1. DATE - TIME GROUP 25 Dec 66 1100Z	2. LOCATION Monroe, Oregon
3. SOURCE Civilian & Military	10. CONCLUSION Unidentified
4. NUMBER OF OBJECTS 3	
5. LENGTH OF OBSERVATION 90 minutes	11. BRIEF SUMMARY AND ANALYSIS
6. TYPE OF OBSERVATION Ground Visual	Observers watched 3 round shaped objects for approximately 90 minutes. Each object was about the size of an automobile. When the objects stopped they shut off their motors, and appeared as three bright reddish-orange colored lights. At the beginning of the sighting there was a blast and one witness was pushed back against his car. There was also a vapor from the objects. After the observers got home they got their three children up to see the objects. All watched the objects for about an hour and then they went to bed; the objects were still there when the witnesses stopped watching.

- a. Sound *Like a screaming deard but 10 times as loud*
 b. Color *When hovering over us like Reddish yellow glow*

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

There were three objects Each one about the size of a automobile

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One)

Yes

No

IF you answered YES, then what speed would you estimate?

*from dead stop to 300 ft. hundred
feet up? Top of about 2 sec. to
maneuver into place & shut off motors*

21. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

No

IF you answered YES, then how far away would you say it was?

*when we stopped by the side
of the road they were about 60 ft from
us. when up in the air about 3 to 4
hundred feet up in the air*

22. Where were you located when you saw the object?

(Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane (type)
- e. At sea
- f. Other *was outside car. (back of it)*

24.1 What direction were you moving? (Circle One)

a. North

c. East

e. South

g. West

b. Northeast

d. Southeast

f. Southwest

h. Northwest

24.2 How fast were you moving? *Stopped* miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

Yes

No

25. Did you observe the object through any of the following?

- a. Eyeglasses Yes No
- b. Sun glasses Yes No
- c. Windshield Yes No
- d. Window glass Yes No

