PROJECT 10073 RECORD

1. DATE - TIME GROUP 2-3 Mar 67 3-6/00302	2. LOCATION Dayton, Ohio 2
3. SOURCE Civilian	10. CONCLUSION Astro(Venus) ✓ Venus was on Az of 270 at an El of 6 deg
4. NUMBER OF OBJECTS One	
5. LENGTH OF OBSERVATION 10 minutes	11. BRIEF SUMMARY AND ANALYSIS Observers on two different watched a bright white light in the western sky. The observers said that the UFO was as large as Venus. Another witness said that the object was like a bright star. On another night the object was reported to be brighter then Venus. There was no motion of the object; it just got bigger and smaller in size. One observer called 13 March 67 to say that what they saw was probably Mars. She had studied the sky charts and now feels she saw the planet Mars.
6. TYPE OF OBSERVATION Ground Visual	
7. COURSE Stationary	
8. PHOTOS ☐ Yes ☒ No	
9. PHYSICAL EVIDENCE ☐ Yes ☒ No	

FORM
FTD SEP 63 0-329 (TDE) Previous editions of this form may be used.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

as Bright as Venus

12. The edges of the object were:

(Circle One)
a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other _____

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know got smaller
g. Flash or flicker?	Yes	No	Don't know like a star
h. Disappear and reappear?	Yes	No	Don't know clouds going over

14. Did the object disappear while you were watching it? If so, how?

Behind a small cloud it went in and didn't come out other side.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): (Yes) No Don't know. IF you answered YES, then tell what it moved behind: a cloud

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what in front of:

17. Tell in a few words the following things about the object:

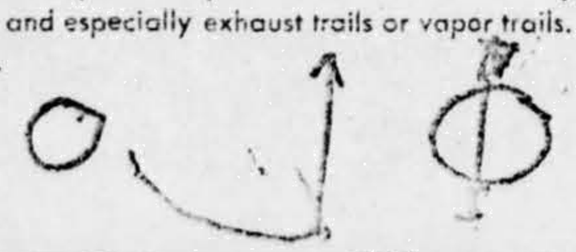

a. Sound

b. Color white

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

five times the size

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

8. If you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight—pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:
a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:
a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

12. The edges of the object were:

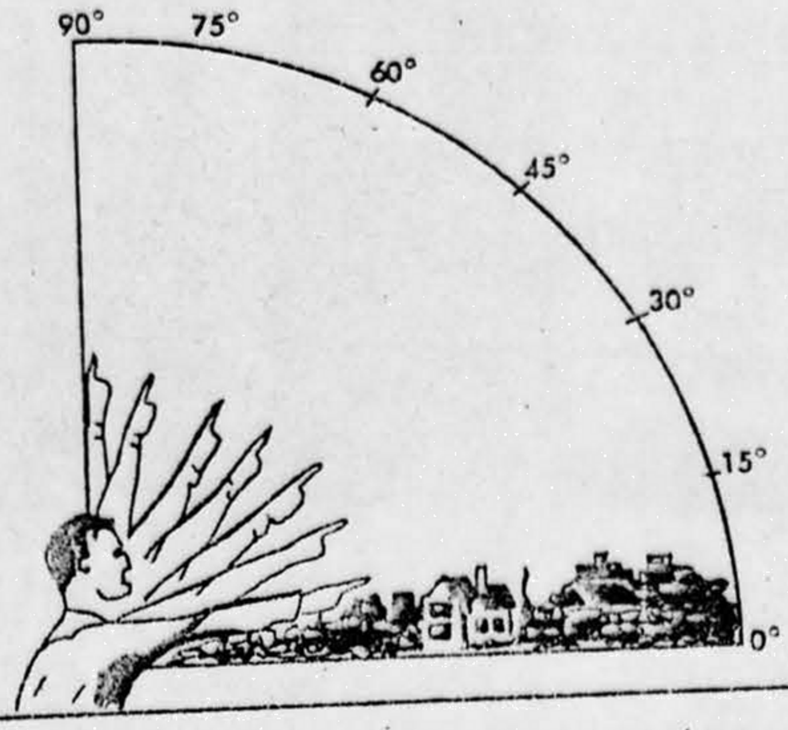

(Circle One): a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other

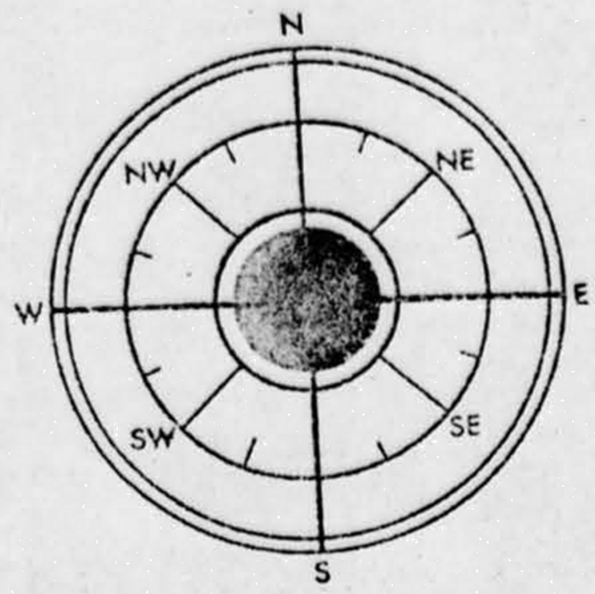

13. Did the object:

(Circle One for each question)

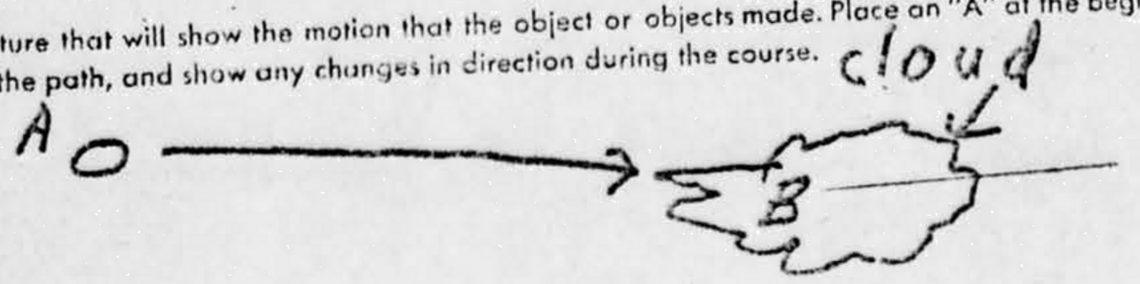

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the ob
was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object
above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the
pass when you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B
the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there?_____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

31. Was anyone else with you at the time you saw the object? *(Circle One)* Yes No

31.1 IF you answered YES, did they see the object too? *(Circle One)* Yes No

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) San diego (City) ____ (Zone) Calif (State)

TELEPHONE NUMBER [redacted] AGE 41 SEX male

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

14 (Day) march (Month) 1967 (Year)

34. Date you completed this questionnaire: 14 (Day) march 1967 (Month, Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

No Case Info only

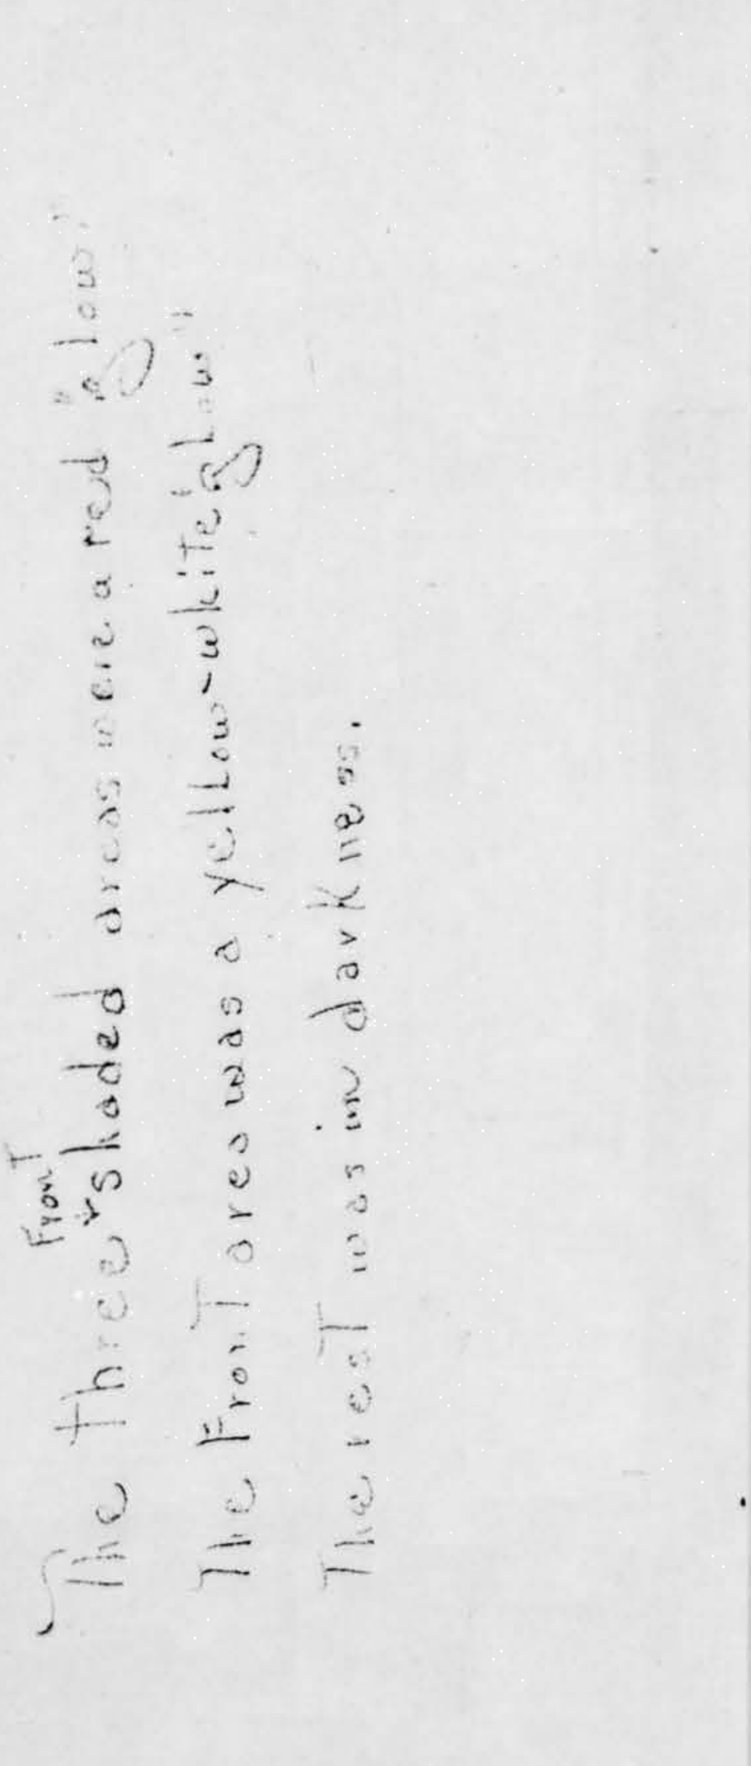

2nd Hand Report

MIKE HERE IS HER ADDRESS

MRS. [redacted]
BENTON HARBOR MICH
PHONE [redacted]

March 15, 1967
Benton Harbor, Mich.

Wednesday, 11-4-64. Between 1:00 and 1:30 AM
The craft was in the South-South-East
Quarter, going to the North.

Going North.

[illegible] was something I had never seen before. The sky

was huge and as I saw the jewel I saw was of [illegible] white

"glow" in color with the red glowing areas. The background

is dark-never. The sound it made was a deep hum.

[illegible] saw a car was coming toward me as I

[illegible]. Upon looking back in the direction I was at that

time.

I've also watched the space programs on

[illegible] but I have not [illegible].

To put this in writing is very difficult. It

is hard to say in words

Thank you

16MAR67 / Possible A/C
DAYTON, OHIO MARCH 18 1967

DEAR SIR.

WHEN COMING TO WORK THURSDAY MORNING, AT 5:30, I SAW WHAT MIGHT HAVE BEEN A U.F.O. I WAS DRIVING DOWN SALEM AVE TOWARDS THE DOWNTOWN AREA WHERE I WORK, I SEEN THIS AIRCRAFT CIRCLING THE DOWNTOWN AREA AS IF LOOKING FOR A PLACE TO LAND, WHILE I APPROACHED THE RED LIGHT ON RIVERVIEW THE AIRCRAFT DRIFTED TO A STOP OVER THE CITY, WHEREAS THE RED LIGHT ON THE AIRCRAFT WENT OFF, AND 2 WHITE LIGHTS CAME ON AT A 45 DEGREE ANGLE IT STOOD STILL FOR ABOUT 2 MINUTES THEN MOVED A LITTLE SOUTH AND STOPPED AGAIN FOR 2 MINUTES WITH ONLY A BRIGHT RED LIGHT ON, AND MOVED AGAIN GOING EAST.

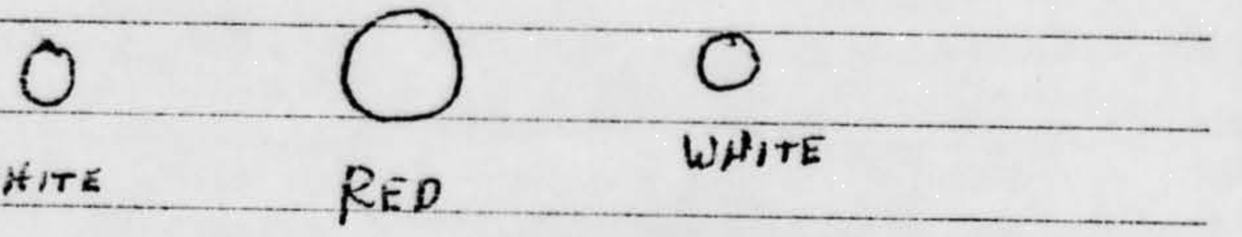

NEXT PAGE

G71-1

19

THE AIRCRAFT WAS VERY LOW TO THE GROUND, APP 300 TO 500 FT. BECAUSE OF DARKNESS I COULD NOT DETECT ANY DIMENSIONS OF THE AIRCRAFT. IT COULD HAVE BEEN A HELECOPTER, IF SO DISREARD THIS LETTER, HOWEVER IT WAS AS LARGE AS AN AIRLINER, AND LOW AS ONLY A HELECOPTER COULD FLY.

AFTER PARKING MY CAR ON SIXTH ST. THE AIRCRAFT WAS FLYING SLOWLY + LOW TOWARDS WRIGHT FIELD LOOKING LIKE THIS FROM A DISTANCE,

CAPT. THOMAS FIORINO
D.O.
1600 16 MARCH, 0715 17 MAR.

send 164

MAJ. Quintanilla,

I received a call from [redacted] Mrs. [redacted] Pike ([redacted]) phone [redacted] at approximately 2115 hrs. Shortly before they called Mrs. [redacted] was on the way home and saw a large, bright, spinning object near her house (she said that she has reported a similar sighting recently). As she entered the driveway the object came closer (at this time the car headlights went out momentarily). She then entered the house and called FTD. I talked to both her and Mr. [redacted] for about five minutes. At this time the object was at tree level behind the house and changing altitude (in more or less strictly vertical motion) frequently. I asked if they had a camera with film and they said no! I also asked if neighbors were home, Mrs. [redacted] checked and said no! I then advised that they call the police and then contact me again. When I had not heard from the [redacted] by 2130 I called them. They said the object was still there, but the police had not yet arrived. At this time I called the Centerville Police Dept. - they confirmed that the Smith's had called and that the Warren County Sheriff was reacting (with camera and film). I called the Smith's back at 2140 and they said the object was still there [illegible] was large, about the size of a small house, and

according to Mr. [redacted] made an indescribably disturbing noise when it came very low]. As we were talking the sheriff's car pulled into the driveway — I asked Mrs. [redacted] if she could still see the object, at that moment she said it had apparently gained alt. and could not ~~be~~ be seen from where she was standing. I stayed on the line while there was a discussion between the [redacted] and Sheriff's representatives. Shortly thereafter Deputy Burlile (he was accompanied by Sgt. Montgomery) came to the phone and said there was nothing in sight and that they had not seen anything unusual on the way over. He said that they were going to make a complete check of the area. I then thanked them for their assistance and terminated the conversation.

20. Do you think you can estimate the speed of the object?

(Circle One) (Yes) No

IF you answered YES, then what speed would you estimate? not stated

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
(c. Outdoors)
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
(b. In the residential section of a city?)
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

a. Eyeglasses	Yes	No	e. Binoculars	Yes	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
d. Window glass	Yes	No	h. Other NONE		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

like Venus or bright star

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

18 (Day) MARCH (Month) 1967 (Year)

2. Time of day: 1600 (Hour) _____ (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): (a. Eastern) b. Central c. Mountain d. Pacific e. Other _____

(Circle One): a. Daylight Saving (b. Standard)

4. Where were you when you saw the object?

[redacted] (Nearest Postal Address) DAYTON 6 (City or Town) OHIO (State or County)

5. How long was object in sight? (Total Duration) 1 (Hours) _____ (Minutes) _____ (Seconds)

a. Certain
b. Fairly certain
c. Not very sure
(d. Just a guess)

5.1 How was time in sight determined? GUESS

5.2 Was object in sight continuously? Yes ✓ No _____

6. What was the condition of the sky?

DAY
(a. Bright)
b. Cloudy

NIGHT
a. Bright
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you (b. In back of you) c. To your right d. To your left e. Overhead f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON? N/A

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*: N/A

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

_____

12. The edges of the object were:

(Circle One): a. Fuzzy or blurred
b. ~~Like a bright star~~
c. Sharply outlined
d. Don't remember

e. Other IT RESEMBLED THE FLASH THAT AN AIRPLANE WING MAKES WHEN REFLECTING THE SUN

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

14. Did the object disappear while you were watching it? If so, how? IT DID NOT DISAPPEAR. IT APPEARED TO BE ROTATING IN ONE SPOT, WITH A [redacted]RFLASH OF LIGHT AS WHEN THE SUN IS REFLECTED FROM AN AIRPLANE WING

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound NONE

b. Color SILVER OR WHITE

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

THE ENTIRE OBJECT WOULD HAVE BEEN COVERED BY THE MATCH HEAD. AS A MATTER OF FACT, THE MATCH HEAD WOULD BE FROM TWO TO FOUR TIMES LARGER THAN THE OBJECT

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One) (Yes) No

IF you answered YES, then what speed would you estimate? O IT WAS STATIONARY, SEEMING TO BE ROTATING SLOWLY

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
(c. Outdoors)
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
(b. In the residential section of a city?)
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One) N/A

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

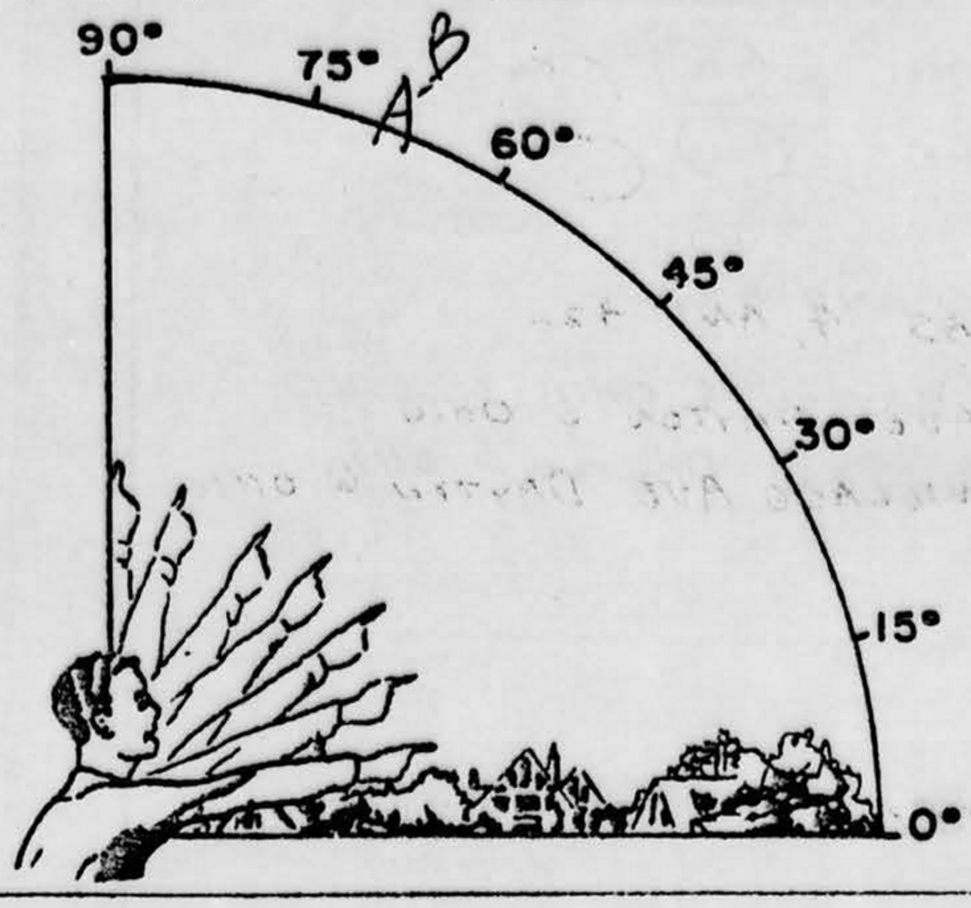

25. Did you observe the object through any of the following?

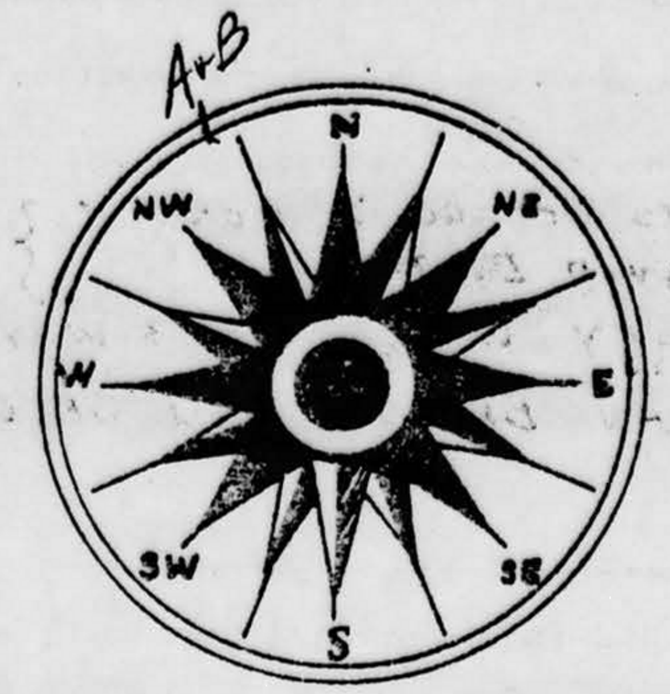

a. Eyeglasses	(Yes)	No	e. Binoculars	Yes	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
d. Window glass	Yes	No	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

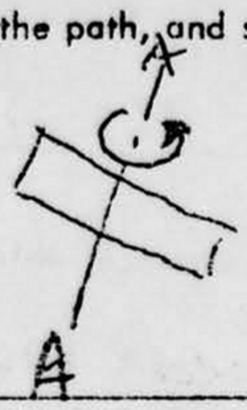

SEE 12 e, 14

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

The object appeared to be rotating about an axis such as A-A. I am not ~~[illegible]~~ sure of the direction of the axis or the direction of rotation.

29. IF there was MORE THAN ONE object, then how many were there? ONE
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

NOT STATIONARY. I HAVE SEEN MOVING AIRCRAFT FUSELAGES AND WINGS REFLECT LIGHT IN THIS FASHION

31. Was anyone else with you at the time you saw the object? (Circle One) (Yes) No

31.1 IF you answered YES, did they see the object too? (Circle One) (Yes) No

31.2 Please list their names and addresses:

MRS [redacted] SAME AS 4. AND 32

[redacted] DAYTON 6 OHIO

[redacted] DAYTON 6 OHIO

32. Please give the following information about yourself:

NAME [redacted] [redacted] [redacted]
Last Name First Name Middle Name

ADDRESS [redacted] DAYTON 6 OHIO
Street City Zone State

TELEPHONE NUMBER [redacted] AGE 50 SEX M

Indicate any additional information about yourself, including any special experience, which might be pertinent.

