Dear Sirs,

I am 12 years old and have read many books on UFOs and would like to further ~~(them)~~^(study) study them. I have had the following experiences.

① Monday, March 20, 1967, while stepping outside our front door facing south, I saw 2 lights appear in front of me that looked exactly like this; ~~_____~~ The 2 lights were visible only about 2 seconds because of their fantastic speed. The 2 lights were from West to East. ~~(This)~~ This could have been a reflection from our front door but it would have nothing to reflect on.

② A few years ago (I do not know the exact date, only that it was in the summer,) my boyfriend and I were watching stars in my back yard when we saw a light going from West to East. At first we ~~(thought)~~ thought it was a jet, but when it was more visible we saw that it was a fireball, it looked something like this; ~~_____~~
(but bigger)

Flames were shooting all over the fireball and sheets of fire were also seen. When it looked as if it were over our house it made a 90° turn and ~~(dis)~~ disappeared. It was visible for about 20 seconds. I can not remember if any sound was made.

I would appreciate it if you would send me a copy of Project Blue Book if it is possible. You do not have to check into these sightings because I do not think they are too good.

Yours truly

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

It would look like a marble that was very bright, streaking across the sky with a vapor trail that would disappear almost immediately.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? 2
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

I once saw a huge Red ~~and~~ and white fireball.
I do not know anything else because I thought it was a comet.

31. Was anyone else with you at the time you saw the object? (Circle One)

☒ Yes

☐ No

31.1 IF you answered YES, did they see the object too? (Circle One)

☐ Yes

☒ No

31.2 Please list their names and addresses:
