Gentlemen,

You may be interested to know that I, with four others, observed two unidentified objects trailing a B-52 on the afternoon of Wed. Oct. 12.

One of these objects stopped in the air was seen to flutter and seemed to turn edgewise like the edge of a coin. It was pure white against a blue sky.

The second one came in at an angle to the path the first one was travelling, after the first had parked, at a speed that made the B-52 look like an old car going up hill. It continued for a space, seemed to slow down, if it did not stop entirely, turned up on edge apparently, as had the first, and appeared to take off with a burst of speed and then we saw something as if it were a mass of metal hurtling down toward the earth.

Among the group was the general Superintendent, job superintendent and three workmen ~~men~~ all of whom are in the employ of A.L. Jarrell & Sons of Salisbury, N.C., Building Contractors:

Sincerely,

Send

A UFO? *Oct. 15* Yes Sir, *1966* Says Ronald

Have the UFO's invaded Rowan County?

Ronald Peeler, 13-year-old eighth grader at Faith School, is convinced.

He went out for what was to be a pleasure ride on his horse, Trigger, but his pleasure turned to horror when something "came down through the trees" and chased him.

But whatever it was, Trigger was faster.

Ronald called The Post Saturday night to report his discovery, but was still too excited to talk. His father, Dwight Peeler of Faith Road, said his son was scared to go outside once he reached home.

Young Ronald said he was riding Trigger along St. Paul's Church Road shortly before 6:30 p.m. when he saw the object and heard its humming noise. He said it went from the sky into some trees, and when Trigger became excited the object looked as if it was chasing him.

The last he saw of it, however, was when he threw Trigger in fast speed and rounded a curve in the road.

Ronald said the object was as large as a two story house, was a big yellow circle with a smaller red circle and red dots inside.

There were no other reports of the incident.

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

12 10 1966
 Day Month Year

2. Time of day: 3:00
 Hour Minutes

(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One): a. Eastern
 b. Central
 c. Mountain
 d. Pacific
 e. Other _____

(Circle One): a. Daylight Saving
 b. Standard

4. Where were you when you saw the object?

[REDACTED] Salisbury N.C.
 Nearest Postal Address City or Town State or County

5. How long was object in sight? (Total Duration)

 2
 Hours Minutes Seconds

a. Certain

b. Fairly certain

c. Not very sure

d. Just a guess

5.1 How was time in sight determined? _____

5.2 Was object in sight continuously? Yes X No _____

6. What was the condition of the sky?

DAY
a. Bright
 b. Cloudy

NIGHT
 a. Bright
 b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you d. To your left
 b. In back of you e. Overhead
 c. To your right f. Don't remember

20. Do you think you can estimate the speed of the object?

(Circle One)

Yes

☒ No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

☒ No

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object?
(Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane (type)
- e. At sea
- f. Other on top of a building

23. Were you (Circle One)

- ☒ a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

- | | | | |
|--------------|--------------|--------------|--------------|
| a. North | c. East | e. South | g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

Yes

No

25. Did you observe the object through any of the following?

- | | | | | | |
|-----------------|--------------------------------------|----|----------------|-----|----|
| a. Eyeglasses | ☒ Yes | No | e. Binoculars | Yes | No |
| b. Sun glasses | Yes | No | f. Telescope | Yes | No |
| c. Windshield | Yes | No | g. Theodolite | Yes | No |
| d. Window glass | Yes | No | h. Other _____ | | |

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

A driven golf ball or base ball.

14. Did the object disappear while you were watching it? If so, how?

yes. It turned on edge, and then a long streamer fell away from where the object was last seen which at first was smooth looking like a roll of toilet paper then a foam a plane and then it billowed outward with ragged edges. Object B, below

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't Know.

IF you answered YES, then tell what

it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't Know.

IF you answered YES, then tell what

in front of: _____

17. Tell in a few words the following things about the object:

a. Sound None

b. Color Brilliant white

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head? Practically all if not

all of it

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

Object A had stopped dead still when object B made its appearance. Object A was seen to turn on edge and then disappear. Object B changed from its round shape to something approximating this → and then the explosive effect thus → falling rapidly apparently

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

I have. In May 1953 I saw two a few miles out of Salisbury, N.C. At an unknown date sometime later I saw another one which had the appearance of a silver ball.

31. Was anyone else with you at the time you saw the object? (Circle One) ☒ Yes ☐ No

31.1 IF you answered YES, did they see the object too? (Circle One) ☒ Yes ☐ No

31.2 Please list their names and addresses:

*[Redacted] Salisbury, N.C.
[Redacted] Salisbury, N.C.

Year

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? 2
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

34. Date you completed this questionnaire:

Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

With reference to question 13B you will notice that one of the objects sped up and rushed away, presumably straight up, from where it was last observed. This may not be in keeping with the context of the question. Referring to question 13G, I have answered (no) since it seemed to me to turn on an edge, as a plane would in a steep bank, and the upper part was dark in color by comparison to what we had seen of the underside, which was brilliant white. Had this been a night sighting I think the answer to 13G would probably have been yes.
