Noise. Was louder when it came towards us and when moving fast. When disappearing downwards it was quieter and made no noise when out of sight.

Flashing lights. Random Order Red and white at random intervals. blue only seen once or twice.

First seen over water and came inland. Stayed over land till it disappeared for second time. We watched for it to come up again for about twenty minutes after it disappeared but neither saw nor heard anything more. After we had seen it for about ten minutes, one house nearest (about half way from us to the VFO) was seen to have lights switched on and off twice, and a car was seen going in the direction of the object.

The land where the object was above was Digouen Point, opposite Burlington Vermont, by Lake Champlain.

Dear Mr. [REDACTED]

This is in reply to your letter of September 13 regarding your unidentified flying object sighting. Please excuse our delay in replying to your letter; a heavy backlog of correspondence has precluded a prompt reply to your inquiry.

Unfortunately, with the information provided in your letter, we are unable to positively identify what you observed on September 1, 1966. There were no UFO reports from the Lake Champlain area submitted to the Project Blue Book office.

I am inclosing FTD Form 164 which is used in making UFO reports to the Air Force. If you would like to complete this form and re-submit your information, we will then attempt to make an evaluation.

Thank you for your letter; your interest in our program is appreciated.

Sincerely,