- e. Binoculars Yes No
- f. Telescope Yes No
- g. Theodolite Yes No

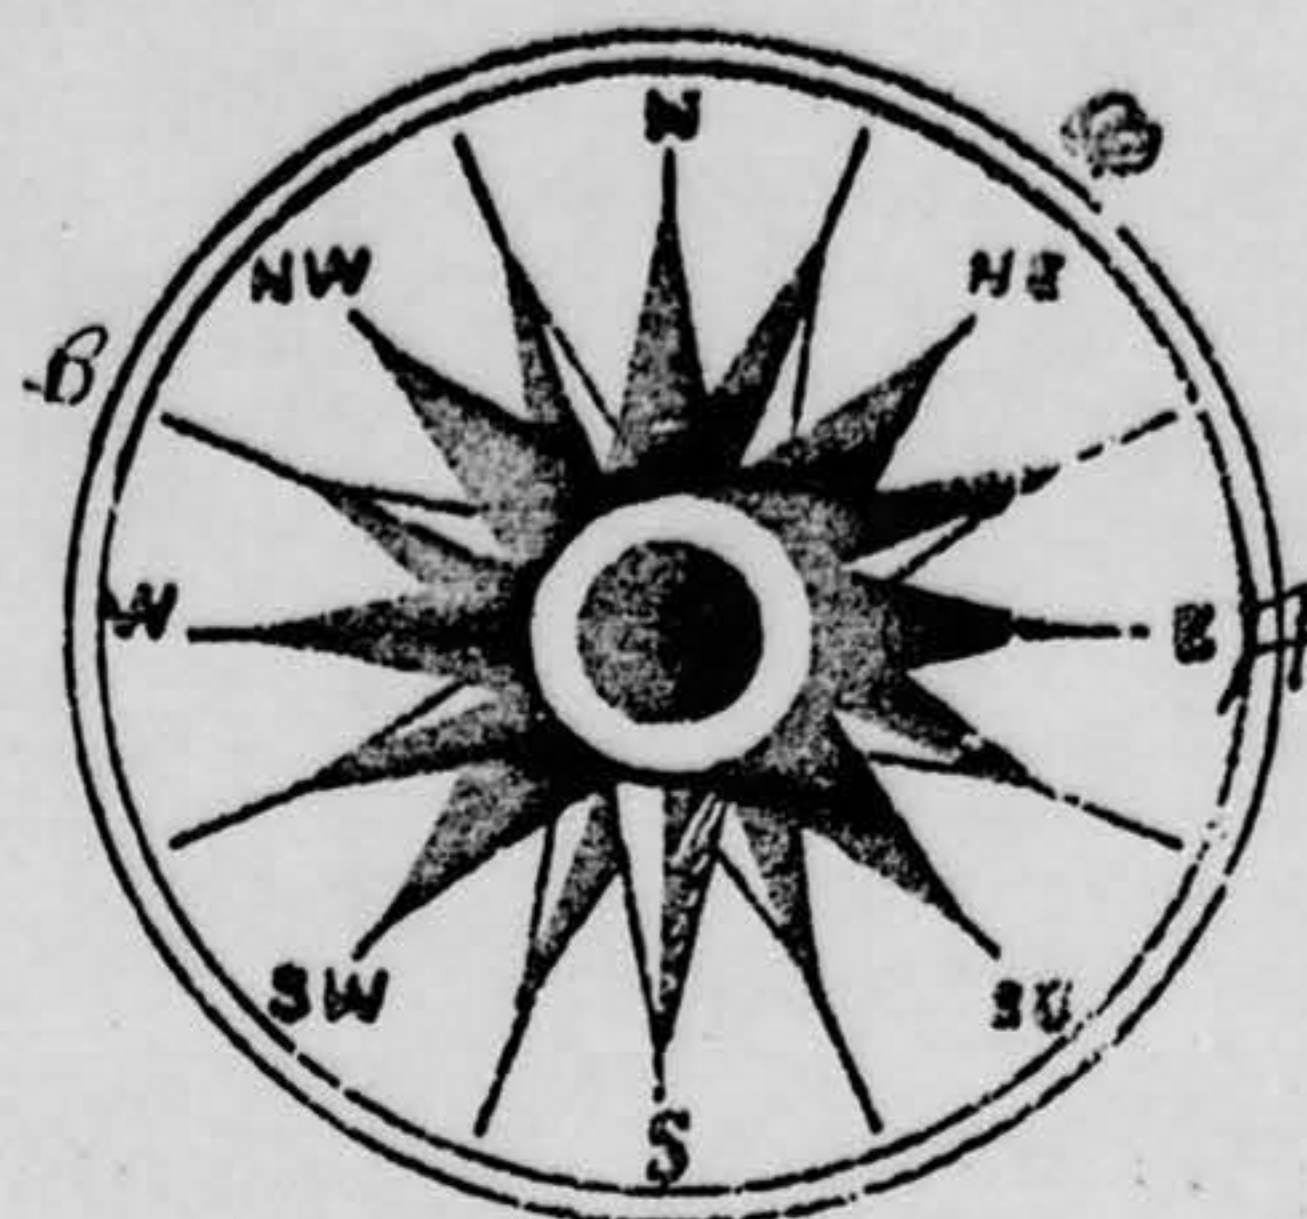

