DEPARTMENT OF THE AIR FORCE
WASHINGTON

OFFICE OF THE SECRETARY

OCT 11 1966

Dear Mr. [REDACTED]:

We have consulted our Project Blue Book investigative office concerning the unusual sighting you reported to us in your September 16th letter. They have advised us that nothing quite like this has been previously reported.

The fact that your dog barked would seem to rule out an optical illusion since it is most likely the dog's attention was aroused by a sound (possibly beyond the range of human hearing) rather than a sight.

I am inclosing some literature and a sighting report form. We cannot assure you that we will be able to explain this phenomenon, but, should Mrs. [REDACTED] agree to fill out and return the form to us, we will try. You can assure her, too, that we will not disclose her identity should she choose to submit a report.

Thank you for your interest and cooperation.

Sincerely,

Signed

Dear Sir:

At noon on September 13, 1966, my wife was cutting grass in the yard with hand shears. Our dog started barking wildly at something in the air. (The sky was overcast.) My wife looked up in the direction in which he was barking (almost straight overhead) and thought she saw something dark, with some sort of a web-like structure. She described it as like either a web of ropes you could partially see or like something you might see through a microscope. The thing seemed to be moving or revolving but stayed in the same place. Thinking she was seeing some kind of optical illusion she turned away. But as the dog continued to bark she asked our two boys, ages six and four, to look up and see if they saw anything. They all looked up and my wife saw the same thing again. Mark, age 6, said he saw something black. As my wife looked at it, the thing disappeared. The dog stopped barking after this second sighting.

Neither my wife nor I would swear that something of substance was there. We feel there may be any of a number of natural explanations of which we are unaware. On the possibility that information you have received with respect to UFO sightings has turned up similar instances, I should appreciate any comments you may be able to make. If you have never heard of a similar pattern of alleged sightings, that too, would be interesting.

While I await your reply, I will consult my physician, my ophthalmologist, and my psychiatrist to see if they have any opinions on the matter. Actually, my wife is quite healthy and well-balanced and was quite reluctant to tell me of this, thinking I'd just laugh. I did; but I also thought it would be wise to see if anyone else had had a similar experience.

Thanks you for your consideration.

Yours very truly,

Director
