I am a tool/die maker And I have Automobile Racing exp. ~~which~~ both which require accurate and fast observation.

In July of 1964 I was a witness to a very heavy damage Accident on I65 at Henryville Ind Involving semi Trucks. Any question of my ability as a witness can be verified by John B. Howell of 901 3rd St Columbus Ind who helped Investigate the Accident.

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

For several weeks after this incident I was both afraid and angered by several things like When I would be talking on my phone and when the conversation would get to ~~my~~ my sighting that object. I began to notice that every few seconds (20-30) I would hear a beep on the line, this made me feel my phone was tapped and I did not like it.

Or how about the mail pick-up at the corner by a man with U.S. air force pick up truck each morning for about 2 wks. ?

Or the two men who came to sell hardware door to door with expensive suits who did ~~int~~ know the prices of what they were selling and asked my wife many questions about the sighting?

Or the 65 chrysler sedan that followed me from home to work and back home for 3 days?

These and ~~many~~ other things happening caused me to be reluctant to send this report in at all.

On Dec 4, 1967 when I was driving home from work in Indianapolis I saw another object the same size and shape as the one 30/11/66.

2 mi south of Franklinton Ind at 7:10 in eve. It was about 500 ft alt. over ~~a~~ a housing development $\frac{1}{2}$ mile west of U.S. 31.

It was in view for 10 min just kind of drifting around in about a 1 sq mile area. From time to time a very bright spot light about 3 ft in dia at the object would shine down. The craft moved around at 30-50 mph in a pattern like it was searching for something.

At one time It flew over my head and I saw an Insignia like this  about a foot high in dull Red Paint. (2 stripes with a 5 point star below)

Just before it flew away it made a flight pattern like  and flew away N.W. at a great speed.

I did not report this sighting to the authorities because of all the notoriety from the last time.

I sure hope that the insignia I saw means something to you, It doesn't to me.
