BRIEF SUMMARY AND ANALYSIS                                                                                                                                                                                                                                                                                                                                                                            |
| 6. TYPE OF OBSERVATION<br>Ground Visual                                                        | Observers noticed flashing lights traveling in a easterly direction over the Sassafras River. There were approximately 20 to 30 flashes in a zig zag pattern. The first flashes were about as bright as a bright star. The last flashes diminished somewhat, and simply stopped about 45 feet above the horizon. The flashes seemed to be at regular intervals but the distance intervals varied greatly. |
| 7. COURSE<br>eastward                                                                          |                                                                                                                                                                                                                                                                                                                                                                                                           |
| 8. PHOTOS<br><input type="checkbox"/> Yes<br><input checked="" type="checkbox"/> No            | Contact with Bendix Flight Operations revealed that a NASA C-119A aircraft was in the area using a ACSC with tracking light located on the bottom of the aircraft.                                                                                                                                                                                                                                        |
| 9. 20. Do you think you can estimate the speed of the object?

(Circle One)

Yes

No

IF you answered YES, then what speed would you estimate? \_\_\_\_\_

21. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

No

IF you answered YES, then how far away would you say it was? \_\_\_\_\_

22. Where were you located when you saw the object?  
(Circle One):

a. Inside a building

b. In a car

c. Outdoors

d. In an airplane (type)

e. At sea

f. Other (At anchor on a boat)

23. Were you (Circle One)

a. In the business section of a city?

b. In the residential section of a city?

c. In open countryside?

d. Near an airfield?

e. Flying over a city?

f. Flying over open country?

g. Other \_\_\_\_\_

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North

c. East

e. South

g. West

b. Northeast

d. Southeast

f. Southwest

h. Northwest

24.2 How fast were you moving? \_\_\_\_\_ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

Yes

No

25. Did you observe the object through any of the following?

a. Eyeglasses

Yes

No

e. Binoculars

Yes

No

b. Sun glasses

Yes

No

f. Telescope

Yes

No

c. Windshield

Yes

No

g. Theodolite

Yes

No

d. Window glass

Yes

No

h. Other \_\_\_\_\_

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

Bright star

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? \_\_\_\_\_

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

No

31. Was anyone else with you at the time you saw the object? (Circle One)

Yes

No

31.1 IF you answered YES, did they see the object too? (Circle One)

Yes

No

31.2 Please list their names and address

[REDACTED]

Philadelphia

32. Please give the following information about yourself:

NAME

Last Name

First Name

Middle Name

ADDRESS

Street

City

Zone

State

TELEPHONE NUMBER

AGE

SEX

Indicate any additional information about yourself, including any special experience, which might be pertinent.

Good, clear observer, in general; rational,

also:

[REDACTED]

[REDACTED] St., Philadelphia, Pa.

(A licensed private pilot)

33. When and to whom did you report that you had seen the object?

19  
Day

June  
Month

1967  
Year

U.S. A.F.

34. Date you completed this questionnaire:

13  
Day

July  
Month

1967  
Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

Covered in my letter & diagram  
Sent to you 6-19-67.

MEMO FOR THE RECORD: 21 July 67

Contact was made with Mr. [REDACTED] Information officer, Aberdeen Proving Ground. Mr. [REDACTED] said that he did not believe that any craft from the proving ground could have been responsible for the sighting. The grounds consists of 7500 acres and their craft do not go outside the limits on missions. Mr. [REDACTED] said that he would check into the matter in detail and if he found anything he would call.

REPLY TO  
ATTN OF: TDET/UFO

AUG 3 1967

SUBJECT: UFO Observation, 17 June 1967

TO: Bendix Flight Operations  
Friendship Airport  
Baltimore, Maryland 21203

Our office has received a report of an unidentified flying object, over the Sassafras River in northeastern Maryland on the night of 17 June 1967. Request information on any flights of the seven, four-engine aircraft which are operated for Goddard Space Flight Center, NASA. Possibly, one of these craft was in the northeastern Maryland area at approximately 2230 EDT, 17 June 1967. Your assistance is appreciated.

