to all  
to investigate

One of my ~~incident~~<sup>3</sup> sightings is related to a story written by a doctor in a current magazine where I saw a low flying unidentifiable object (A string of orange lights) land in a field ~~being~~ 10 blocks from me. I got there as fast as I could and when I got there there was a circle of flame in this field. It was in the suburbs of a large city surrounded half by forest. This was quite a while ago though.

Dear Sir,

I noticed in a magazine that it listed things to do if you see a U.F.O. Having worked for two school papers and ~~two~~ two Institution papers I have learned to write both sides to a controversial subject. Well anyway to report the incident, About a month ago I was walking alone through a deserted park and something caught my attention to make me look up at the sky and just like that something appeared. At first I thought it was a falling star but it was real low and large, then I thought it was an airplane since I live near an airport but it was going much to fast for an aircraft and all of ~~as~~ a sudden dissa peared. I do have glasses and was not wearing them at the time, they are only for reading. I thought of it being a satellite but why would it be so low going so fast and dissa pearing. It is also true that a couple of weeks later a person I know told me about something he saw from the same place in the park before I told him of my incident. He said a large red light went in a direction like a square and dissa peared in the sky. This incident is the third I have seen and cannot explain. Thank You for your time.

~~Minneapolis, Minnesota~~  
55407

Sincerely,

(More Info. on Back)
