

PROJECT 10073 RECORD

1. DATE - TIME GROUP 6 Jan 67 7/0416Z	2. LOCATION Oakland, California	①
3. SOURCE Civilian	10. CONCLUSION Possible (AIRCRAFT)	
4. NUMBER OF OBJECTS 5-7		
5. LENGTH OF OBSERVATION None Stated	11. BRIEF SUMMARY AND ANALYSIS	
6. TYPE OF OBSERVATION Ground Visual	Object appeared to be a light. Observer stated that the object was the same brightness as the brightest star. Brightness was compared to the amber light in stop signals. Edges of object appeared solid outlined oval shaped. Object disappeared to the NE out of sight. Object had no distinct sound of its own. Color: golden, pinkish. WITNESS HAS SEEN SEVERAL UNUSUAL THINGS LATELY. THE DESCRIPTIONS ARE CONSISTENT WITH THAT OF AIRCRAFT OBSERVATIONS. "FLYING BOXCARS" HAVE TWIN TAILS.	
7. COURSE E-NW		
8. PHOTOS ☐ Yes ☒ No		
9. PHYSICAL EVIDENCE ☐ Yes ☒ No		

FORM

FTD SEP 63 0-329 (TDE) Previous editions of this form may be used.

14. Did the object disappear while you were watching it? If so, how?

they went in a NE direction beyond my vision

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't Know.

IF you answered YES, then tell what

it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't Know.

IF you answered YES, then tell what

in front of: _____

17. Tell in a few words the following things about the object:

a. Sound NONE

b. Color GOLDEN PINKISH

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

They were 3 times the size of the stars in the Big dipper

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

*NO Wings, tails
they appeared 1st in round shape
during flight they looked oval
shape*

20. Do you think you can estimate the speed of the object?

(Circle One)

Yes

No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

No

IF you answered YES, then how far away would you say it was? 20 to 30 thousand feet

22. Where were you located when you saw the object?

(Circle One):

a. Inside a building

b. In a car

c. Outdoors

d. In an airplane (type)

e. At sea

f. Other _____

23. Were you (Circle One)

a. In the business section of a city?

b. In the residential section of a city?

c. In open countryside?

d. Near an airfield?

e. Flying over a city?

f. Flying over open country?

g. Other Hospital + Medical Section where we live

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North

c. East

e. South

g. West

b. Northeast

d. Southeast

f. Southwest

h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

Yes

No

25. Did you observe the object through any of the following?

a. Eyeglasses

Yes

No

e. Binoculars

Yes

No

b. Sun glasses

Yes

No

f. Telescope

Yes

No

c. Windshield

Yes

No

g. Theodolite

Yes

No

d. Window glass

Yes

No

h. Other _____

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

I wish I knew just what I saw. They appeared round then appeared oval. ○ ○ this about what I saw

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

*They made a vertical climb, level off
then some went through a up + down
maneuvers*

29. IF there was MORE THAN ONE object, then how many were there? 5 to 7
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

See page inclosed

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

yes

See other pages enclosed
Jan 6 1967 Time 9:10 to 9:16 P.M.

31. Was anyone else with you at the time you saw the object? (Circle One)

Yes

☒ No

31.1 IF you answered YES, did they see the object too? (Circle One)

Yes

☐ No

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NAME

Last Name

First Name

Middle Name

ADDRESS

Street

City

Zone

State

TELEPHONE NUMBER

AGE

SEX

Indicate any additional information about yourself, including any special experience, which might be pertinent.

NONE

33. When and to whom did you report that you had seen the object?

NICAP

Day

Month

Year

34. Date you completed this questionnaire:

5 May 1967
Day Month Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

*see enclosed
papers with this*

6 Jan 67
Oakland, Calif.

FIRST SIGHTING OF UFO'S

A/C (possible)

Observer has seen several unusual things as of late. The descriptions are consistent with that of an aircraft sightings.

Jan, 6 1967 time 9:10 to 9:16 PM Pacific standard time

I was looking at the stars in the west, spotted a dark place in the sky, with out any stars. I stared at that spot and finally saw 2 dim golden stars. There light became brighter, using our binoculars (7x15x35 BCFC) I looked at them thinking what a beautiful golden color, when they slowly started to move apart. I put down the binocular, stared, put on my glasses, and stood with my mouth hanging open. I just could not beleive what I was seeing.

Log-Air
Aircraft
are
commonly
referred to
as the
flying
saucer -
These A/C
have twin
tails.

⑤ first seen in this postion West North

⑤

⑤

this is approx. distant they went apart

⑤

They just disappeared deep into space from the last postion.