*James C. Manatt*  
JAMES C. MANATT, Colonel, USAF  
Director of Technology and Subsystems

1st Indorsement

TO: TDET/UFO  
FM: Bendix Flight Operations

Review of the flight records on file this station reveals that a C-118A, NASA 428 was conducting tests on the REEVES Ranging and Tracking System in the vicinity of Friendship Airport from June 18/0200 GMT to 18/0515 GMT. This would place this aircraft in the area of the reported sighting on 17 June 2230 EDT.

These tests were conducted at varying altitudes of 5000 to 12000 feet, displaying a 4050 watt tracking light located on the bottom of the aircraft.

## U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

SUNDAY June 1967  
Day Month Year

2. Time of day: 9 : 30  
Hours Minutes

(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One): a. Eastern  
b. Central  
c. Mountain  
d. Pacific  
e. Other \_\_\_\_\_

(Circle One): a. Daylight Saving  
b. Standard

4. Where were you when you saw the object?

██████████ AVE HAMMOND INDIANA  
Nearest Postal Address City or Town State or County

5. How long was object in sight? (Total Duration)

0 1 45  
Hours Minutes Seconds

a. Certain  
b. Fairly certain

c. Not very sure  
d. Just a guess

5.1 How was time in sight determined?

I TIMED THE OBJECT

5.2 Was object in sight continuously?

Yes ✓ No \_\_\_\_\_

6. What was the condition of the sky?

DAY  
a. Bright  
b. Cloudy

NIGHT  
a. Bright  
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you  
b. In back of you  
c. To your right

d. To your left  
e. Overhead  
f. Don't remember

I DIDN'T SEE IT AT

NIGHT

## Page 2

8.1 STARS (Circle One):

- ### 8.2 MOON (Circle One):

9. What were the weather conditions at the time you saw the object?

**CLOUDS (Circle One):**

- WEATHER (Circle One):

10. The object appeared: (Circle One):

- d. As a light

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- c. About the same  
d. Don't know

11.1 Compare brightness to some common object:

12. The edges of the object were:

(Circle One): a. Fuzzy or blurred  
b. Like a bright star  
c. Sharply outlined  
d. Don't remember

e. Other

13. Did the object:

(Circle One for each question)

- a. Appear to stand still at any time?
- b. Suddenly speed up and rush away at any time?
- c. Break up into parts or explode?
- d. Give off smoke?
- e. Change brightness?
- f. Change shape?
- g. Flash or flicker?
- h. Disappear and reappear?

14. Did the object disappear while you were watching it? If so, how?

no it JUST FLEW AWAY

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't know.

If you answered YES, then tell what

it moved behind:

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't know.

If you answered YES, then tell what

in front of:

IN FRONT OF A CLOUD

17. Tell in a few words the following things about the object:

a. Sound

✓ VERY, VERY, LOUD

b. Color

ORANGE, GREEN, RED, WHITE, AND, PURPLE

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

NOT VERY MUCH

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes No

IF you answered YES, then what speed would you estimate? 60 M.P.H.

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

IF you answered YES, then how far away would you say it was? \_\_\_\_\_

22. Where were you located when you saw the object?

(Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane (type) \_\_\_\_\_
- e. At sea
- f. Other \_\_\_\_\_

23. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other \_\_\_\_\_

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

- a. North
- b. Northeast
- c. East
- d. Southeast
- e. South
- f. Southwest
- g. West
- h. Northwest

24.2 How fast were you moving? \_\_\_\_\_ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

- |                 |     |    |               |               |    |
|-----------------|-----|----|---------------|---------------|----|
| a. Eyeglasses   | Yes | No | e. Binoculars | Yes           | No |
| b. Sun glasses  | Yes | No | f. Telescope  | Yes           | No |
| c. Windshield   | Yes | No | g. Theodolite | Yes           | No |
| d. Window glass | Yes | No | h. Other      | THE NAKED EYE |    |

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

A TRIANGLE  
WITH LITTLE DOTS  
ON IT.

