Memo for the Record: 16 Aug 67

There are no available records of air activity in the area. The person who took the report estimated the reliability of the individual as poor but this was changed to reliable. Major Brown indicated that the object was probably an aircraft. He suggested that we contact Ft. Carson because they are often engaged in night time operations involving the dropping of flares.

Thousands See UFOs Flashing Over Europe

WIESBADEN, Germany — (UPI)—Cigar-shaped unidentified flying objects (UFOs), trailing brilliant light and looking like "fireworks" startled tens of thousands of northern Europeans yesterday.

The UFOs flashed across the skies over Germany, France, Belgium, Switzerland, Italy and Luxembourg.

The U.S. Air Force said the brilliant heavenly phenomena were sighted by its personnel at three air bases in Germany. None of the objects was picked up on Air Force radar screens.

A spokesman at U.S. Air Force Europe (USAFE) headquarters in Wiesbaden said the UFOs were spotted shortly after midnight and "they looked like they had flames coming out of them."

The pilot of a chartered airliner said he saw "a very brilliant object" at 9,000 feet while he was approaching Zurich airport for a landing. He said he could not identify the luminous object.

Please do not visit me, but you can call me + also write for more questions. This U.F.O. was to be viewed as long as a car. I ran in the house + got the nearest thing I could. I got a movie camera + did throw it but I did not hit it. The reason it took so long is that I never did find a focus.