I HAVE BEEN EMPLOYED IN THE AIR FORCE FOR 30 YEARS

I AM A MECHANICAL ENGINEER, AND ACCUSTOMED TO OBSERVING AND REMEMBERING OCCURRENCES OR BEHAVIOR OF OBJECTS

33. When and to whom did you report that you had seen the object?

'18 MARCH 1967
Day Month Year

34. Date you completed this questionnaire: 25 (Day) MARCH (Month) 1967 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

This object, although appearing to be quite high, could have been a hovering helicopter with the fuselage rotating slowly. It was too high to detect any rotor blades. We did not count the exact number of times it flashed each minute, but it was not a regularly occuring flash which one could anticipate. It is my guess that the flash occured something like six to ten times a minute. Once one lost it, it was very difficult to locate again, since it was pretty small, in a clear blue sky.

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

18 (Day) MARCH (Month) 1966 (Year)

2. Time of day: 1600 (Hour) _____ (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. (Eastern)
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. (Standard)

4. Where were you when you saw the object?

[redacted] (Nearest Postal Address) Dayton (City or Town) OHIO (State or County)

5. How long was object in sight? (Total Duration) MIN. 15 (Hours Minutes) _____ (Seconds)

a. Certain
b. (Fairly certain)
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? Watch

5.2 Was object in sight continuously? Yes X No ____

6. What was the condition of the sky?

DAY	NIGHT
a. (Bright)	a. Bright
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. (Don't remember)

164

FORM FTD OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

20. Do you think you can estimate the speed of the object?

(Circle One) (Yes) No

IF you answered YES, then what speed would you estimate? not stated

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
(c. Outdoors)
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
(b. In the residential section of a city?)
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

a. Eyeglasses	Yes	No	e. Binoculars	Yes	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
d. Window glass	Yes	No	h. Other NONE		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

like Venus or bright star

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

N/A

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*.

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

light

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

12. The edges of the object were:

(Circle One)

a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other _____

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

14. Did the object disappear while you were watching it? If so, how?

No

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound NONE

b. Color Light + dark sides - Sun reflecting off object

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

UNK

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

Looked somewhat like a helicopter, but appeared quite high and if it were fuselage was rotating.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No) relatively stationary

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
c. Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
b. In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One) N/A

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

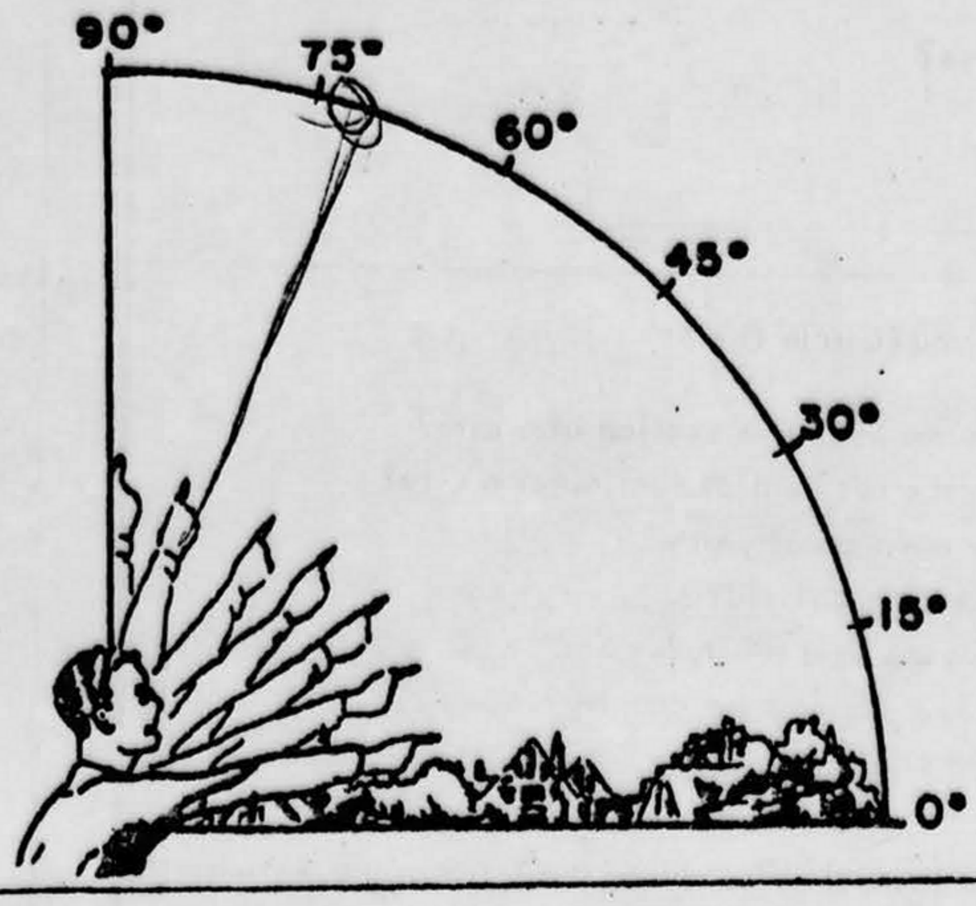

(Circle One) Yes No

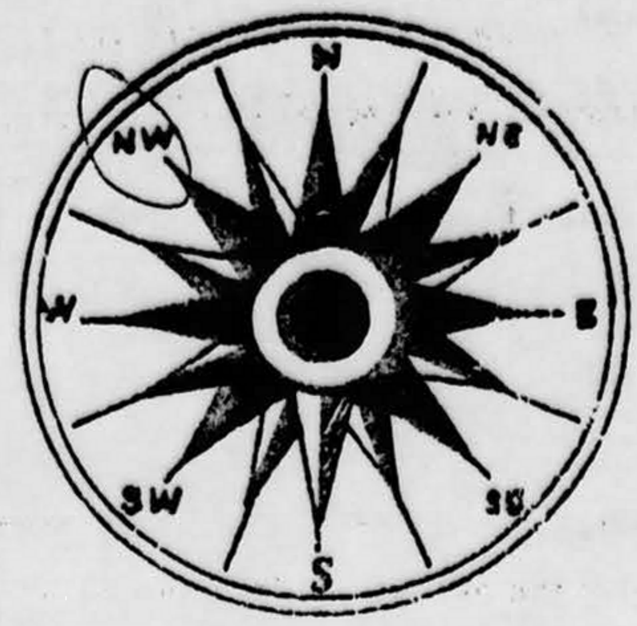

25. Did you observe the object through any of the following?

a. Eyeglasses	(Yes)	No	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

No. Could've also have been satellite but it did not move.

31. Was anyone else with you at the time you saw the object? (Circle One) (Yes) No

31.1 IF you answered YES, did they see the object too? (Circle One) (Yes) No

31.2 Please list their names and addresses:

Sons of parents below 3 boys
And two playmates (high school)

32. Please give the following information about yourself:

Mr. [redacted] [redacted] [redacted]
Last Name First Name Middle Name

ADDRESS [redacted] Dayton 57 Ohio
Street City Zone State

TELEPHONE NUMBE[redacted] — SEX M Y F 45457

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

Day Month Year

34. Date you completed this questionnaire: 15 (Day) March (Month) 1967 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

23 (Day) MAR (Month) 1967 (Year)

2. Time of day: 2350 (Hour) _____ (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. Eastern
(b. Central)
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
(b. Standard)

4. Where were you when you saw the object?

[redacted] (Nearest Postal Address) Dayton (City or Town) Ohio (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) 15 to 20 (Minutes) _____ (Seconds)

a. Certain
(b.) Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? Watch & estimate

5.2 Was object in sight continuously? Yes X No ____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a.) Bright
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
(c.) Many
d. Don't remember

8.2 MOON *(Circle One)*:

(a.) Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

(a.) Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

(a.) Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
(d.) As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

(a.) Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

a pair of diamond (twinkles)

12. The edges of the object were:

(Circle One) (a.) Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other couldn't tell

13. Did the object: (Circle One for each question)

a. Appear to stand still at any time?	(relatively) Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	(No)	Don't know
c. Break up into parts or explode?	Yes	(No)	Don't know
d. Give off smoke?	Yes	(No)	Don't know
e. Change brightness?	(Yes)	No	Don't know
f. Change shape?	(Yes)	No	Don't know
g. Flash or flicker?	(Yes)	No	Don't know
h. Disappear and reappear?	(Yes)	No	Don't know

14. Did the object disappear while you were watching it? If so, how?

yes — 10 minutes (farther away second time)

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound none

b. Color flashed (twinkled) red to green to white

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

$\frac{1}{2}$ head

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

changed shapes
"like light in a prism"

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? (Circle One):

(a.) Inside a building
b. In a car
c. Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
b. In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	(Yes)	No	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

none

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

2 MARCH 67 Same location

31. Was anyone else with you at the time you saw the object? (Circle One) (Yes) No

31.1 IF you answered YES, did they see the object too? (Circle One) (Yes) No

31.2 Please list their names and addresses:

[redacted]
[redacted] DAYTON 45414 OHIO
[redacted] age 26

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) DAYTON (City) 45414 (Zone) _____ (State)

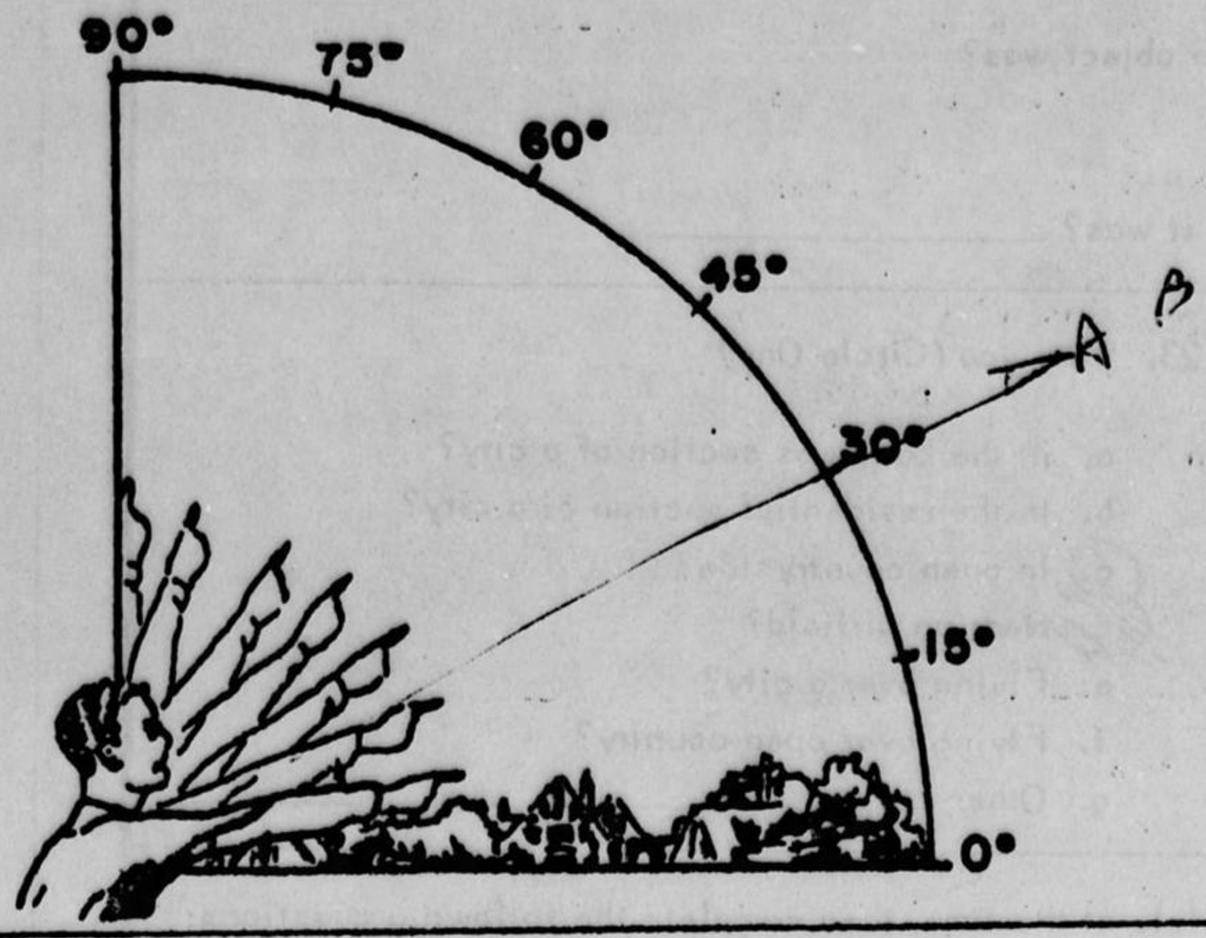

TELEPHONE NUMBER [redacted] AGE 24 SEX FEMALE

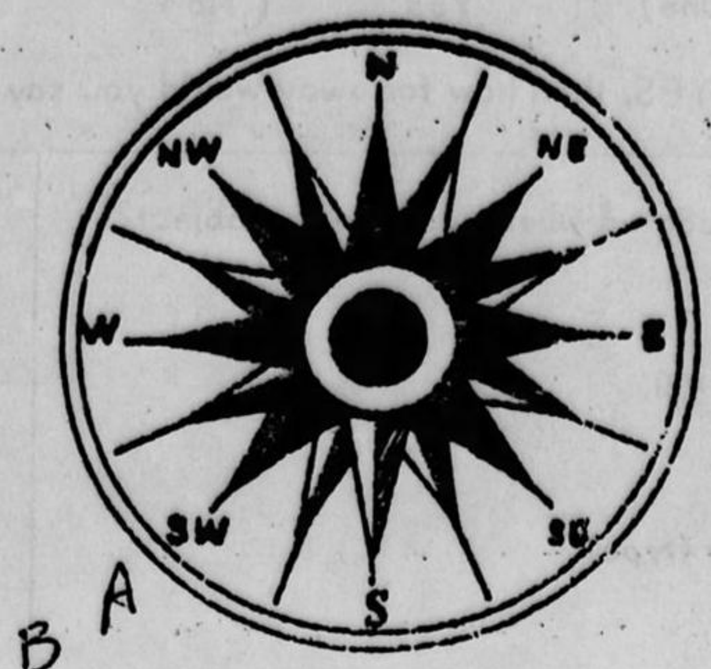

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

3 (Day) MAR (Month) 67 (Year) FTD DUTY OFFICER

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

Various

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

only one

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

no

31. Was anyone else with you at the time you saw the object? (Circle One) (Yes) No

31.1 IF you answered YES, did they see the object too? (Circle One) (Yes) No

c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
(b.) Standard

4. Where were you when you saw the object?

[redacted] (14) (Nearest Postal Address) Dayton (City or Town) Ohio (State or County)

5. How long was object in sight? (Total Duration) _____ Hours _____ Minutes _____ Seconds

5-10

a. Certain
b. Fairly certain
c. Not very sure
(d.) Just a guess

5.1 How was time in sight determined? _____

5.2 Was object in sight continuously? Yes ✓ No _____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a.) Bright
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One):
a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FTD FORM OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? *(Circle One):*

a. Inside a building
b. In a car
(c.) Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you *(Circle One)*

a. In the business section of a city?
(b.) In the residential section of a city?
c. In open countryside?
(d.) Near an airfield? Vandalia
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? *(Circle One)*

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? _____miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	(Yes)	No
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

An airplane light or bright red star changing to white & back again as standing still. (It wasn't moving with the stars.)

14. Did the object disappear while you were watching it? If so, how? yes it went out like a light

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound NONE.

b. Color red & white (when viewed with telescope, brighter)

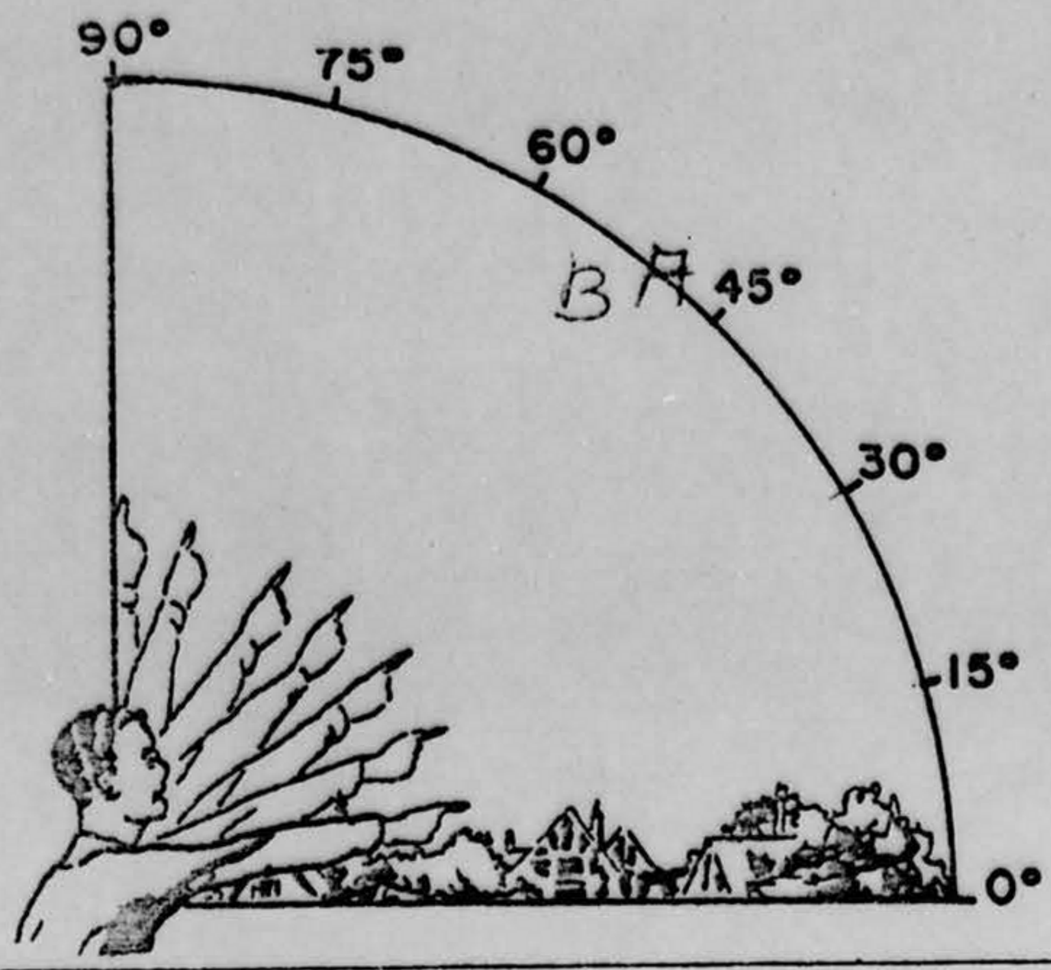

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

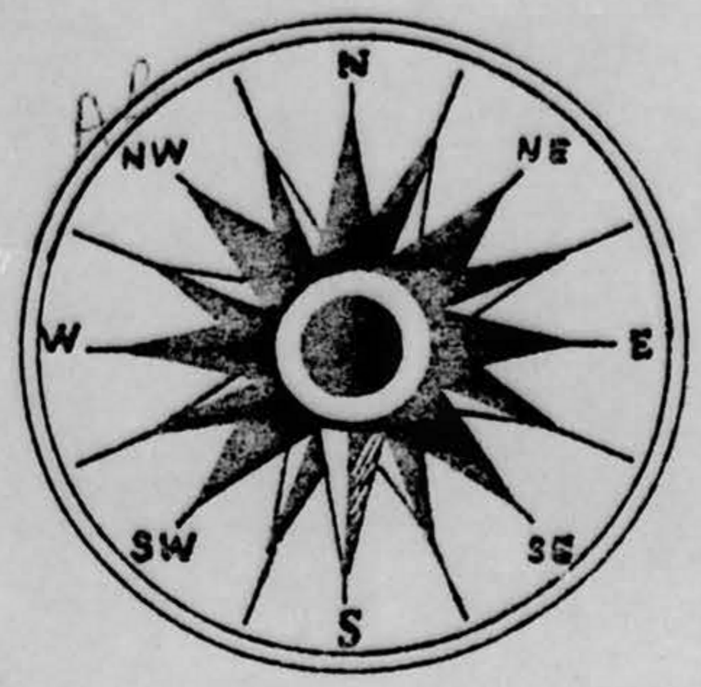

1/2 would have been covered. When viewed with telescope ~~it was~~ at 15° it was just a pinpoint. It didn't move out of my range the whole time.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

A — B

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

34. Date you completed this questionnaire: 1 April 1967
(Day / Month / Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

When I saw the object thru telescope it was perfectly still. Even stars move a little.

I hesitate sending in reports because frankly I can't see anything your doing about these reports. At the time I called the object was still in sight. It asked to have someone sent out to see this thing for themselves but that was not the question. No one seems to know anything or do anything. Wouldn't it be wiser to investigate the U.F.O. itself instead of the report only. I'd think so! If you do investigate these sightings I'd like to know just what we're seeing or if you don't know, say so. I'm sorry but this is upsetting. I'm scared too many odd goings out that I'd like answers to.