17 June 8.

AUG 24 1967

Dear Mr. [REDACTED]

Reference your recent correspondence concerning your unusual observation, the description you submitted was similar to that of an aircraft. We contacted the Bendix Flight Operations at Friendship Airport, since they operate several aircraft for the Goddard Space Flight Center, and in the past, these aircraft have been responsible for numerous UFO sightings.

Between 10:00 p.m., June 17, and 1:15 a.m., June 18, a C-118A NASA aircraft was in the area of the reported sighting at approximately 10:30 p.m., June 17. The tests were conducted at varying altitudes, displaying a 4050-watt tracking light located on the bottom of the aircraft.

Although we cannot identify your observation positively, we do believe this aircraft to have been responsible for your sighting.

Sincerely,

BARNETT B. YOUNG  
Lt Colonel, USAF  
Chief, Civil Branch  
Community Relations Division  
Office of Information

I think I should tell you how this came about. I was walking home from the shopping center, when I look normally and saw a jet, at first I thought it was a jet but then after looking ~~at~~ at it a while it was a UFO. I told my brother to look. He saw it but then he lost it, I started to run to the house when it went behind a tree. I wanted to see if it was still there, so I ran in the backyard, but after I was back there I couldn't see it anymore.

Proposed reply to letter from [REDACTED] July 24, 1967 (Sighting 4 Jun 67)

Dear [REDACTED]

Reference your recent letter in which you requested information on unidentified flying objects.

With the information which you submitted in your letter, it would be extremely difficult to offer an explanation on your observation. Essential data such as flight characteristics, maneuvers, and duration of sighting are quite important in a comprehensive evaluation.

Also, it is not possible for us to undertake an investigation into the cause of your observation, since your sighting occurred outside the limits of the United States.

The inclosed information on the Air Force's program on unidentified flying objects should be of interest to you.

Thank you for bringing your observation to our attention. We hope that your visit to the United States is pleasant.

*To Sefin 4 Aug 67*

~~████████████████████~~  
Woodstock Valley

24.7.67.

Project Blue Book  
Wright-Patterson AF Base,  
Dayton, Ohio.

Dear Sir,

I am an Irish Student working in the United States for the Summer. I am extremely interested in UFO's, and I believe that you issue certain articles and booklets to the general public. If this is so perhaps you could send me the material available. after July 29 my address will be:

~~████████████████████~~  
Bitchfield, Conn.

I am seriously interested in the UFO mystery, and have read books and articles by Hynek, Vallée, Menzies, Ruppelt, Adamski, and many others. I have seen one UFO. It looked like a pencil-shaped cloud (about the size of a pencil held at arm's length). Very regular shape. It covered almost half the sky ( $90^{\circ} - 20^{\circ}$  above horizon) in about 10-15 seconds. It was cloud colored, and completely silent. It moved due East. My Sighting occurred in North Dublin, on June 4, 1967, 10.45 p.m.

If you are interested I could very much make out a more complete report. Hoping I am not causing you too much trouble, I remain, Sincerely,  
~~████████████████████~~

W.C. 200 6 June 67  
DEPARTMENT OF THE AIR FORCE  
WASHINGTON 20330

OFFICE OF THE SECRETARY

December 22, 1967

Dear [REDACTED]

This replies to your recent letter concerning the observation of an unidentified flying object (UFO).

Without essential information, such as detailed flight characteristics, angular velocities, or weather information, we are unable to undertake a scientific investigation. Had you contacted the UFO investigator at your nearest Air Force base immediately, an on-the-spot investigation would have been possible.

We hope the inclosed Project Blue Book report may be of help to you in identifying your observation.

Thank you for reporting your observation to the Air Force.

Sincerely,

Chief, Civil Branch  
Community Relations Division  
Office of Information

Attachment

Mr. [REDACTED]

Durango, Colorado 81301

Dear Sirs,

I would like to report a UFO Sighting. It happened in June of 67, but I have been rather reluctant to report it. It was the 6<sup>th</sup> at about 7:00.

I was going out to look through my telescope. It is a refractor, a three inch.

Just as I was going out I noticed a bright object passing from east to west very fast. It was only in veiw for about three seconds.

It was about the size of an egg at arms length, the shape was oblong, it was white with a blue haze around it.

