

PROJECT 10073 RECORD

1. DATE - TIME GROUP 9 3 1 07 10/04/52	2. LOCATION Shreveport, La.
3. SOURCE Civilian	10. CONCLUSION Astro (ARCTURUS)
4. NUMBER OF OBJECTS 1	Arcturus was on an azimuth of 270 degrees, elevation of 10 degrees at time of sighting.
5. LENGTH OF OBSERVATION 20 minutes	11. BRIEF SUMMARY AND ANALYSIS Object was small and round, about the size of a star. Color white to reddish orange. Object was observed directly with head. Investigation Official stated when observer reported the sighting to him, he and his wife went outside, by following the observers instructions of locations of the object, and observed the star Arcturus, bright with a slight reddish orange tint to it. Investigator stated he performed observation for approximately 30 minutes. Upon staring at the stars it appeared to move, then looked away for a second. When he looked back the object was in the same place as it first was when they observed it.
6. TYPE OF OBSERVATION Ground Visual (BX)	
7. COURSE N-S	
8. PHOTOS ☐ Yes ☒ No	
9. PHYSICAL EVIDENCE ☐ Yes ☒ No	

20. Do you think you can estimate the speed of the object?

(Circle One) Yes No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object?
(Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane (type)
- e. At sea
- f. Other _____

23. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

- | | | | |
|--------------|--------------|--------------|--------------|
| a. North | c. East | e. South | g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

- | | | | | | |
|-----------------|-----|----|----------------|-----|----|
| a. Eyeglasses | Yes | No | e. Binoculars | Yes | No |
| b. Sun glasses | Yes | No | f. Telescope | Yes | No |
| c. Windshield | Yes | No | g. Theodolite | Yes | No |
| d. Window glass | Yes | No | h. Other _____ | | |

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

31. Was anyone else with you at the time you saw the object? (Circle One) Yes No

31.1 IF you answered YES, did they see the object too? (Circle One) Yes No

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NAME [REDACTED] [REDACTED] [REDACTED]
Last Name First Name Middle Name

ADDRESS [REDACTED] INDIANAPOLIS 46220 INDIANA
Street City Zone State

TELEPHONE [REDACTED] AGE 36 SEX F

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

Day

Month

Year

34. Date you completed this questionnaire:

18
Day11
Month67
Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

Dear Sirs:

In regard to the object in question, I haven't talked with any officials or reported to anyone. The object was brought to my attention by a telephone call from Miss [redacted], Indianapolis, Ind. July 10, 1967 approximately 11:00 PM. I made a statement at that time, and still hold to my conviction that it was a balloon, and that it was in connection with a grand opening of a business or new car showing "etc." It appeared to be approximately 275. in diameter and 1 mile away to the North West, just at the top of the trees, it disappeared down behind the trees, I didn't see it again, in that view about 45 seconds. There was no exceptionally bright light, it appeared to be luminous. There wasn't anything else outstanding about it.

If I can be of more service please advise.

Sincerely,

Miss [redacted]
[redacted]

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

12 June 67
Day Month Year

2. Time of day:

13/0415
Hour Minutes

(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

[REDACTED]
Nearest Postal Address

INDIANAPOLIS
City or Town

IND.
State or County

5. How long was object in sight? (Total Duration)

15-20
Hours Minutes Seconds

a. Certain c. Not very sure
b. Fairly certain d. Just a guess

5.1 How was time in sight determined? _____

5.2 Was object in sight continuously? Yes _____ No X

6. What was the condition of the sky?

DAY
a. Bright
b. Cloudy

NIGHT
a. Bright
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you d. To your left
b. In back of you e. Overhead
c. To your right f. Don't remember

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- ☒ b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- ☒ c. No moonlight - pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy
- ☒ c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- ☒ a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- ☒ a. Solid
- b. Transparent
- c. Vapor
- d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
 - b. Like a bright star
 - ☒ c. Sharply outlined
 - d. Don't remember

e. Other _____

13. Did the object:

(Circle One for each question)

- | | | | |
|---|--------------------------------------|-------------------------------------|------------|
| a. Appear to stand still at any time? | ☒ Yes | No | Don't know |
| b. Suddenly speed up and rush away at any time? | Yes | ☒ No | Don't know |
| c. Break up into parts or explode? | Yes | ☒ No | Don't know |
| d. Give off smoke? | Yes | ☒ No | Don't know |
| e. Change brightness? | ☒ Yes | No | Don't know |
| f. Change shape? | Yes | ☒ No | Don't know |
| g. Flash or flicker? | Yes | No | Don't know |
| h. Disappear and reappear? | ☒ Yes | No | Don't know |

14. Did the object disappear while you were watching it? If so, how?

Object went down out of sight!

