The UFO went very slow until it made the designs I showed ^{you} ~~me~~ then it was speeding up very fast and changed colours from a dull star light to a brighter light then red. After it made the designs it slowed down again and went out into space, then pffff. It disappeared!

It was weird, no plane or helicopter could have done that, especially at night. I mean, stop, then straight down, - then over, then up again, like it did. ↓