Dayton, Ohio 45431 Phone [redacted]

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. (A few)
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

(a. Bright moonlight)
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

(a. Clear sky)
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

(a. Dry)
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
(d. As a light)
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

(a. Brighter)
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

BRIGHTEST LIGHT EVER SEEN

12. The edges of the object were:

(Circle One):
a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other _____

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	(Yes)	No	Don't know
b. Suddenly speed up and rush away at any time?	(Yes)	No	Don't know
c. Break up into parts or explode?	Yes	(No)	Don't know
d. Give off smoke?	Yes	(No)	Don't know
e. Change brightness?	Yes	(No)	Don't know
f. Change shape?	Yes	(No)	Don't know
g. Flash or flicker?	(Yes)	No	Don't know
h. Disappear and reappear?	Yes	(No)	Don't know

14. Did the object disappear while you were watching it? If so, how? YES

IT DISAPPEAR OVER HORIZON

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound NONE

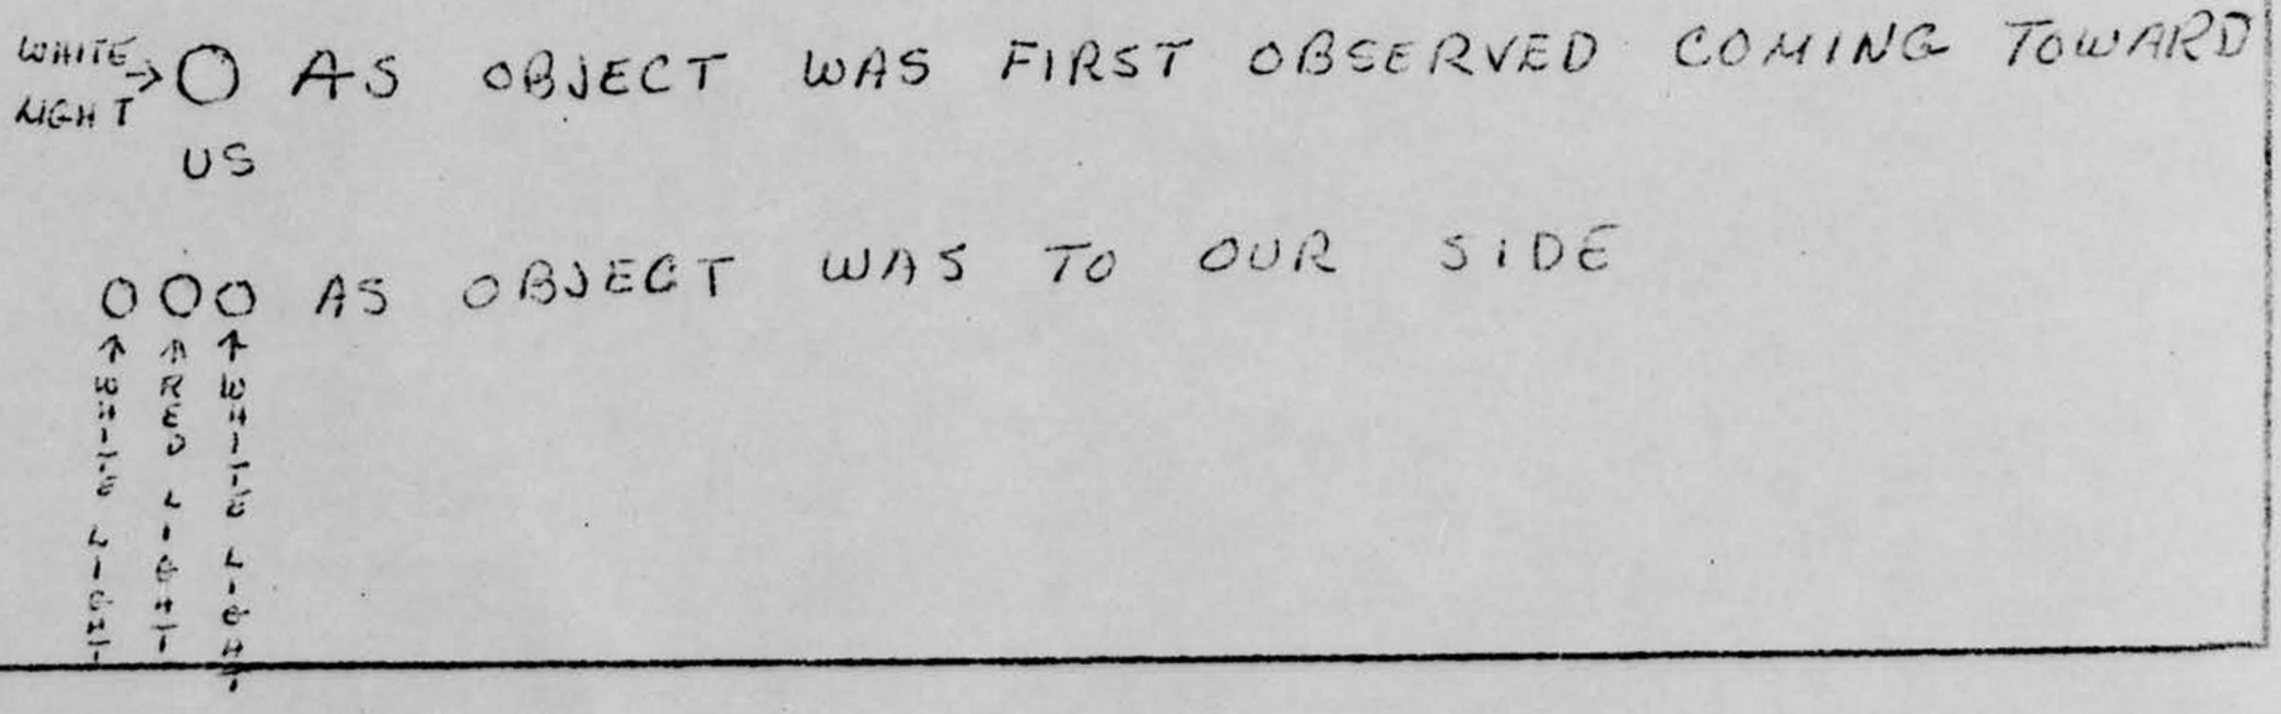

b. Color WHITE AND RED LIGHTS

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

MATCH HEAD WOULD COVER APPROXIMATELY 1/10 TH OF OBJECT

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One) (Yes) No

IF you answered YES, then what speed would you estimate? FASTER THAN JET THEN SPEED REDUCED 3/4

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? 2 MILES

22. Where were you located when you saw the object? *(Circle One):*

(a. Inside a building)
b. In a car
(c. Outdoors)
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you *(Circle One)*

a. In the business section of a city?
(b. In the residential section of a city?)
c. In open countryside?
(d. Near an airfield?)
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? *(Circle One)*

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

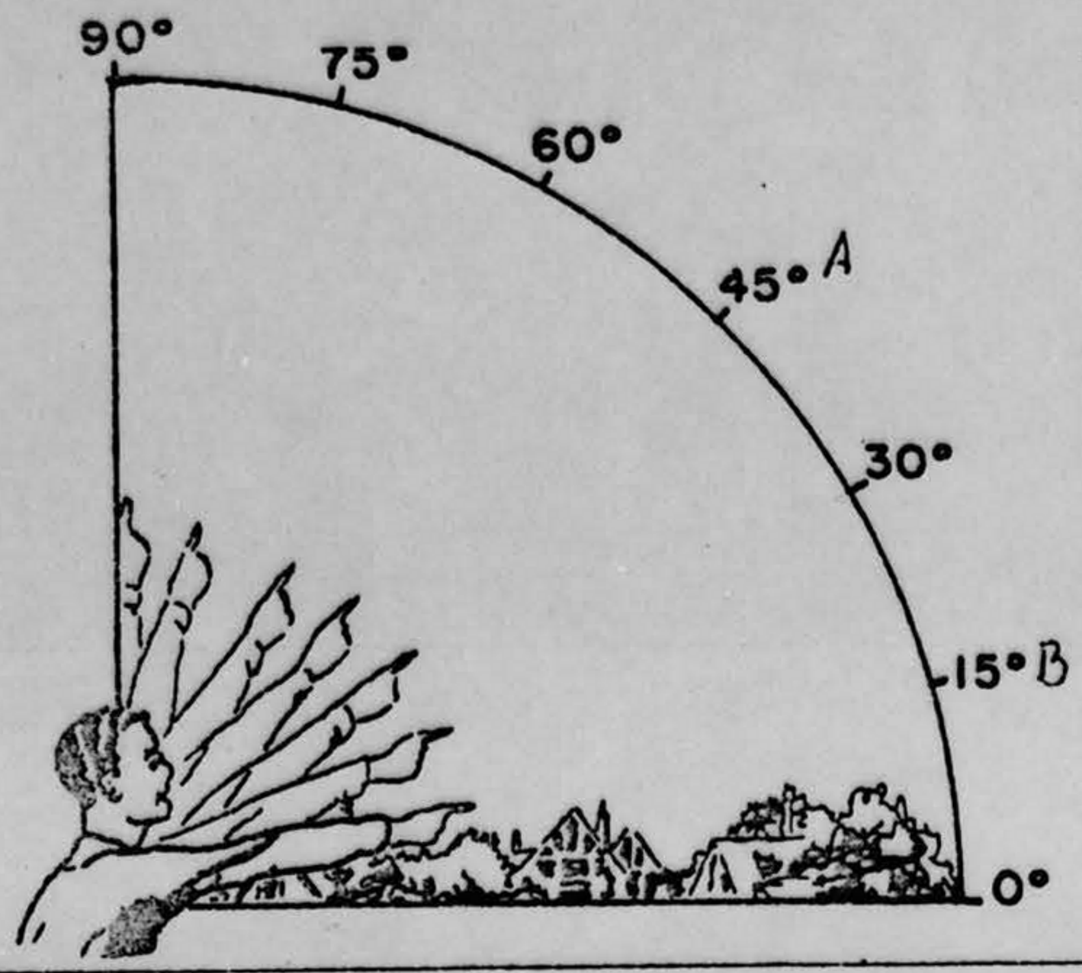

25. Did you observe the object through any of the following?

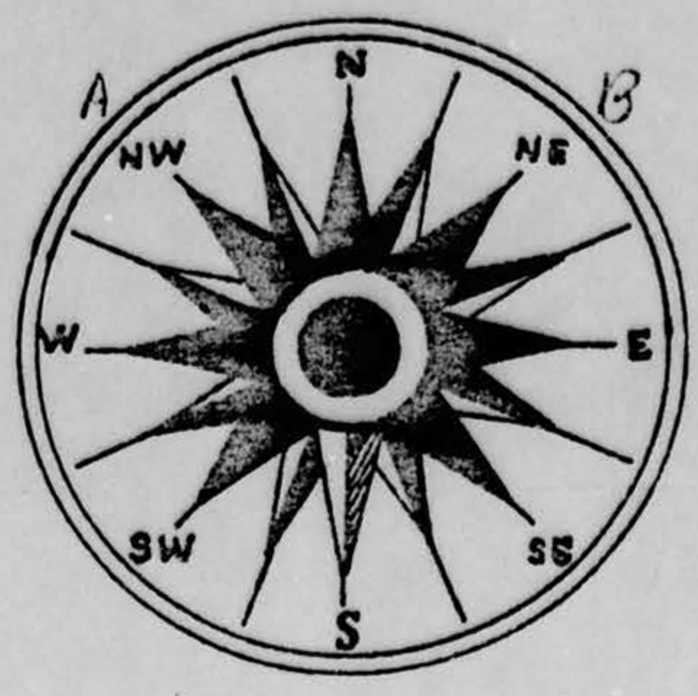

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	(Yes)	No	h. Other NAKED EYE OUTDOORS		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

FIRST SIGHT WAS EXTREMELY LARGE BRIGHT WHITE LIGHT MOVING RAPIDLY. AS OBJECT CAME PARRELEL TO US IT HAD ONE BRIGHT WHITE LIGHT, ONE RED LIGHT, AND ANOTHER WHITE LIGHT REVOLVING. AS IT WENT TOWARD THE HORIZON, IT STOPPED FOR APPROXIMATAY 2 MINUTES

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

NO

31. Was anyone else with you at the time you saw the object? *(Circle One)* (Yes) No

31.1 IF you answered YES, did they see the object too? *(Circle One)* (Yes) No

31.2 Please list their names and addresses:

[redacted] AGE 36
AGE 14
AGE 7
[redacted]
DAYTON, OHIO 45416

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) DAYTON (City) 16 (Zone) OHIO (State)

TELEPHONE NUMBER [redacted] AGE 34 SEX MALE

Indicate any additional information about yourself, including any special experience, which might be pertinent.

HAVING LIVED AT THIS ADDRESS FOR TEN YEARS AND LIVING IN THIS AREA FOR MY WHOLE LIFE, I HAVE BECOME FAMILIAR WITH AIRCRAFT, AIRCRAFT NOISES, AIRCRAFT LANDING LIGHTS, AND AIRCRAFT IDENTIFICATION LIGHTS. THIS ALSO INCLUDES HELICOPTORS.

33. When and to whom did you report that you had seen the object?

26 (Day) MARCH (Month) 1967 (Year)

REPORTED TO NIGHT DUTY OFFICER WPAFB

34. Date you completed this questionnaire: 2 (Day) APRIL (Month) 1967 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

THIS OBJECT WAS FIRST OBSERVED AS A LARGE BRIGHT LIGHT TRAVELING AT HIGH SPEED WITHOUT GIVING ANY NOISE, AS IT CAME PARALLEL TO OUR POSITION, IT APPEARED AS BEING TWO WHITE LIGHTS WITH ONE RED LIGHT BETWEEN THEM, THEY WERE REVOLVING. THE NIGHT WAS DARK AND WE COULD NOT MAKE OUT ANY OUTLINE TO THE OBJECT. BY THIS TIME THE OBJECT HAD SLOWED DOWN CONSIDERABLY AND AS IT ALMOST REACHED THE HORIZON IT STOPPED AND IT HOVERED FOR ABOUT TWO MINUTES THEN DISAPPEARED DOWN OVER THE HORIZON. THERE WAS NO NOISE AND NO SMOKE. THE THREE LIGHTS STAYED IN THE SAME POSITION. I DO NOT KNOW WHAT THIS OBJECT WAS, BUT I AM CERTAIN THAT IT WAS NOT A STAR, AN AIRPLANE, A HELICOPTOR, A WEATHER BALOON, OR ANOTHER CASE OF SWAMP GAS. I AM REPORTING THIS SIGHTING AS A CITIZEN WHO IS INTERESTED IN THE SECURITY OF MY COUNTRY, AND IS TRYING TO HELP.

I DO NOT PERSONALLY CARE WHETHER YOU BELIEVE ME OR IF ANYONE BELIEVES ME. I KNOW WHAT I SAW AND I AM CONVINCED THAT IT WAS SOMETHING ALIEN TO ME.

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

8 (Day) March (Month) 67 (Year)

2. Time of day: 2220 (Hour) _____ (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. (Eastern)
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

45431

[redacted] (Nearest Postal Address) Dayton (City or Town) Ohio (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) _____ (Minutes) _____ (Seconds)

a. (Certain)
b. Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? _____

5.2 Was object in sight continuously? Yes X No ____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	a. Bright
b. Cloudy	(b.) Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One):
a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

29 (Day) March (Month) 1967 (Year)

2. Time of day: 5 (Hour) 25 (Minutes)

(Circle One): (A.M.) or P.M.

3. Time Zone:

(Circle One): a. Eastern
(b) Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
(b) Standard

4. Where were you when you saw the object?

[redacted] (Nearest Postal) Dayton (City or Town) Ohio (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) 5 (Minutes) _____ (Seconds) Entire time we watched

a. Certain
b. Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? Wrist watch

5.2 Was object in sight continuously? Yes ✓ No ____ off + on in cycle

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a.) Bright
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORM

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
(b) Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

Didn't notice

WEATHER *(Circle One)*:

(a) Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
(d) As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

(a) Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

A neon sign - at about 50 yd. range.

12. The edges of the object were:

(Circle One):
a. Fuzzy or blurred
b. Like a bright star
(c) Sharply outlined
d. Don't remember
e. Other Appeared as a bar of light - as other outline of craft - The lights were very distinct.

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	(Yes)	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	(No)	Don't know
c. Break up into parts or explode?	Yes	(No)	Don't know
d. Give off smoke?	Yes	(No)	Don't know
e. Change brightness?	Yes	(No)	Don't know
f. Change shape?	Yes	(No)	Don't know
g. Flash or flicker?	(Yes)	No	Don't know
h. Disappear and reappear?	(Yes)	No	Don't know

14. Did the object disappear while you were watching it? If so, how? It appeared as a bar of light - white, for perhaps 20 seconds, went out, reappeared as a bar of red light for same length of time, went out for same period (20 seconds) and began cycle again.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound None at all

b. Color A white bar of light, changing to red

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head? Performed this experiment and would judge about one-fifth.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

no shape discernible - just a bar of light at about a 30° angle from the horizontal changing color from white to red in a definite cycle. Object was absolutely stationary

20. Do you think you can estimate the speed of the object? Stationary

(Circle One) Yes No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
(c) Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
(b) In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

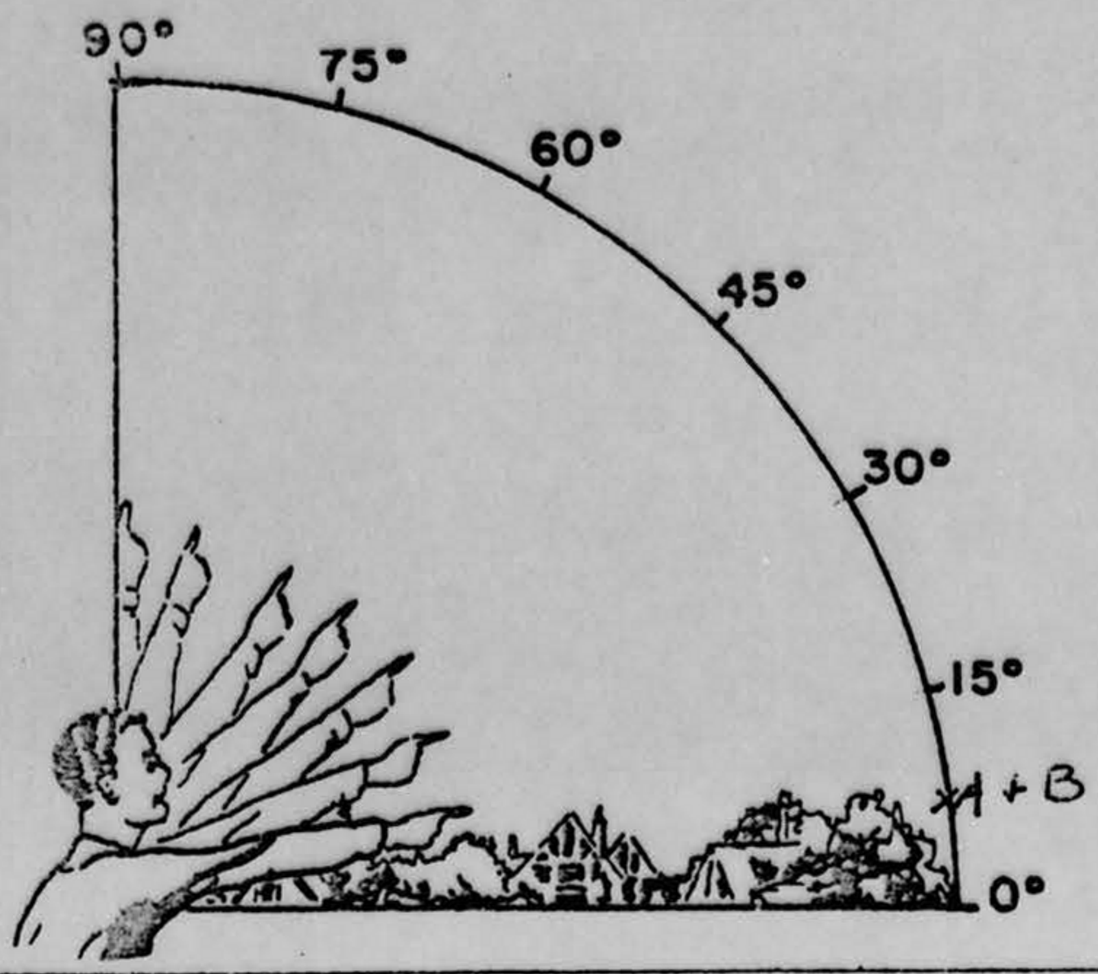

25. Did you observe the object through any of the following?

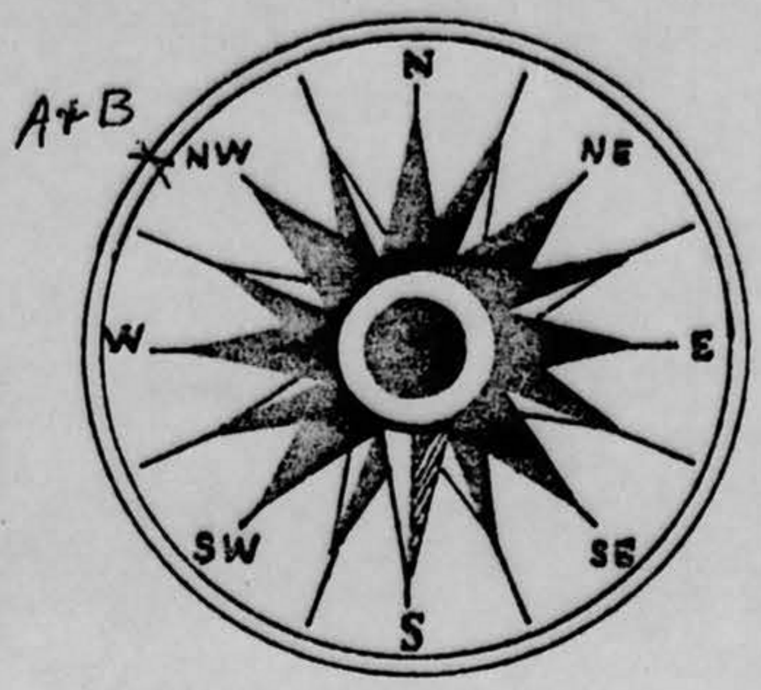

a. Eyeglasses	(Yes)	No	e. Binoculars	Yes	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
d. Window glass	Yes	No	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

A kitchen type flaurecent light as it is being turned on. The light appeared from the left until the whole bar was lighted, disappeared and turned out the same way.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

Was motionless as certainly appeared as.

29. IF there was MORE THAN ONE object, then how many were there? Only one.
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

Nothing even approaching this.

31. Was anyone else with you at the time you saw the object? (Circle One) (Yes) No

31.1 IF you answered YES, did they see the object too? (Circle One) (Yes) No

31.2 Please list their names and addresses:

[redacted], Dayton, Ohio

Please send him a copy of this form, also. He had watched the object for several minutes before I got there.)

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) Philadelphia (City) Dayton (Zone) 5 (State) Ohio

TELEPHONE NUMBER [redacted] AGE 40 SEX F

Indicate any additional information about yourself, including any special experience, which might be pertinent.

No pertinent information. Am employed as a postal clerk.

33. When and to whom did you report that you had seen the object?

29 (Day) March (Month) 1967 (Year)

Project Blue Book
W. F. A. F. B.

34. Date you completed this questionnaire: 2 (Day) 4 (Month) 67 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

I am at this address ~~2~~ twice a day as my wife has her; at 5 25 or so in the morning (dark) and again at 2:30 p.m. (light). Since this sighting we have regularly searched this area of the sky, once with field glasses & see if there could be any object, - antenna, wire, etc. which might have been reflecting some nearby light on this particular night. But there was nothing at all in this area of the sky - it is completely empty.

PROJECT 10073 RECORD

d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
(d.) Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

(a.) Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

(a.) Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
(d.) As a light
e. Don't remember

Reflected light

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

(a.) Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

Very Bright 2013 Times Brighter

12. The edges of the object were:

(Circle One)
a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other Shimmey
Moved Back & Forth

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	(No)	Don't know
b. Suddenly speed up and rush away at any time?	(Yes)	No	Don't know
c. Break up into parts or explode?	Yes	(No)	Don't know
d. Give off smoke?	Yes	(No)	Don't know
e. Change brightness?	(Yes)	No	Don't know
f. Change shape?	Yes	(No)	Don't know
g. Flash or flicker?	(Yes)	No	Don't know
h. Disappear and reappear?	(Yes)	No	Don't know

14. Did the object disappear while you were watching it? If so, how?

She said no at first — she went to friends & when she was almost there it was gone

Next she said yes — that is went out of sight

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes No (Don't Know.) IF you answered YES, then tell what it moved behind: It seem to fade,

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of:

17. Tell in a few words the following things about the object:

a. Sound No

b. Color Shinny White — Red Halo

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

A Little Bigger Than Match Head

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

It whirled and seemed to be shaped like a Christmas star with the shinney protrusions

20. Do you think you can estimate the speed of the object? I guess so — like the speed of a rocket.

(Circle One) Yes No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was? From the corner, it looked like it was over Dayton and at the height of an airplane.

