As you know from the forms I have filled out I have seen V.I.C. a seven times before. I would like to give you a description of the objects. The first time I saw a V.I.C. I took a picture of it which I will enclose along with the negative. The last time that I sighted a V.I.C. was on January 27, 1968. I saw these V.I.C. before they looked whitish and I was in my house at least 40 feet away from it. It moved very fast and then slowed up and hovered and flew away it always come back at least three times a night. The lights on the V.I.C. blinked off and on. It stayed near lights, trees, and buildings so it could not be photographed. The only reason I got one picture was because I was outside the first time. If you wish to know anything else do not hesitate to contact me.

1. Reference your letter of 27 March 1968 in which you requested information on a photograph that was mentioned in an unidentified flying object (UFO) report of 27 January 1968 addressed to McGuire AFB, New Jersey. Please excuse the delay in replying, however, we had filed the sighting under 19 September 1967, the date on which the witness said he took the photograph. The negative was sent, stapled to a print of the "UFO" with the original report. There is no object as such, but only several very indistinct lights. We requested information on the sighting and photographic data several times but the observer failed to respond.

2. We do have a completed AF Form 117 on the witness's 27 January sighting. All in all, it isn't very impressive.
