~~Redacted Address~~ Ave  
San Pedro, Calif.

Dear Sirs,  
I have received your Project Blue Book. I and my brother, would like to tell you about the U.F.O. we have spotted. We spotted a big bright white light over Catalina, on November 30, 1966.

The time was precisely 6:29 P.M.

We live right on the coast of California in a city called San Pedro. I know there is not any kind of star above Catalina from our view point. It was ~~at~~ 90 degrees above Avalon Bay, Catalina. Facing toward Catalina it would be at 11 o'clock, like they would say on 12 o'clock High. It was hovering about 1 mile high above the island. It was hovering until an airplane came to 2 miles east of it. Then it disappeared to a little red glow, similar to a red hot coal. It was surrounded by a ring of smoke.

This is about all the information I could give you at this time.

Thank you for your time and cooperation.

Sincerely,

14. Did the object disappear while you were watching it? If so, how? *No*

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

No.

Don't know.

IF you answered YES, then tell what

it moved behind:

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

 $\frac{1}{2}$ 

Don't know.

IF you answered YES, then tell what

in front of:

17. Tell in a few words the following things about the object:

a. Sound

cpu sound

b. Color

white - very bright white

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

SUBJECT: UFO SIGHTING - Beverly, Massachusetts - 11/15/66

DATE: 18 December 1966

FROM: Raymond E. Fowler  
Chairman: NICAP MASS SUBCOM

TO: NICAP  
Washington, D.C.

cc: AFSC-FTD (TDETR)  
Congressman W.H. Bates

ATTENTION: Richard Hall  
Assistant Director

SIGHTING BACKGROUND:

I met Mr. Richard Symmes after lecturing to a group at the First Congregational Church, Swampscott, Massachusetts. Later I dispatched Investigator Gary Storey to interview him. Mr. Symmes filled out the standard NICAP UFO FORM and signed it. A copy is attached to this memo.

SIGHTING ACCOUNT:

Mr. Symmes and Mr. Durkee were hunting duck in a small boat off the coast of Marblehead. Looking over in the direction of Beverly, Mr. Symmes spotted two strange-looking objects seemingly hovering over the Beverly area about six miles away from them in the Northwest. Mr. Symmes alerted Mr. Durkee stating that what they were observing must be UFOs. They watched off and on for about 15 minutes while hunting and then while looking away, the objects apparently vanished. Mr. Symmes eliminated balloons or aircraft due to the shape and non-motion of the objects. He insisted that they were solid objects.

EVALUATION:

It is hard to say just what was observed. Neither observer saw the objects arrive or leave and they seemed to hover with no motion whatsoever. The wind was blowing at a good 20 knots, NE so clouds would have moved quite a distance in fifteen minutes. The lower object seemed to be shimmering while the smaller object above it seemed non-reflective. It is possible that some type of mirage was witnessed. In itself there is insufficient evidence to indicate that the report involves an authentic UFO. It is submitted for information purposes. It might serve as supplementary evidence if other reports are received for that time and date.

Respectfully submitted,

## REPORT ON UNIDENTIFIED FLYING OBJECT(S)

This form includes questions asked by the United States Air Force and by other Armed Forces' investigating agencies, and additional questions to which answers are needed for full evaluation by NICAP.

After all the information has been fully studied, the conclusion of our Evaluation Panel will be published by NICAP in its regularly issued magazine or in another publication. Please try to answer as many questions as possible. Should you need additional room, please use another sheet of paper. Please print or typewrite. Your assistance is of great value and is genuinely appreciated. Thank you.