(Circle One) Yes No

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
(c.) Outdoors walking
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
(b.) In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

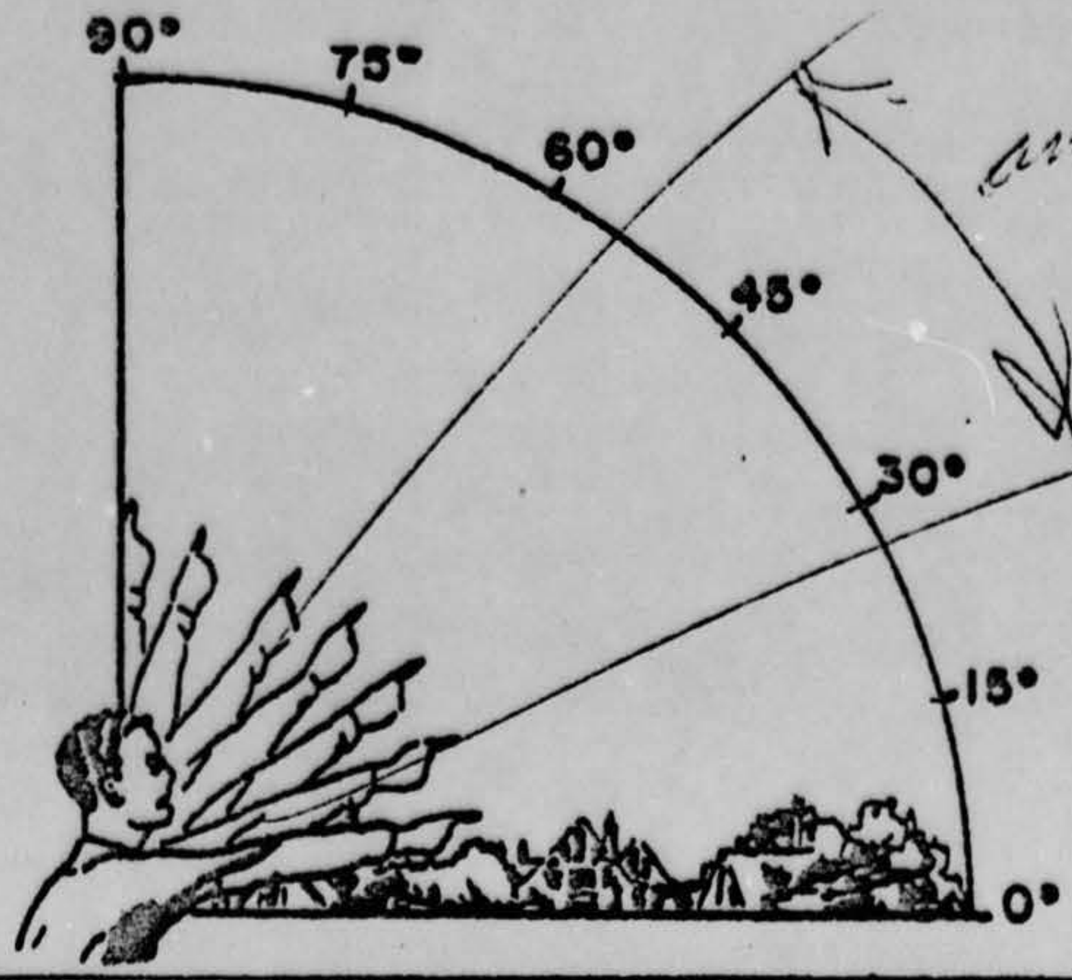

25. Did you observe the object through any of the following?

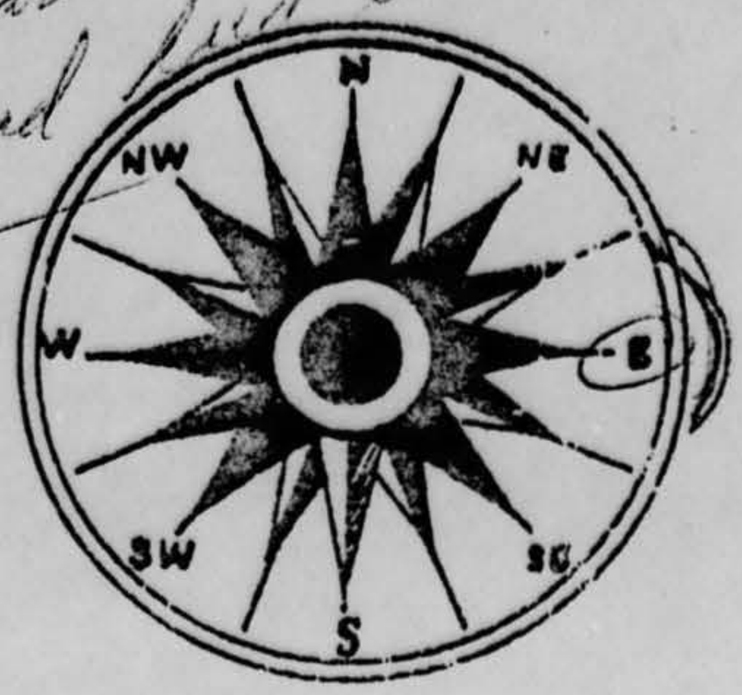

a. Eyeglasses	Yes	No	e. Binoculars	Yes	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
d. Window glass	Yes	No	h. Other Eyes Only		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

Like a Christmas Star — Bright flickering and twinkling mostly

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

It moved across Dayton to the East

29. IF there was MORE THAN ONE object, then how many were there? 1

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

31. Was anyone else with you at the time you saw the object? (Circle One) (Yes) No

31.1 IF you answered YES, did they see the object too? (Circle One) (Yes) No

31.2 Please list their names and addresses:

[redacted] Dayton

32. Please give the following information about yourself:

NAME [redacted] [redacted] [redacted]
Last Name First Name Middle Name

ADDRESS [redacted] Dayton [redacted] Ohio
Street City Zone State

TELEPHONE NUMBER [redacted] AGE 13 SEX Female

Indicate any additional information about yourself, including any special experience, which might be pertinent.

She thought that the object was at 90° angle moving at a slant toward the ground & it got so far & disappeared.

33. When and to whom did you report that you had seen the object?

30 Nov 1967
Day Month Year

34. Date you completed this questionnaire: 30 (Day) Mar (Month) 1967 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

Report to Staff Duty Officer, Hanscom Featherweight

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

30 (Day) March (Month) 1967 (Year)

2. Time of day: 9 (Hour) : 30. (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. (Eastern)
b. Central
c. Mountain
d. Pacific
e. Other X

(Circle One): a. Daylight Saving
(b.) Standard

4. Where were you when you saw the object?

Bohemian & Waymire (Nearest Postal Address) Dayton (City or Town) Ohio (State or County)

5. How long was object in sight? (Total Duration) 0 (Hours) 0 (Minutes) 30 or 40 (Seconds)

a. Certain
b. Fairly certain
(c.) Not very sure
d. Just a guess

5.1 How was time in sight determined? not very sure just a guess

5.2 Was object in sight continuously? Yes X No ____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a.) Bright
b. Cloudy	b. Cloudy

X IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One):
a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FTD FORM OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

Brighter than maybe 100 or more lamps

12. The edges of the object were:

(Circle One):
a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember

e. Other _____

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

2-3 Mar 67 Dayton, Ohio

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

2 (Day) / MARCH (Month) / 1967 (Year)

2. Time of day: 1930 (Hour) 50 (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): (a. Eastern) b. Central c. Mountain d. Pacific e. Other _____

(Circle One): a. Daylight Saving (b. Standard)

4. Where were you when you saw the object?

[redacted] (Nearest Postal Address) DAYTON (City or Town) OHIO 45409 (State or County)

5. How long was object in sight? (Total Duration) 00 (Hours) 10 (Minutes) ____ (Seconds)

(a. Certain) b. Fairly certain c. Not very sure d. Just a guess

5.1 How was time in sight determined? LOCAL TIME

5.2 Was object in sight continuously? Yes X No ____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	a. Bright
b. Cloudy	(b. Cloudy)

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you b. In back of you c. To your right d. To your left e. Overhead f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

Prof Venus

14. Did the object disappear while you were watching it? If so, how?

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

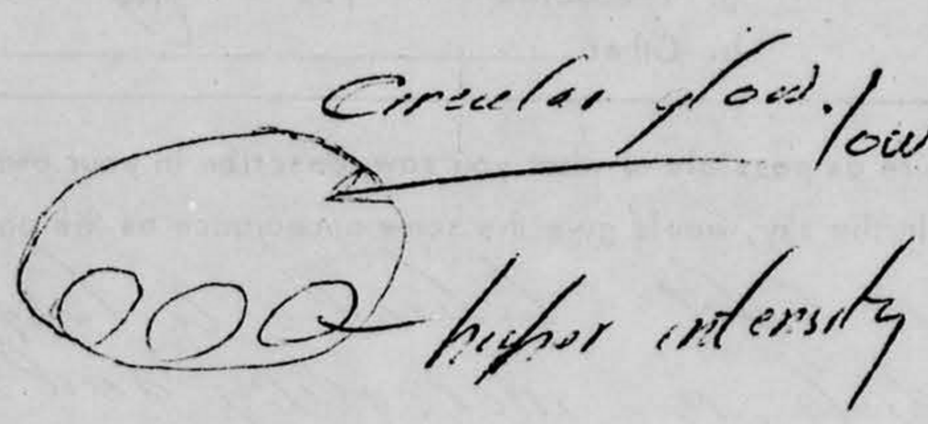

17. Tell in a few words the following things about the object:

a. Sound None

b. Color Orange - red.

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

14. Did the object disappear while you were watching it? If so, how? Yes - It just disappeared, it was going real fast. Then Vanished.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: ___ Maybe we were walking off the wood's tall we could tell.

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound No sound

b. Color Exceptionally bright and Red and red halo

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

More than the match head

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? *(Circle One):*

a. Inside a building
b. In a car
(c.) Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you *(Circle One)*

(a.) In the business section of a city?
(b.) In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? *(Circle One)*

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

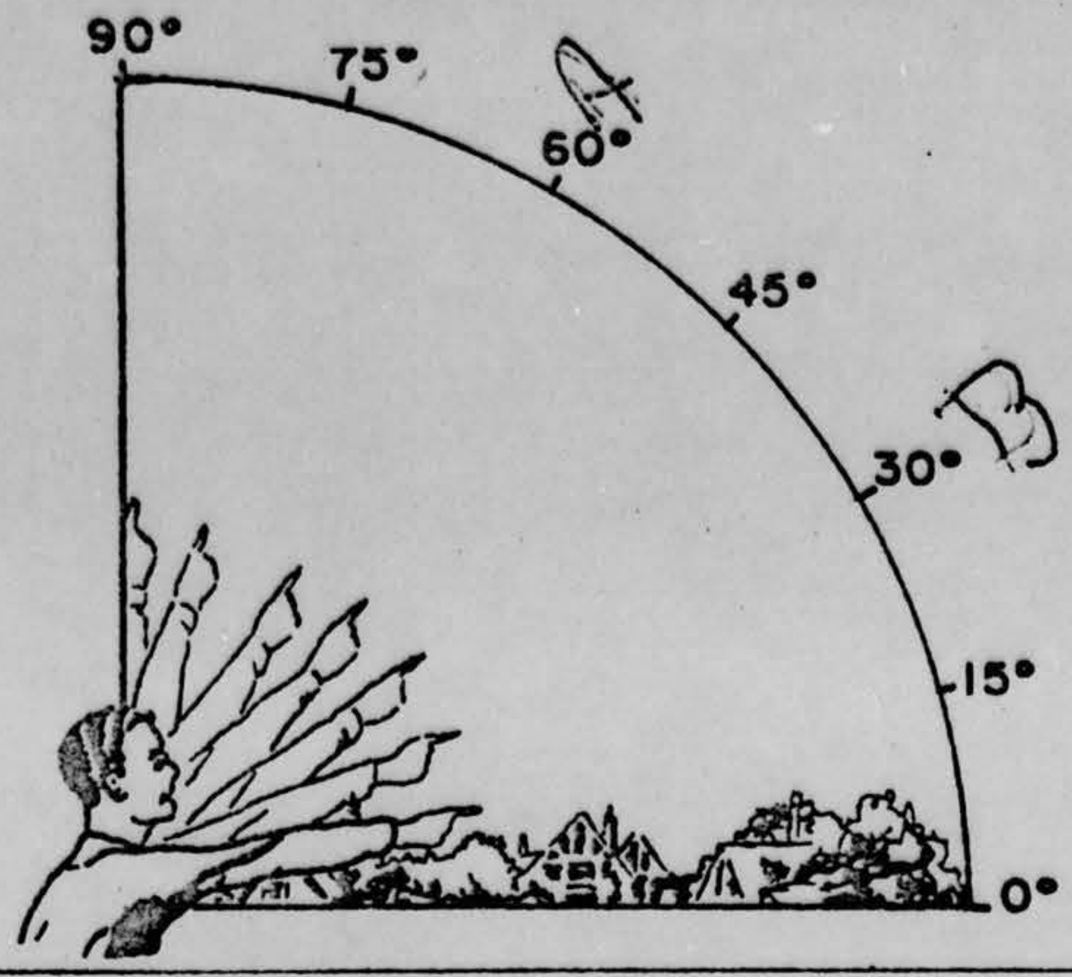

25. Did you observe the object through any of the following?

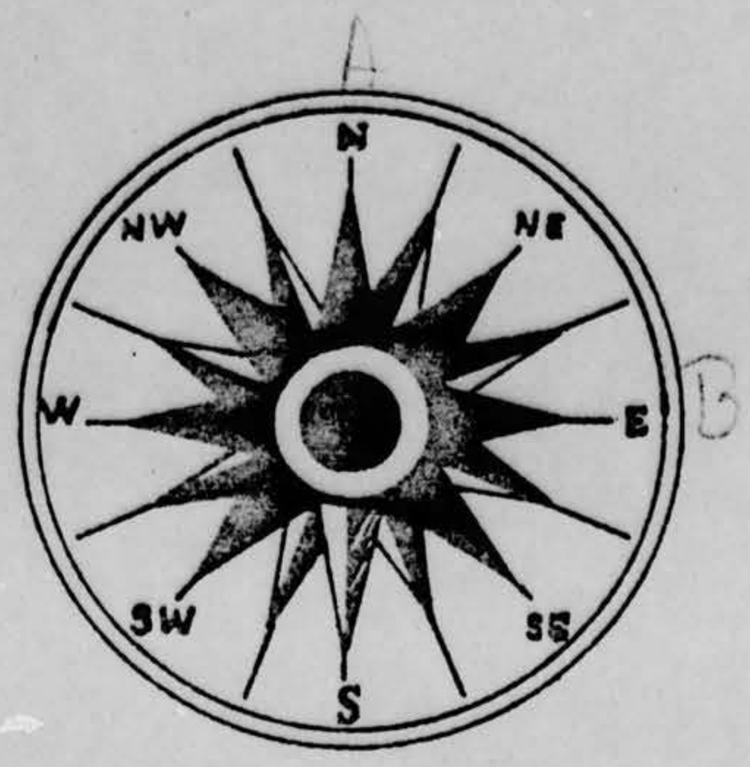

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other	my eyes	

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

looked like a Star or a Planet, not flickering, when flickering looked like a Christmas Star with a red Halo

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? 4

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen thjs, or a similar object before. If so give date or dates and l[redacted]
No but a friend of mine did, Mrs [redacted] (Standing on Porch)
and Sermons Rel[redacted] Monday March 20 67.

31. Was anyone else with you at the time you saw the object? (Circle One) (Yes) ~~No~~

31.1 IF you answered YES, did they see the object too? (Circle One) (Yes) No

31.2 Please list their names and addresses:

[redacted]
Dayton Ohio

32. Please give the following information about yourself:

NAME [redacted] [redacted] [redacted]
Last Name First Name Middle Name

ADDRESS [redacted] Dayton 6 Ohio
Street City Zone State

TELEPHONE NUMBER _____ AGE 13 SEX female

Indicate any additional information about yourself, including any special experience, which might be pertinent.

Last Friday after My Girl Friend
and I got home from work (Dot Brown)
and we went to Mr Dawsons - Dinner
and then 5 (Sat) Friends + I went at about
8:30 or 9:00 P.M. in Mr Dawsons Car

33. When and to whom did you report that you had seen the object?
Thurs 30 March 67 Rang to friend
Then call [redacted]
Day Month Year

34. Date you completed this questionnaire: Friday 7th (Day) April (Month) 67 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

The addresses of people I've mentioned [redacted] and [redacted] are

Dayton 6 Ohio.

[redacted]

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

Wednesday April 1967
Day Month Year

2. Time of day: 9:00
Hour Minutes

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): (a. Eastern)
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
(b. Standard)

4. Where were you when you saw the object?

[redacted] Ave, Dayton, Ohio
Nearest Postal Address City or Town State or County

5. How long was object in sight? (Total Duration) _____ Hours 4 Minutes _____ Seconds

(a. Certain)
b. Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? Just a guess

5.2 Was object in sight continuously? Yes ____ (No)____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	a. Bright
b. Cloudy	(b. Cloudy)

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One):
a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FTD FORM OCT. 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

It was as bright as the moon the Stars.

12. The edges of the object were:

(Circle One): a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other _____

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? ~~Over 100 feet~~ disappeared Its nearest to [illegible] but Always far away at least

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
(c. Outdoors)
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
b. (In the residential section of a city?)
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other without my eyes.		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

14. Did the object disappear while you were watching it? If so, how? It got dimmer until dimer than it disappeared in the air.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

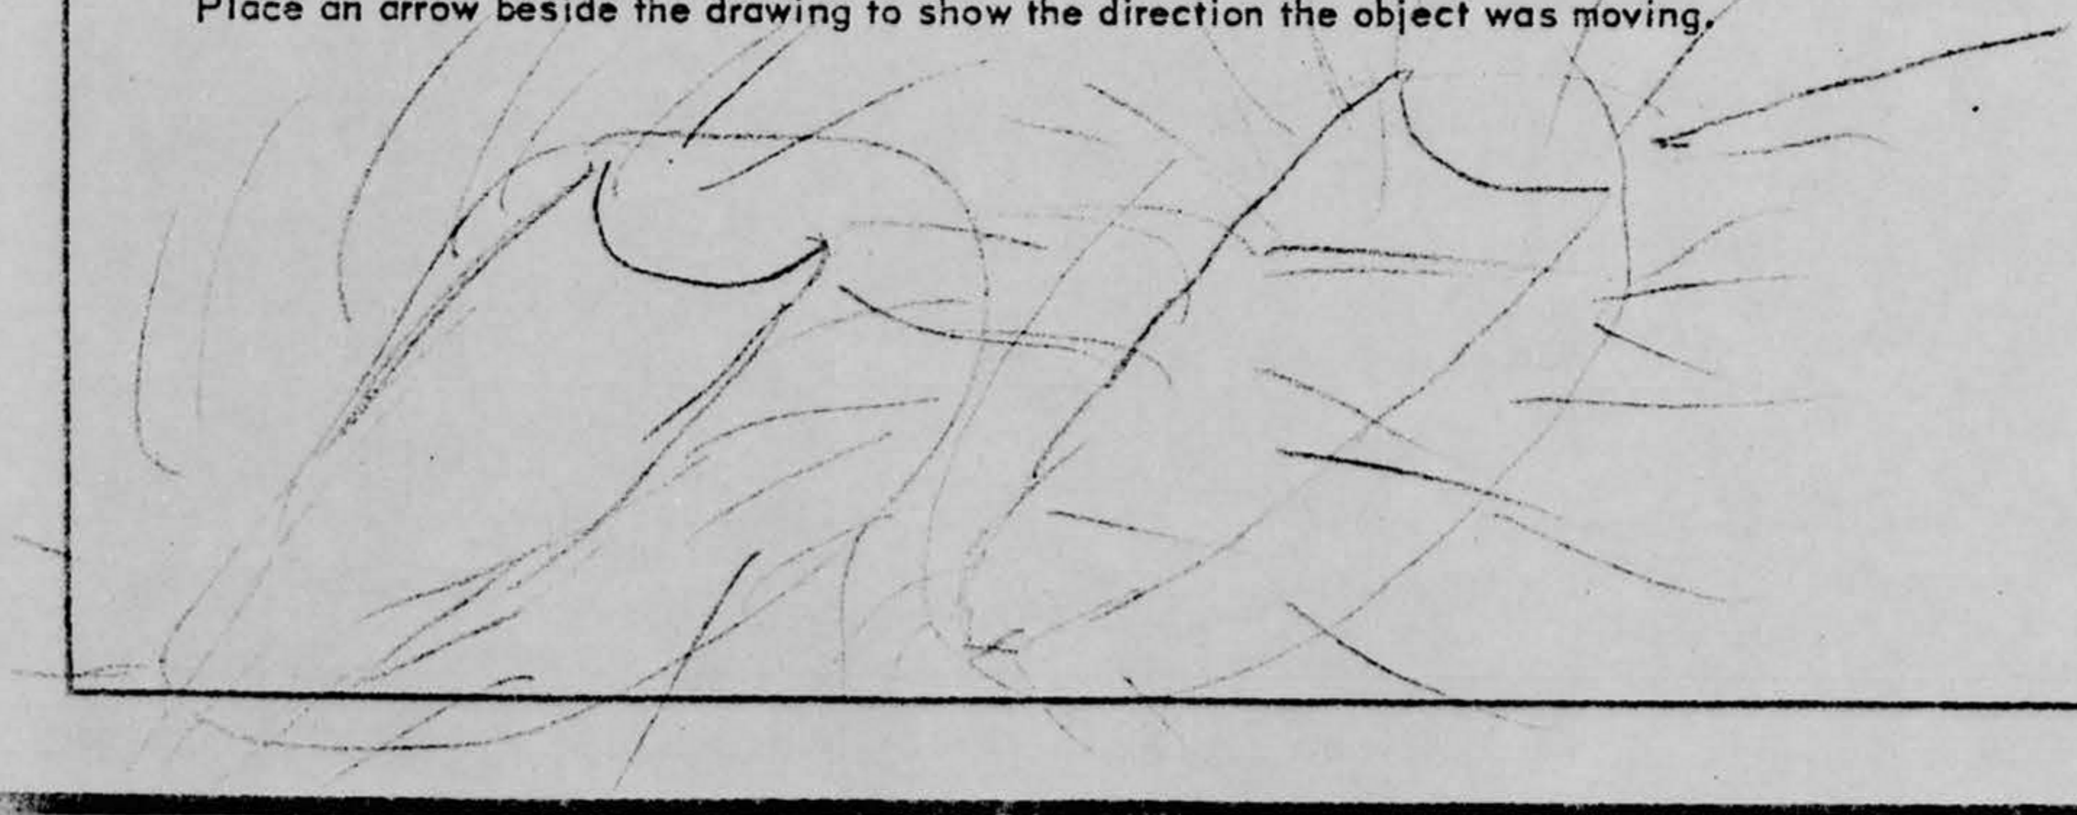

17. Tell in a few words the following things about the object:

a. Sound It did not have any sound.

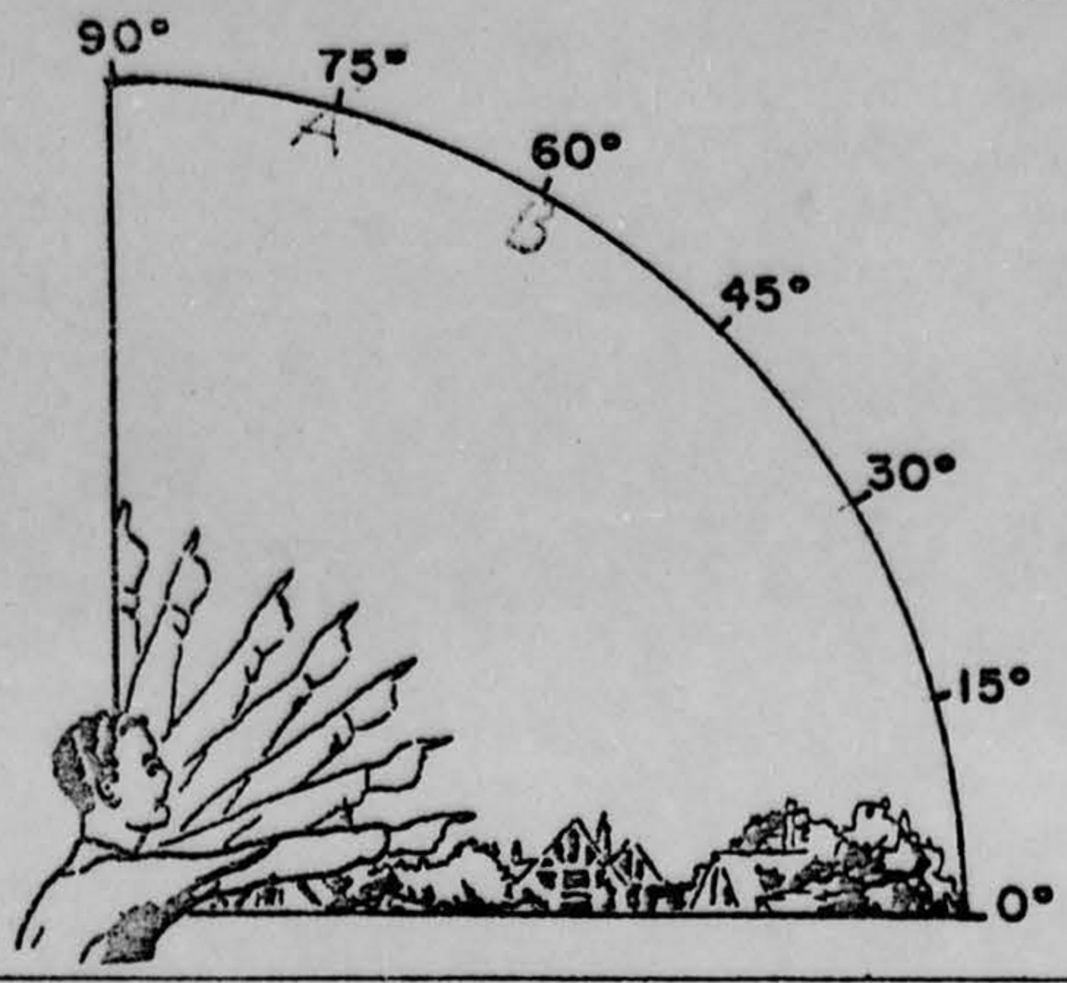

b. Color It was a bright white color and it appeared.

