UFO REPORT

craft later
No indication of
flight characteristics or
how long object was
in sight

25 March 67
Pelion Rapids, Minn.
26/0400Z

1. Description of the object:

- a. Shape Saucer see attached drawings
- b. Size compared to a known object 20 to 30 feet in diameter
- c. Color yellow, orange, light blue, and blue
- d. Number Several
- e. Formation if more than one Unk
- f. Any discernible features or details See attached drawings
- g. Tail, Trail, or exhaust, including its size Neg.
- h. Sound None
- i. Other pertinent or unusual features One large saucer and several smaller ones.

2. Description of course of object:

- craft*
- a. What first called the attention of observer to the object? Unk
 - b. Angle of elevation of object and azimuth of object when first observed?
Unk
 - c. Angle of elevation of object upon disappearance Unk
 - d. Description of flight path and maneuvers of object (elevations in azimuth, not altitude) Altitude varied from 50 to 500 feet high.
 - e. How did the object disappear? Unk
 - f. How long was the object visible? Unk

3. Manner of observations:

- a. Method of observation (ground-visual, air-visual, radar etc.) Visual
- b. Statement as to optical aids (telescopes, binoculars) None
- c. If the sighting occurred while airborne, give type of aircraft, identification, altitude, heading, speed, and home station. N/A

4. Time and date of sighting:

- a. Greenwich date-time group of sighting and local time 25 March 67
2200 Local 0400 Z

- b. Light conditions (day, night, dawn, dusk) Night
5. Location of observer (position with reference to a known landmark) Pelican Rapids, Minnesota
6. Identifying information on observer:
- a. Civilian: Name [REDACTED] Age 39 Mailing address [REDACTED] St N. E. Minneapolis, Minnesota 55414
Occupation Laundry worker Education Illiterate
Estimate of reliability Unk
- b. Military: Name N/A Grade
Organization
Duty Estimate of reliability
7. Weather and winds-aloft conditions at time and place of sightings:
- a. Observer's account of weather conditions Unk
- b. Report from nearest AWS of US Weather Bureau Office of wind direction and velocity in degrees and knots at surface, 6,000; 10,000; 16,000; 20,000; 30,000; 50,000; and 80,000 feet, if available. Unk
- c. Ceiling Unk Visibility Unk
Amount of cloud cover Unk Thunderstorms in area
and quadrant in which located Unk
- d. Vertical temperature gradient Unk
8. Any other unusual activity or condition, meteorological, astronomical, or otherwise, that might account for the sighting Unk
9. Interception or identification action taken (such action is authorized whenever feasible and in compliance with existing air defense directives)
None
10. Location, approximate altitude, and general direction of flight of any air traffic or balloon releases in the area that might possibly account for the sighting: Unk
12. Position, title and comments of the preparing officer including his preliminary analysis of the possible cause of the sightings: John M. Vlahos Capt., UFO Project Officer Telephone discussion with Mr. Beers, University of Minn. Personnel Officer who hired Norman indicates that Norman is illiterate however he is talented in producing well detailed drawings.