3. Locality of Observation **Beverly Mass.**
4. How long did you see the object? Hours **15** Minutes Seconds
5. Please describe weather conditions and the type of sky; i.e., bright daylight, nighttime, dusk, etc. **Partly Overcast**
6. Position of the Sun or Moon in relation to the object and to you. **Sun was in the east 20° above horizon**
7. If seen at night, twilight, or dawn, were the stars or moon visible?
8. Were there more than one object? **Yes** If so, please tell how many, and draw a sketch of what you saw, indicating direction of movement, if any. **According to sketch drawn by witness, there appears to be two objects. No motion was observed.**
9. Please describe the object(s) in detail. For instance, did it (they) appear solid, or only as a source of light; was it revolving, etc? Please use additional sheets of paper, if necessary. **Object appeared to be solid. No revolving. Lower object (sketch) seemed to be shimmering.**
10. Was the object(s) brighter than the background of the sky? **Very bright.**
11. If so, compare the brightness with the Sun, Moon, headlights, etc. **Not as bright as any of these.**
12. Did the object(s) — (Please elaborate, if you can give details.)
  - a. Appear to stand still at any time? **Yes, 15 minutes**
  - b. Suddenly speed up and rush away at any time? **No**
  - c. Break up into parts or explode? **No**
  - d. Give off smoke? **No**
  - e. Leave any visible trail? **No**
  - f. Drop anything? **No**
  - g. Change brightness? **Yes**
  - h. Change shape? **No**
  - i. Change color? **No**
13. Did the object(s) at any time pass in front of, or behind of, anything? If so, please elaborate giving distance, size, etc, if possible.
14. Was there any wind? **Yes** If so, please give direction and speed. **North East at 20 Knots**
15. Did you observe the object(s) through an optical instrument or other aid, windshield, windowpane, storm window, screening, etc? **NO** What?
16. Did the object(s) have any sound? **NO** What kind? How loud?
17. Please tell if the object(s) was (were) —
  - a. Fuzzy or blurred. **NO**
  - b. Like a bright star. **NO**

18. Was the object —

- a. Self-luminous? Yes
- b. Dull finish? No
- c. Reflecting? Yes
- d. Transparent? No

19. Did the object(s) rise or fall while in motion? No

20. Tell the apparent size of the object(s) when compared with the following held at arm's length:

- |            |                  |               |
|------------|------------------|---------------|
| a. Pinhead | d. Nickel        | g. Orange     |
| b. Pea     | e. Half dollar   | h. Grapefruit |
| c. Dime    | f. Silver dollar | i. Larger     |

Or, if easier, give apparent size in inches on a ruler held at arm's length. 1 inch

21. How did you happen to notice the object(s)? Happen to look over in the direction of Seve

22. Where were you and what were you doing at the time? Hunting

23. How did the object(s) disappear from view? Left the area

24. Compare the speed of the object(s) with a piston or jet aircraft at the same apparent altitude.

25. Were there any conventional aircraft in the location at the time or immediately afterwards? If so, please elaborate. NO

26. Please estimate the distance of the object(s). 6 nautical miles NW of Pig Rock.

27. What was the elevation of the object(s) in the sky? 20° Please mark on this hemisphere sketch:

28. Names and addresses of other witnesses, if any. Mr. A. Bruce Durkee, 43 Shorewood Road, Marblehead, Mass.

29. Please draw a map of the locality of the observation showing North; your position; the direction from which the object(s) appeared and disappeared from view; the direction of its course over the area; roads, towns, villages, railroads, and other landmarks within a mile.

30. Is there an airport, military, governmental, or research installation in the area? Beverly Airport,

USAF Antenna Station, Ipswich, Mass.

31. Have you seen other objects of an unidentified nature? If so, please describe these observations, using a separate sheet of paper

32. Please enclose photographs, motion pictures, news clippings, notes of radio or television programs (include time, station and date, if possible) regarding this or similar observations, or any other background material. We will return the material to you

33. Were you interrogated by Air Force investigators? By any other federal, state, county, or local officials? If so, please state the name and rank or title of the agent, his office, and details as to where and when the questioning took place. NO

Dear Sir:

About the same hour that the B52 blew up at Stone Lake, Wis. I went out to let my police dog in and I noticed in the sky North by East a cherry red glowing object in the sky not very high above the tree line. It was moving back and forwards. I thought it was <sup>my</sup> vision that caused the moving so I set my eye on the corner of my house and it seemed to be trying to hold steady in a wind.

Two or three years ago I noticed the same kind of object over my neighbors house a half a mile north of me. My neighbor ~~is~~ is an ex police Sergeant and a member of the Communication Workers Union a Communist riddled union. I have that he was a Communist. He doesn't send his children to Sunday school and he is not a church member.

It is my ~~best~~ belief that they have used some kind of rays to explode the B52.

Another fact is that my seeing the object over Olsons house about 8:30 P.M. on ~~the~~ Saturday and this B52 exploded around 7 P.M. Paul Olson works in Minnesota west of Duluth. He comes home Friday afternoon and goes back to work Sunday afternoon. So he was in this area at the time of the explosion.

Spot in paw in the sky was still there but it was gone.  
Have they mastered gravity?