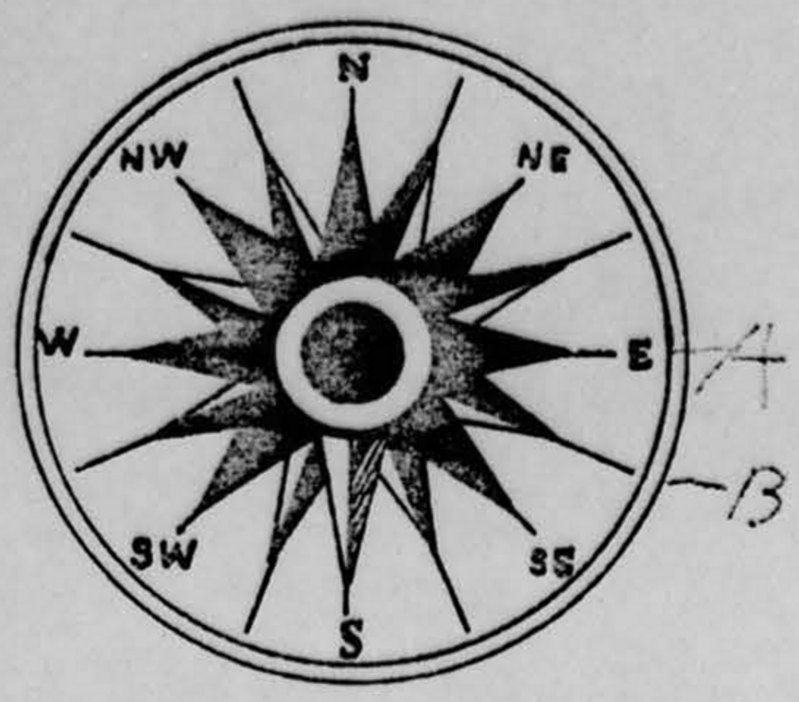

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head? part of the objected showed.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

A B

29. IF there was MORE THAN ONE object, then how many were there? 2 or 3

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

20. Do you think you can estimate the speed of the object? N-A.

(Circle One) Yes No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? 3-5 miles.

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
(c.) Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
(b.) In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

a large search light behind a large cloud cover which is increasing and decreasing in intensity.
light

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

Month Day Year

31. Was anyone else with you at the time you saw the object? *(Circle One)* (Yes) No

31.1 IF you answered YES, did they see the object too? *(Circle One)* (Yes) No

31.2 Please list their names and addresses:

[redacted]

32. Please give the following information about yourself:

NAME [redacted]
Last Name First Name Middle Name

ADDRESS [redacted] Dayton 7 Ohio
Street City Zone State

TELEPHONE NUMBER _____ AGE 12 SEX female

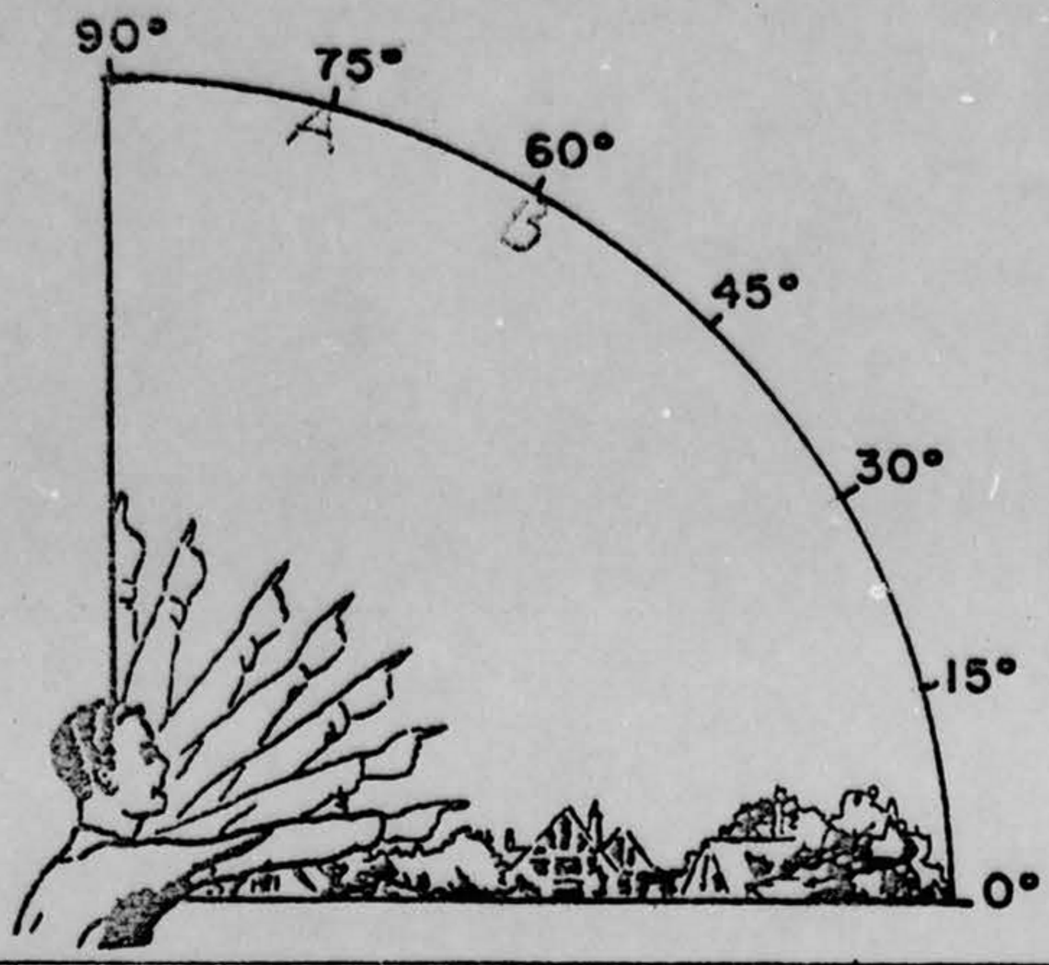

Indicate any additional information about yourself, including any special experience, which might be pertinent.

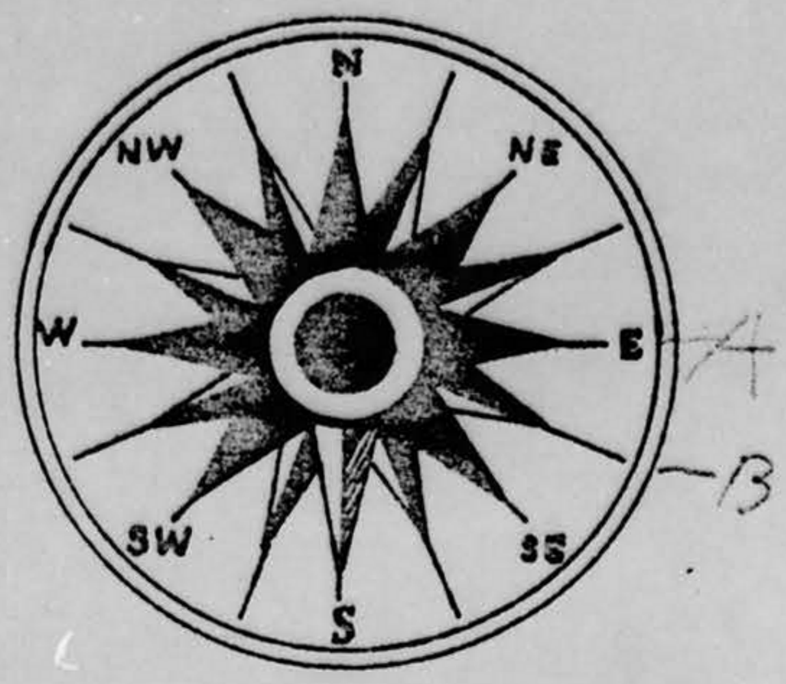

When I was in the first grade I was walking home from school [illegible] return home with my sister and [illegible] mother told me to [illegible] I was afraid [illegible] and I was by my fathers bed room and that [illegible]

33. When and to whom did you report that you had seen the object?

Wednesday April 1967
Day Month Year

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

A B

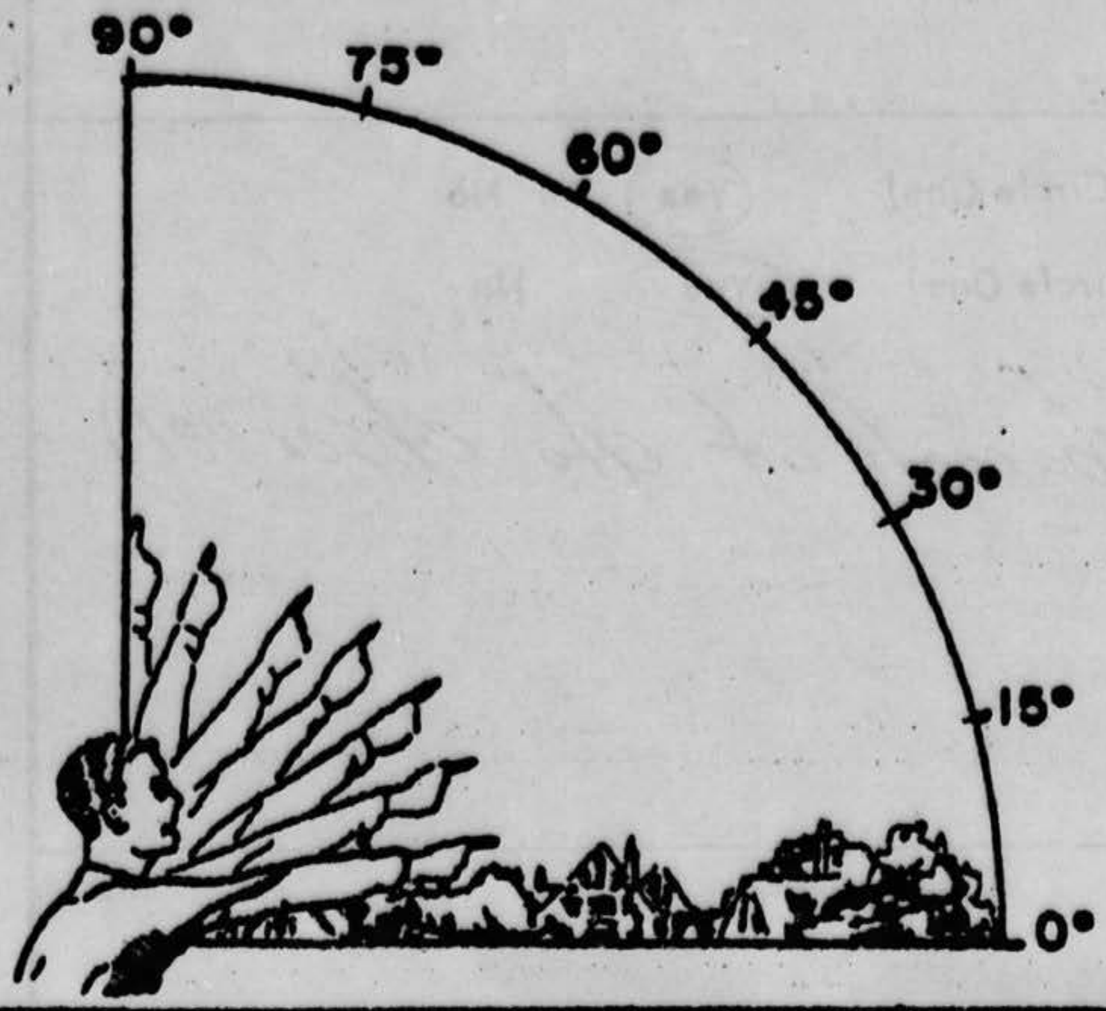

29. IF there was MORE THAN ONE object, then how many were there? 2 or 3

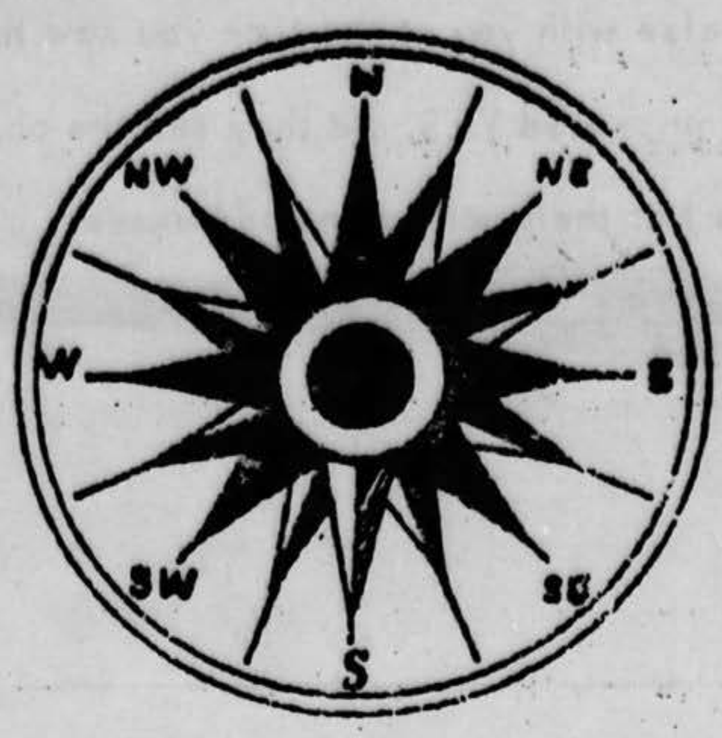

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

34. Date you completed this questionnaire: 2 Saturday April 1967
Day Month Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting. I the object followed my my sister and I home. and we were in the house, and we ran and ran and ran and ran to the house, and told our mother we got to bed like the north star and stars right like the north star it [redacted] circled off and on. The first time we saw it it [redacted] disappeared and when it reappeared there were two of those [redacted] remaining. I don't know, but when we got home. But when we got there were three of them along with the lights and I ran home and the lights followed me all the way home. But when we got in the house the lights disappeared and we never saw

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

N. A.

29. IF there was MORE THAN ONE object, then how many were there? No.
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

No.

31. Was anyone else with you at the time you saw the object? (Circle One) (Yes) No

31.1 IF you answered YES, did they see the object too? (Circle One) (Yes) No

31.2 Please list their names and addresses: [redacted] (parents of the observer)

32. Please give the following information about yourself:

NAME [redacted] [redacted] [redacted]
Last Name First Name Middle Name

ADDRESS [redacted] Dayton — Ohio
Street City Zone State

TELEPHONE NUMBER [redacted] AGE 16 SEX M

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

8 March 1967
Day Month Year

34. Date you completed this questionnaire: _____ Day _____ Month _____ Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

Object appeared between Area B and
c/o observer house which is located
at 744 Windover Dr, Dayton, Ohio.

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

15 (Day) Mar (Month) 67 (Year)

2. Time of day: 1010 (Hour) ____ (Minutes)

(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other ____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

[redacted] (Nearest Postal Address) Dayton (City or Town) Ohio (State or County)

5. How long was object in sight? (Total Duration) 2 (Hours) 30 (Minutes) ____ (Seconds) (Still in view)

a. Certain
b. Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? Estimate.

5.2 Was object in sight continuously? Yes ____ No X above Clouds.

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	a. Bright
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

N/A

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (*Circle One*):

a. None
b. A few
c. Many
d. Don't remember

Clouded

8.2 MOON (*Circle One*):

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (*Circle One*):

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER (*Circle One*):

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: (*Circle One*).

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

Ribbed, glows, Two parts dark center

11. If it appeared as a light, was it brighter than the brightest stars? (*Circle One*):

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

Luminous glow

12. The edges of the object were:

(Circle One)
a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other Appears like butterfly or bat like

13. Did the object: (*Circle One for each question*)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness? Looked farther away	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker? Lights on end	Yes	No	Don't know
h. Disappear and reappear? Clouds	Yes	No	Don't know

14. Did the object disappear while you were watching it? If so, how?

Clouds

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): (Yes) No Don't Know. IF you answered YES, then tell what it moved behind: Clouds

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): (Yes) No Don't Know. IF you answered YES, then tell what in front of: Came through clouds at one time.

17. Tell in a few words the following things about the object:

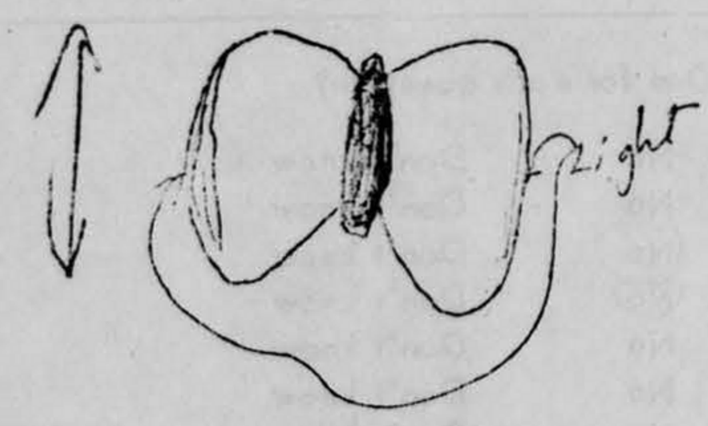

a. Sound whistle - still, steady

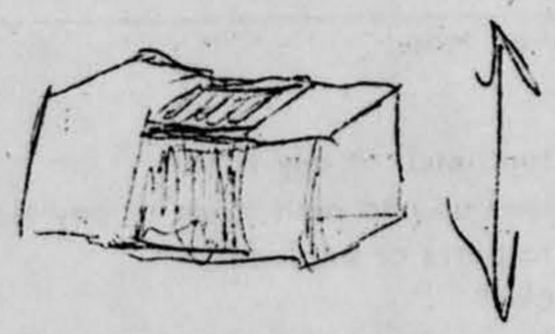

b. Color

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

Larger than north star.
~~It~~ covered by match head

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

a. None
b. A few
c. Many
d. Don't remember

Clouded

8.2 MOON (Circle One):

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER (Circle One):

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: (Circle One).

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

Ribbed, glows, Two parts dark center

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

Luminous glow

12. The edges of the object were:

(Circle One)
a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other Appears like butterfly or bat like

13. Did the object:

	(Circle One for each question)		
a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness? Faster farther away	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker? Lights on end	Yes	No	Don't know
h. Disappear and reappear? Clouds	Yes	No	Don't know

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*.

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object: Bright as Venus at Zenith

12. The edges of the object were:

(Circle One)
a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other _____

13. Did the object:

	(Circle One for each question)		
a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No) varies

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No) above clouds

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? *(Circle One):*

a. Inside a building
b. In a car
(c. Outdoors)
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you *(Circle One)*

a. In the business section of a city?
(b. In the residential section of a city?)
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions: N/A

24.1 What direction were you moving? *(Circle One)*

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

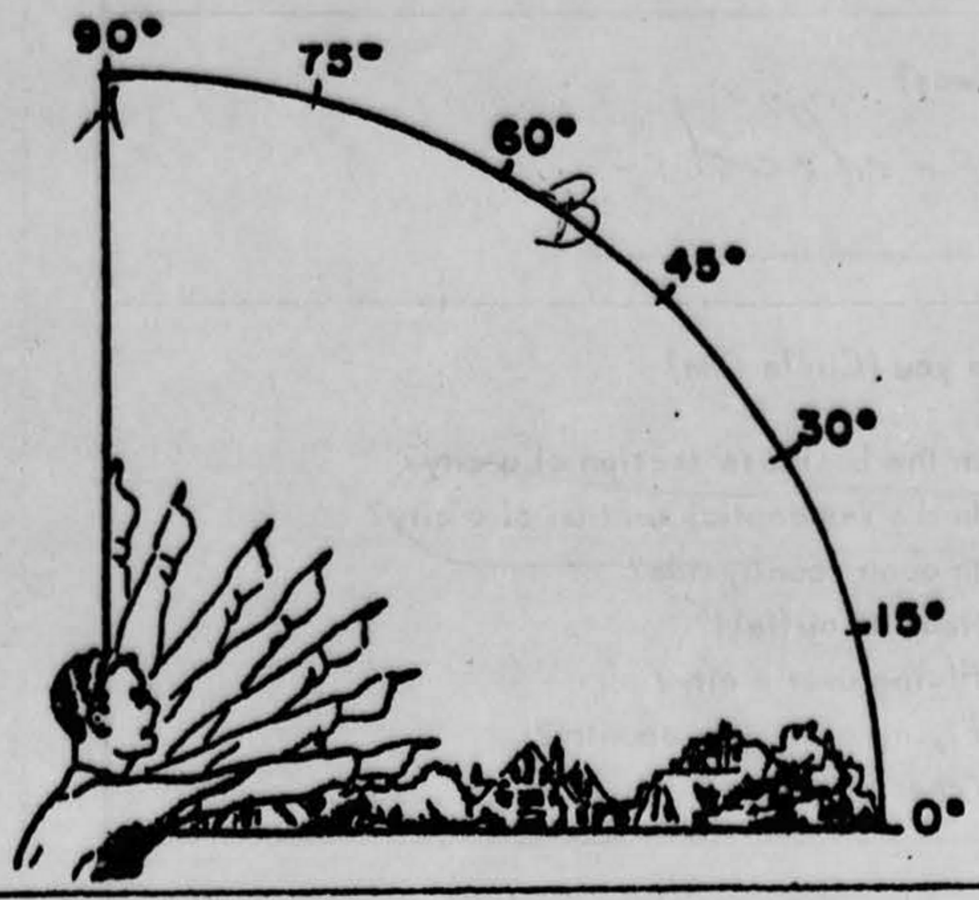

25. Did you observe the object through any of the following?

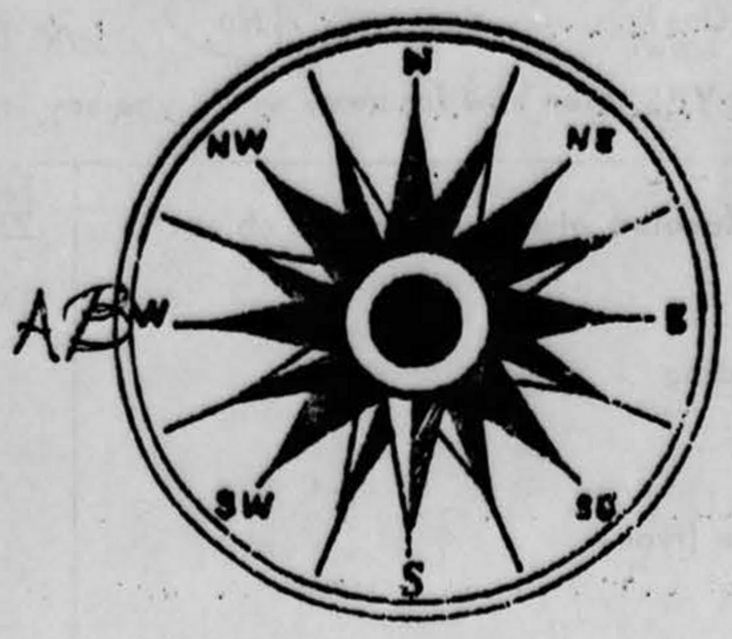

a. Eyeglasses	Yes	No	e. Binoculars	(Yes)	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
d. Window glass	Yes	No	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

Butterfly, box kite

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

W oscillating

29. IF there was MORE THAN ONE object, then how many were there? 1

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

No

31. Was anyone else with you at the time you saw the object? *(Circle One)* (Yes) No

31.1 IF you answered YES, did they see the object too? *(Circle One)* (Yes) No

31.2 Please list their names and addresses:

3 Refused names.

32. Please give the following information about yourself:

NAME Refused (Last Name) _____ (First Name) _____ (Middle Name)

ADDRESS _____ (Street) _____ (City) _____ (Zone) _____ (State)

TELEPHONE NUMBER _____ AGE 31 SEX F

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

15 (Day) May (Month) 67 (Year) FTD Duty Officer

34. Date you completed this questionnaire: _____ Day _____ Month _____ Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

None.

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

brighter than venus / flashing red

12. The edges of the object were:

(Circle One)
a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other white - undetermined

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape? (became thinner)	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

14. Did the object disappear while you were watching it? If so, how?

went out and back on

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): (Yes) No Don't Know. IF you answered YES, then tell what it moved behind: Brighter went behind cloud

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound None

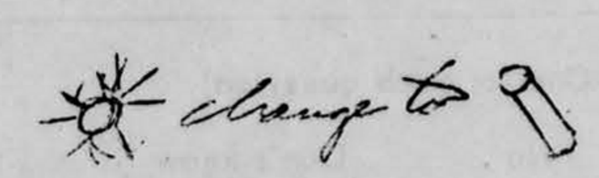

b. Color 1 - red; 1 - white (first appeared bright red then blue then white)

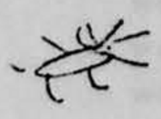

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

1. Smallest - match would cover - increased to 3/4 covered

2. Smallest - " " " - " " 1/3 covered

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

1. 