It could have been a meteor or comet. I would like to know if there were any comets in the Durango area at the time.

I am twelve years old. I have read about them many times, and I know I didn't see swamp gas, or a hallucination, or satellite.

Sincerely,

~~Aircraft~~ No Case <sup>Info</sup>  
only

7 June 67

Proposed reply to letter from [REDACTED] 15 June 1967 (sighting 7 June)

Dear [REDACTED]:

Reference your recent observation of an unidentified flying object. The Project Blue Book office has received no information from Chanute Air Force Base, Illinois, concerning your observation. If the base UFO investigator is able to determine what was responsible for the sighting, then the report is not forwarded to our office. The base investigator is in a much better position to quickly investigate sightings from your area than members of the Project Blue Book office.

If the Chanute AFB investigator found that an aircraft was in the immediate area making instrument landings then this could have been what you observed. Such aircraft on instrument missions have been responsible for UFO sightings in the past.

If any alien craft had been in the area, our radar sensors and our aircraft crews would have certainly detected such an event. We have received no additional reports from your area on the date of your sighting.

*to Safeway 20 Jul 67*

June 15, 1967

Project Blue Book  
Wright, Patterson Air Base  
Dayton, Ohio

Dear Sirs:

I'm printing because I have the most unreadable writing. On June 7, 1967 at Holy Trinity Catholic school during 11:30 - 12:30 recess a U.F.O. was sighted and it caused havoc in the entire school. I am a 6<sup>th</sup> grader and our class phoned W.C.F.L., a local radio station but they gave it no concern. So some of us went and reported it to the police. The police also gave no concern. But a local newspaper, the graphic, sent over a reporter who interviewed some of us about it. When first seen at recess it was about the size of a small stone. But on the way back from the Police Station Joseph Barrett and myself saw it again in the shape and size of a football. It dropped something from its bottom and then disappeared.

2) Behind some Trees Enclosed is the newspaper clipping from the graphic and some pictures of the UFO. Some people said it was a football with blinking lights but it was probably reflection of the sun due to the fact that it was a shiny silver color.

Sincerely,

P.S. - please reply

THIS IS THE  
OBJECT AS  
SEEN BY THE  
ENTIRE SCHOOL

THIS IS HOW  
JOE BARRETT AND  
I SAW IT.

NOTE:

THESE ARE  
ALMOST TO EXACT  
SCALE.

PLEASE EXCUSE THE  
TAPE ON THE CLIPPING  
BUT IT TORE WHILE I  
WAS CUTTING IT OUT

THIS IS WHAT  
THE OBJECT THAT  
DROPPED FROM THE  
BOTTOM LOOKED LIKE

(3) please read this after you've read the clipping.

Sir:

If the U.F.O. was a plane, please tell me what plane flies in a pattern like this:

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you last saw it. Place an "A" on the compass when you first saw it. Place a "B" on the compass when you last saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? \_\_\_\_\_  
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

11 June 1967  
Day Month Year

2. Time of day: 12 00  
Hours Minutes

(Circle One): (A.M.) or P.M.

3. Time Zone:

(Circle One): a. Eastern  
b. Central  
c. Mountain  
d. Pacific  
e. Other \_\_\_\_\_

(Circle One): a. Daylight Saving  
b. Standard

4. Where were you when you saw the object?

[REDACTED]  
Nearest Postal Address

Storville  
City or Town

Mississippi  
State or County

5. How long was object in sight? (Total Duration)

0 00 00  
Hours Minutes Seconds

a. Certain  
b. Fairly certain

c. Not very sure  
d. Just a guess

5.1 How was time in sight determined?

Time watching

5.2 Was object in sight continuously?

Yes X No \_\_\_\_\_

6. What was the condition of the sky?

DAY  
a. Bright  
b. Cloudy

NIGHT  
a. Bright  
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you  
b. In back of you  
c. To your right

d. To your left  
e. Overhead  
f. Don't remember

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- ☒ b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight—pitch dark
- ☒ d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy
- ☒ c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- ☒ a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- a. Solid
- b. Transparent
- c. Vapor
- ☒ d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
- b. Dimmer
- ☒ c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

a flare or fireworks seen in the dark

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
  - ☒ b. Like a bright star
  - c. Sharply outlined
  - d. Don't remember

e. Other \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

13. Did the object:

(Circle One for each question)

14. Did the object disappear while you were watching it? If so, how?

*yes. Seemed to disappear into space.*

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

No

Don't know.

