MEMORANDUM

Troop C Station Ithaca
Date November 7, 1967

To: Troop Commander, Troop "C", Sidney, N.Y.

From: Tpr. A.J. Hendriks *AJH*

Subject: [REDACTED] - UFO Complaint

1. On November 1, 1967 [REDACTED], Ithaca, N.Y. called SP Ithaca requesting to meet a patrol at 13 Benjamine Hill Rd., Newfield, N.Y. regarding Unidentified Flying Objects.
2. On November 1, 1967 writer and Tpr. H.C. Weidman interviewed ORR at the above address. He stated that while attempting to find tracks of a flying saucer he found a carcass of a dead heifer in a field. He stated that the animal had been dead for a considerable length of time and was decomposed. He further stated that the owner of the animal, [REDACTED], Newfield, N.Y. was aware of the dead animal and had no suspicions of the cause of death. From all indications the animal had been struck by lightning during a severe storm in the area. [REDACTED] further stated that he and another person identified as [REDACTED], YMCA, Ithaca, N.Y. had seen numerous flying objects but were unable to produce anyone else who could substantiate their statement. During the interview it was observed that [REDACTED] when asking for verification of his statements from [REDACTED] had a tendency to lead [REDACTED] into the conversation and in a sense put the words he wanted said in [REDACTED]'s mouth. [REDACTED] at no time volunteered any information. [REDACTED] stated that he had seen many unidentified objects flying in the area but could not produce anyone who could verify his statements. During the period of alleged sightings no other person in the area has reported seeing unidentified flying objects, to the knowledge of the writer.
3. On November 1, 1967 writer, Tpr. Weidman, [REDACTED] and [REDACTED] went into the yard upon the request of [REDACTED]. It is to be noted that at this time nothing unusual occurred or was witnessed by any member present.

SUBJECT: UFO Observation, October 1967

TO: Lt John Carroll
New York State Police
Ithaca, New York 14851

Your name has been given to the Aerial Phenomena Office (Project Blue Book) as being a witness to an unidentified flying object. If you were a witness to an UFO sighting on **October 1967** would you please complete the attached AF Form 117 and return it in the envelope provided. If you were not a witness to this sighting, would you please make a statement to this effect on the attached form. The information which you provide will be used in evaluating this observation. Thank you for your assistance in this matter.

REPLY TO
ATTN OF:

35OIN

14 November 1967

SUBJECT: UFO Investigation

TO: 35ODC

1. On 9 November 1967 Lt Dennis Egan and I went to Newfield, New York, a small town 7 miles south of Ithaca, to investigate a series of UFO sightings.
2. We arrived at 1830 at the Waris residence in Newfield. Approximately 25 persons of various ages were present in this lower middle class home. Dr. J. Allen Hynek of Northwestern University and an Air Force consultant for Project Blue Book was present. He had spoken at Wells College earlier that day and had agreed to attend.
3. Dr. Hynek opened the meeting by explaining the importance of relating UFO sightings to the size of known objects. Also, he gave a quick briefing on light sources.
4. The actual stories began with three boys ages 9, 11, and 12 who claim to have seen a large object descend to 35-40 feet near two houses. For almost two minutes the "saucer-shaped" object made noise. The object had red and white lights around the edge with strange markings above the lights. The boys saw two large windows through which they viewed two "aliens" (as they called them) seated at a large instrument panel. The "aliens" were about three feet tall, brown in color, and covered with large bumps on their upper body. The object then ascended very rapidly and was out of sight. A similar sighting occurred the following night.
5. Dr. Hynek questioned the boys concerning the length of time the object was in view. The oldest boy said about two minutes because he glanced at his watch when the object first appeared. Someone in the room asked the boys to act out what actually happened. On the spur of the moment they gave what appeared to be a well rehearsed performance which lasted about two minutes.

FOR OFFICIAL USE ONLY

6. The discussion was then centered around [REDACTED]. He is a white male of 23-25 years of age who stated he is "an ex-Navy man who served aboard an aircraft carrier. [REDACTED] called in a UFO report to 35th Air Division 26 October 1967 at 0555Z.

7. Orr claimed his first sighting was 23 October 1967 when he saw a large object descend near the Ithaca airport. Since then he claims to have seen 100 or more of these.

8. I asked Mr. [REDACTED] the date he made his report to the Air Force. He stated it was 26 October 1967 near midnight. The report compiled by 35OCO is dated 26 October 1967 at 0555Z. [REDACTED] said the Air Force made a mistake and produced a telephone bill which indicated a call to Hancock Field on that date, however no answer time was listed.