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

No

Don't Know.

IF you answered YES, then tell what

it moved behind:

Trees

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

No

Don't Know.

IF you answered YES, then tell what

in front of:

Trees

17. Tell in a few words the following things about the object:

a. Sound *none.*

b. Color *looked like a pulsating bright sunlight*

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

Estimate it to 50 ft in length and 30 ft in width!

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One)

Yes

☒ No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One)

☒ Yes

No

IF you answered YES, then how far away would you say it was? 75 yds.

22. Where were you located when you saw the object?
(Circle One):

- ☒ a. Inside a building
- b. In a car
- ☒ c. Outdoors
- d. In an airplane (type)
- e. At sea
- f. Other _____

23. Were you (Circle One)

- a. In the business section of a city?
- ☒ b. In the residential section of a city?
- c. In open countryside?
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

- | | | | |
|--------------|--------------|--------------|--------------|
| a. North | c. East | e. South | g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

Yes

No

25. Did you observe the object through any of the following?

- | | | | | | |
|-----------------|--------------------------------------|----|----------------|-----|----|
| a. Eyeglasses | Yes | No | e. Binoculars | Yes | No |
| b. Sun glasses | Yes | No | f. Telescope | Yes | No |
| c. Windshield | Yes | No | g. Theodolite | Yes | No |
| d. Window glass | ☒ Yes | No | h. Other _____ | | |

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

Object appeared just at treetop level. It dropped below tree top level once and then reappeared. It again dropped below tree top level and disappeared. Upon later investigation, a large pit was found below the place where the object had been. Although no noise was heard, dogs and other animals were upset at the time. A deputy sheriff reported having very peculiar radio static at about the time of the sighting. Person making report did not witness the sighting, but returned home shortly thereafter and did the investigation.

PROJECT 1073 RECORD

1. DATE - TIME GROUP		2. LOCATION	
14 JUL 67 15/0000Z		Germ. Pacific, 1000	
3. SOURCE		10. CONCLUSION	
Civilian Military		1. Astro(meteor) 2. Satellite(Echo I)	
4. NUMBER OF OBJECTS		Does not account for 180° turn. Echo I in the area at 0500Z. → 164 does not confirm.	
5. LENGTH OF OBSERVATION		11. BRIEF SUMMARY AND ANALYSIS	
1. Second 1 seconds 2. 1000-1000 hours		Report was received from the Corpus Christi FAS regarding sightings of UFOs. One report came from a Navy pilot and two others from civilians in the area. The initial report stated that the pilot saw the object for nearly 10 minutes. It should have been five seconds. The one sighting is consistent with that of a clear observation. The pilot's report could have accounted for the sighting. Civilian sightings did last approximately 10 minutes. Satellites Echo I & Echo II were in the area at the same time of the sightings. It appears that the pilot observed a bright fireball while the ground observer saw the passing of Echo I.

h. **Remarks:**

The above report was copied by unit Command Post and I was notified as per their instructions if object is still visible or there are photos available. Following the instructions as per the location of the object I observed the star Arcturus, bright with a slightly reddish-orange tint to it. This was the only object to fit the description that I was able to see. I performed my observation for approximately 30 minutes (with my wife an interested observer - "I always wanted to see how you professional investigators operate") and neither of us saw a moving object. Upon staring at Arcturus for some time, we were both convinced that it was moving, however, after taking our eyes away from it for a couple of seconds and then returning to it, it was still there. I am quite convinced that this is what the observer saw - the sky was completely clear and there were literally thousands of visible bodies. The time at which he made his observation does not correspond to zenith transit of Arcturus and it would transit from East to West, but I have no other explanation. I am forwarding this report on the chance that if there was some other object that I did not observe, it may have been reported by some other station.

