| <u>Yes</u> | No | <u>Don't know</u> |

14. Did the object disappear while you were watching it? If so, how?

No. I did not wait until it disappeared.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

☒ Yes

☐ No

☐ Don't Know.

IF you answered YES, then tell what

it moved behind:

Can't say the object moved much but appeared to move slightly to get away from rippled blue elongated clouds that seemed to give it a dark well the orange object.

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

☐ Yes

☒ No

☐ Don't Know.

IF you answered YES, then tell what

in front of:

17. Tell in a few words the following things about the object:

a. Sound *no sound*

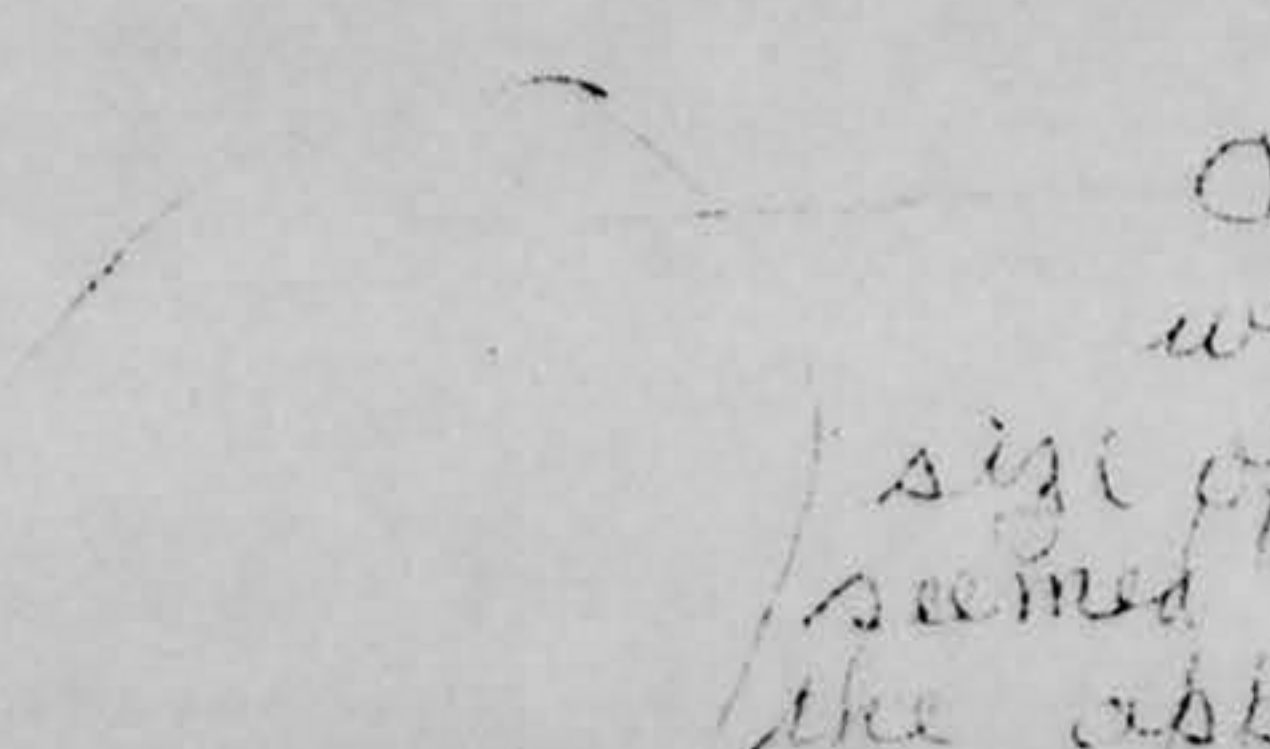

b. Color *from a pale yellow changing to a bright orange almost red.*

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

I would say that only a very, very small speck of the object would have been covered by the match head.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

(or metal)

 O Seemed like a white taut heavy rope with a round ball at the end about the size of a small quarry bowl. This rope or metal seemed to come out from behind the bright object giving the appearance that the under side of this object was tilted away from me. Object did not move, only some times seemed to inflate from lower left side, like a giant balloon being inflated or expanded.

