

PROJECT 10073 RECORD

1. DATE - TIME GROUP 10 Feb 67 11/0115Z	2. LOCATION Wilsonville, Alabama (1 Witness)
3. SOURCE Civilian	10. CONCLUSION AIRCRAFT
4. NUMBER OF OBJECTS 1	No data presented to indicate object could not have been an aircraft
5. LENGTH OF OBSERVATION 10 Minutes	11. BRIEF SUMMARY AND ANALYSIS Object moved in a straight path. The color of object was a bright red at all times. Object started blinking. When it blinked it got dimmer.
6. TYPE OF OBSERVATION Ground-Visual	
7. COURSE SE - NE	
8. PHOTOS ☐ Yes ☒ No	
9. PHYSICAL EVIDENCE ☐ Yes ☒ No	

FORM
FTD SEP 63 0-329 (TDE) Previous editions of this form may be used.

PROJECT 10073 RECORD

20. Do you think you can estimate the speed of the object?

(Circle One)

Yes

No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

No

IF you answered YES, then how far away would you say it was? about 2 miles away

22. Where were you located when you saw the object?

(Circle One):

a. Inside a building

b. In a car

c. Outdoors

d. In an airplane (type)

e. At sea

f. Other _____

23. Were you (Circle One)

a. In the business section of a city?

b. In the residential section of a city?

c. In open countryside?

d. Near an airfield?

e. Flying over a city?

f. Flying over open country?

g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North

c. East

e. South

g. West

b. Northeast

d. Southeast

f. Southwest

h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

Yes

No

25. Did you observe the object through any of the following?

a. Eyeglasses

Yes

No

e. Binoculars

Yes

No

b. Sun glasses

Yes

No

f. Telescope

Yes

No

c. Windshield

Yes

No

g. Theodolite

Yes

No

d. Window glass

Yes

No

h. Other nothing

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

A bright light with some red and blue colors

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

31. Was anyone else with you at the time you saw the object? (Circle One)

Yes

No

31.1 IF you answered YES, did they see the object too? (Circle One)

Yes

No

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NAME [REDACTED] [REDACTED] [REDACTED]

Last Name

First Name

Middle Name

ADDRESS [REDACTED] W. Smith [REDACTED] Alabama

Street

City

Zone

State

TELEPHONE NUMB. [REDACTED] AGE 12 SEX male

Indicate any additional information about yourself, including any special experience, which might be pertinent.

I have seen about 4 or 5 other UFO's that were not any natural happening

33. When and to whom did you report that you had seen the object?

12 2 1961

Day

Month

Year

34. Date you completed this questionnaire:

~~25~~ 21

Day

Month

Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

Q10. It did not turn out like some light but seemed to have been a solid object.

#1 One of my sightings was February 10th. I saw it around 7:00 PM. The UFO was sphere shaped. It was a red luminous body. I first saw it in the south east. It was approx 5° above the horizon. It was as bright as Sirius and 3 times as large as Venus. I barely made out a faint white light in the rear of the ~~was~~ UFO. I only saw the white light in the rear for the first few minutes. About the time it got in the east it started pulsating. When it started pulsating it was about 8° above the horizon. It kept on going toward the north. When it was in the north it was a little lower than at first about 1° lower. All the time I saw it it got dimmer little by little. What called my attention to it was its size, bright red color, and brightness. There was no sound. I saw it for about 15 minutes. There was no vapor trail, tail, or exhaust. It pulsed about once a second.

Send
164

#2 The other one was about on Feb. 10.
There was approx. 12. They were first

sighted in the south-west. They were black and ^{twice} as large as Sirius. They were flying in a formation like this  They weren't flying very fast. They made no noise. They kept the same formation all the time I watched. It I saw them for about 30 seconds. When they got in the west I went to get my camera. When I got back it was gone. They weren't more than 100 yards away. They were about 5° above the horizon. They were perfect spheres. What caught my attention to them were their area.

There was no sound, vapor trails, tails, or exhaust.

#3 They were ~~seen~~ seen early in 196. There was ~~no~~ sound. They weren't more than 100 yds. away. They were first seen when

they seemed to have broken off from a dive.
At first they were ~~about~~ about 200 ft high.
I first saw them in the east. At first
they seemed to hover for 3 seconds. Then
they speeded off fast toward the south
about 400 ft high and 70° above the horizon.
They were in a triangle formation. $\therefore \rightarrow s$
There was a humming noise. They were
about twice as large as Sirius. When
they headed south I think was when
they started humming. There wasn't
any vapor trails, ~~tail~~ tails, or exhaust.
They were gray.

~~They were~~

AFTER 5 DAYS RETURN TO

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

10 Day 2 Month 1967 Year

2. Time of day: 7 Hour

15 Minutes (approx)

(Circle One):

A.M.

or

P.M.

3. Time Zone:

(Circle One):

a. Eastern

b. Central

c. Mountain

d. Pacific

e. Other #

(Circle One):

a. Daylight Saving

b. Standard

4. Where were you when you saw the object?

Wilcoxville
Nearest Postal Address

Wilcoxville
City or Town

Shelby County, Ala
State or County

5. How long was object in sight? (Total Duration)

Hours

10 Minutes

3 Seconds

a. Certain

b. Fairly certain

c. Not very sure

d. Just a guess

5.1 How was time in sight determined? By comparing with clock

5.2 Was object in sight continuously?

Yes _____

No _____

6. What was the condition of the sky?

DAY

a. Bright

b. Cloudy

NIGHT

a. Bright

b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One):

a. In front of you

b. In back of you

c. To your right

d. To your left

e. Overhead

f. Don't remember

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
b. A few
c. Many
d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

12. The edges of the object were:

(Circle One):

- a. Fuzzy or blurred
- b. Like a bright star
- c. Sharply outlined
- d. Don't remember

e. Other

13. Did the object:

(Circle One for each question)

- Appear to stand still at any time?
- Suddenly speed up and rush away at any time?
- Break up into parts or explode?
- Give off smoke?
- Change brightness?
- Change shape?
- Flash or flicker?
- Disappear and reappear?

Yes

 $\frac{7}{10}$

Don't know

14. Did the object disappear while you were watching it? If so, how?

It disappeared to the left and then it came back and disappeared again.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes ☐ No ☒ Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes ☐ No ☒ Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound *at all the observations no sound was heard.*

b. Color *it was a bright red all the time.*

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

At max. size it was about two times as large as the match head. I did not perform the experiment. At min. it was about the size of the match head.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.
