Dear Sir,

This is an article involving us, in the Paterson Daily News Paper:
"Two boys, residents of the South Paterson section of the city, spotted what they believed to be a UFO shortly after 9 p.m. Wednesday night. [REDACTED], 12, of [REDACTED] a seventh grade student in St. Agnes Grammar School called the News as soon as he returned home after viewing the strange site. [REDACTED] said that he and his friend, [REDACTED], 13, of [REDACTED], were walking on [REDACTED] near Park Street, shortly after 9 p.m. when they spotted a rather large, dim glowing object in the sky. He said the object had a red center and hovered about one minute in one spot and then moved rapidly until it disappeared from view."

We might add something that was not mentioned in the article, the object was close enough to the ground that a person would be able to hear some sort of noise, but there was none.

Sincerely yours,

[REDACTED]

Proposed reply to letter from A2C Charles Rogers, 11 May 1967

Dear Airman Rogers:

This replies to your recent correspondence regarding your unidentified observation. At this late date, a meaningful scientific investigation is not possible. It is important for an individual to report his observation to the nearest Air Force installation as soon as possible. Your information will be filed for information purposes only.

To date, there has been a total lack of tangible evidence to indicate our planet has or is being visited by extraterrestrial vehicles. UFOs do exist; but in reports only.

Thank you for your interest in the Air Force's UFO program.

Gentlemen,

I am writing a report concerning several UFO's witnessed by myself and several others who were with me at different times.

The first and most prominent one was an object I saw flying between my home and Kansas City. The object, when I first saw it, was about the size of a street light at a distance of one hundred yards away. This was on the night of May 23, 1966. The object seemed to be shaped as thus: . It was glowing a dull orange-red. I watched it, as it went through a series of maneuvers, for approximately half an hour.

It seemed to be looking for something. It would hover then descend to the horizon, hover,

ascend and move south very slowly, then repeat the maneuver.

Then it stopped for a few seconds and seemed to be just about fifty feet from the ground. This height, of course, is only an estimate.

Suddenly the intensity of its glow increased ~~immensely~~ immensely and it flashed off toward the south, ascending at about a 30° angle to the ground.

But then where it had stopped there appeared another one who repeated the change in light and followed the first. I watched them until they had gone.

The night had been a dark one, with no moon or clouds to be seen anywhere. I ~~observed~~ observed them from my bedroom through a pair of 5X binoculars.

For about a week after, both my family and I watched several UFO's which were in two's & three's flying at a very high altitude.

About a week before this I was
at a party by a lake when three
flew over flying south west in what
seemed to be an formation, "o o", like
this. These were very high, ~~and~~ but
brighter than any star I've ever seen.
Each was a single white light.

The reason I was so long in contacting you was because I didn't have an address.

I am in the Air Force now and I think I owe it to my country to tell them that there is something in our ships that doesn't belong there. Our duty is to gain and ~~maintain~~ maintain air supremacy throughout the ~~the~~ skies. But, gentlemen, I think we've lost that goal simply because we're too ignorant to accept what we don't understand. I thank you for your time.

Sincerely,

[REDACTED]

Kelley ABB, Mine 39534

What would be your thoughts if you saw two UFO's approach, then one of them land near you? Would you do as Steve? He studied it for about 15 minutes, sketched it, then approached the craft. Hearing voices, he tried to communicate in seven languages, but received only silence. He touched the ship, finding it hot. As it started to lift off, he was burned by the energy which empowered it.

The strange burns and other ill effects required his confinement in bed for a week, during which time he had still-undiagnosable symptoms of his encounter. On September 15th he had a one-day recurrence and hospitalization.

But on November 1st he said, "Right now I feel quite good, physically and mentally." In his MAIN interview in his own home, Steve relates the initial experience and its following developments, giving his present attitude and thoughts about visitors from other planets.

Mark-Age Inform-Nations is inaugurating its radio and newspaper syndication departments with this exclusive interview on tape with Steve Michalak of Winnipeg, Canada. The half-hour radio presentation will be premiered on Frank Poynter's "Open Mike" show over WQAM, Miami Beach, Florida on November 19th, between 11 PM and 2 AM.

This program has been selected because of the reception its moderator and its audience have given to Mark and Yolanda, the co-directors of Mark-Age MetaCenter, Inc., parent organization of MAIN, during their six guest appearances on "Open Mike" since August 1, 1967.

ATTENTION: RADIO PROGRAM DIRECTORS & EDITORS

This dramatic tape recorded interview, with narration by Mark of Mark-Age, then will be made available as a syndicated, special feature program throughout the world. I was traveling in West - East direction as I saw a moving object in the sky. I pulled off the road to make sure that I was seeing right. When I got out of my car the object was stopped. Moving away from the object I saw 2 red objects which looked like bombs dropped from a plane. Then the object started moving again in the same direction. Again as it was moving I noticed 2 red objects coming from it and disappearing. I then walked to a near by gas station to tell other people what I was seeing. The object disappeared at this point.

Dear Mr. [REDACTED]

~~June 16, 1967~~

Reference your recent correspondence in which you reported sightings of unidentified flying objects (UFOs) in your area.

If the individuals wish to report their observations directly to the Air Force they should contact the nearest Air Force installation which is Andrews AFB, Maryland.

Each Air Force base has an UFO investigator who gathers all pertinent information on the particular sighting. If he is unable to determine the stimulus, the information is sent to Project Blue Book at Wright-Patterson Air Force Base for their evaluation and further investigation.

Your information will be filed for information purposes.

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

It did not have any behaviors of that which a plane would have. The only way the UFO could possibly be solved is by saying that it was a helicopter, and this is not so because of the distance from me. If it ~~was~~ was a helicopter a sound of some sort would have been heard. And after watching it for 2 minutes and 15 seconds it took off like a rocket.