9. Orr said he has seen 100 or more objects in the past three weeks. He called the New York State Police and told me that the trooper also saw the UFO. The trooper, Lt John Carroll, stated that he saw a Mohawk turbo-prop aircraft. *at Custer!*

10. Several persons in the group told of seeing lights in the sky, but all of their descriptions sounded similar to aircraft in the area.

11. I told [REDACTED] and his group that there are three high altitude aircraft routes which cross within a few miles of Newfield. I displayed a copy of an Enroute High Altitude chart, but [REDACTED] stated that he knew what airplane lights looked like and quickly changed the subject.

12. The discussion drifted back to "red lights", and I said that the F-111 and YF-12 are being flown around the country, (TIME and Aviation Week and Space Technology) and these are unorthodox designed aircraft which he has probably not seen. I added that it might possibly have been one of these.

13. A Mr. [REDACTED] from the Syracuse Post-Standard asked me if our radars would have seen an object as large as these and would we send aircraft up to identify them if they could not be identified? I replied that this was true, and no unusual incidents have occurred.

14. The subject was changed by Orr because he wanted to read his "story." This comprised about 10-15 typewritten pages. However, Orr did not read it. Instead, William Donovan, a representative of Aerial Phenomena Research Organization, (APRO) said he would read it. (Donovan is about the same age as [REDACTED], and we had the impression they were old friends.)
15. Orr stated he was trying to sell his "story" to Look magazine.
16. Donovan read the manuscript which obviously was not written by Orr. The author was someone with journalistic experience. Neither Orr nor Donovan seemed capable of writing it.
17. The story said that [REDACTED] had witnessed "jet fighters" chasing UFO's but to no avail. [REDACTED] remarked that he felt helpless because "our defenses were useless against these objects."
18. I asked [REDACTED] to tell me how he knew these were jet fighters. He made a comment about "lights." Donovan changed the subject at that time.
19. Later, Dr. Hynek queried [REDACTED] about a statement in his "story" in which he mentioned reading "flying saucer" books. [REDACTED] admitted reading ten to fifteen of these prior to his first UFO sighting.
20. The remainder of the discussion concerned a "footprint" [REDACTED] said he photographed, and the three boys who found broken trees in the woods near Newfield. Donovan said these trees might have been an indication that a landing had occurred.
21. As we were leaving at 2230 Donovan was asking for "all those who believe aliens were aboard these objects" to raise their hand.
22. At 2300 we arrived at the State Police station near Ithaca and asked about [REDACTED] and Donovan. Lt Carroll said they had had reports of Donovan selling shares in APRO for \$5.00 a piece.
23. It could not be determined whether [REDACTED] and Donovan were working together for some monetary gain, or if [REDACTED] is actually as irrational as he appeared to be.

24. The residents of [REDACTED] who have stated they are seeing UFO's are doing so in sincerity. These objects are unidentified to them, and all of the talk of UFO's has these people believing in them.

25. My own conclusion is that there is no threat to the 35th Air Division from these UFO sightings, and Air Force investigation in this matter should be terminated.

GERALD L. WHITE, 2D Lt, USAF
Chief, Intelligence Division

TDPT (UFO) Maj Quintanilla/70916/mhs/5 Dec 67

Compliance with AFR 80-17

Office of Information (35CIO)
Hancock Field

1. Reference UFO reports of 26 October 1967, 13 November 1967, and 20 November 1967 from 35OCO-A. These reports were received in an envelope from 35CIO on 4 December 1967.
2. Previous conversation between Lieutenants Steel and White of your organization, and 2nd Lt Marano, this office, regarding observations by [REDACTED] indicated that Mr. [REDACTED] had phoned his observation in to Hancock Field, however, the report was supposedly misplaced and did not go any further. Subsequent conversation indicated that Mr. [REDACTED] was observing aircraft, according to a Highway Patrol investigation. Your organization indicated that you would obtain a copy of this report and forward it to our office. Our office has now received a vague, incomplete report on an observation made by Mr. [REDACTED] on 26 October 1967. A report from the Highway Patrol has not been received from your office to date.
3. There is nothing in any of the three reports to indicate that they have been investigated in accordance with AFR 80-17, and change 1 to AFR 80-17. Request you comply with all aspects of this regulation. In particular, we would appreciate comments from the preparing officer as to what stimulus might have possibly caused the sighting. Also, in the comments section, it is helpful to our analysts if you would include those areas that you have checked, such as:
 - a. RADAR PERSONNEL - whether they had any blips (identified or unidentified) at the time of the observation.
 - b. CONTROL TOWER PERSONNEL - statement as to whether the control tower operator observed anything unusual at the time of the observation.
 - c. LOCAL LAW ENFORCEMENT AGENCIES - often, they can provide information as to the reliability of the witness. Also, they may have received a UFO report, or additional information that may provide you with the stimulus of the UFO observation.

