35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

I have a 25yr old son who has done some investigation on his own into the fact that the Nazis of World War I was very much alive and active today in a place called the "Patagonian" region of Argentina. Most everyone knows that Argentina is a Nazi area of the fact point to Adolph Hitler as being alive and living there with hundreds of thousands of his SS men there too. But in 1942 the head Nazis realized that they had lost the war henceforth operations were made to go underground on April 6, 1944. They moved their base of operations to Argentina. They have secret Nazi agents working throughout the Free World, in a comeback of a future forth sight. The Communist would be a threat to our way of life, but I tell you and I come the most underground Nazi Organization present a far greater threat to us. The idea of it is that it is a very active but Communist factor in the sense, what nothing knowing the Nazi underground. If something erupts (something) then we know how about it on the scene. — > see

The German Nazi Party in Berlin, Germany
 is only a front for the true German Nazi
 Party which is the underground. Hitler & his
 lackeys have developed the so-called A.F.C.
 as far back as the early 40's but it was
 an experimental model until then at that
 time. Now of course some twenty years
 later it is an affecting craft which is
 powered by magnetic force fields which effects
 suspension around it. It is mainly why
 it is practically invisible at a distance.

When the statute of limitations is lifted
 from the Nazis war criminals in January 1970
 watch out boys! While every body has their eye
 fixed to either China or Russia, the Nazis are
 going to stab us in the back.
