1. DATE - TIME - GROUP 20 Aug 67 Varied	2. LOCATION Clyde, New York
3. SOURCE Civilian	10. CONCLUSION <i>OTHER</i> Case: (CONFLICTING DATA) Photo: INSUFFICIENT CLARITY
4. NUMBER OF OBJECTS 1	
5. LENGTH OF OBSERVATION 2 minutes	11. BRIEF SUMMARY AND ANALYSIS Observer sighted an object that had 3 or 4 huge red lights on the bottom. There also seemed to be some amber light in the middle, on the top there were six or less blue lights that were not blinking. Comments: The observer said that the town policeman also saw this object. The witness was contacted but reported that he had not seen any UFO's on the date in question. He did see UFO's on two other occasions but the observer of this case was not listed as a witness to either of these sightings. Because of the very poor quality of the photos, it was not felt necessary to submit them to the photo experts.
6. TYPE OF OBSERVATION Ground Visual	
7. COURSE Not stated

Indicate any additional information about yourself, including any special experience, which might be pertinent.

I've been a Patrolman 571- and have been able to spit doors and windows open at 200 ft. But have had no experience in spotting these object only that when I spot something that look funny I stop to check it out.

33. When and to whom did you report that you had seen the object?

Day

Month

Year

34. Date you completed this questionnaire:

10
DayNov
Month1967
Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

The sighting on July '3 - showed up as just one bright Red light after watching it, it broke into smaller objects. A smaller light appeared in front of the larger one then another, at this time the large light dimmed down and disappeared. While the two smaller ones was out a third appeared and the first one to appear went away after dimming. Then the fourth one appeared. This went on for about 6 times. Only to be in sight for a few seconds.

on Aug 28, at 00:10. I spotted a bunch of red light that at first made me think that a plane was on fire. I went home and got my Binoculars, but by that time there was nothing in the sky. - This was traveling west $1\frac{1}{2}$ miles away. At 00:40 same date this object appeared again following Rt 31 thru the village. I was about 1000 - 1500 ft away from Rt 31 when I spotted this.

There was a Sheriff's car traveling about 30-35 mph thru the village with this object 50 ft north of it and I'd say 5 to 800 ft above it.

Before I could pick up the two-way radio and have them check what was above them the lights all went out and they didn't appear again. This object was keeping the same speed as the Sheriff's car and the light stayed on.

Three Red on top with three Blue on the bottom space about 20-25 ft apart.

This looked like (6) six object as there was no solid thing or outline.

0040
Aug 28
over
village

A truck Driver that drives for western N.Y. Lines saw the same object that I saw on July 13 as he was leaving Syracuse, but I don't know his name or address.

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object? 20th August 1967 Day Month Year	2. Time of day: <u>12</u> or <u>12:30</u> Hour Minutes (Circle One): A.M. or P.M.
3. Time Zone: (Circle One): a. Eastern b. Central c. Mountain d. Pacific e. Other _____ (Circle One): a. Daylight Saving b. Standard	
4. Where were you when you saw the object? Clyde Central School Nearest Postal Address Clyde City or Town N.Y. Wayne State or County	
5. How long was object in sight? (Total Duration) <u>2</u> or <u>more</u> Hours Minutes Seconds a. Certain b. Fairly certain c. Not very sure d. Just a guess 5.1 How was time in sight determined? _____ <u>SEE Ques 35</u> 5.2 Was object in sight continuously? Yes _____ No _____ <u>SEE Ques 35</u>	
6. What was the condition of the sky? DAY a. Bright b. Cloudy NIGHT a. Bright b. Cloudy	
7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object? (Circle One): a. In front of you b. In back of you c. To your right d. To your left e. Overhead f. Don't remember	

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- ☒ c. Many
- d. Don't remember

8.2 MOON (Circle One):

- ☒ a. Bright moonlight
- b. Dull moonlight
- c. No moonlight -- pitch dark
- d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- ☒ a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- ☒ a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- ☒ a. Solid
- b. Transparent
- c. Vapor
- ☒ d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- ☒ a. Brighter
- b. Dimmer
- c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

NORTH STAR

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
 - b. Like a bright star
 - ☒ c. Sharply outlined
 - d. Don't remember

e. Other _____

13. Did the object:

(Circle One for each question)

- | | | | |
|---|--------------------------------------|-------------------------------------|---|
| a. Appear to stand still at any time? | ☒ Yes | No | Don't know |
| b. Suddenly speed up and rush away at any time? | ☒ Yes | No | Don't know |
| c. Break up into parts or explode? | Yes | ☒ No | Don't know |
| d. Give off smoke? | Yes | ☒ No | Don't know |
| e. Change brightness? | Yes | No | ☒ Don't know |
| f. Change shape? | Yes | ☒ No | Don't know |
| g. Flash or flicker? | ☒ Yes | ☒ No | Don't know |
| h. Disappear and reappear? | ☒ Yes | No | Don't know |

14. Did the object disappear while you were watching it? If so, how?

See Quest 35

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't Know.

IF you answered YES, then tell what

it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't Know.