9304

4. It is important that you provide all information in your report so that our office does not duplicate your investigation.

5. Most aircraft records and other important data are kept on file for only thirty days. This is just one of the many reasons for timely submission of UFO reports. If you forward a report, such as the 26 October 1967 sighting, please indicate the reasons for delay in reporting the observation.

6. Subject reports are returned to your organization for re-accomplishment. Request they be returned to this office as quickly as possible.

UNIDENTIFIED FLYING OBJECTS REPORT (UFOB)

35000-A

DATE: 26 Oct 67

TIME: 0535Z-8

Description of the object(s):

- No definite shape
- Size compared to known object: Range from small to huge
- color white + Green
- Number 100 or better
- Duration, if less than one: Nothing Definite
- Any discernible features or details: Ascending + descending altitudes
- Tail, track, or exhaust, including size of area compared to size of object(s): —
- Describe sound, if heard: None
- Other pertinent or unusual features: Individual reported one landed in A field 1/2 mile from and object gave off a bright light

Description of course of object(s):

- What first called the attention of the observer to the object(s)?
Reports from others
- Angle of elevation and azimuth of the object(s) when first observed: Unknown
- Angle of elevation and azimuth of the object(s) upon disappearance: Unknown
- Description of flight path and maneuvers of object(s):
Northern Heading
- Manner of disappearance of object(s): Unknown
- Length of time in sight: Approx 5 min per object

Manner of observations:

- Ground-visual ground-electronic, air-visual, air-electronic. (If electronic, specify type of radar)
- Statement of optical aids (telescopes, binoculars, etc., and description thereof):
Eye
- If sighting is made while airborne, give type aircraft, identification number, altitude, heading, speed, home station

Time and date of sightings:

- Full time-date group of sighting: All evening of the 25th Oct
- Light conditions: Clear, day, dawn, dusk: Clear sky until 2300L

Locations of observer. Exact latitude and longitude of observer(s), county position, or position with reference to known landmarks:

Newark N.Y.

8 miles South of Ithaca N.Y.

Identifying information of all observers:

- Civilian - Name, age, mailing address, occupation.

Sales Representative

1. Military - Name, grade, organization, duty station, and estimate of reliability

Weather and wind-alift conditions at time and place of sighting:

a. Observer's account of weather conditions

b. Report from nearest AAS or U.S. Weather Bureau Office of wind direction and velocity in degrees and knots at:

Surface:	220°	10 kts	20,000'	270	60 kts
5,000'	260°	35	30,000'	250	90 kts
10,000'	270	40	50,000'	240	40 kts
15,000'	270	50	60,000'	260	10 kts

c. Ceiling 7000 2500

d. Visibility Clear

e. Amount of Cloud Cover

f. Thunderstorms in area and quadrant location None

g. Any other unusual activity or condition, meteorological, astronomical, or otherwise, which might account for the sighting. Possible Inversion up to 5000' Anthon 9000' to 11,500'

(Sgt Johnson WC)

Interception or identification action taken

Location of any air traffic in the area at the time of sighting

Information concerning officer preparing UFOB report:

a. Name and position title

b. Comments and preliminary findings of preparing officer:

Existence of physical evidence, such as materials and photographs

Action taken:

Signature of reporting officer

Signature of observer

MEMO FOR THE RECORD

Subject: UFO Observation by Mr. [REDACTED] and Visit by Dr. J. Allen Hynek

The staff Duty Officer of Saturday, 4 November 1967 of the 35th Air Division, Hancock Field, New York called regarding Dr. Hynek's creditability. They understand that they are to help him in investigating UFOs in accordance with AFR 80-17. Somebody had called Friday night to Hancock Field stating that Dr. J. Allen Hynek of Dearborn Observatory, Northwestern University would be arriving on the 9th of November to investigate a UFO report. The sighting was made by a [REDACTED], sales representative, date unknown. According to the person calling in, the observation was made some time last week and the report never got to where it should have gone. [REDACTED] called into the base last Tuesday or Wednesday, calling the officer of the day. Anyway the report never got anywhere nor has anybody seen it. What the 35th Air Division wanted was to find out if Hynek was actually going to be there. Major Quintanilla informed him that Dr. Hynek was an Air Force consultant, however, we didn't know he was going to New York to investigate a sighting, and it is always coordinated through our office first.

