OD's note:

Because Mr Larabell was no longer at the scene of the lights, I did not question him extensively (he was calling long distance non-collect from Toledo), but asked him to write down his recollections on paper so that he would be able to recall the observance clearly in case of further need of ~~the~~ information from him.

He said he also heard something on a ^{breakfast} Montreal (Canada) radio about a sighting this same date almost exactly similar to what he saw.

I was driving in a car on the Detroit Expressway with 4 companions at 0115 when the occupants observed lights in the sky as described on reverse of this p. 2.

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

2 Sept 67, ⁰¹¹⁵ ~~0245~~ EST. ~~Report~~

Description: "2 lights in the sky like white headlights. Then a 3rd one to right of the first two, blinking on & off. Finally ~~one~~ ~~light~~ more lights blinked on until there were 6 lights on in all. Slight downward angle to left. Definite formation. $\frac{1}{2}$ mile up in sky. This happened at 1:15, when 4 of us were in a car passing through Detroit on the Expressway. There definitely seemed to be a formation of lights, (like towers $\frac{1}{2}$ mile high ~~with~~ with lights on top?) Lights blinked on & off from left to right in sequence."