IF you answered YES, then tell what

in front of: _____

17. Tell in a few words the following things about the object:

a. Sound NONE

b. Color RED - Blue - ~~also~~ Bright Bottom ^{SEE} Quest 35

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

I do think I wouldn't have miss much of it at all.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

NO VAPOR TRAILS.

20. Do you think you can estimate the speed of the object?

(Circle One)

☒ Yes

☐ No

IF you answered YES, then what speed would you estimate?

30-40 mph 20 points
Faster 60 mph

21. Do you think you can estimate how far away from you the object was?

(Circle One)

☒ Yes

☐ No

IF you answered YES, then how far away would you say it was?

1/2 mile - 100 FT above
50 feet above

22. Where were you located when you saw the object?

(Circle One):

- a. Inside a building
- b. In a car
- c. Outdoors
- d. In an airplane (type)
- e. At sea

☒ f. Other outside the car standing
in the parking lot

23. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- c. In open countryside?
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

- | | | | |
|--------------|--------------|--------------|--------------|
| a. North | c. East | e. South | g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

☐ Yes

☐ No

25. Did you observe the object through any of the following?

- | | | | | | |
|-----------------|--------------------------------------|-------------------------------------|----------------|-----|-------------------------------------|
| a. Eyeglasses | Yes | ☒ No | e. Binoculars | Yes | ☒ No |
| b. Sun glasses | Yes | ☒ No | f. Telescope | Yes | ☒ No |
| c. Windshield | ☒ Yes | ☒ No | g. Theodolite | Yes | ☒ No |
| d. Window glass | Yes | ☒ No | h. Other _____ | | |

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you last saw it. Place an "A" on the compass when you first saw it. Place a "B" on the compass where you last saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____
 Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

Aug - Sept. CLYDE INDUSTRIAL PARK They were not
seen but not AIRPLANE - Jet - SATellite, Helicopter
I Reported it to CLYDE Police - STATE Police - Sheriff they all
seen in object

Major Hector Qunitanella
Director of Project Blue Book
Wright Field, Dayton, Ohio

Dear Major:

I know that you are a busy man and must get a great deal of mail about UFO sightings, but Sir there are such things that I have seen. There are several other persons that have seen them. Let me tell you one of the incidents: The town cop and I were having a talk and he told me about the sightings that he has seen (he works 12 to 4 a.m. regular). So one night I went behind the school and was looking up in the sky when I thought was a airplane turned out to be something that I have never seen before. It came floating threw the air and then stopped. I saw either three or four huge red lights on the bottom of the object. There seemed to be some amber light in the middle, on the top there were six or less blue lights that were not blinking.

Sir, I took off out of that parking lot like the end of the world was behind me and I was trying to beat it. I went straight downtown about 85-90 m.p.h., slammed on the brakes in front of the park, looked up and there it was over the bank, then I turned to see if I could get a witness, asw no one look up, saw it was above Lock Street which is two blocks from where I was, then the cop spotted it heading towards Lyons.

About one week before this incident behind the school this object was seen by the (village cop who was headed down West Genesee Street in a westerly direction. The Sheriff was headed east on West Genesee Street when the village cop spotted the object 200-300 feet above the sheriff's car and approximately 500 feet to the left.) In the first ^{over} _{ing 25} part of this letter I have described an object I have seen behind the school. The village cop who described his object the same as I have before this.

The following diagrams that are enclosed in this letter are of the object seen behind the school and seen by the village cop.

I have some snapshots of the object but they have to be enlarged so you can see them clearly. Please send me some additional data on the people across the nation by letter to you. I would like the description of the object they have seen and the abnoids they have claimed to have seen. If you are interested in seeing these pictures you may, but they will have to be blow up. Send a request for them. I will gladly send them to you but I would like to have them after you have finished

Please do not hesitate in sending me data, or requesting to see my snapshots. Thank you.

Yours very truly

UFO Observation and Photographs

Clyde, New York 14433

1. Reference your recent correspondence of October 1967 in which you reported your unidentified observation and subsequent photographs. Additional information on your sighting and your original negatives are needed to perform a scientific investigation. Request you complete the attached photographic data sheet and FTD Form 164 and return them with your original negatives. Upon completion of analysis we will return your negatives along with our findings.

2. In the future, if you should observe another unidentified flying object, please report it to the nearest Air Force installation, for they are in a far better position to conduct an on-the-spot investigation.

UFO Observation & Photographs, 20 August 1967

Clyde, New York 14433

1. Reference your sighting and photographs of an unidentified flying object on 20 August 1967. In the FTD Form 164 that you completed, you mentioned that you have an 8mm film of the object. We would appreciate your completing the photographic data sheet and forwarding the original film strip in the inclosed envelope since the polaroid photographs did not show the object distinctly enough. Upon completion of analysis we will return your photographs and film strip.

2. Thank you for your assistance in this matter.

Yes

No

h. Other

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.
If our Red Light off our Police car was put in the air these object would look the same

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? 7-Jul 13 6 Aug 28
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

Same as 28 -
