REPORT OF SIGHTING OF
"FLYING SAUCER"

Serial

 , a ten year old boy, but rather mature and bright for his age, residing at Dalton, Route 1, Caldwell County, called at the office of Civil Defense, Caldwell County, as per request, accompanied by his mother to make a personal report on the sighting of a strange object airborne, in Caldwell County.

On September 7, 1966, at about 6 PM, while riding his bicycle home on a rural route, he heard a noise overhead, which he described as something between the noise of a plane and a jet plane. Looking up he saw an object circular in form, silvery in color, with a setting sun lighting it up.

He was unable to estimate the altitude of the object, but it was plainly visible to the naked eye. He thought it looked like a huge washtub. The object approached him from his right side, slowed down and hovered a few seconds directly above him, then with an increasing noise rapidly started off in a direction ahead of him, at an angle skyward. From the rear of the object he observed what appeared to be fire coming out like the glow in a furnace. The object then disappeared rapidly from sight.

The boy stated he was scared to death, and his mother stated he was quite hysterical when he arrived home, a short time later.

Dear Col. Reed:

Inclosed please find a report of a so-called "Flying Saucer", sighted in Caldwell County on Wednesday September 7th at about 6 PM. It is my understanding that the Air Force investigates such reports, and for that reason I had this 10 year old boy and his mother call at the office to take his statement. I assume you will know to whom, if anybody, the report should be sent.

I may add, that the Sheriff of Caldwell County also saw the object, but his estimate of the object is a "Satellite". A satellite returning to earth from its orbit would in my opinion burn up upon reentry into the earth's atmosphere, but, that is an amateur's conjecture.

With kind personal regards, I am

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

I was riding my bicycle near a river to a boat house. As I was coming home I had to ride on a narrow gravel road near a Cornfield. I heard a roaring sound over head & stopped my bicycle and looked up. and the thing was hovering over head almost at a stand still. Just the moment I saw it, it took off and angled upward to the east in a split second and disappeared. I rode home fast as I could & told my parents & my mother didn't believe me although I was hysterical. I couldn't forget it. My mother reported to police and the following Saturday went to Civil defense office. If I can answer any more questions at any time I will be glad to. You may feel free to use my name.