If you answered YES, then tell what

it moved behind: *a small clump of leaves from a tree*

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

No

Don't know

If you answered YES, then tell what

in front of:

17. Tell in a few words the following things about the object:

a. Sound *none*

b. Color *bright white*

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head? *all of it*

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

June 19, 1967

Office to Investigate  
Unidentified Flying Objects  
U. S. Air Force  
The Pentagon  
Washington, D.C.

Gentlemen:

I would like to report a phenomenon to you, and would appreciate it if you know of some explanation. It occurred June 17, 1967.

At about 10:30 PM EDT we were anchored in a cove just above Marsh Point on the Sassafras River, Md. One of the two girls in our group pointed out something in the sky with a statement such as "Look at those flashing lights." We all looked, and all saw a series of perhaps 20 to 30 flashes in a zig-zag pattern covering an arc of about 45°, for a 20-30 second period. The lights were in a easterly direction towards Georgetown, Md. and proceeded from about directly above towards the horizon in a west to easterly direction. The first flashes were about as bright as a bright star. The last flashes diminished somewhat, and then simply stopped about 45° above the horizon. The flashes seemed to be at regular time intervals but the distance intervals varied greatly. There was a star we could use as orientation. I have attached a drawing. There were no colored lights, sounds, etc. and none of us imagined it could be any type of plane, balloon, flare, etc. we had ever seen. One of our group is a pilot.

The only thing I can imagine, unless it is a "UFO", would be some kind of test of high altitude photography.

If you know of an explanation I would appreciate hearing from you, otherwise we will claim that we have seen a "UFO". Naturally, I wanted to check this out before we feel sure we actually have witnessed something that doesn't have a common technological explanation.

Very truly yours,

Enc.

FHW:s

20. Do you think you can estimate the speed of the object?

(Circle One)

Yes

☒ No

*slightly faster than missile*

IF you answered YES, then what speed would you estimate? \_\_\_\_\_

21. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

☒ No

*as far as stars*

IF you answered YES, then how far away would you say it was? \_\_\_\_\_

22. Where were you located when you saw the object?

(Circle One):

☒ a. Inside a building

b. In a car

c. Outdoors

d. In an airplane (type) \_\_\_\_\_

e. At sea

f. Other \_\_\_\_\_

23. Were you (Circle One)

a. In the business section of a city?

☒ b. In the residential section of a city?

c. In open countryside?

d. Near an airfield?

e. Flying over a city?

f. Flying over open country?

g. Other \_\_\_\_\_

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North

c. East

e. South

g. West

b. Northeast

d. Southeast

f. Southwest

h. Northwest

24.2 How fast were you moving? \_\_\_\_\_ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

Yes

☒ No

25. Did you observe the object through any of the following?

a. Eyeglasses

Yes

☒ No

e. Binoculars

Yes

☒ No

b. Sun glasses

Yes

☒ No

f. Telescope

Yes

☒ No

c. Windshield

Yes

☒ No

g. Theodolite

Yes

☒ No

d. Window glass

Yes

☒ No

h. Other \_\_\_\_\_

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

*a ball of white light*

# Official U.S. Air Force

Page 5

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass when you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? \_\_\_\_\_  
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

34. Date you completed this questionnaire:

11

Day

June

Month

1967

Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

*It looked like a star, a large star, the whole time. It twinkled and remained in the same place for about fifteen seconds, long enough for me to make my wish. It then travelled rapidly across the sky, as I watched it. At first I didn't think it was really moving, but I measured it from the distance it was from a tree. It moved slowly at first, then picked up speed. It disappeared behind a little bit of leaves on a tree and they didn't appear on the other side. I moved my head so that I could see behind the leaves and noticed it was gone. I was left with the thought that it had changed direction and gone into space. This is probably imagination, but it is a very strong feeling.*

## U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

14. Did the object disappear while you were watching it? If so, how?

IT TWINKLED AT INTERVALS, GOING  
TOWARDS THE WEST. THE INTERVALS WERE  
OF ONE SECOND

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't know.