2. 

20. Do you think you can estimate the speed of the object?

(Circle One) (Yes) No

IF you answered YES, then what speed would you estimate? 1 ft/2 secs

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
(c. Outdoors)
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
(b. In the residential section of a city?)
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

N/A

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

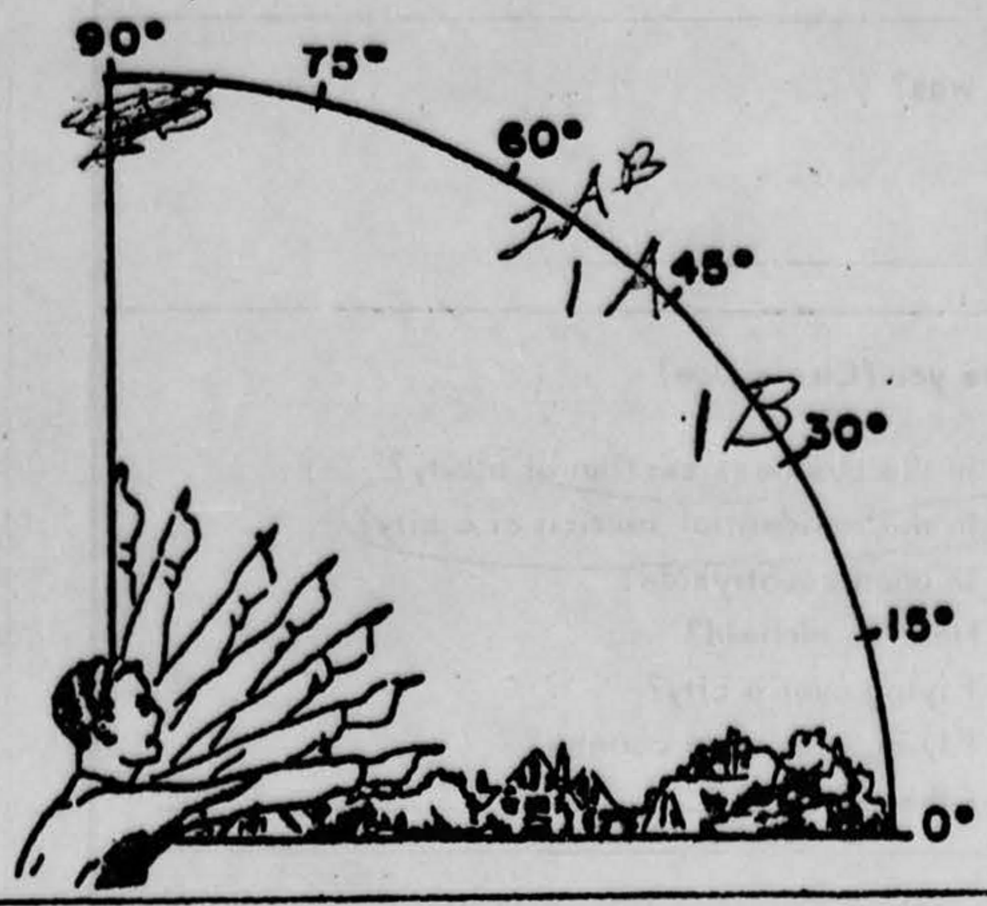

25. Did you observe the object through any of the following?

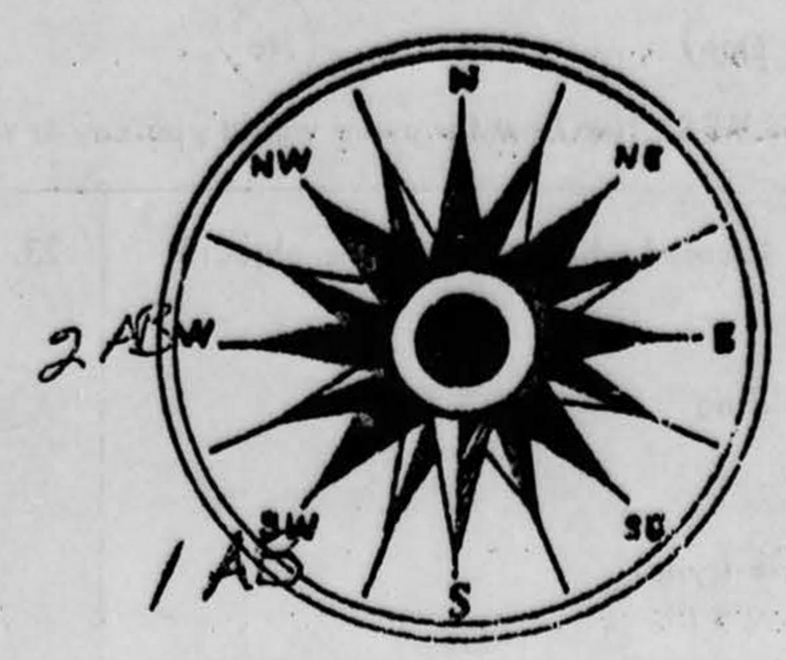

a. Eyeglasses	Yes	No	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	No	f. Telescope	Yes	(No)
c. Windshield	Yes	No	g. Theodolite	Yes	(No)
d. Window glass	Yes	No	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

Star, cylinder

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

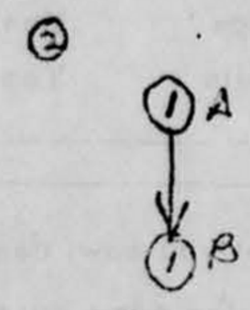

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

2 did not move

29. IF there was MORE THAN ONE object, then how many were there? 2
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

14. Did the object disappear while you were watching it? If so, how?

No

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

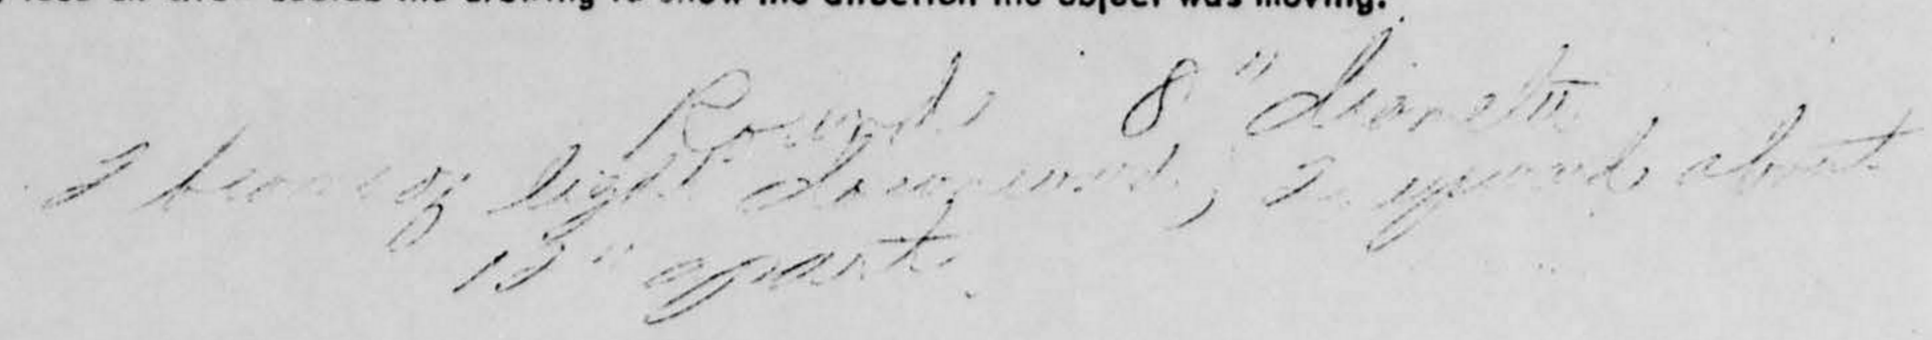

a. Sound No

b. Color Bright White

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

1/16 to 1/32

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

35. Have you ever seen this, or a similar object before. If so give date or dates and location.

Yes, Brightest star in Virgo, 3 times 1950, blue white

34. Was anyone else with you at the time you saw the object? (Circle One) Yes No

34.1 If you answered YES, did they see the object too? (Circle One) Yes No

34.2 Please list their names and addresses:

[redacted] AVR, Dayton, O.

32. Please give the following information about yourself:

NAME [redacted] [redacted]
Last Name First Name Middle Name

ADDRESS [redacted] Dayton 14 Ohio
Street City Zone State

TELEPHONE NUMBER [redacted] AGE 27 SEX F

(Add any additional information about yourself, including any special experience, which might be pertinent.

None.

33. When and to whom did you report that you had seen the object?

1 Nov Three 50
Day Month Year

FTD Duty Officer

34. Date you completed this questionnaire: 15 (Day) Nov. (Month) 67 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

Caller requests explanation of objects.

0056 - ~~[illegible]~~

Called again. Saw three lights near tree red & white (changing red to white) 250 above horizon pulsating dim to bright. Three are size in row. NW of observer behind tree started to move south about 10 ft. Turned and moved back north circled went off slowly NW. Vega was bad east

Bright one seen earlier in Zone. Dublin one reported below is 10° above horizon.

Current one a low (maybe 200 ft under 1000 ft) about ½ block away (150 ft away) just above roof of house.

Several planes have passed over, but not when saw objects.

~~[illegible]~~ 000

Big as thumbnail held at arm's length between nickel & quarter.

Saw about 3-4 min. moved away NW out of sight. may have turned lights out. Not a star, planet, helicopter or airplane. No sound.

TDET/UFO OFFICIAL FILE COPY

MEMO FOR THE RECORD: 16 March 67

Received call from Mrs. [redacted], Dayton, Ohio. She called to report lights coming from the east. The lights were like car lights being white in color. Also there was a red and blue light on the top of the object. The lights would turn off completely. The lights turned around like search-lights. Mrs. [redacted] said she would complete any forms sent. A FTD form was sent on 23 March 67.

"THE TWEED NEWS - TWEED, Ontario - Wed., 8 MARCH 1967.

5 MARCH 67

FLYING SAUCERS SEEN BY FISHERMEN AT PLEVNA

Two young men from Kingston, who scoffed at the idea of "Flying Saucers", are now ready to admit they are a reality, after the Experience they had on Sunday night. They had come down from Mackie Lake to the village, to bring Ray McInnes home from fishing and on their way back saw strange lights near the Walker Ohlman farm, towards the Lucky Lake region. They were going in by snowmobile, so stopped and watched the object, go up and down several times, hover over the field, and move around. They had a very good look at it, and are convinced they saw a "Flying Saucer". After it left they went on to their camp, and one chap was quoted as saying, "Their hair was still standing straight up when they got back. . . These young men are both family men of good reputation, so their report can be taken quite seriously.

The Euchre Party held Saturday night, 25, was well attended. It was in the Clar-Mill Centennial Hall, proceeds to go to the Hall Committee.

Prizes for High scores went to Mrs. Stanley Kring for the ladies, and Manson Kellar for the men. Low or "Booby" prizes went to Mrs. Jim Corr, Kingston, and Bobby Hermer, Ardoch.

Nelson Coons, and Howard Johnson of Columbus, Ohio, are here for some Ice Fishing. Nelson has been staying with Mr. and Mrs. Gerald Kring.

Mr. Glenn Hill, has secured employment on the project at Mountain Chute and started work on Monday morning, as a carpenter.

Mr. and Mrs. Jim Moore and son, Napanee, were weekend visitors with Mr. and Mrs. Bill Gorr.

Mr. and Mrs. Earl Lemke and son, Hawkesbury, Ontario are visiting a few days this week with Mr. and Mrs. Bill Gorr, Earl is doing some fishing.

Mr. and Mrs. Ray McInnes were to Perth, on Monday to visit Mrs. McInnes, Sr. in Hospital.

U.C.W. meeting was held, Wednesday, March 1, at the home of Mrs. A. Lentz. Ten members and one visitor were present.

Mr. and Mrs. Earl Martin Kingston have been visiting with Mr. and Mrs. Gerald Kring since Tues., and doing some ice fishing.

Reeve Gerald Kring Plevna, Mr. Howard Herimer, Ardoch, and Mr. Bill Fleiler, Fernleigh were in Toronto several days this week, to attend the Good Roads Convention.

Rev. John Lock was in Kingston twice this week to visit Randy Tibble, in Hospital, and reports that there is some improvement in Randy's condition.

* Based upon detailed report on file at NICAP.

UFO SUMMARY REPORT FORM *

Sighting Date: 8 March 1967 — Date of Report: 26 March 1967

Location: Leominster, Massachusetts (St. Leo's Cemetary on Lancaster Street) — Investigator: F. Pechulis

Time: From 1:05 AM to 1:09 AM E.S.T. — Category: UNKNOWN

Weather: CLEAR - Except for fog or mist around area where UFO was hovering.(See U.S. Weather/detailed report)

Witnesses:

Name(s)	Age	Education	Occupation	Address	Phone
Mr. [redacted]	31	3.5 YRS H.S.	PAINTER	[redacted], Leominster	NONE
Mrs. [redacted] *	32	3.5 YRS H.S.	FACTORY (PLASTICS)	SAME-AS-ABOVE	
* HAIRDRESSER'S SCHOOL					

Apparent Size: cf. star _____ cf. full moon Larger — Est real size: 40 ft dia

Elevation: 35-45° — Est. Altitude: 400-500 ft — Direction: seen N moved ENE to NNE

Color: Alternately white to Blue to yellowish — **Sound:** Weird, something like a hum or dynamo whirring sound. — **Shape:** Bright light source in shape of an egg - bright as acetylene torch.

UFO passed in front of NA at NA ft/mi - **passed behind** NA at NA ft/mi

SIGHTING ACCOUNT

The witnesses were returning home from a drive in the country to see the snowcover from the recent snowstorm. As they proceeded SE on Lancaster Street they noticed what looked like a heavy patch of fog surrounding a local cemetary. The sky was clear everywhere else. Passing through the fog, Mr. [redacted] saw a bright glow vaguely from the cemetary. Thinking it was a fire and that the fog was smoke from the fire, he turned the car around and drove back and forth. What they observed was a large bright light source hovering about 400-500 feet above the cemetary. Mr. [redacted] stopped the car (facing NW), put it in neutral gear and pulled the emergency brake up. He got out of the car, shut the door (window open) intending to walk into the cemetary to get a closer look. He pointed at the object and simultaneously several events occured: 1) The automobile lights, radio and engine ceased functioning. 2) He felt an electric shock 3) The arm he was pointing with was pulled against the roof of the car 4) He was totally immobile and could not move although he could think and hear clearly. His wife began screaming for him to get back into the car and tugged at his jacket through the car window to no avail. She felt no shock and could not remember if she touched the metal chassis of the car during this time. After a lapse of perhaps a minute, the object which was rocking gently departed emitting a humming sound. His reflexes were sluggish and he felt "heavy" all over for awhile after the sighting.

SKETCH OF UFO(s)

REFER TO DETAILED FORMS FOR SKETCHES

BRIGHTNESS

(TRACED FROM MR. [redacted] SKETCH)

REMARKS

Mr. [redacted] has a police record and is a rough-and-ready type of individual who under normal circumstances is not afraid of anything. Due to the fact that a minute check of various aspects of this sighting proved to substantiate it in-addition-to the fact that the police, who know him well believe that he was telling the truth, NICAP MASS submits this report as a good UNKNOWN with E-M effects. See detailed USAF FTD-Type questionnaires and full report for more details. Complete reports are on file at NICAP-MASS, NICAP, WASHINGTON D.C., PROJECT BLUEBOOK and Dr. J. McDonald's Files, U. of Arizona. NICAP will send this report to U. of Colorado Proj.

NICAP MASSACHUSETTS INVESTIGATING SUBCOMMITTEE

13 Friend Court
Wenham, Massachusetts

SUBJECT: UFO REPORT - 3/08/67 - 1:05 AM EST - Leominster, Mass.

DATE: 20 April 1967

FROM: R.E. Fowler, Chairman
NICAP MASS SUBCOM

TO: NICAP, Washington, D.C. cc: Project Bluebook
Dr. J.E. McDonald

BACKGROUND:

I received a telephone call from a Mr. [redacted] of Leominster, Massachusetts regarding the sighting in question. The "Leominster Daily Enterprise" dated Friday, March 10, 1967 carried a small item on the local sighting which was overlooked by our newsclip service. Mr. [redacted] had contacted the witnesses because of his personal interest in the UFO subject and later came upon my name in the book "Incident at Exeter" and phoned to inform me about the sighting. I dispatched NICAP MASS Investigator Frank Pechulis to investigate. His interviews with the witnesses and with the Police Department took place on April 1, 1967. Additional follow-up work has taken place since.

ACCOUNT:

The witnesses, Mr. and Mrs. [redacted] of [redacted] were out riding to see the low-hanging snow-covered trees after a snowstorm. They had been riding about in the country for about an hour and a half and were returning home along Lancaster Street. The weather was crystal clear except for a localized pocket of what appeared to be fog about St. Leo's Cemetary on Lancaster Street. As they drove through this mist, Mr. Wallace noticed what appeared to be a large light to his left over the cemetary (approx. NE) out of the corner of his eye. Thinking it may have been a fire and that the fog was actually smoke he asked his wife if she had noticed the light. She said that she had not seen anything so he turned around and drove back past the cemetary. Both saw a bright light source hovering over the cemetary. He turned the car around again and put his windows down and drove off the road broadside to the cemetary and the light. His car was facing NW. The object was to his right approx. NE. He got out of the car, shut the door (window open) and started to point to the object. Simultaneously several events occurred:

1) The automobile lights, radio and engine ceased functioning

2) He felt an electrical shock and his body became numb and immobilized.

3) The arm he was pointing with was pulled against the roof of the car and hit the roof with such a force that it left an imprint in the ice and snow.

Mrs. [redacted] yelled for Mr. [redacted] to get back into the car. When he did not respond, she slid across the seat and tugged at his jacket through the open window. (She felt no shock and cannot remember if she touched the metal car chassis at this point). Meanwhile, Mr. [redacted] could not move a muscle although he could hear and his mind seemed to be functioning normally. Then the lights and radio came back on and the object which had been rocking back and forth emitted a humming sound and accelerated upwards and out-of-sight above the fog patch. Mr. [redacted] got back into the car, turned it around and headed straight for home. They only stayed home a short time and felt that they had to tell someone about it so they left to telephone their respective mothers about what had happened. Mr. [redacted] phoned his mother in Vermont and Mrs. [redacted] phoned her mother locally who told them to come over to their home. They did and she persuaded them to phone the police which they did. Later a police officer came down to get further information. They stayed at Mrs. [redacted] parents home talking about it until about 4:30 AM. It was an upsetting experience for both of them.

AUTOMOBILE INFORMATION

1955 Cadillac - 8 Cylinders - 12 Volt System

Driving Mode just prior to electrical failure: Neutral Gear - Engine running - Lights on - Radio playing - Emergency brake on.

Automobile started easily as-soon-as UFO left area - No trouble since

ADDITIONAL INFORMATION

1) No moisture from fog or mist accumulated on the windshield

2) No estimate of altitude of fog but it was highly localized

3) Mr. [redacted] reactions were slow and sluggish for 15-20 minutes after incident

4) Mr. [redacted] was wearing leather solid loafers and a nylon ski jacket

5) Wallace's apartment about 300 yards from sighting area.

6) Solar Chemical Co. located across street from sighting. Dupont Chemical Co. located across from Wallace's apartment across the street and 300 yards away (SE).

7) [redacted] driveway on a downgrade. His reflexes were still slow and he failed to brake fast enough hitting the garage door. (Felt heavy all over.

8) To reach a telephone, they had to leave home and drive by the sighting area. The fog and object were no where in sight as they drove by the cemetary. (This means that fog dissipated about 10 minutes after the object had left area).

9) Both witnesses claim they have not read widely on the subject of UFOs except newspaper stories.

10) Mr. [redacted] is known as a rough-and-ready individual who under normal circumstances is not afraid of anything. He has a police record and if it were not for the fact that his story was checked out thoroughly, a report would not have been forthcoming. The sighting upset both witnesses very much.

INVESTIGATOR NOTES AND IMPRESSIONS (Frank Pechulis)

I talked with Lt. Matteo Ciccone of the Leominster Police Dept. He showed me a card indicating the police record of Mr. [redacted] He also showed me the record-card of the police officer who questioned Mr. [redacted] after the sighting. The Lieutenant knows Wallace pretty well and feels that he was telling the truth about the UFO. My own feeling is that he was telling the truth. It is possible that since Mr. [redacted] talked to him first that he could have been influenced to some extent. It appears that Mr. Wallace is a rather fearless character who does not scare easily.

CHAIRMAN FOLLOW-UP AND EVALUATION

Since Mr. [redacted] has a Police Record, I decided to check further into his story. I found out his wife's mother's name and address via Mr. [redacted] and called her without the witnesses' knowlege at 2:15 PM on April 9th. Her account is as follows: + -

Mrs. [redacted], [redacted]et, Leominster, Mass [redacted]

She told me that she and her husband were awakened by the telephone at 1:30 AM on the morning of March 8th. It was her daughter who related what she and her husband had experienced and who wanted to see her to talk about it. She said that her daughter sounded so upset that she told her to come right over. She urged them to call the police which they did, from her home and an officer was dispatched to her home to interview them. Her account of what they told her checked out perfectly with what the witnesses had told Investigator Pechulis with a few details (minor) that had not been mentioned. Mrs. Wiles stated that neither her daughter or her daughter's husband were under the influence of liquor and that she had never seen her son-in-law so thoroughly shaken-up. I asked if she thought if there were any chance they made up the story. She stated that she could not believe they would do such a thing. There was no reason and that they behaved as if they had just undergone a terrifying experience.

I obtained Mr. [redacted] mother's name and address from Mrs. [redacted] and put in a call to her immediately. Her account is as follows:

Mrs. [redacted]ax(re-married), [redacted]t., St. Albans, Vermont [redacted]

Mrs. [redacted], [redacted], St. Albans, Vermont [redacted]
(re-married)

Mrs. [redacted] stated that her son phoned her around 1:45-2:00 AM on the morning of March 8, 1967. He was so upset and excited that he could hardly talk at first. She confirmed the essentials of the sighting account. He described the sound of the object as a high-pitched screeching sound when it moved off. She told me that it must have been something to upset her son as he was "the type that isn't afraid of anything". The paralysis seemed to be a major cause of his being so upset. She finally had to remind him that it was a long-distance call and that he was fortunate to have seen such a thing. He retorted that he hoped she would never go through what he just did and ended the conversation

---

A close examination of the enclosed detailed UFO Data Sheets combined with various checks such as I have mentioned above (For example, Frank checked the garage which Mr. [redacted] had hit and there were still two marks freshly made in the garage door) have convinced me that the UFO sighting is authentic. The police know the witness and feel that he behaved as if he had undergone a bad experience and that due to his police record, he would not ordinarily approach them unless something really out-of-the-ordinary did occur. (I recall that [redacted], the teen-ager that shared in witnessing the classical 9/3/65 Exeter, N.H. sighting also had had problems with the police and yet his observations were checked out and verified by the police. Thus, the fact of [redacted] police record does not necessarily rule out the validity of his sighting. In one way, it tends to verify it, for reasons mentioned above.)

The rocking motion, bright glow, humming sound, electrical-ignition failure, paralysis, etc. are all characteristic of other sightings throughout the world. Of particular interest are the following possible "cause-and-affect" events: (*)

1) The mist or fog seems to have been directly connected with the presence of the UFO as it disappeared when the UFO left and was not moist like natural fog. It was clear everywhere else. See U.S. Weather Report (Addendum I).

2) The electrical-failure and paralysis occurred simultaneously with Mr. [redacted] pointing at the object with his arm. It was only his arm that was thrown back by some force and pinned to the roof-top of the automobile. He felt it "being pulled" to the roof

3) The events of 2) above remained in effect until the UFO moved away.

My evaluation is that the sighting falls into the category of "UNKNOWN" and that although one witness has a police record that a careful check seems to indicate validity of said sighting.