Sincerely,

Dear Sirs,

On November twenty second at seven o'clock p.m. I was standing on the beach when I noticed what I thought were two 'stars'. These 'stars' were quivering in a horizontal motion. As I stood there watching these 'stars' one of them began to jump vertically and it came straight at me at a tremendous speed. When it seemed no more than a hundred or so yards away, I started running.

A few minutes later I was down on the beach again, but with some friends. One of the 'stars', the one which hadn't moved, moved straight up and out of sight. The 'star' that had charged me was back in its original position but it was jumping all around. Farther south from where we were, another 'star' appeared but it didn't do much.

As a crowd gathered on the beach, the 'stars' did less and less jumping around. Finally, as the crowd was leaving, I noticed another 'star' coming in from the north at about the speed that a satellite appears to move at from earth. I called to the crowd and pointed it out to them and immediately after this, the 'satellite' shot straight up at an unbelievable speed and was out of sight in a fraction of a second.

After this, very little happened and, finally everyone, including me, left.

The 'stars' seemed to be flashing lights of red, blue, yellow, and green. There was no,

indeed, there was no sound at all. Inclosed  
is what the 'stac' looked like to me at close  
range.

Sincerely,

P.S. I am fifteen years old and in the  
ninth grade. These objects were sighted over the  
Persian Gulf in front of our recreational center at  
Ras Tanba.

## U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

## Cornwall Joins the UFO Club

**UNIDENTIFIED FLYING OBJECT PHOTOGRAPHED**—Peter Kaemmerlen, 15, who lives off Wilson Place, Cornwall, is believed to be the first person in town to have sighted and photographed a UFO. Above is the proof, substantiated by Paul Wilson of Cedar Lane, who also saw the flying object. Top photo shows the disc approaching the Daniel Neal home on Wilson Place and the bottom is an enlargement. Peter told The Cornwall Local reporter that he was taking pictures with his Argus Instamatic camera and standing in a lot below the LeRoy Wilson home at 3:30 p.m. Friday when he was startled by a flying disc coming towards him from the vicinity of the Hudson River. As it approached the Neal home it seemed to pause momentarily, long enough for him to

merlen said the UFO appeared to be about 18 feet across, flying at a height of some 50 feet and was blueish gray in color, but did not glow as some of the flying saucers were reported to do where they were sighted in the Warwick and other areas. After he got his shot of the flying object he said it slowly turned south and then with incredible speed took off and disappeared over the Storm King Mountain horizon. The youth did not mention his experience to anyone until he developed the film in his darkroom and made prints of the UFO in the Cornwall Central High School darkroom, so that he would have photographic proof to show. Pete vows it was the real thing and not a garbage can lid tossed in the air, as some of his classmates jokingly charged.

I first noticed it in the nite sky because it was so much brighter than the surrounding stars. I pointed it out to my parents and asked them if they knew what it would be. They said "no," but were curious of it because of its bright mess. We continued to watch it, and suddenly it moved to another point in the sky, and remained there for several seconds. This action was repeated several times in the ten minutes we watched it before it disappeared over the horizon.

During this time when it moved about it would sometimes move very fast, and at other times relatively slow. The brightness of it also changed. Sometimes very bright, and sometimes quite dim. Both of these actions did not seem to have any set pattern.

Both my parents and myself are desinately sure it was not a conventional aircraft.

Ras Tanura, Saudi Arabia  
December 3, 1966

Dear Sirs,

On November twenty second at seven o'clock p.m. I was standing on the beach when I noticed what I thought were two 'stars'. These 'stars' were quivering in a horizontal motion. As I stood there watching these 'stars' one of them began to jump vertically and it came straight at me at a tremendous speed. When it seemed no more than a hundred or so yards away, I started running.

A few minutes later I was down on the beach again, but with some friends. One of the 'stars', the one which hadn't moved, moved straight up and out of sight. The star that had charged me was back in its original position but it was jumping all around. Farther south from where we were, another 'star' appeared but it didn't do much.

As a crowd gathered on the beach, the 'stars' did less and less jumping around. Finally, as the crowd was leaving, I noticed another 'star' coming in from the north at about the speed that a satellite appears to move at from earth. I called to the crowd and pointed it out to them and immediately after this, the 'satellite' shot straight up at an unbelievable speed and was out of sight in a fraction of a second.

After this, very little happened and, finally everyone, including me, left.

The 'stars' seemed to be flashing lights of red, blue, yellow, and green. There was no engine sound at all that ~~was~~ I could tell,