If you answered YES, then tell what

it moved behind:

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

☒ Yes

No

Don't know.

If you answered YES, then tell what

in front of:

IT MOVED ALONG A HIGH-POWERED  
TENSION LINE, VERY WELL OUTLINED.

17. Tell in a few words the following things about the object:

a. Sound

ABSOLUTELY NONE THOUGH IT WAS CLOSE

b. Color

REDDISH-ORANGE

THOUGH WE HAVE EXCEL-  
LENT HEARING.

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

WE WOULD HAVE SEEN ONLY  
THE FLASHES.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

THE PREDOMINANT FEATU-  
RE WAS THE REGULAR FLASHES.

| a. North     | c. East      | e. South     | g. West      |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

24.2 How fast were you moving? \_\_\_\_\_ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) ☐ Yes ☐ No

25. Did you observe the object through any of the following?

- |                 |                                                                     |                |                                                                     |
|-----------------|---------------------------------------------------------------------|----------------|---------------------------------------------------------------------|
| a. Eyeglasses   | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No | e. Binoculars  | Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> |
| b. Sun glasses  | Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> | f. Telescope   | Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> |
| c. Windshield   | Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> | g. Theodolite  | Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> |
| d. Window glass | Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> | h. Other _____ |                                                                     |

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

There was only a cylinder;

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you last saw it. Place an "A" on the compass when you first saw it. Place a "B" on the compass when you last saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? \_\_\_\_\_  
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

When I saw the UFO (naked eye) I'm not sure but I think it was a faint orange red color, but when I saw it through a pair of binoculars it ~~was~~ was colorless or white. could that be a color change?

P.S.

On the radio station KEX Phone number: 222-1331  
1 woman called + reported having seen 1 UFO  
1 man called + reported having seen 3 UFO's  
1 other person called + reported having seen 2 UFO's.

Tonight: On channel 8 news I heard that the same thing we saw was seen by other people + was then broadcasted.

These UFO's were said to be coming from the east, which the UFO we saw came mostly from the ea

I heard that a woman said that  
on June 14, 1967 ~~a~~ a martain ship  
or martaine were ~~to~~ invade us, but  
it only a rumor I suppose.

And if you want to publicate  
this you have my permission,  
contact me soon if you know  
Anything please.

Sincerely Yours,

## U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

|                                                                                                                                                                                                                                                                            |  |                                                                      |  |

Page 3

14. Did the object disappear while you were watching it? If so, how? *yes, when it went down to the Horizon.*

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

No

Don't know.

If you answered YES, then tell what

it moved behind:

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

No

Don't know.

If you answered YES, then tell what

in front of:

17. Tell in a few words the following things about the object:

a. Sound *none*

b. Color *none - white*

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head? *I don't know.*

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One)

☒ Yes

No

If you answered YES, then what speed would you estimate? twice as fast as a jet

21. Do you think you can estimate how far away from you the object was?

(Circle One)

☒ Yes

No

If you answered YES, then how far away would you say it was? Higher than jets fly

22. Where were you located when you saw the object?

(Circle One):

a. Inside a building

b. In a car

☒ c. Outdoors

d. In an airplane (type)

e. At sea

f. Other \_\_\_\_\_

23. Were you (Circle One)

a. In the business section of a city?

☒ b. In the residential section of a city?

c. In open countryside?

d. Near an airfield?

e. Flying over a city?

f. Flying over open country?

g. Other \_\_\_\_\_

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North

c. East

e. South

g. West

b. Northeast

d. Southeast

f. Southwest

h. Northwest

24.2 How fast were you moving? \_\_\_\_\_ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

Yes

No

25. Did you observe the object through any of the following?

a. Eyeglasses

Yes

☒ No

e. Binoculars

Yes

No

b. Sun glasses

Yes

☒ No

f. Telescope

Yes

No

c. Windshield

Yes

☒ No

g. Theodolite

Yes

☒ No

d. Window glass

Yes

☒ No

h. Other \_\_\_\_\_

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

a football with ground light at each end.

e. Overhead  
f. Don't remember

FORM

FTD OCT 62 164

This form supersedes FTD 164, Jul 61, which is obsolete.

