Memo for the Record: 13 March 67

Received call from Civil Defense director at Ashland, Kentucky reporting a UFO which was observed by Mrs. Georgia Elliot of Greenup, Kentucky. 41144

Call to Mrs. [REDACTED] revealed the following description of the sighting:

At 1930 hours the witness observed a star like object coming from the northern sky. The object traveled slowly toward the west and hovered there for several minutes, before disappearing. An aircraft was seen and traveled toward the west. As the plane got close to the UFO the lights on the UFO went out and never reappeared during the next several minutes. The adult witness only saw the object in the western sky. Her daughter saw it coming from the north star, so the adult witness figured the UFO must have come from the north. The object was brighter than the stars. The center of the UFO was just like a star, but the outside edges were white and blue. It looked like the object had spheres on the outside. The witness said that she heard a light humming sound.