MEMO FOR THE RECORD: 18 July 67

Contact was made with Lt. Lies, Corpus Christi NAS, Texas in regards to a sighting of a UFO. Lies number is 733-1790 ext. 341. Mr. [REDACTED] called The NAS to report an object traveling down the coastline. He then called back to report that the object had turned 180 degrees and was now heading up the coastline. Shortly after that the Navy pilot called in his sighting of an object going up the coastline. Then the third civilian called in his sighting. It was also traveling up the coast. The pilot said that the object looked like it was level with his craft which was flying at 6000 feet. There was no radar contact made with the object or objects. Nothing unusual appeared on radar. ~~Their~~ radar should have been able to have painted the object if such an object was actually there. A later report came in from Kingsville NAS which is south of Corpus Christi NAS. The report was of an object traveling up the coast. This sighting did occur before the other sightings. At approximately 2130 hours.

Investigation revealed that Echo I and Echo II were in the area at the time of the sightings. Echo I was over 91W-35N at approximately 0308Z traveling toward the SE. Echo II was in the area of 91W-30N at approximately 0248Z traveling toward the south.

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

14 JULY 1967
Day Month Year

2. Time of day:

2200 CDT

Hour Minutes

(Circle One):

A.M.

or

P.M.

3. Time Zone:

(Circle One):

- a. Eastern
- b. Central
- c. Mountain
- d. Pacific
- e. Other _____

(Circle One):

- a. Daylight Saving
- b. Standard

4. Where were you when you saw the object?

UNKNOWN

Nearest Postal Address

PALACIOUS

City or Town

TEXAS

State or County

5. How long was object in sight? (Total Duration)

—

Hours

—

Minutes

5

Seconds

a. Certain

b. Fairly certain

c. Not very sure

d. Just a guess

5.1 How was time in sight determined? APPROXIMATED

5.2 Was object in sight continuously?

Yes X

No _____

6. What was the condition of the sky?

DAY

- a. Bright
- b. Cloudy

NIGHT

- a. Bright
- b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One):

- a. In front of you
- b. In back of you
- c. To your right

- d. To your left
- e. Overhead
- f. Don't remember

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight — $\frac{1}{2}$ moon
- b. Dull moonlight
- c. No moonlight — pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- a. Solid
- b. Transparent
- c. Vapor
- d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

EQUAL TO OR BRIGHTER THAN A NIGHT ILLUMINATION FLARE.

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
 - b. Like a bright star
 - c. Sharply outlined
 - d. Don't remember

e. Other _____

13. Did the object:

(Circle One for each question)

- | | | | |
|---|-----|-------------------------------------|---|
| a. Appear to stand still at any time? | Yes | ☒ No | Don't know |
| b. Suddenly speed up and rush away at any time? | Yes | ☒ No | Don't know |
| c. Break up into parts or explode? | Yes | ☒ No | Don't know |
| d. Give off smoke? | Yes | ☒ No | ☒ Don't know |
| e. Change brightness? | Yes | ☒ No | Don't know |
| f. Change shape? | Yes | ☒ No | Don't know |
| g. Flash or flicker? | Yes | ☒ No | Don't know |
| h. Disappear and reappear? | Yes | ☒ No | Don't know |

14. Did the object disappear while you were watching it? If so, how? *YES. APPEARED TO BURN OUT, AS A SPENT ROCKET OR METEOR.*

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes ☐ No ☒ Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes ☐ No ☒ Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound *NONE HEARD.*

b. Color *BRIGHT WHITE.*

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

3/4

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One)

Yes

☒ No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

☒ No

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object?
(Circle One):

a. Inside a building

b. In a car

c. Outdoors

☒ d. In an airplane (type) C-117D

e. At sea

f. Other _____

23. Were you (Circle One)

a. In the business section of a city?

b. In the residential section of a city?

c. In open countryside?

d. Near an airfield?

e. Flying over a city?

☒ f. Flying over open country?

g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North

c. East

e. South

g. West

b. Northeast

d. Southeast

☒ f. Southwest

h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

Yes

☒ No

25. Did you observe the object through any of the following?

a. Eyeglasses

Yes

No

e. Binoculars

Yes

No

b. Sun glasses

Yes

No

f. Telescope

Yes

No

☒ c. Windshield

☒ Yes

No

g. Theodolite

Yes

No

d. Window glass

Yes

No

h. Other _____

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

NO

31. Was anyone else with you at the time you saw the object? (Circle One)

☒ Yes

No

31.1 IF you answered YES, did they see the object too? (Circle One)

☒ Yes

No

31.2 Please list their names and addresses:

*LCDR. R.E. DOBELSTEIN
CNAVANTRA STAFF
NAS, CORPUS CHRISTI, TEXAS 78419*

32. Please give the following information about yourself:

NAME

Indicate any additional information about yourself, including any special experience, which might be pertinent.

