35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

I first saw the 2 red lights pulsating ~~when~~^{where} came up ^{to top of} the hill in grey car. It was stopped in the sky & I knew it was (stopped) almost immediately ~~it was stopped~~ but I could hardly believe it. I drove up & out my drive way & into garage & turned out lights of car & ran out to look at it. It was still stopped & had never moved from time I first saw it (about 3 min.) I was scared & was almost afraid to go out of garage but never hesitated. I stood & observed about 2 full min before I ran to back window to alert husband, as I started running. It started motors big, powerful sounding, but low in ~~noise~~^{volume} - Whirring, smooth, gears sounds - nothing like I'd ever heard. Almosting hypnotizing. My husband was on inside of house, next to T.V. going he couldn't hear them. I asked him at that time.

I was very conscious of the fact that someone was watching me from it. They seem to know that I saw them & that's when they started motors &

over

moved slowly away from this dead
stop they had maintained.

It is impossible to put on
paper all I saw, felt, sensed, knew,
or observed that night, only one
thing I know for sure - I did
see it. It is a frightening thing
to know U.F.O. exist. I hope you are
doing something to find an answer to
them.

P.S. a little girl on other side of
hill saw it. ~~She~~ Her mother
& I compared notes a few days later.
