I have witnessed falling stars before
also one meteor. I have never to my knowledge
witnessed an object like this one that would
travel perpendicular to the earth then change
direction and come back - I have never heard
of a falling star doing this. Also I have seen
many aircraft at night and this did not
resemble same. I have never witnessed an
~~object~~ object, plane, falling star, meteor to
travel at such a rate of speed this A.O.