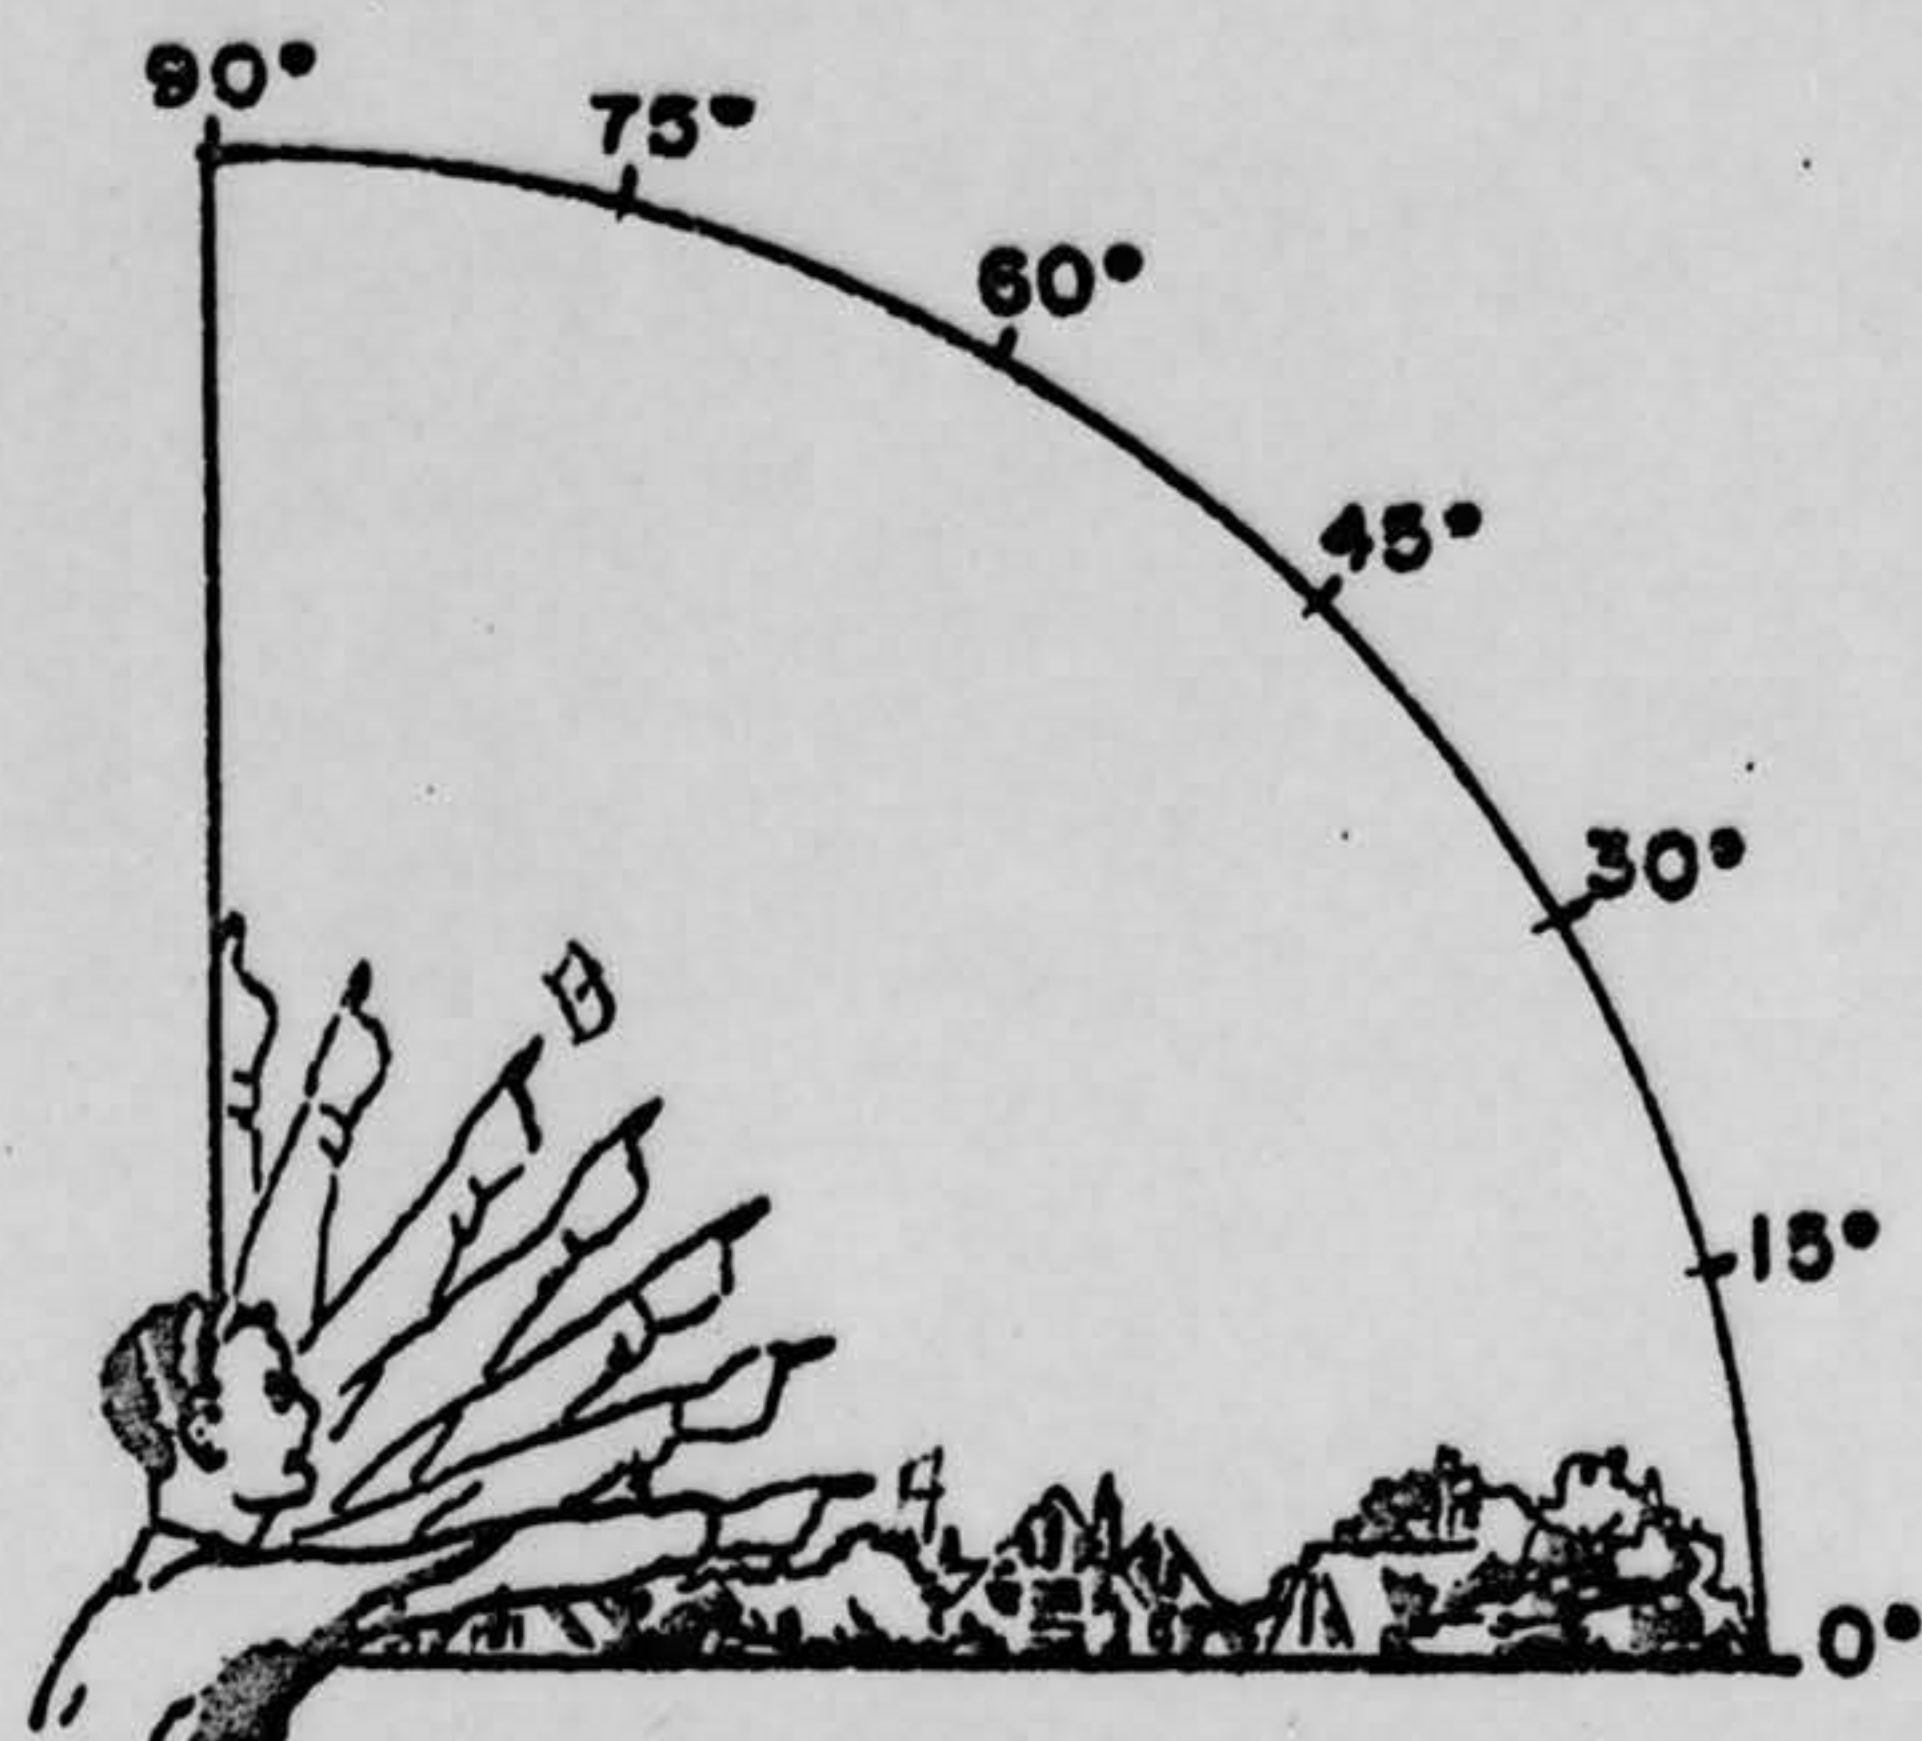

h. Other *when we got home about 12 miles
away we watched them from kitchen window*