NAVAL AVIATOR - 25 YEARS FLIGHT EXPERIENCE.

33. When and to whom did you report that you had seen the object?

14

Day

JULY

Month

1967

Year

*OPERATIONS DUTY OFFICER
NAS CORPUS CHRISTI, TEXAS*

34. Date you completed this questionnaire:

24
DayJULY
Month1967
Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

Alfred D. Trumble
col *USN*

At the time of the sighting, 2200 CDT 14 July 1967, I was on a return flight from Little Rock AFB to NAS Corpus Christi. The following information is listed as pertinent to the flight:

Aircraft:	C-117D, BUNO 39061
Flight Plan:	Instrument Flight Rules
Position:	038° Radial/21 NM Palacios VORTAC
Altitude:	6,000 ft. (Indicated)
Altimeter Setting:	30.07" HG.
Heading:	218° magnetic
True Airspeed:	170 kts.
Ground Speed:	182 kts.
Wind at 6,000 ft:	030°/20 (estimated)

The object appeared ahead of the aircraft and traveled across our flight path from left to right on an estimated heading of Northwest, beginning at an elevation about 60° and ending about - 10°, in a slightly curved flight path. Due to the brightness and size of the object I do not consider that it could have been a meteor, but it can best be described as a meteor, burning out as it reached an elevation of about - 10° ahead of our aircraft. Upon landing at NAS Corpus Christi, we did not initially report the sighting but, when talking to the NAS Corpus Christi Operations Duty Officer found that he was compiling information on a sighting received from several ground observers in the Corpus Christi area, who had reported the sighting as being Northeast of Corpus Christi about the same time as we had observed it (2200 CDT).

U.S. AIR FORCE TECHNICAL INFORMATION

PROJECT WAVE RECORD

1. DATE - TIME - GROUP 12 July 67 13/0013	2. LOCATION Indianapolis, Indiana
3. SOURCE Civilian	4. CONCLUSION BALLOON
5. NUMBER OF OBJECTS One	6. BRIEF SUMMARY AND ANALYSIS By accident the sighting was investigated even though the individual who reported the sighting had not actually seen the object. A local observer was contacted who stated, "I made a statement at that time and still hold to my conviction that it was a balloon."
7. LENGTH OF OBSERVATION 15 - 20 Minutes	8. TYPE OF OBSERVATION Ground-Visual
9. COURSE Not Reported	10. PHYSICAL EVIDENCE None
11. PHOTOS None	

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight - pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- a. Solid
- b. Transparent
- c. Vapor
- d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

Brightness was more than Venus AT THAT TIME

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
 - b. Like a bright star
 - c. Sharply outlined
 - d. Don't remember

e. Other _____

13. Did the object:

(Circle One for each question)

- | | | | |
|---|-----|----|------------|
| a. Appear to stand still at any time? | Yes | No | Don't know |
| b. Suddenly speed up and rush away at any time? | Yes | No | Don't know |
| c. Break up into parts or explode? | Yes | No | Don't know |
| d. Give off smoke? | Yes | No | Don't know |
| e. Change brightness? | Yes | No | Don't know |
| f. Change shape? | Yes | No | Don't know |
| g. Flash or flicker? | Yes | No | Don't know |
| h. Disappear and reappear? | Yes | No | Don't know |

14. Did the object disappear while you were watching it? If so, how?

NO! It just went on so far I couldn't see any more.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes ☒ No Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes ☒ No Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound None

b. Color STAR BRIGHT - Like Venus

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

ABOUT HALF

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

Just a STARY night with a BRIGHT moon
and a STAR larger than Venus Traveling
on a PRECISE PATH.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object?
(Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane (type)
- e. At sea

MEMO FOR THE RECORD:

Subject: UFO Observation, 25 July 1967

Mr. [REDACTED] called from New Hampshire regarding his unidentified observation of 25 July 1967. He said that he had contacted Pease AFB, New Hampshire regarding the observation. Contact by this office was made with Pease AFB to determine what information they had on Mr. [REDACTED] and his observation. They did not have any information, however, they said that they would mail him an FTD Form 164 with a letter stating that they had inconclusive information on his sighting and that they would investigate it if he would complete the Form 164. Pease AFB said that they would forward there findings here to Wright-Patterson AFB.
