Reference your unidentified flying object (UFO) observation. Prior to reaching our final conclusion on your sighting we need to know the exact date. The initial report from you indicated that the sighting occurred on the night of 31 July 1967; however, the questionnaire you completed indicated that the sighting occurred on 24 July 1967. Also, was the moon visible at the time of your sighting? We would appreciate a note from you clarifying this discrepancy.

Sorry for the delay but I received your questionnaire quite a while after I sent in my original report and I couldn't remember the exact date. The correct date is the 31st of July 1967.

PS I sent in the original a few days after the sighting so I could recall the exact date & time.