Respectfully submitted,

Raymond E. Fowler

Raymond E. Fowler, Chairman
NICAP MASS SUBCOM

(*) - Chemical Plants and locality of sighting could be connected.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
c. Outdoors — IN FRONT YARD
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
b. In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

a. Eyeglasses	Yes	No	e. Binoculars	Yes	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
d. Window glass	Yes	No	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

Like two large white
Spheres

Home Town Touch

Reports on unidentified flying objects have been received in various parts of the country — with various explanations given to the incidents — but no one will ever convince Billy Wallace and his wife Joan that they don't exist — for the couple caught sight of what was described as UFO hanging over St. Leo's Cemetery early ~~Thurs-~~ WED- ~~day~~ morning and described it as SOME experience — stating that while the object hung in the sky the engine in the car and radio went dead — and he was unable to move to get back in the car -- the experience made a "believer" — out of them — the object was sighted by some others in the City — who thought it a meteor — but the Wallaces don't buy that! —

LEOMINSTER "DAILY ENTERPRISE"
DATED: FRIDAY, MARCH 10, 1967

* - Newspaper Reporter, Tom McNamara recorded incorrect date of Thursday AM. Police records show that incident reported Wednesday AM at 1:53 AM E.S.T.

Meteor Sighted

A bright object flashed across the skies at 2.30 this morning, leading to inquiries of area officials. Ptl. Stephen L. Longley, on cruiser patrol on Water Street near Krysiak Avenue, described the object as a meteor.

Leominster and Lancaster had reports of "unidentified flying objects." No calls were received by Fitchburg police. The sighting by the officer indicated the UFO was actualiy a meteor.

In Leominster, William Wallace of 488 Lancaster St. reported to police at 1.53 he observed a flying object in the sky in the vicinity of St. Leo's Cemetery, Lancaster Street.

FITCHBURG "SENTINEL"
DATED: WEDNESDAY, MARCH 8, 1967

Clipping includes another sighting from general area which was described as a "meteor". The time was 2:30 AM and although there probably is no connection with the Leominster sighting, it is the only other report from this area that NICAP MASS is aware of on the 8th of March, early AM.

ADDENDUM II

Sunday, March 26, 1967

Mr. Fowler,

Enclosed is the clipping taken from the Leominster Daily Enterprise, dated Friday, March 10, 1967.

Checking with the Leominster Police Dept. I was told by the officer on duty (Ralph Pellecchia) that the incident was reported on Wednesday, March 8, 1967 at 1:53 AM. Tom Tremaine, reporter for the Enterprise, has Thursday in which the sighting occurred.

[redacted] residences is [redacted], Leominster, Mass.

If there is anything else you might want to know, do not hesitate in calling me.

Respectfully,

[redacted]

DATA SHEET - UNIDENTIFIED FLYING OBJECT(s)

Please answer the following questions concerning the Aerial Phenomena you observed. The data will be used for research purposes. Thank you for your cooperation in this matter.

Return to: Raymond E. Fowler, CHAIRMAN NICAP MASSACHUSETTS SUBCOM. 13 Friend Court, Wenham, Mass. Tel. 468-4815

1. When did you see the object?

~~1~~ 8 ~~X~~ (Day) — 3 (Month) — 67 (Year)

2. Time of day: ~~19~~ (Hour) — 05 (Minutes)

(Circle One): (A.M.) or P.M.

3. Time Zone:

(Circle One): a. (Eastern) b. Central c. Mountain d. Pacific e. Other _____

(Circle One): a. Daylight Saving b. (Standard)

4. Where were you when you saw the object?

St Leo's Anns (Nearest Postal Address) — Leominster (City or Town) — Mass (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) — 4 (Minutes) — _____ (Seconds)

a. (Certain) c. Not very sure
b. Fairly certain d. Just a guess

5.1 How was time in sight determined? _____

5.2 Was object in sight continuously? Yes ~~X~~ No X

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	a. (Bright)
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you b. In back of you c. To your right d. To your left e. Overhead f. Don't remember

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. (A few)
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. (Clear sky)
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. (Fog, mist, or light rain)
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. (Solid)
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. (Brighter)
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

It put me in mind of a excityline torch

12. The edges of the object were:

(Circle One): a. Fuzzy or blurred
b. (Like a bright star)
c. Sharply outlined
d. Don't remember
e. Other _____

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	✓ Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	✓ Yes	No	Don't know
c. Break up into parts or explode?	Yes	✓ No	Don't know
d. Give off smoke?	Yes	✓ No	Don't know
e. Change brightness?	✓ Yes	No	Don't know
f. Change shape?	Yes	✓ No	Don't know
g. Flash or flicker?	✓ Yes	No	Don't know
h. Disappear and reappear?	Yes	✓ No	Don't know

14. Did the object disappear while you were watching it? If so, how?

It flew off in a slow gliding climb in northerly direction

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: ____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: ____

17. Tell in a few words the following things about the object:

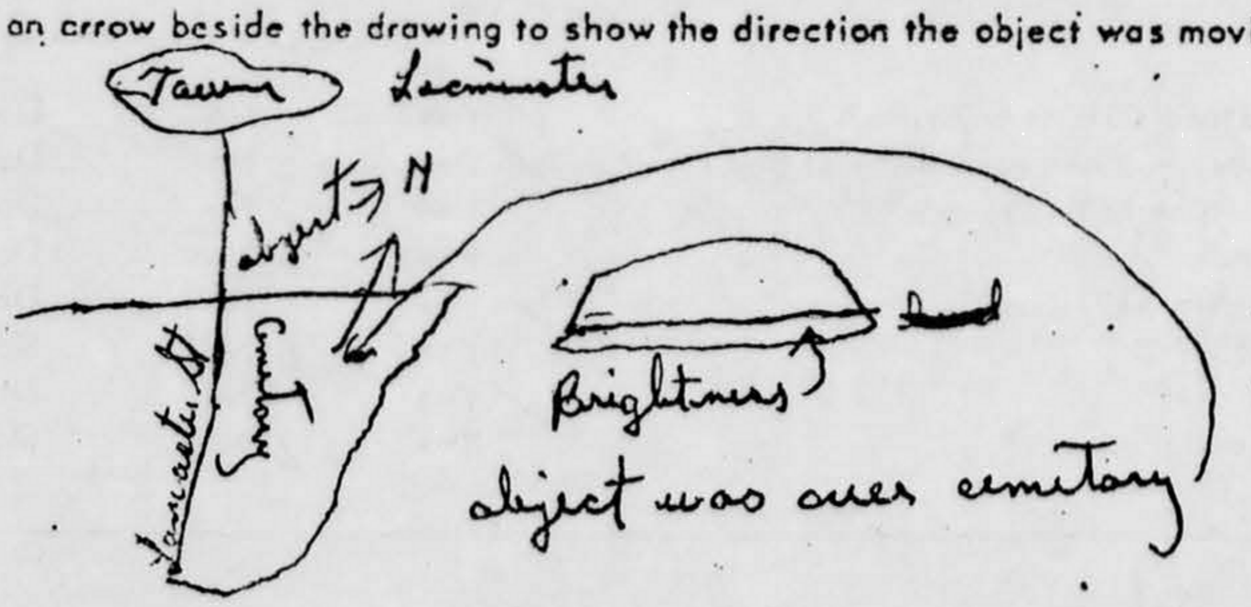

a. Sound like a huge dynamo, whirring sound

b. Color bluish metallic color not solid of earths color

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

Its not a comparison, much larger object would be necessary

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No) but high speed, slow climb

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? 200 yds away & 4' to 5' hundred high

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. (In a car)
c. Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
b. (In the residential section of a city?) and other
c. In open countryside?
d. Near an airfield? over cemetary near chemical Plant
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. (East)
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? 45 miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) (Yes) No

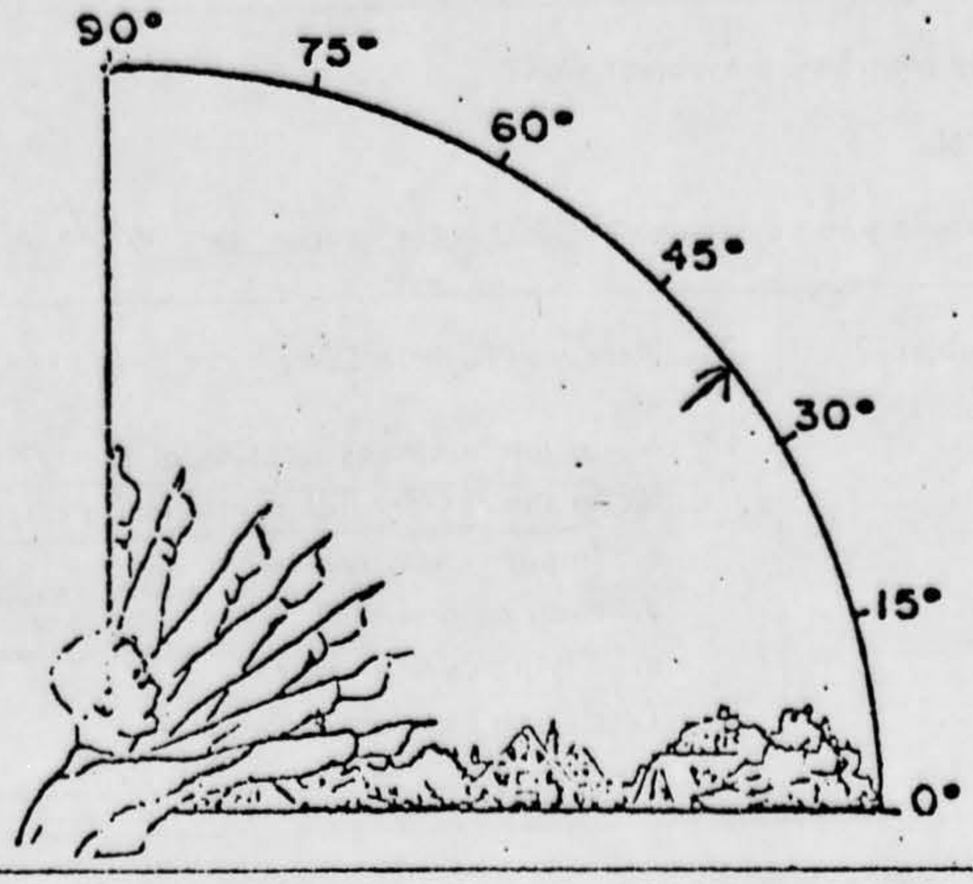

25. Did you observe the object through any of the following?

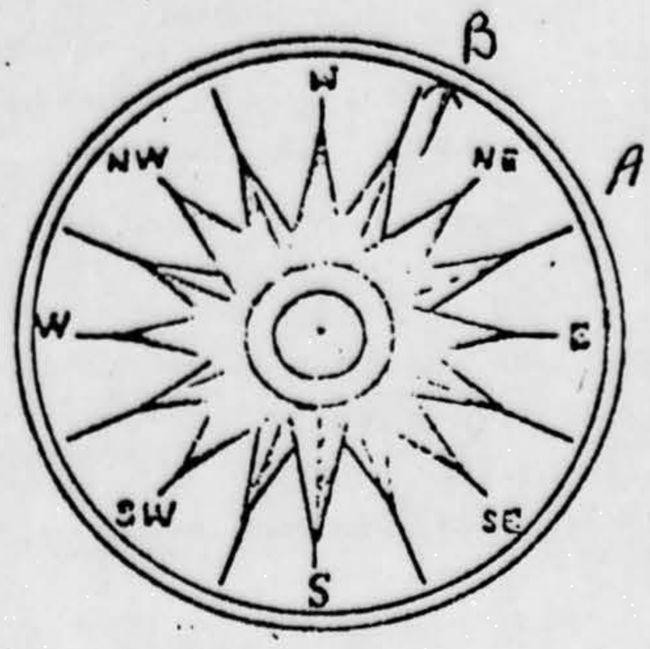

a. Eyeglasses	Yes	No	e. Binoculars	Yes	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
d. (Window glass)	Yes	No	h. Other also passed by 2 times & stopped		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

Nothing I have ever seen compares with object

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

B going away motion straight
A rocking motion

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

~~X~~ No

31. Was anyone else with you at the time you saw the object? (Circle One) (Yes) No

31.1 IF you answered YES, did they see the object too? (Circle One) (Yes) No

31.2 Please list their names and addresses:

Mrs [redacted], wife

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) Leominster (City) ___ (Zone) Mass (State)

TELEPHONE NUMBER — AGE 31 SEX MALE

Indicate any additional information about yourself, including any special experience, which might be pertinent.

3.5 YEARS H.S. - PAINTER

SOME SCUBA DIVING & SKY DIVING

33. When and to whom did you report that you had seen the object? Sergeant Caissie of Leominster Police Dept

Thursday (Day) March (Month) 1963 (Year)

34. Date you completed this questionnaire: 6 (Day) 4 (Month) 1967 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

On the night in question, my wife and I was out riding to see the law hanging trees in the cemetary following a snow storm, we were on our way home, at 488 Lancaster St. We have to pass the areaa on way home, As we passed the cemetary I noticed what looked like a large light to my left, I asked my wife if she saw anything and she said no, I was certain I had, and decided I would look again on the second pass my wife saw it also, I then lowed our windows and came back again, I also got excited, and told my wife I think we have something here, and ~~retured~~ returned to point of light, I came to a halt got ~~of~~ out of my car, upon getting out I pointed at object, my car stalled lights went out & radio stopped playing, I was unable to ~~move~~ move, my wife was in panick, my mind was not at all effected, just could not, ~~mind~~ felt like shock or numbness, I was there 30 or 40 seconds before object moved away it moved quickly at increasing speed not instantley, I was able to move again and I got in the car, I turned my car around after starting it, my electrical system came on again and seemed normal, my reactions were slow & sluggish I hit my doors on the way into driveway, it 15 to 20 min befor I felt able to move right, with good coordination

DATA SHEET - UNIDENTIFIED FLYING OBJECT(s)

Please answer the following questions concerning the Aerial Phenomena you observed. The data will be used for research purposes. Thank you for your cooperation in this matter.

Return to: Raymond E. Fowler, CHAIRMAN NICAP MASSACHUSETTS SUBCOM. 13 Friend Court, Wenham, Mass. Tel. 468-4815

1. When did you see the object?

31	March	1967
Day	Month	Year

2. Time of day: 1 Hour 05 Minutes

(Circle One): (A.M.) or P.M.

3. Time Zone:

(Circle One): (a.) Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving (b.) Standard

4. Where were you when you saw the object?

St Louis Cemetery	Leominster	Mass.
Nearest Postal Address	City or Town	State or County

5. How long was object in sight? (Total Duration) _____ Hours 3 Minutes _____ Seconds

a. Certain
(b.) Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? _____

5.2 Was object in sight continuously? Yes _____ No ✓

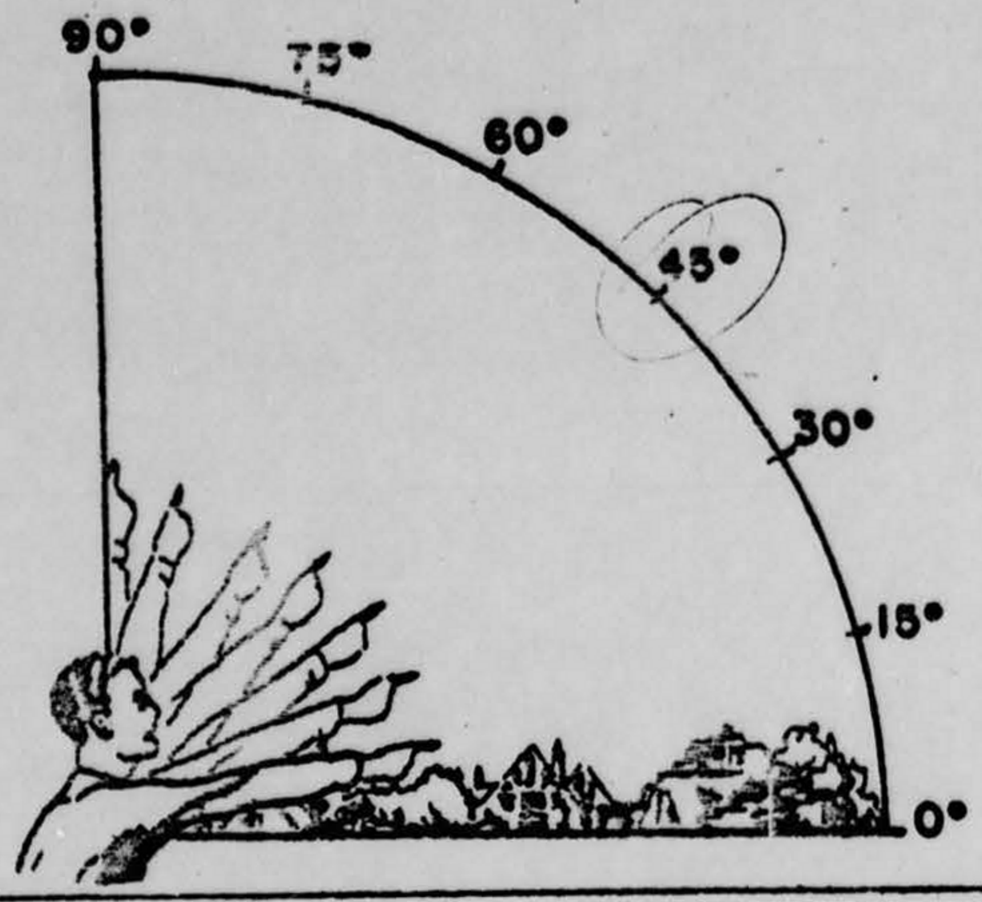

6. What was the condition of the sky?

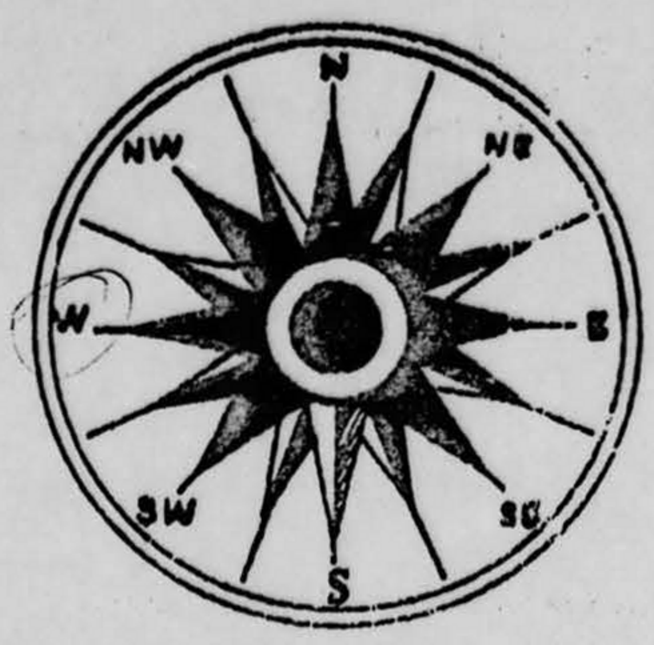

DAY	NIGHT
a. Bright	(a.) Bright
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

No motion, just a dot up

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
(b.) A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
(d.) Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

(a.) Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

(a.) Dry
b. (Fog,) mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
(d.) As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

(a. Brighter)
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

Brighter than any lights around

12. The edges of the object were:

(Circle One): a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other The only noticeable outside was that of the light also to the closest fog.

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	(Yes)	No	Don't know
b. Suddenly speed up and rush away at any time?	(Yes)	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	(Yes)	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	(Yes)	No	Don't know
h. Disappear and reappear?	Yes	(No)	Don't know

14. Did the object disappear while you were watching it? If so, how?

Yes. It got brighter for a second or two and then began

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: ___

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: ___

17. Tell in a few words the following things about the object:

a. Sound Sound not a hum and just like that

b. Color Alternately whitish + blue and yellowish.

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

A very small amount

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

(Light

Here we are

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
(b.) In a car
c. Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
(b.) In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other It was over a cemetary

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North (c.) East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? 15 miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) (Yes) No

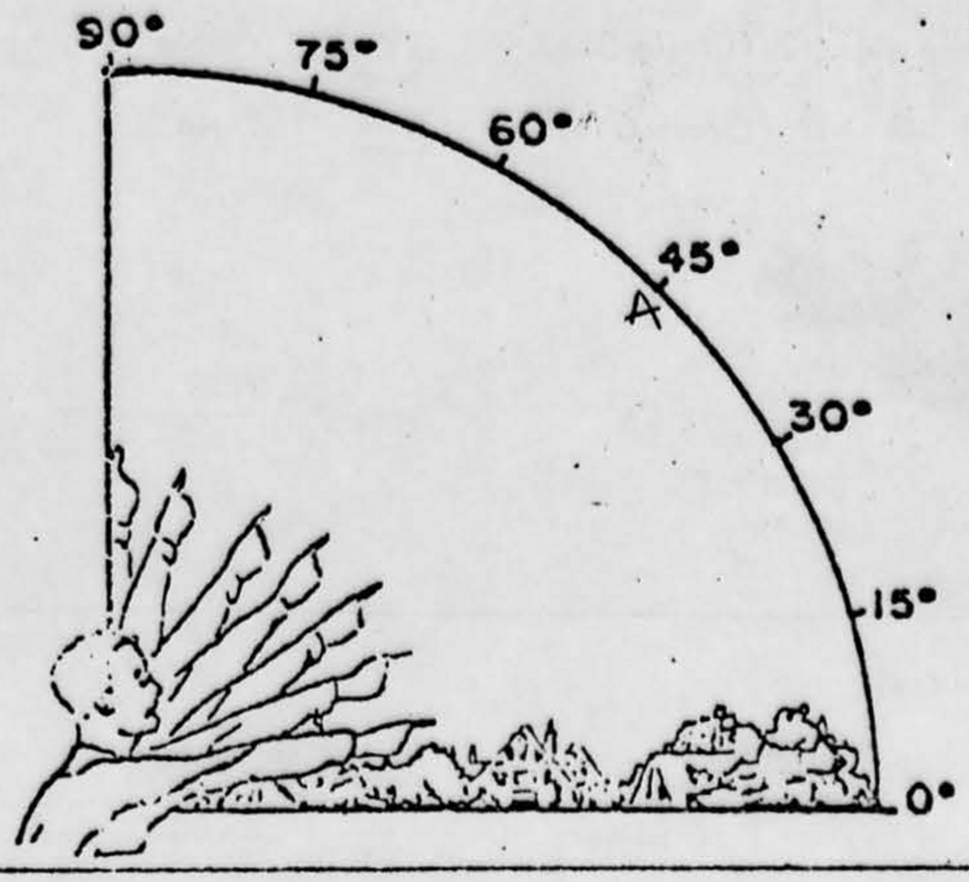

25. Did you observe the object through any of the following?

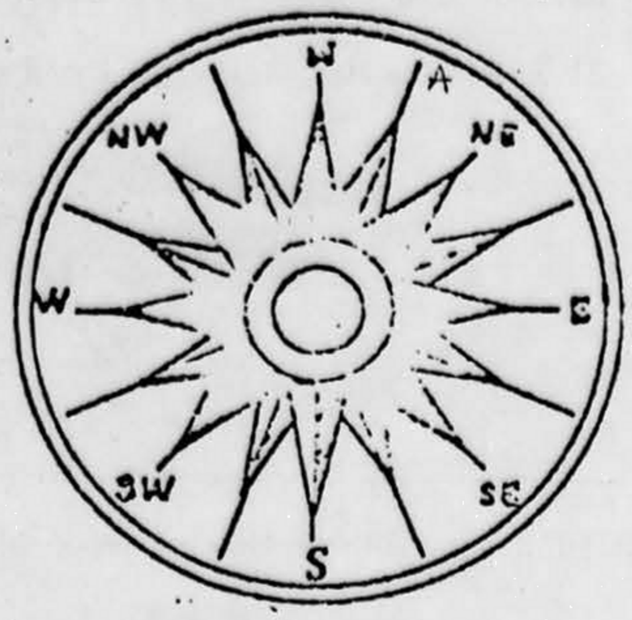

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	No
b. Sun glasses	Yes	(No)	f. Telescope	Yes	No
c. Windshield	(Yes)	No	g. Theodolite	Yes	No
d. Window glass	Yes	(No)	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

There is nothing I could compare this with.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

I was walking in a stationary position when I first saw it

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

None

31. Was anyone else with you at the time you saw the object? *(Circle One)* (Yes) No

31.1 IF you answered YES, did they see the object too? *(Circle One)* (Yes) No

31.2 Please list their names and addresses:

Mr. [redacted]
[redacted]
Lawrence, Mass.

