The object moved in from the east when we saw it first and stopped. That's when we could see the silver dome on it. I got about Thousand feet up from the ground and made about $\frac{1}{2}$ or $\frac{1}{4}$ circle and moved off slowly to the south until it went out of sight.

It stopped approximately 1 minute. It was clearly visible and the bottom part was really glowing.

It looked as if it stopped approximately over Ent Air Force Base. I was about one mile from the Base when we observed the V.F.O.
