(Circle One): Yes ☒ No Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound None AT ALL that could be heard

b. Color red with colors of spectrum

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

ALL of the object would of been covered, but they are both about the same size.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

THIS QUESTION IS NOT CLEAR TO THE SIZE TO WANT SO I'LL ACT ACCORDINGLY

BLACK UP

ONE SIDE would be black (or turned off) WHILE the other side was red. As soon as one side would go off it would go through various colors of the spectrum.

Actual size

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

In the evening of February 12th, [REDACTED]
 and I walked out on the fire escape of the building where I
 work. Something very bright caught our eye and we looked
 up and saw what I have described in this form. We looked
 at it for about 30 seconds to one minute then we walked
 the rest of the way from my section to see it. It changed
 from two overlapping light lights to one about like it was,
 and it started moving away very quickly, while doing so
 made many different movements and zig zags until it
 was out of sight. When I first saw the object it was
 almost straight up and stopped a moving very, very
 slowly. We could tell very easily that it was
 changing its speed.

I swear that the above is true to the best
 extent that I can see with my own two eyes.
