTERCEPT MODE AT 50 AND 25NM RANGES USING APQ 109 RADAR IN AN F-4D.

PART 4. TIME WAS 16/1300Z AUG 66

PART 5 LOCATION WAS 4925N/0520E (8NM SOUTHEAST OF MARVILLE RCAF STATION, FRANCE)

PART 6. THE AIRCRAFT COMMANDER WAS CAPT PAUL R GREGORY, FV 3280182 WHO HAS 1885 TOTAL FLYING HOURS. THE BACK SEAT PILOT WAS 1/LT CRAIG A SCHORZMAN, FR 3163042, WHO HAS 323 TOTAL FLYING HOURS. BOTH PILOTS ARE WITH THE 23RD TAC FTR SQDN, BIEBURG AB, GERMANY, APO NEW YORK 09132.

PAGE 3 RUFPAO 85 [REDACTED]

PART 7. OBSERVERS REPORTED HAZE AT 36000 FT AND ABOUT 7 NM VISIBILITY. WITH BROKEN CUMULUS AT ABOUT 8000 FT. NO UNUSUAL WINDS OR OTHER WEATHER CONDITIONS WERE NOTED. WEATHER AT MARVILLE RCAF STATION AT 16/1300Z WAS: WIND 050 AT 15 KTS, VISIBILITY 13 NM, SKY 3500 FT SCATTERED, 5000 BROKEN, TEMP 17 DEGREES C, DEWPOINT 7 DEGREES C, ALT SETTING 30.44. WINDS

ALOFT WERE NOT AVAILABLE.

PART 8. NO OTHER UNUSUAL ACTIVITY WAS NOTED.

PART 9. F-4 DID NOT ATTEMPT CHASE DUE TO SPEED OF UFO.

PART 10. OTHER F-4D WERE IN THE AREA BUT THIS WOULD NOT EXPLAIN THE SIGHTING.

PART 11. THE REPORTING OFFICER IS 1/LT MARK WASSENICH, FR81259, WING PHOTO RADAR INTELLIGENCE OFFICER. THE TWO PILOTS REPORTING THE SIGHTING WERE DEBRIEFED IMMEDIATELY AFTER LANDING. THEY WERE BOTH SURE OF THE RADAR SIGHTING. THEIR RADAR SET WAS WORKING PERFECTLY BEFORE AND AFTER THE SIGHTING. PILOTS IN A NEARBY F-4 DID NOT SEE THE UFO BUT WERE BUSY INTERCEPTING A THIRD AIRCRAFT WHEN THE SIGHTING TOOK PLACE, THIS REPORT IS SUBMITTED BECAUSE OF THE UNUSUAL SPEED AT WHICH THE UFO TRAVELED. THE ALMOST STRAGINT TRAJECTORY SUGGESTS A MISSILE OR SIMILAR OBJECT BUT THE SIZE OF THE RADAR RETURN NEGATES THIS POSSIBILITY ESPECIALLY CONSIDERING THE HEAD-ON

Glacier NATIONAL PARK

above photo . . . Many Glacier Hotel by Marlon Lacy

The history of Glacier National Park begins with the Blackfoot Indians who lived under the spell of the majestic mountains. Regarding the mountain vastness with awe they entered this abode of spirits only to fast or to cross to the Flathead country.

The park, lying in a rugged section of the Montana Rockies, is named not from the 60-odd glaciers of today, but because huge Ice Age glaciers carved the rugged scenery of what is now Glacier National Park. Here two hundred glacial lakes stud the valleys or are set like jewels in rocky cirques. Streams of crystal clear water

offer good fishing . . . and no fishing license is required. Fields of brilliant mountain wildflowers, cascading waterfalls, sheer cliffs, dense forests, inquisitive bears, friendly marmots and proud mountain goats make up its changing panorama.

Going-to-the-Sun Road, a spectacular 50-mile drive running east and west through the park, crosses the Continental Divide at Logan Pass and traverses the towering Garden Wall. Much of the park is accessible by auto and more than a thousand miles of trails lead deep into untouched wilderness or to isolated mountain chalets. Some of the glaciers are visible from the roads; others are easily accessible on foot or horseback. Saddle horses are available; riding experience is unnecessary.

Warm sunny days and cool starry nights are the rule throughout the summer. Early season visitors find waterfalls at their most glorious and mountain peaks still covered with winter snows. In the fall, deciduous trees display brilliant colors, highest peaks glisten with their first white dusting of snow and skies deepen to a startling blue.

Going-to-the-Sun Road, open about the first week in June, remains open well into October. All year around accommodations are conveniently located on the park's fringes. Accommodations in the park are available from about June 10 to September 15.

This million acre alpine wonderland was established by Congress as a national park on May 11, 1910, and is the United States section of Waterton-Glacier International Peace Park.

The Magnificent Mission Range of the Rocky Mountains towers toward the BIG SKY of Western Montana. Photograph by Ross Hall

Greetings from Montana . . .

Montana, a state which takes enormous pride in its traditions of the past, also looks to the future with genuine enthusiasm.

As an outdoor vacationland, Montana is unsurpassed. Lakes and streams lure the trout fisherman; deer, antelope and elk in abundance attract the hunter; breathtaking scenery appeals to sightseers and campers. In winter, skiers from all parts of the country find Montana slopes to their liking.

Called the Big Sky Country, Montana is the state where rivers begin and where the crisp, clean air adds zest to living. Fine highways cross our state, leading travelers to world famous Glacier and Yellowstone National Parks, as well as Custer Battlefield, Virginia City, Lewis and Clark Caverns, Flathead Lake and myriad other attractions.

While zealously protecting its God-given natural resources, Montana is enjoying industrial growth. State promotion efforts in this field have been rewarding and the state economy is sound.

We invite you to visit Montana often, as a vacationer or as a prospective resident of our friendly state.

Ask all the questions you like. You'll find our people and our state agencies obligingly willing to answer them.

Sincerely yours,

Tim Babcock