20. Do you think you can estimate the speed of the object?

(Circle One)

Yes

No

IF you answered YES, then what speed would you estimate?

I did not see it move only to appear as if it was trying to go to right to get from behind the blue, rippled, elongated clouds

21. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

No

IF you answered YES, then how far away would you say it was?

It seemed a little above tree top level and appeared very close, about a half of a city block away.

22. Where were you located when you saw the object?

(Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane (type)
- e. At sea
- f. Other _____

23. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

- | | | | |
|--------------|--------------|--------------|--------------|
| a. North | c. East | e. South | g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

Yes

No

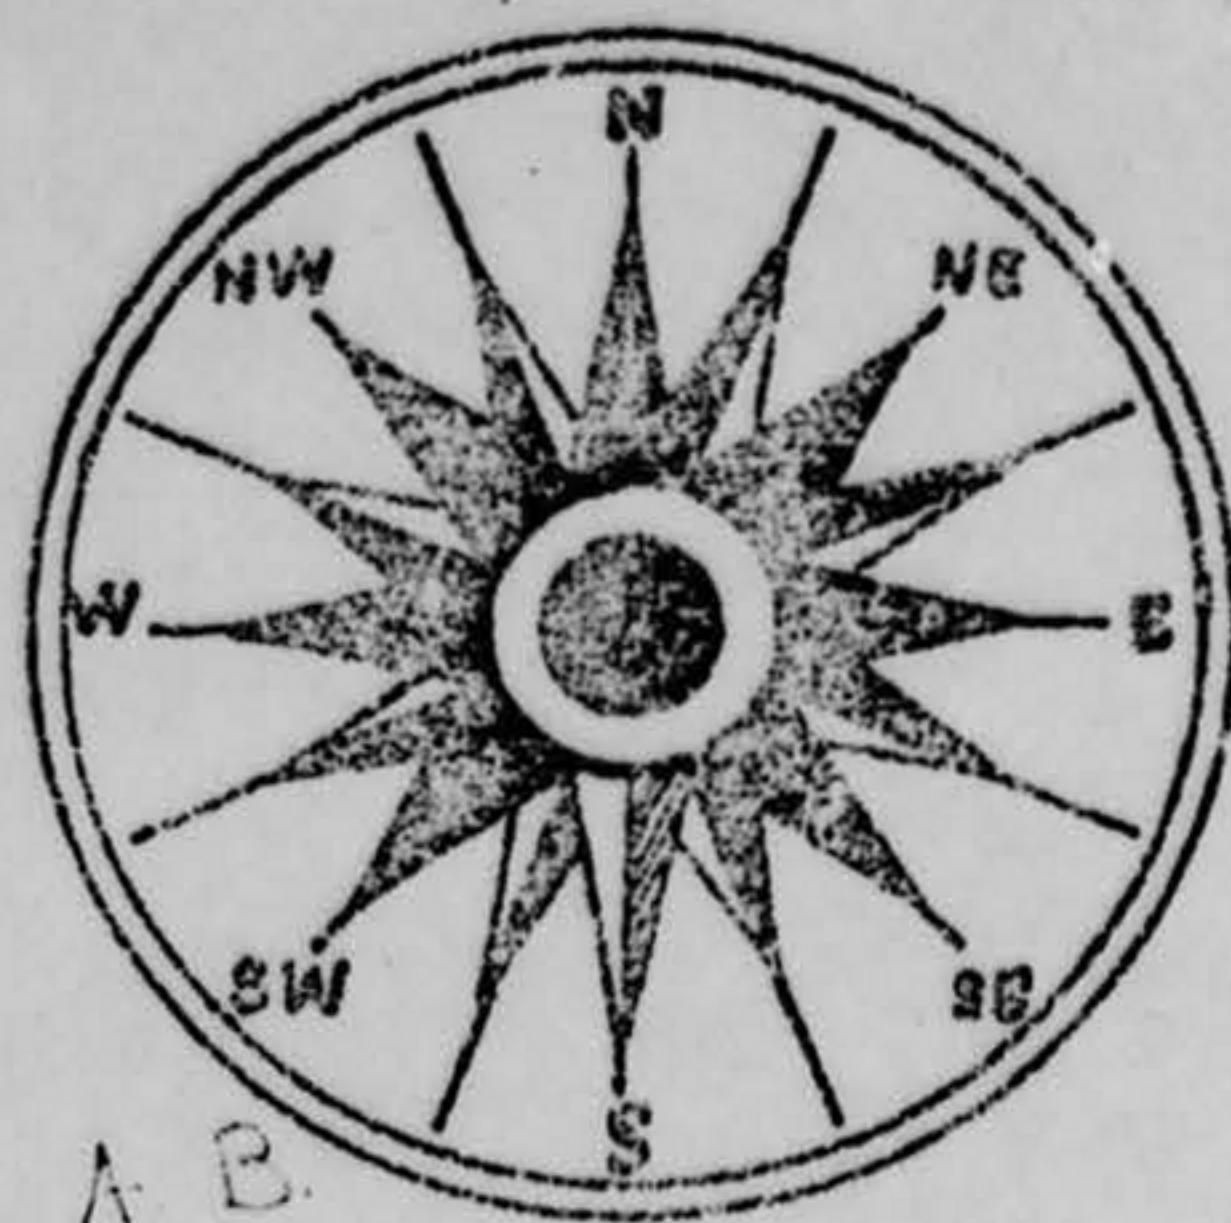

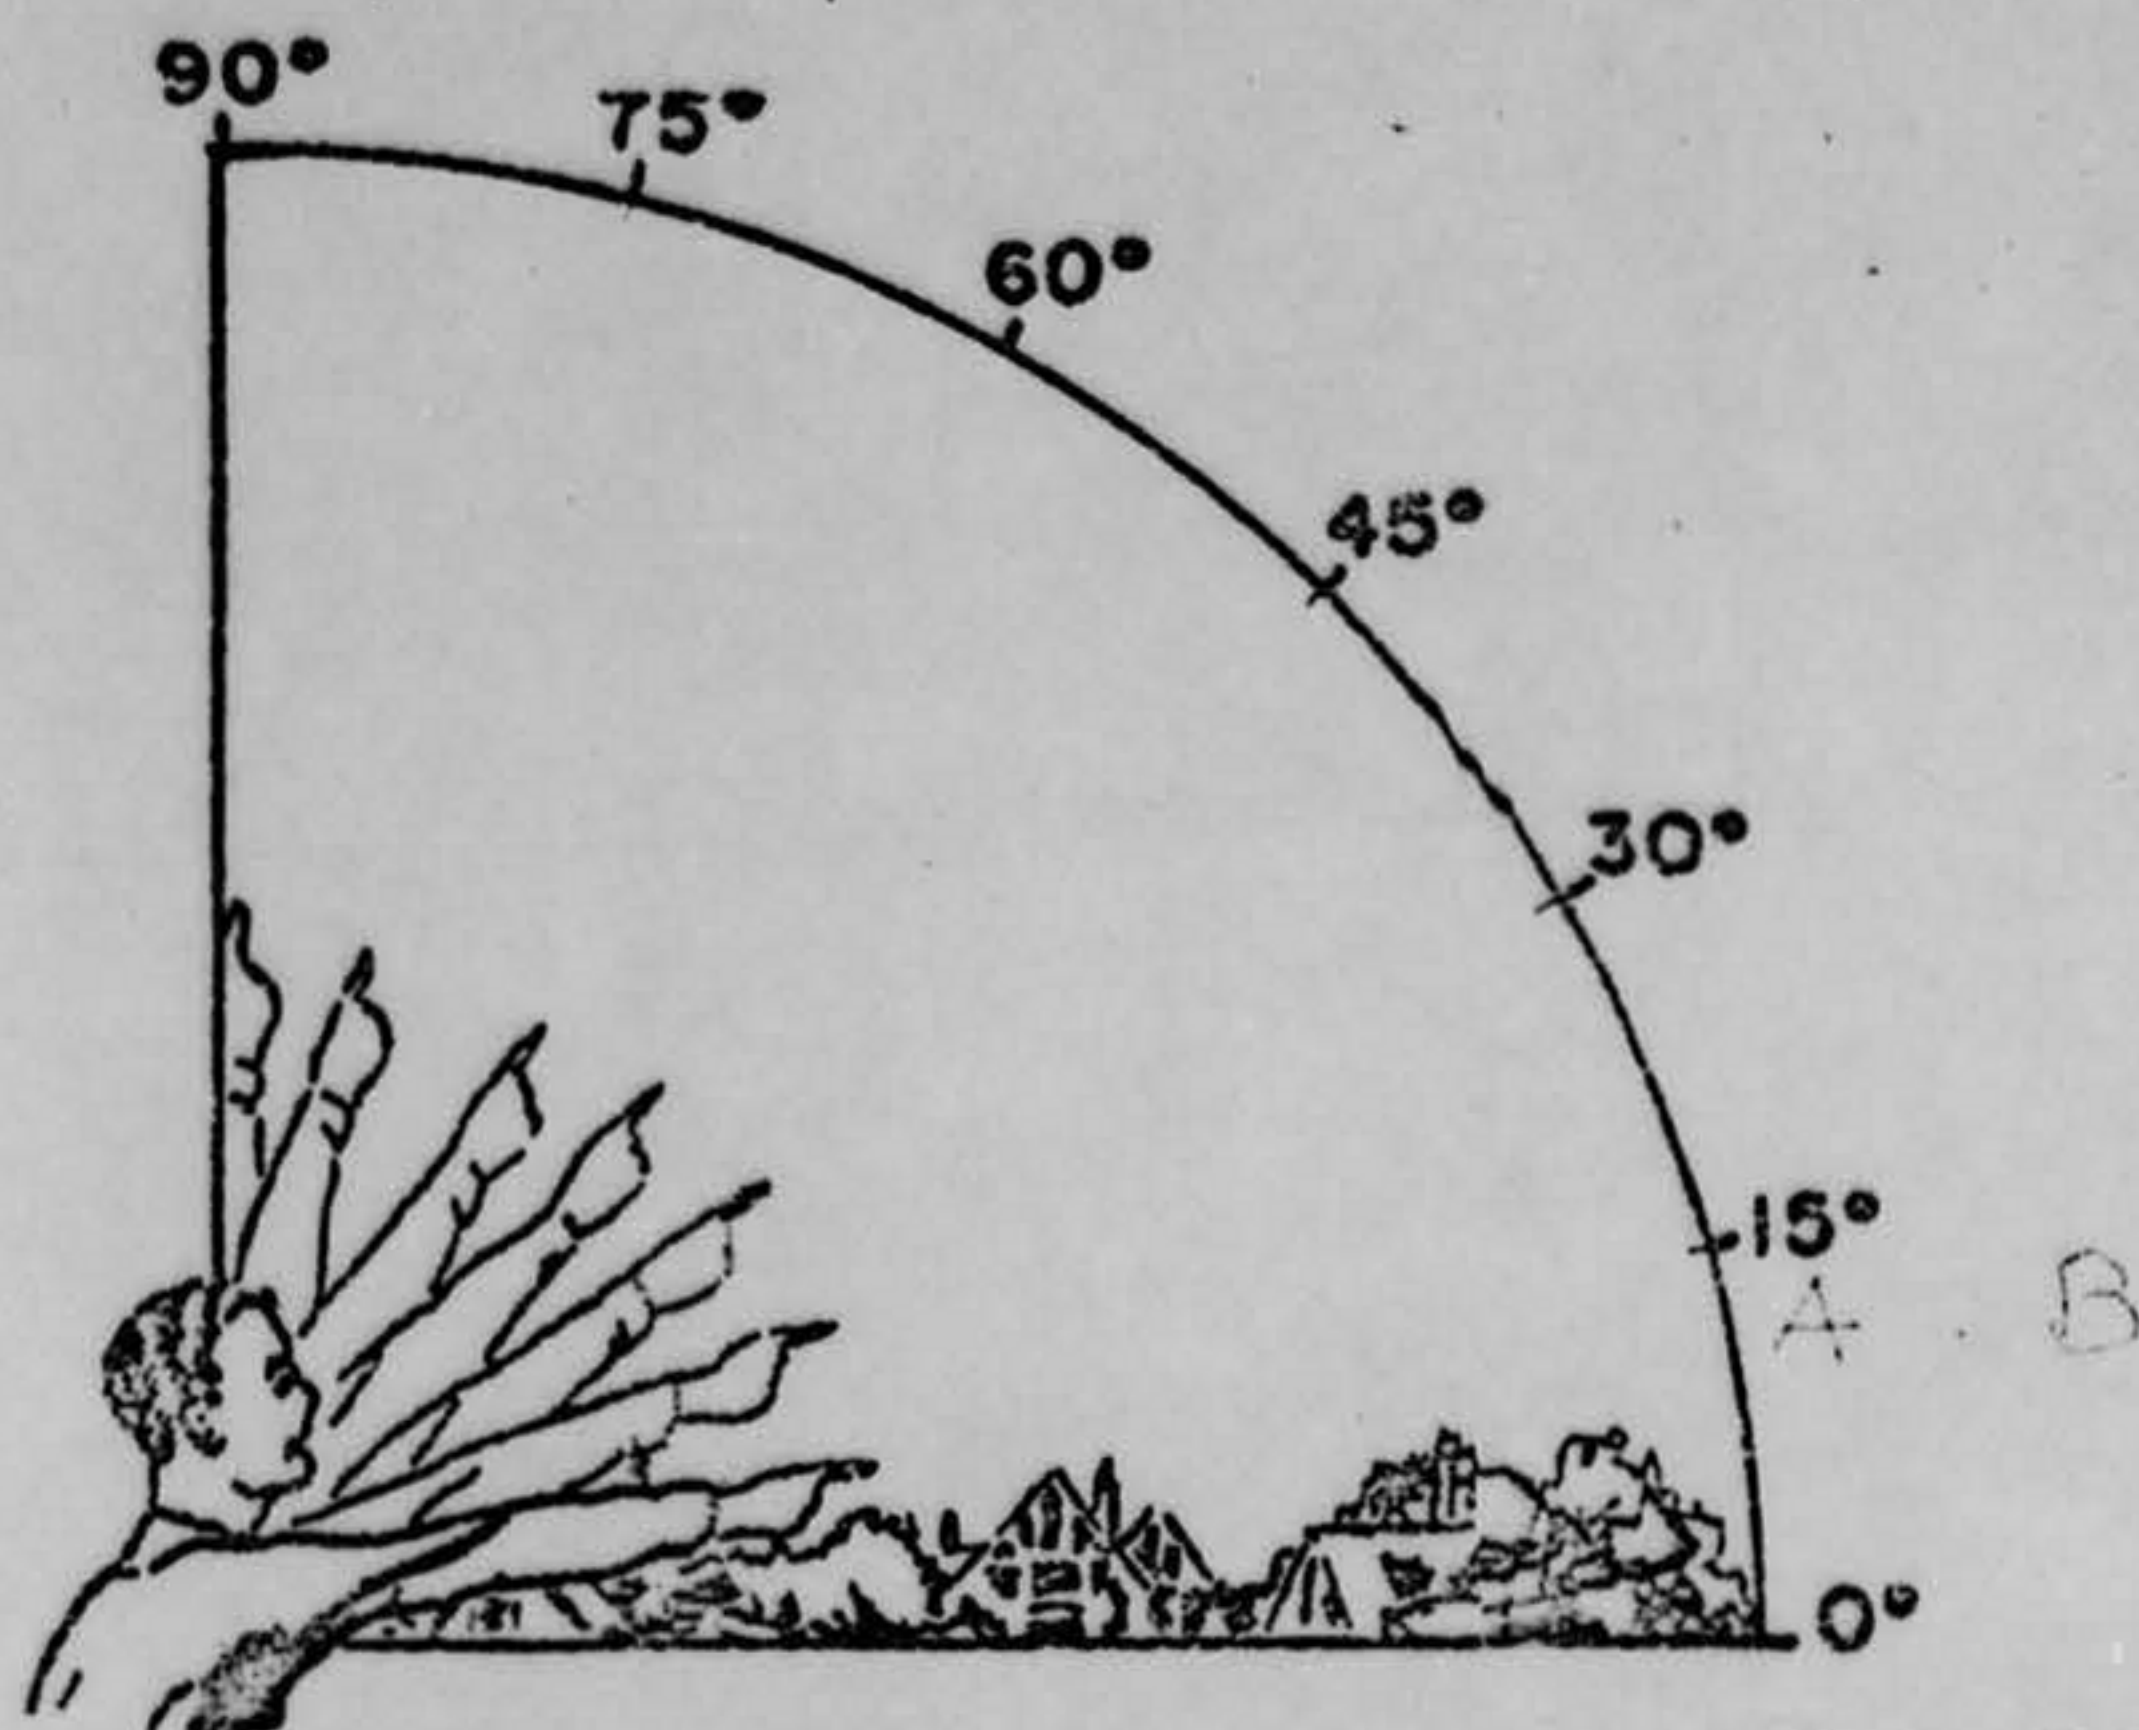

25. Did you observe the object through any of the following?

- | | | | | | |
|-----------------|------------|----|----------------|-----|----|
| a. Eyeglasses | <u>Yes</u> | No | e. Binoculars | Yes | No |
| b. Sun glasses | Yes | No | f. Telescope | Yes | No |
| c. Windshield | Yes | No | g. Theodolite | Yes | No |
| d. Window glass | <u>Yes</u> | No | h. Other _____ | | |

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

It seemed to look like a larger object than a beautiful Harvest Moon and much, much brighter.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

Stayed in the one position the entire time I watched it (about 28 minutes)

29. IF there was MORE THAN ONE object, then how many were there? _____

