Dear Sirs:

My Friend snapped this picture while he and I were testing his new camera. We saw the object around 400 CDT July 25, 1967. It was about 1/4 mile away. It was ascending rapidly at about [redacted] Westmont. It was in view for about 15 seconds so we only had time to take one picture please send us 3 copies of the project blue book report.
Thank You

Sincerely yours,
[redacted]

P.S. here is a diagram of its path

1. This replies to your letter concerning your observation and subsequent photographs of an unidentified flying object (UFO).
2. While reviewing our correspondence files we found your letter in which you reported seeing an unidentified object on July 25, 1967. Because of an error, your sighting was not investigated at that time. We handle over 10,000 letters and investigate approximately 1,000 UFO sightings a year; once in a while an error is made. We regret that this has kept us from investigating your observation.
3. However, if you would complete the inclosed AF Form 117 and photographic data sheet and return them with your original negatives, we will investigate your sighting in an attempt to determine the stimulus for your observation. Upon completion of analysis we will return your negatives along with our findings.
4. Thank you for reporting your observation to the Air Force, once again, please excuse us for not responding to your correspondence earlier.