Mrs. [REDACTED]

Oakland, Calif. 94609

SECOND SIGHTING

The second week of Jan 1967 about 9:30 PM I heard and felt something big go over our house. I went out on our front porch, which is 30 feet above the street level and had the shock of my life. There was a light pattern in the sky the likes of nothing I have ever before.

② emerald green
lager than red lights

white light
about here

② ② ② ②

The white light appeared to be under the craft, and loud roar or humming of some kind. IT WAS HUGE AND MOVED SLOWLY AT 800 to 1000 feet.

Oakland hills are 1,500 feet, it was well below that. I watch it go toward the Oakland hills NE, halftor a third of the way to the hills, it tip or appeared to do so, I got the impression it might be round, because of the light gray curved lines I saw; the craft was dark in color. At that hight, I should have seen, A TAIL AND Wings but none were to be seen. The tringle of red lights stayed pretty much in a horizontal position.

To the south was a strotoliner about 3,000 feet heading SW and going East by North was a fan jet about 2,000 feet, all three craft were in my line of vision.

I kept telling my self ITS A TWO TAIL AIR CRAFT, but I still do not know what I saw.

SECOND SIGHTING

page 2

I took me three week to get up enough courage to call the Alameda Navel Air Station. They told me I should have reported it when I first saw it. They could not identify what I saw, I talked to one of the pilots and he gave me information about the lighting of the craft there, but was puzzled at what I had seen.

I then called Hamilton Air Base---I just didnt get anywhere there, I got tired of asking for a investistor, or some one who could help me indentify what I saw,, after talking to six different offices I gave up.

In the Bay area there are.

Navel Air Station

Oakland Air Port

San Fransico Air Port

Hamilton Air Base

Travis Air Base

These Air Station and
commetical planes are all
with in approx. 45 mile
radius

There is a good possibly what I saw was 1940 or thereabouts Sea Plane, being flown in over this area to go to Vietnam.

mention that some two tail air craft were being taken out of retirement and put into service, but would not give me any other information.

Third Sighting

Oakland, Calif. March 12, 1967

Time, approx 8:00 PM Pacific standard time

Five to Seven UFO's

Round when coming out of clouds, leveling off they looked oval

Color, golden pinkish

Sound, none

altitude, unknown, but I guess about 20 to 30 thousand feet

Speed of flight,

They came out of the clouds at fast clip, did a sight pause, did some fast scrambling, both in vertiable and horizontal postions

SIZE OF UFO'S

Three times the size of the big dipper stars

On March 12th between the hours of 7:30 to 9:30 the Big Dipper was in North East.

There was a cloud bank on the Oakland hills in the East which was quite high up in the sky. I had been checking the big dipper and as I looked down to the last star in the handle, the cloud bank was some distance from that star, up they came. see map of flight

appeared round
when coming out of
clouds clouds

MARCH 12, 1969

I have not drawn this to scale
because I don't know the right
sizes of everything, but that's
what I saw.

3rd sighting

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

12 March 1967
Day Month Year
Sunday

2. Time of day:

Hour Minutes

(Circle One): A.M. or P.M.

about 8:00 P.M.

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

[REDACTED]

Nearest Postal Address

in front of the house at
Oakland Calif 94609

City or Town

State or County

5. How long was object in sight? (Total Duration)

Hours

Minutes

Seconds

a. Certain

b. Fairly certain

c. Not very sure

d. Just a guess

5.1 How was time in sight determined?

5.2 Was object in sight continuously?

Yes X No

6. What was the condition of the sky?

DAY

a. Bright

b. Cloudy

NIGHT

a. Bright

b. Cloudy

over the Oakland Hills

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right

d. To your left
e. Overhead
f. Don't remember

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- ☒ b. A few *Big Dipper*
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight - pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy
- ☒ c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- a. Solid
- b. Transparent
- c. Vapor
- ☒ d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
- b. Dimmer
- ☒ c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

Like the amber light in stop signals

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
 - ☒ b. Like a bright star
 - ☒ c. Sharply outlined
 - d. Don't remember

e. Other

They appeared solid outline oval shape

13. Did the object:

(Circle One for each question)

- | | | | |
|---|--------------------------------------|-------------------------------------|------------|
| a. Appear to stand still at any time? | ☒ Yes | No | Don't know |
| b. Suddenly speed up and rush away at any time? | ☒ Yes | No | Don't know |
| c. Break up into parts or explode? | Yes | ☒ No | Don't know |
| d. Give off smoke? | Yes | ☒ No | Don't know |
| e. Change brightness? | Yes | ☒ No | Don't know |
| f. Change shape? | Yes | ☒ No | Don't know |
| g. Flash or flicker? | Yes | ☒ No | Don't know |
| h. Disappear and reappear? | Yes | ☒ No | Don't know |
