The observer said that he knew that it was not an aircraft because it was too high, and traveling too fast, any way he said that if it was an aircraft he would have heard something. Dear Sirs,

I can't hold it off any longer, I've got to tell somebody. I saw a UFO.

1. I saw it October 30, 1966.

2. Time: 7:50 (estimate) P.M.

3. Time zone-Central-Standard

4. I was at about [REDACTED], Chicago Ill.

5. Object was in sight for 1 min. & 15 sec.

Fairly certain

a. Time in sight was determined by my estimation.

b. Object was NOT in sight continuously. It disappeared then reappeared behind a couple of houses.

6. A bright, clear night.

7. a. Stars-few

b. Moon-dull moonlight

8. a. Clouds-clear sky

b. Weather-dry

9. The object appeared as a light.

10. A little brighter than the BRIGHTEST stars.

a. Comparing it with some common object, it looked like an airplane light.

11. The edges of the object were like a bright star.

12. a. The object did stand still at one time.

b. The object did speed up and rush away at one time.

c. It broke up into 2 separate parts.

d. Gave off no smoke.

e. It did change brightness. (from silvery white to a bright red)

f. Did not change shape. (remained in the shape of a ball all the while)

16. a. SOUND-none

b. COLOR-silvery white before it split into 2 parts. After it split it turned to a bright red.

2.

17. It would have been about the size of a matchstick held at arms length.
18. Both objects were circular in shape, moving northwest.
19. Estimating the speed of the object I'd say it was traveling about 180 m.p.h.
20. Again estimating I'd say it was about $\frac{1}{2}$ mile away.
21. I was outdoors when I saw it.
22. I was near an airfield, but I'm sure it wasn't a plane because it was too high, & traveling too fast, anyway if it was a plane I would have heard it.
23. I was walking.
24. I observed it with my own eyes.
25. Plane lights would be the closest resemblance to the "thing".
26. It was at about a 45° angle all the way through
27. This is a picture that shows the motion the first, then the 2 objects made. At beginning of path B is where it traveled out of sight.

28. I have never seen anything like this before.
29. There was one person with me, yes he saw the object. He lives down my block, if you want to talk to him, I will be glad to get any information from him, & I'll try to have him write a letter to you.