June 19, 1967

Gentlemen,

I wish to inform you of an Unidentified Flying Object sighting on the night of June 16, 1967 at 11:35 P.M.

Two of my friends, [redacted] Street, and [redacted] Street were sleeping out with me in Larry Raykovics' back yard. It was a cloudy night and neither the stars nor the moon were visible.

Larry and I were wearing eyeglasses and facing the southwest. Randy doesn't wear glasses and was facing the opposite direction (northeast). I first saw it in the southwest and I told Larry to look at the light, but it suddenly moved faster than anything I have ever seen into the northwestern sky where it faded out and lost speed, but a split second later it appeared again doing a  $45^\circ$  angle turn.

It did these split second maneuvers for about 10 seconds in the northwest (suddenly slowing and fading then reappearing) until it suddenly made a long <sup>maneuvers</sup> run towards the south going extremely fast. In the middle of this run it slowed and faded, then did another long run (still southward) and disappeared. (we think it went above the clouds).

I would like to mention the fact that its maneuvers were very short runs except for the one to the south. It was a bright white color (brighter and slightly larger than the planet Venus which we had been watching the previous weeks) and we heard no sound.

I have the Look Magazine booklet on flying saucers and I am sending you the U.F.O. form in the back. If you wish for more information please send it to me.

Sincerely,

Beaver, Pa.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- ☒ a. None
- b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- ☒ c. No moonlight—pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- ☒ d. Thick or heavy clouds

WEATHER (Circle One):

- ☒ a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- a. Solid
- b. Transparent
- c. Vapor
- ☒ d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- ☒ a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

*It was slightly larger and brighter than the planet Venus.*

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
  - ☒ b. Like a bright star
  - c. Sharply outlined
  - d. Don't remember

e. Other \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

13. Did the object:

(Circle One for each question)

- a. Appear to stand still at any time?
- b. Suddenly speed up and rush away at any time?
- c. Break up into parts or explode?
- d. Give off smoke?
- e. Change brightness?
- f. Change shape?
- g. Flash or flicker?
- h. Disappear and reappear?

14. Did the object disappear while you were watching it? If so, how? *Every time it made a turn it would slow down and go out, then reappear at a different angle.*

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

☒ Yes

☐ No

☐ Don't know.

If you answered YES, then tell what

it moved behind: *We think it went behind the clouds when it disappeared in the south.*

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

☐ Yes

☒ No

☐ Don't know.

If you answered YES, then tell what

in front of:

17. Tell in a few words the following things about the object:

a. Sound

*We heard no sound.*

b. Color

*Bright white*

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head? *all of it.*

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving. *Shape round*

*The object's trail was very erratic and it went so fast it would momentarily leave a trail of light.*

# UFO form continued

Page 4

20. Do you think you can estimate the speed of the object?

(Circle One)

Yes

☒ No

*It was faster than any thing I ever saw before.*

IF you answered YES, then what speed would you estimate? \_\_\_\_\_

21. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

☒ No

*It had to be below the thick clouds*

IF you answered YES, then how far away would you say it was? \_\_\_\_\_

22. Where were you located when you saw the object?

(Circle One):

- a. Inside a building
- b. In a car
- ☒ c. Outdoors
- d. In an airplane (type) \_\_\_\_\_
- e. At sea
- f. Other \_\_\_\_\_

23. Were you (Circle One)

- a. In the business section of a city?
- ☒ b. In the residential section of a city?
- ☒ c. In open countryside?
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other \_\_\_\_\_

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

- a. North
- b. Northeast
- c. East
- d. Southeast
- e. South
- f. Southwest
- g. West
- h. Northwest

