35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

I have worked nights for a period of 12 years. I have, in that time, never saw anything which remotely resembled the object described. I have worked on Air Bases & observed many types of aircraft, also being a weather observer for four years I am quite familiar with what observation balloons look like, and this was definitely not either of these.