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw

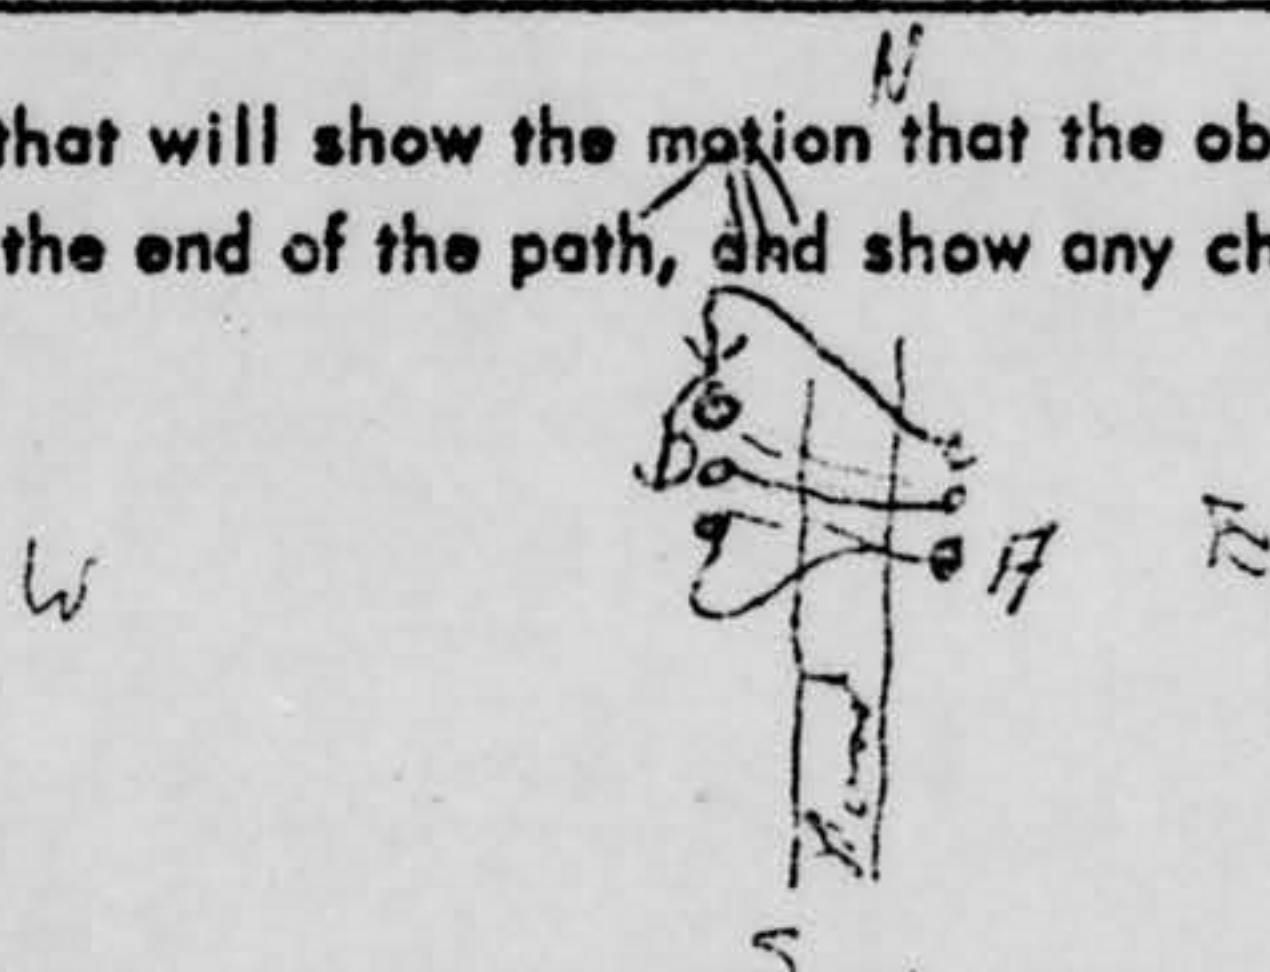

a Bright street light only much brighter

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you last saw it. Place an "A" on the compass when you first saw it. Place a "B" on the compass where you last saw the object.