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) Lawrence (City) 01843 (Zone) Mass. (State)

TELEPHONE NUMBER _____ AGE 32 SEX F.

Indicate any additional information about yourself, including any special experience, which might be pertinent.

3-5 YRS H.S. – HAIRDRESSER SCHOOL – FACTORY WORKER (PLASTICS)

33. When and to whom did you report that you had seen the object?

9 (Day) March (Month) 1967 (Year) Reported this to person here to — Mr. Connie, whose name Ruffo I think was

34. Date you completed this questionnaire: 1 (Day) Oct (Month) 1967 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

We were out for a ride in the night in question and had been driving for approximitly an hour and a half. We were on our way back home when we suddenly came across a very thick fog which we had to slow our car to a real low speed for safety reasons. We rode right thru it so we turned around to investigate it by this time we spotted a light at this time we thought nothing of it as we were there [redacted] turned back again and on this time by I also noticed. We then turned around again. This time by we stopped the car. By this time [redacted] got out, which I was very much against. When he got out of the car everything went dead. He decided to reach for his door when the door window. When we stopped the car I saw what appeared to me as a ball of bright and very big light. This I saw before [redacted] got out of the car. My attention was from then on, on [redacted] and not on the object. I was very aware of a noise but unlike anything I could explain. When the car went dead I was yelling for [redacted] to get back in to the car. but he did not move from where he was standing. I then slid across the seat and reached for him. It was at about this time that the light and noise came back on. [redacted] then jumped back into the car and turned around in the middle of the road and we came right on home. We were about 5 min. and we decided to go and tell someone about it. When we rode back by all evidence of anything having been there was gone.

OFFICIAL U.S. AIR

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

9	3	67
Day	Month	Year

2. Time of day: 8 : 50
Hours Minutes

(Circle One): A.M. or (P.M.)

3. Time Zone:
(Circle One): (a. Eastern)
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
(b. Standard)

4. Where were you when you saw the object?

Downtowner Motel — Nearest Postal Address
Charlottesville — City or Town
Virginia — State or County

5. How long was object in sight? (Total Duration) _____ Hours 3-5 Minutes _____ Seconds

(a. Certain)
b. Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? Distance traveled in auto in traffic and at light at intersection

5.2 Was object in sight continuously? Yes ✓ No ___

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a. Bright)
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight—pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

Decided it was light on top of Antennas on Motel.

12. The edges of the object were:

(Circle One): a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other Spilled Sparks while Motionless. Thought short circuit on Antenna when it pulled off.

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

Official U.S. Air Forc

14. Did the object disappear while you were watching it? If so, how? It pulled off as a car would - and kept on til out of site. At one point saw reflection on substance which must have been underside -

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what it moved behind:

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what in front of:

17. Tell in a few words the following things about the object:

a. Sound Spilled sparks while stationary.

b. Color Bright light

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

Reflection on shapeless substance would have been about half-covered by match head.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

light on top of antenna atop 4 story motel. Had thought antenna to be about 20 feet. Discovered later motel has no antenna.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

1965, Vandalia, Dayton

31. Was anyone else with you at the time you saw the object? (Circle One) Yes No

31.1 IF you answered YES, did they see the object too? (Circle One) Yes No

31.2 Please list their names and addresses:

[redacted]
Dayton, Ohio 45414

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) Dayton (City) Ohio 45414 (Zone) (State)

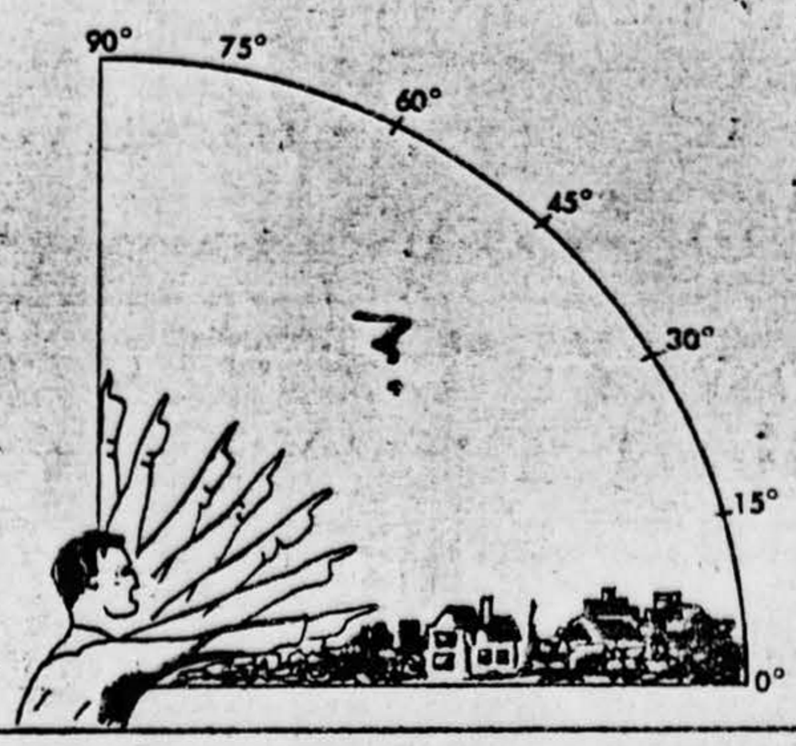

TELEPHONE NUMBER [redacted] AGE 34 SEX Female

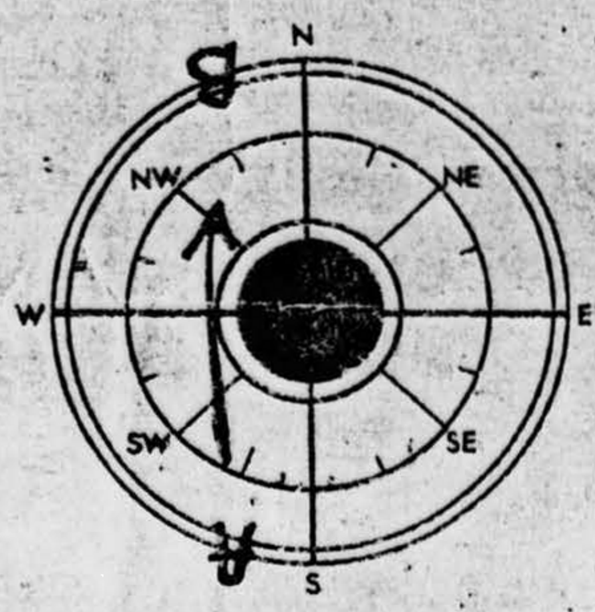

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object? FAA Dayton Tower

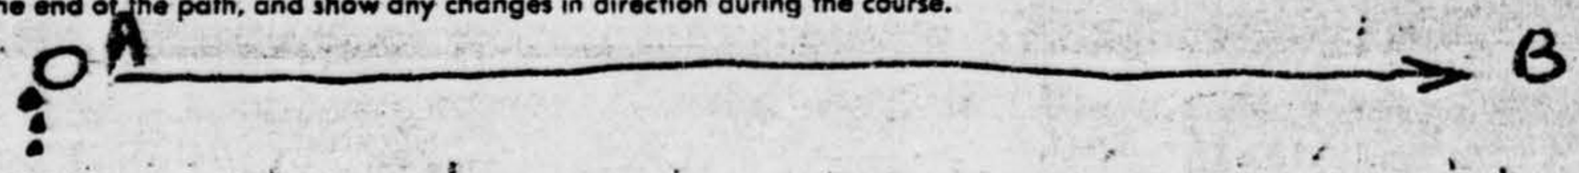

2 (Day) March (Month) 67 (Year)

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass when you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

No

31. Was anyone else with you at the time you saw the object? *(Circle One)* (Yes) No

31.1 IF you answered YES, did they see the object too? *(Circle One)* (Yes) No

31.2 Please list their names and addresses:

Husband: [redacted], JR. (Lt. Col USMCR)

(He only saw it while it was stationary was driving the car.)

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) Ivy (City) 22945 (Zone) VA (State)

TELEPHONE NUMBER [redacted] AGE 42 SEX F

Indicate any additional information about yourself, including any special experiences, which might be pertinent.

33. When and to whom did you report that you had seen the object?

_____ (Day) _____ (Month) _____ (Year)

No one official but you.

34. Date you completed this questionnaire: 11 (Day) 3 (Month) 67 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

As we approached the intersection we noticed a light too bright to be a star, though at first we thought it possibly might be. Then we decided it was a light on the antenna of the motel on our right in front of us. As we drew up to the traffic light, Mr. [redacted] lost sight of it, or rather, ceased to look at it, but I noticed that it was spilling sparks and commented that apparently there was a short circuit on the antenna and my husband at that point couldn't see as he was driving and his view was obliterated by the top of the automobile. Suddenly to my astonishment the light proceeded in a Northerly direction at a steady

speed. As it was over my right shoulder I saw a reflection for a moment on some substance. I had rolled the windows down, And there was no sound of aircraft. It shocked out of sight and I have no idea how high it was.

d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

_____

12. The edges of the object were:

(Circle One):

a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other _____

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

64

Official U.S. Air Force

14. Did the object disappear while you were watching it? If so, how?

It streaked across the sky

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes No Don't know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

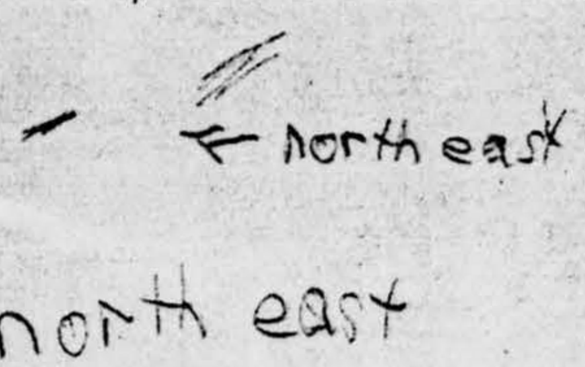

a. Sound NO sound

b. Color It looked like a roman candle

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

about 1/2

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

34. Date you completed this questionnaire: 2 Nov 67
Day Month Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

UFO form continued

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate? Zoom!

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? 1 mile

22. Where were you located when you saw the object?

(Circle One):

a. Inside a building
b. In a car
c. (Outdoors)
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
b. (In the residential section of a city?)
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

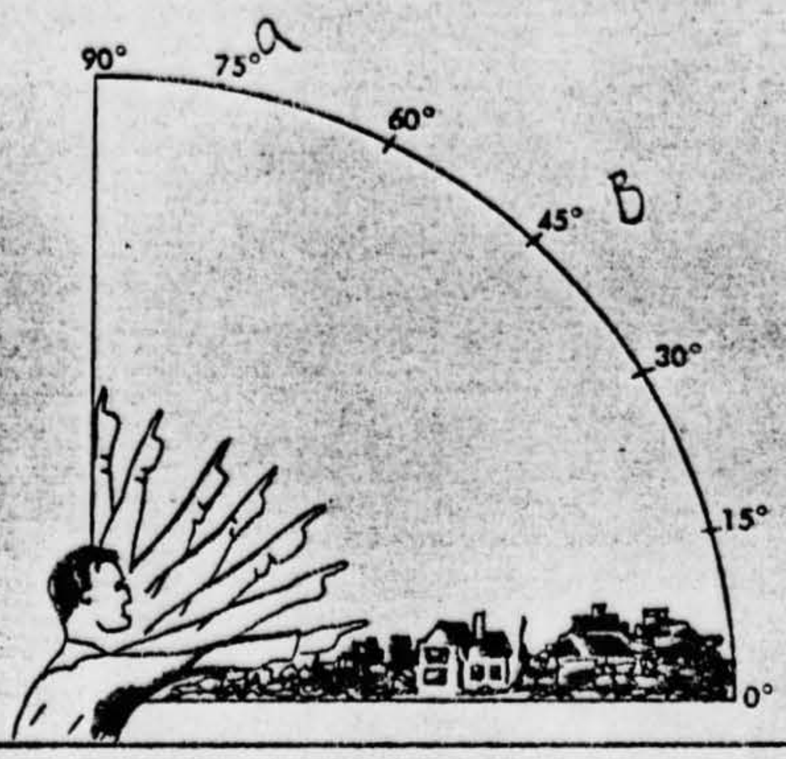

a. Eyeglasses	Yes	No	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	No	f. Telescope	Yes	(No)
c. Windshield	Yes	No	g. Theodolite	Yes	(No)
d. Window glass	Yes	No	h. Other _____		

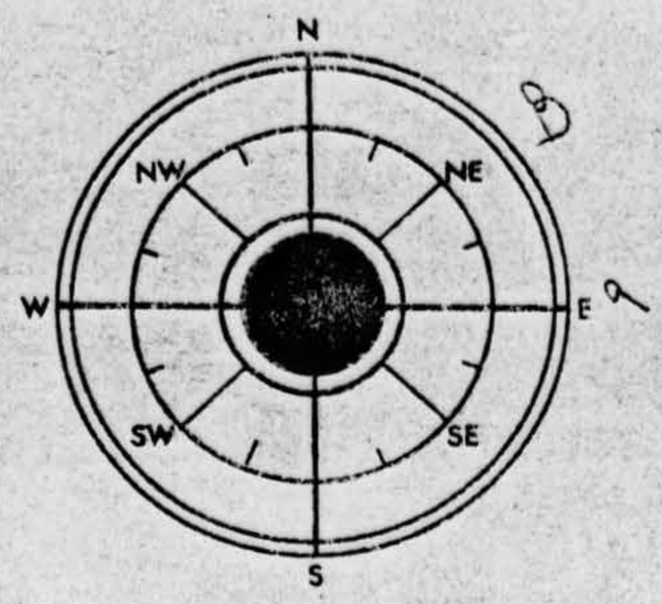

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

a flying Roman candle

Official U.S. Air Force

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass when you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there?_____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

UFO form continued

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

31. Was anyone else with you at the time you saw the object? *(Circle One)* (Yes) No

31.1 IF you answered YES, did they see the object too? *(Circle One)* Yes (No)

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) Greenwich (City) ___ (Zone) Conn. (State)

TELEPHONE NUMBER [redacted] AGE 11½ SEX Boy

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

_____ (Day) _____ (Month) _____ (Year)

Official U.S. Air Force

34. Date you completed this questionnaire: 10 (Day) March (Month) 1967 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

I was sitting on our porch steps. When I looked up and saw this different colored object moving north east and at one point seemed to give off some of its light.

Dear Sirs :
Would you please send me a copy of your report on Project Blue Book, and any other material on U.F.O.s.
I also would like to report a U.F.O. I sighted.

TIME/PLACE: March 11, 1967, in my backyard (Washington, Ia.)
DURATION: ½ minute 2.00p.m. (approx)
NUMBER of OBSERVERS: one (myself)
NUMBER of OBJECTS: one, circular in shape
SHAPE: circular, about the size of a penny , sharply outlined
COLOR: dull red
ALTITUDE: unknown, below 5,000ft (my guess)
SPEED: 200mph
SOUND: none
TACTICS: Object was first sighted overhead , going in a northerly direction.
It didnt change direction at any time .
Thank you for you time.

Yours truly

JUN 5 1967

Dear Mr. [redacted]

This replies to your letter reporting your unidentified flying object (UFO) sighting.

We appreciated learning of your unusual experience and will file your letter for information purposes. At this late date, it would be impractical to undertake a detailed investigation. It is important that a witness report his observation as soon as possible to the nearest Air Force installation. This enables Air Force analysts to perform a comprehensive investigation.

I don't know what you saw -- but it was obviously not familiar to you. We define a UFO as any aerial phenomenon or object which is unknown or appears out of the ordinary to the observer.

Thank you for your letter; we appreciate your interest in our program. A copy of the report on Project Blue Book is inclosed for your information.

Sincerely,

BARNETT B. YOUNG

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

3 (Day) MAR (Month) 67 (Year)

2. Time of day: 7:30 (Hour) _____ (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One) (a. Eastern)
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

_____ (Nearest Postal Address) DAYTON (City or Town) OHIO (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) 10 (Minutes) _____ (Seconds)

(a. Certain)
(b. Fairly certain)
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? looked at clock before and after entering and leaving base

5.2 Was object in sight continuously? Yes _____ No X

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	a. Bright
b. Cloudy	(b. Cloudy)

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One):
a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORCE UFO FORM

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight (crescent)
c. No moonlight--pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

Christmas Tree light (red)

12. The edges of the object were:

(Circle One): a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember

e. Other _____

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

64

Official U.S. Air Forc

14. Did the object disappear while you were watching it? If so, how?

yes

it just blurred out

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): (Yes) No Don't know. IF you answered YES, then tell what it moved behind: trees

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what in front of:

17. Tell in a few words the following things about the object:

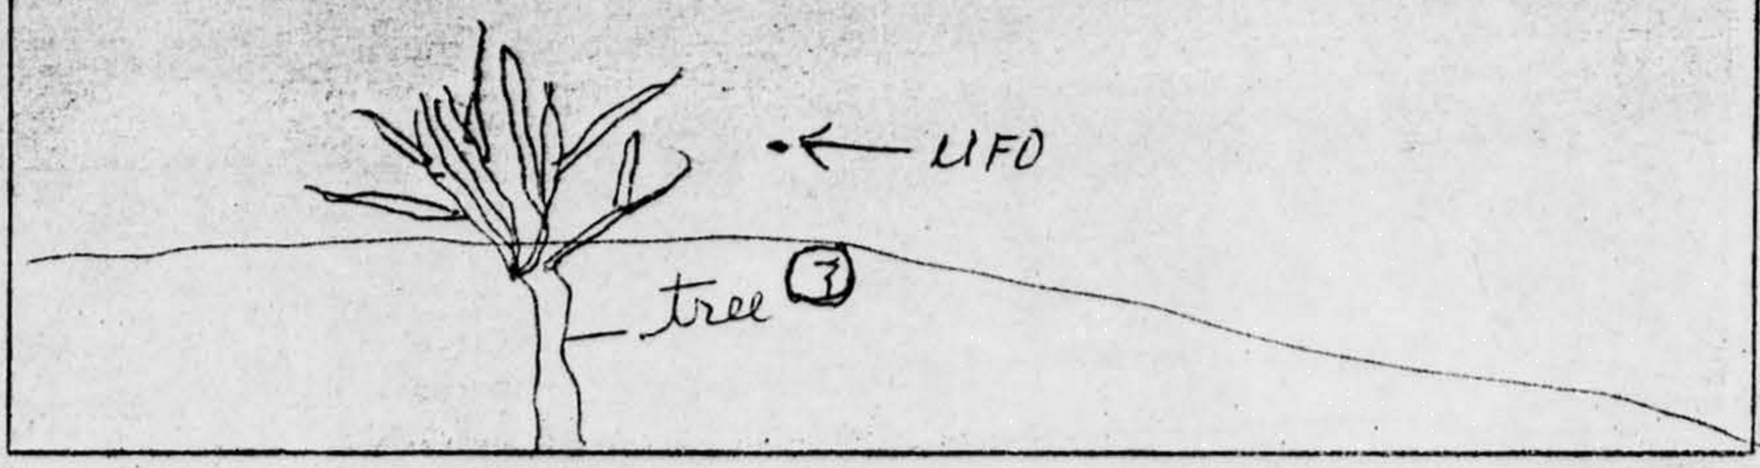

a. Sound none

b. Color red

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

all

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

e UFO form continued

20. Do you think you can estimate the speed of the object?

(Circle One) (Yes) No

IF you answered YES, then what speed would you estimate? 70-80 M.P.H.

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was?_____

22. Where were you located when you saw the object?
(Circle One):

a. Inside a building
b. In a car
c. (Outdoors)
d. In an airplane (type)
e. At sea
f. Other_____

23. Were you (Circle One)

a. In the business section of a city?
b. In the residential section of a city?
c. (In open countryside?)
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other_____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving?_____miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

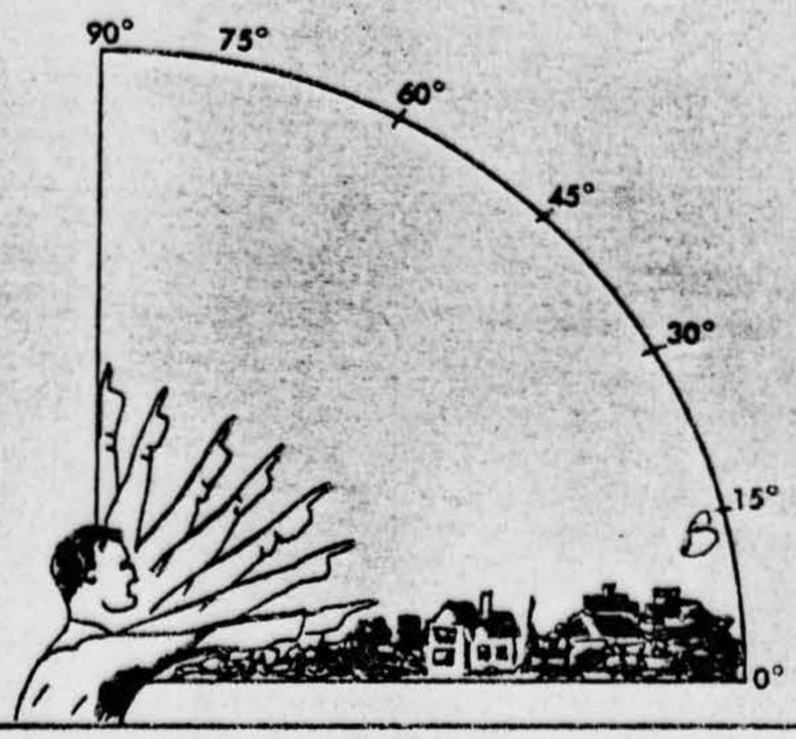

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	(Yes) briefly	No
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other_____		

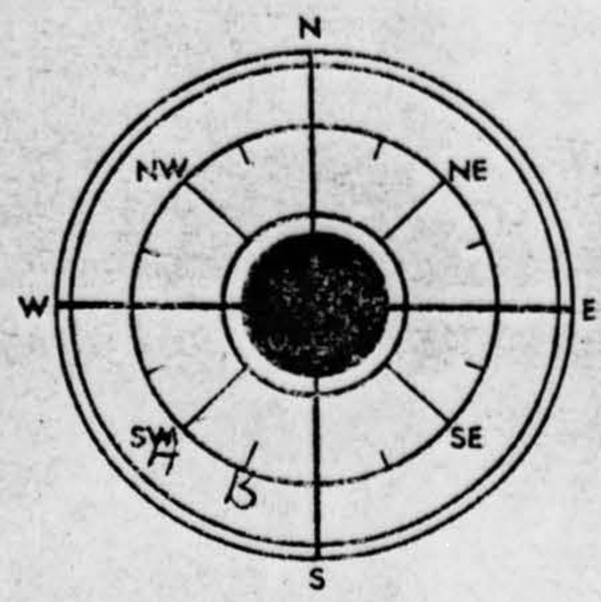

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

an airplane without green running light

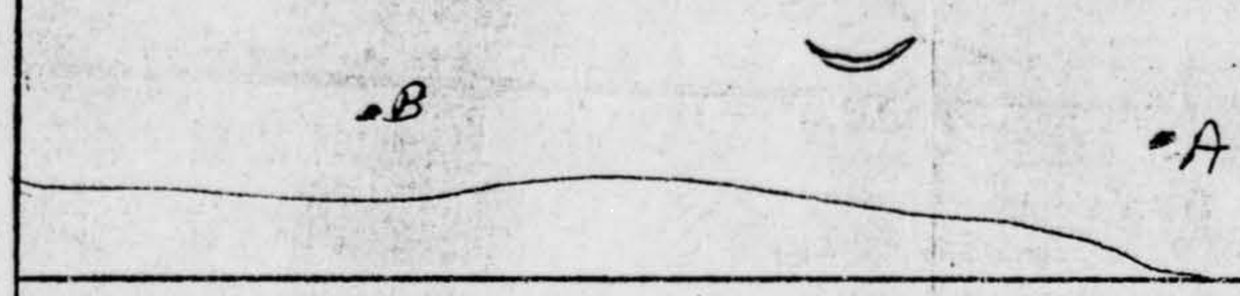

Official U.S. Air Force

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass when you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.