24.2 How fast were you moving? \_\_\_\_\_ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

Yes

☒ No

25. Did you observe the object through any of the following?

- a. Eyeglasses
- b. Sun glasses
- c. Windshield
- d. Window glass

☒ Yes

☐ No

☒ Yes

☐ No

☒ Yes

☐ No

☒ Yes

☐ No

- e. Binoculars
- f. Telescope
- g. Theodolite
- h. Other \_\_\_\_\_

Yes

☒ No

Yes

☒ No

Yes

☒ No

*2 of us saw it through glasses, one saw it with naked eyes.*

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

*It looked like a bright star but it was moving at tremendous speeds*

# Official U.S. Air Force

Page 5

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you last saw it. Place an "A" on the compass when you first saw it. Place a "B" on the compass when you last saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

*I am guessing but  
the path was very  
erratic.*

29. IF there was MORE THAN ONE object, then how many were there? \_\_\_\_\_  
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

# e UFO form continued

Page 6

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

31. Was anyone else with you at the time you saw the object? (Circle One) ☒ Yes ☐ No

31.1 IF you answered YES, did they see the object too? (Circle One) ☒ Yes ☐ No

31.2 Please list their names and addresses:

~~\_\_\_\_\_~~ ~~\_\_\_\_\_~~  
~~\_\_\_\_\_~~ ~~\_\_\_\_\_~~  
 Beaver, Pa. Beaver, Pa.  
 15009 15009

32. Please give the following information about yourself:

NAME ~~\_\_\_\_\_~~ ~~\_\_\_\_\_~~ ~~\_\_\_\_\_~~  
 Last Name First Name Middle Name  
 ADDRESS ~~\_\_\_\_\_~~ Beaver Pa.  
 Street City Zone State  
 TELEPHONE NUMBER ~~\_\_\_\_\_~~ 14 SEX male

Indicate any additional information about yourself, including any special experience, which might be pertinent.

*I am interested in UFO's and have a few books on them which I like to read and I am interested in joining a UFO investigation organization.*

33. When and to whom did you report that you had seen the object?

19 June 1967 *I am going to report my sighting to the*  
 Day Month Year *National Investigation*  
*Committee of Aerial Phenomena (NICAP) and the Aerial*  
*Phenomenon Research Organization (APRO)*

# Official U.S. Air Force

Page 7

34. Date you completed this questionnaire:

19 June 1967  
Day Month Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

all three of us saw it at the same time and place and agree it is not something ordinary or from earth, and we would not kid you about this kind of thing. There is a letter enclosed to tell you more. The UFO's path was very erratic and it always moved in a straight line; it never went in a curve but did angles going in and coming out straight.

| 24   | Trenton, Maine               | NICAP Report          |            |
| 20   | South Bend, Indiana          | Green 164, [REDACTED] |            |

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight - pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- a. Solid
- b. Transparent
- c. Vapor
- d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter at first
- b. Dimmer at close
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

Between 1st magnitude star & Venus

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
  - b. Like a bright star
  - c. Sharply outlined
  - d. Don't remember

e. Other \_\_\_\_\_

13. Did the object:

(Circle One for each question)

- |                                                 |     |    |            |
|-------------------------------------------------|-----|----|------------|
| a. Appear to stand still at any time?           | Yes | No | Don't know |
| b. Suddenly speed up and rush away at any time? | Yes | No | Don't know |
| c. Break up into parts or explode?              | Yes | No | Don't know |
| d. Give off smoke?                              | Yes | No | Don't know |
| e. Change brightness?                           | Yes | No | Don't know |
| f. Change shape?                                | Yes | No | Don't know |
| g. Flash or flicker?                            | Yes | No | Don't know |
| h. Disappear and reappear?                      | Yes | No | Don't know |

14. Did the object disappear while you were watching it? If so, how?

Yes, Faded into haze.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't Know.

IF you answered YES, then tell what

it moved behind: \_\_\_\_\_

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't Know.

IF you answered YES, then tell what

in front of: \_\_\_\_\_

17. Tell in a few words the following things about the object:

a. Sound none

b. Color bright white

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

About same size or smaller - size of Venus to start

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

like a bright star