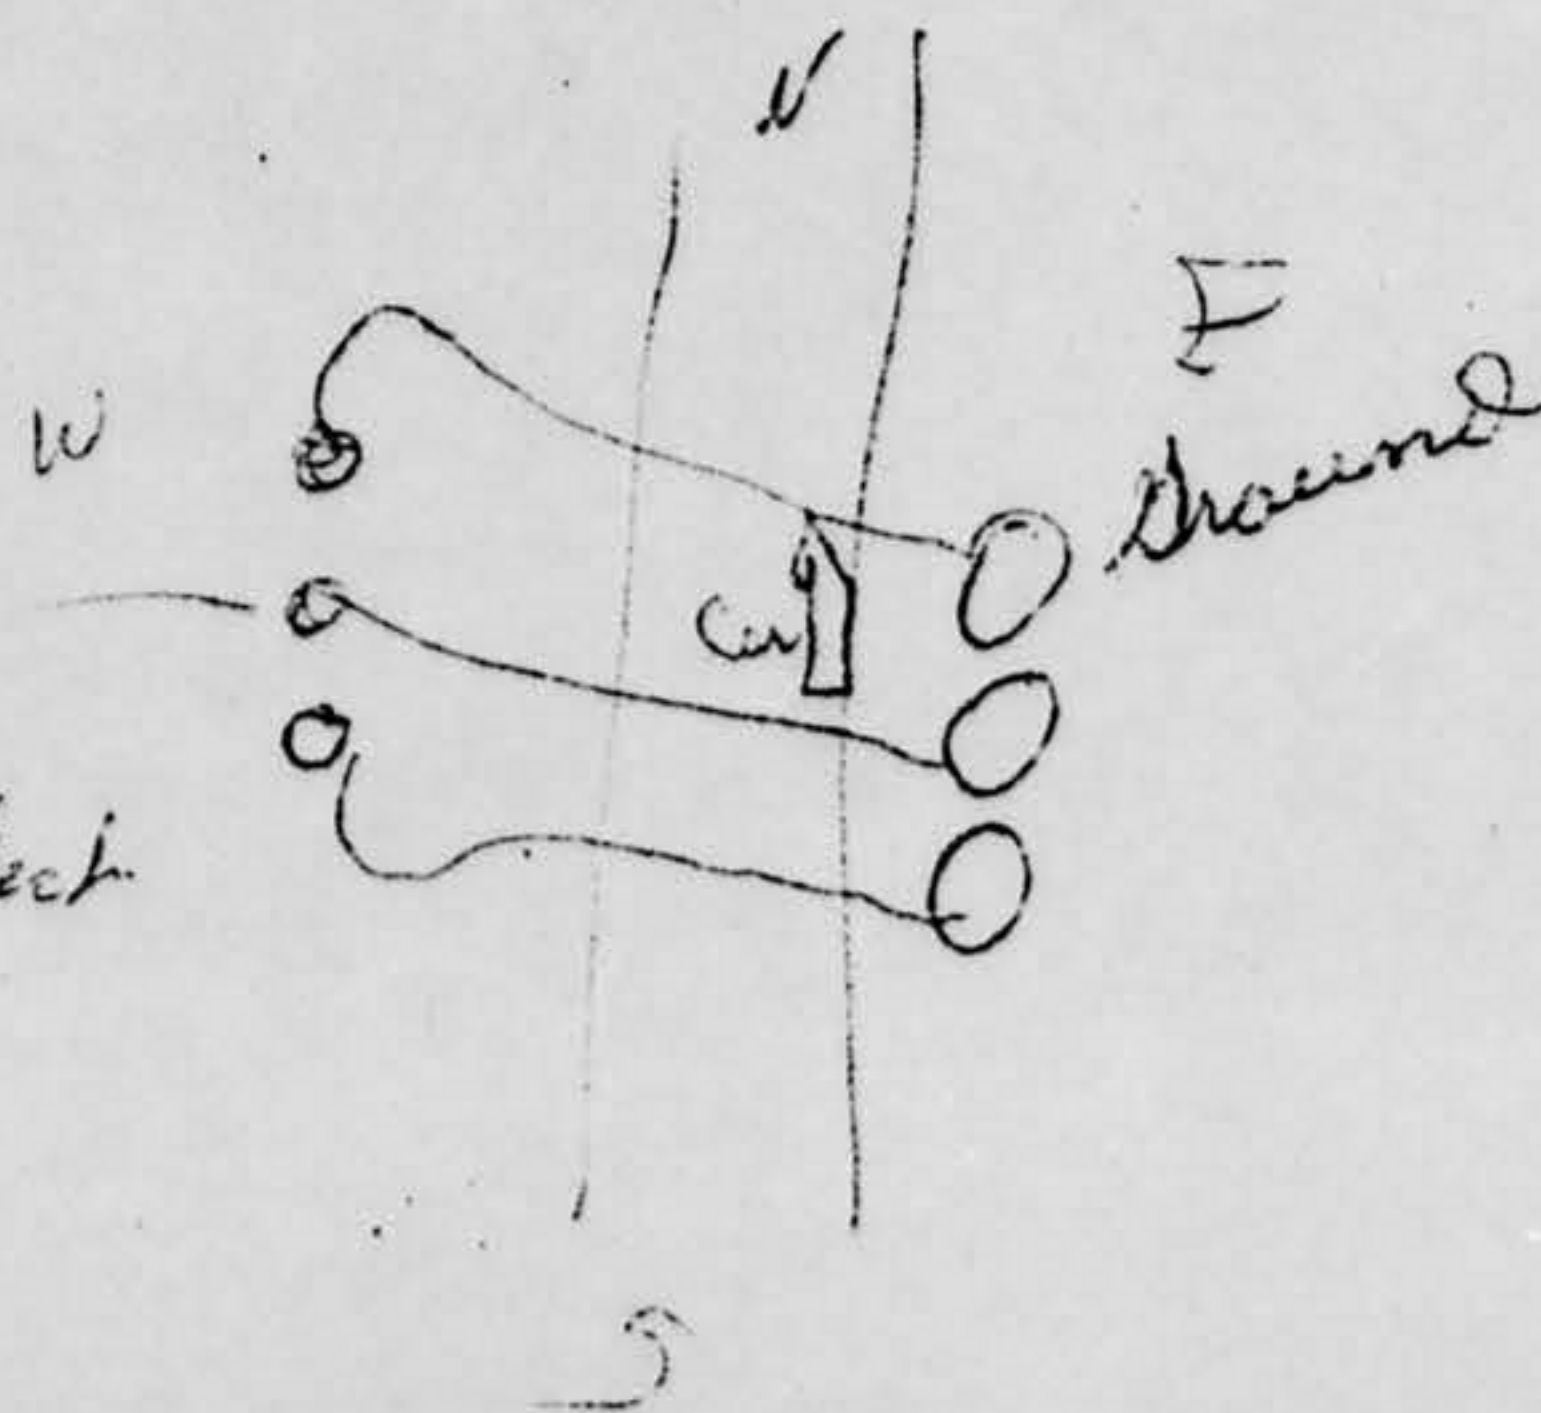

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? 3

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

this one stopped & the two
other ones. Circled & came in
& lined up N & S, in a perfect
row.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

No

31. Was anyone else with you at the time you saw the object? (Circle One)

Yes

No

31.1 IF you answered YES, did they see the object too? (Circle One)

Yes

No

My wife & I were going north on Territorial Road south of Maricao about 4 miles, my wife got sick so I stopped, she opened her door & I got out of the car to go around & see if I could help her, there was a blast & then everything got light, I was pushed back over the trunk of the car & my wife's door was pushed back against her. we saw three streaks like vapor going over us & west. One stopped & the two others circled & lined up in a straight row N. & S. ~~When~~ when they stopped all we could see was three lights reddish orange. When they were circling we could see the lights & that was all. it was pitch dark. it had been misting but at that time it wasn't. The blast wasn't hot just like a blast of moderate air. Then motors were of a screaming deard so still my ears hurt for quite some time, then when they stopped they shut off the motors & everything was quite I heard my wife screaming so I got in the car & turned off, they followed us about 1 1/2 miles then they stopped. my wife watched them from the car as we drove down the road. they stayed in the same place. when we got home we woke up the children & they got up & went out & watched for about 10 min & we went back into house & kids went to bed. I watched from our kitchen window until 4:30 & went to bed. they were in same place. could see their plane from house although they were about four miles away - (hope this helps you in your study for im interested now)