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

*Never before but I will describe on another paper
a witnessing of object seen later*

31. Was anyone else with you at the time you saw the object? (Circle One)

Yes

☒ No

31.1 IF you answered YES, did they see the object too? (Circle One)

Yes

☐ No

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

I made another sighting on Sept 24 and on Sept 26 an unusual noise which awakened me which I will describe on another paper.

Sightings in latter Sep 66

Mrs. [REDACTED]

Spring Valley, Ohio

Mr. [REDACTED] observed several unidentified objects in the latter part of September. she waited to inform us because $\sqrt{}$ she thought she might see something in the newspapers of similar sightings. However, after reading about barium cloud releases she decided that she would like to report her sightings. Therefore, three FTD Forms 164 were forwarded to Mrs. [REDACTED] on 1 Nov 66 per conversation with her on $\sqrt{}$ 1 Nov.

I made a previous sighting of this object on Sept 22, 1966 - but - I would like to say that on Sept. 26 at 2:30 A.M. following the sighting twice of a brilliant Object in sky. I was awakened from a sound sleep for what reason I did not know. I didn't have long to wait as I heard a sound like nothing I had ever heard before. It started in as a humming sound a way low & quiet humming, increasing to an intense hum, going so high in intensity of sound, that it gave me the feeling it had better stop or something would burst. It seemed to have such intense power. If I remember correctly I heard this three times, one right after the other - beside whatever awakened me.

I was not at all frightened with what I saw, but friends asked me if I had investigated by looking out to see if I could see anything when I heard this intense humming sound (like a generator) but I must admit I didn't go to investigate as I am a widow living alone and I was only too glad that whatever it was left or disappeared.

This noise was not like any helicopter or piston type engine going up & down in cylinders. I will say the noise came from the exact direction I had previously made two sightings of a brilliant orange object.

This all may sound fantastic, but was exactly as I heard & saw what happened (very real to me).

I waited a month or more before reporting it as I know many people are ridiculed for the observations. But, I finally thought I had a duty to report it to authorities.