Lt. Marano spoke with Dr. Hynek at approximately 0900 hours regarding his visit to New York. Dr. Hynek said that he was going to Auburn, New York on a speaking engagement that had been arranged several months ago. He definitely is not going as an Air Force representative to investigate a sighting. He is going to be doing some investigation on his own. A radio station in Ithaca, New York had called Dr. Hynek this morning and wanted to know if the Air Force was sending up an investigator. Dr. Hynek explained that he had a speaking engagement in the area planned several months ago, and that he may do a little personal investigation, but he definitely was not going as an Air Force

representative. Dr. Hynek requested that Major Quintanilla be informed of this. A Bill Donovan of a UFO outfit in White Plaines, New York called Dr. Hynek and said that all sorts of things were going on that Hynek ought to come out and investigate them. Hynek pointed out that he wouldn't make a trip especially to investigate this sighting, however he had planned a trip to Auburn which is only about thirty miles away and Mr. Donovan said fine. Hynek said that if something got out about him coming to New York this is probably how it happened, through Donovan. This is the sighting that Hynek had asked Lt Marano about earlier in the week. Hynek got a letter from ~~Mr.~~, he wrote a ten page letter to Look magazine and was highly frustrated because when he called his sighting into Hancock they laughed at him. Hynek said that this was not an official case, and he was not investigating it. ^{as such} Norm Levine of the University of Colorado asked Hynek not to officially investigate it for the University of Colorado but would he please forward any information that he had gotten on it and his results. ~~He~~ said that when Hancock laughed at him he called the State Police and they said all they saw was airplanes.

Lt Marano will call Hancock Field back and inform them that Dr. Hynek is not to be extended the courtesies of the base since he will be investigating the sighting but not as an Air Force representative. Also, Lt Marano will request Hancock to contact the State Police and request a copy of their incident report, especially the portion that said Mr. ~~He~~ saw aircraft. (5)

Marano did take this action.

Dear Sir:

Attached find copy of self-explanatory memorandum from Lieutenant J. J. Carroll, relative to unidentified flying objects in the Ithaca, New York area, as per your request in your letter dated February 7, 1968. A copy of this report had been forwarded to the Commanding Officer, Griffis Air Force Base, Rome, New York.

Relative to your letter of February 8, 1968, be advised that Lieutenant John Carroll did not personally witness any unidentified flying objects.

Very truly yours,

NEW YORK STATE POLICE

MEMORANDUM

Troop C Station Ithaca
Date February 10, 1968

To: Troop Commander, Troop C, Sidney, N.Y.
From: Lieut. J.J. Carroll *JJ*
Subject: U.F.O. Observation - October 1967

1. Reference is made to attached self-explanatory correspondence dated 2/7/68, received from Major HECTOR QUINTANILLA, JR., United States Air Force, concerning above captioned subject.
2. This officer was not a witness to any Unidentified Flying Object during October of 1967 or at any other time.

NEW YORK STATE POLICE

MEMORANDUM

Troop "C" Station Ithaca

Date November 17, 1967

To: TROOP COMMANDER, Troop "C", Sidney, New York

From: Lieut. J.J. Carroll

Subject: Report of Unidentified Flying Objects (U.F.O.'S)

1. At 9:00 P.M., 10/26/67, [REDACTED] telephonically contacted Trooper R.E. PETERSON at the Ithaca Station and requested to see a patrol at 13 Benjamin Hill Road, Newfield, N.Y., relative to seeing "Some wierd lights in the sky". Trooper J.P. EISENBERG was assigned to interview complainant. 0-600
2. On 10/26/67, Tpr. EISENBERG personally interviewed [REDACTED] age 33, [REDACTED] Ithaca, New York, at the residence of [REDACTED] age 17, [REDACTED] Newfield, New York. Complainant [REDACTED] and a third subject [REDACTED] age 24, [REDACTED] Ithaca, N.Y. were at the time standing in the back yard of the [REDACTED] residence wrapped in blankets looking into the sky. [REDACTED] stated "that they were looking for a flying saucer that had landed in a field to the rear of the [REDACTED] residence and ate the neighbors prize bull". All three subjects claimed to have observed t flying saucer and described same as being round with many flashing lights, and that the saucer cast small white lights at them. [REDACTED] was most talkative of the three subjects, describing the speed of the object and leading the others. The story was difficult to believe. Upon request of complainant, Tpr. EISENBERG waited in the yard for a short time observing the sky. Tpr. EISENBERG did observe what appear to be aircraft high in the sky, but nothing that fit the description given by complainant.
3. Trooper EISENBERG subsequently obtained a special file che from SP Sidney on all three subjects with negative results. During continued patrol in the area he failed to observe any U.F.O.'S. Upon completion of his tour of duty, Trooper EISENBERG made a blotter entr closing the incident. Attached find memorandum of Trooper EISENBERG covering the incident.
4. At 7:20 P.M., 11/1/67, a subject identifying himself as WILLIAM DONOVAN, President of Aerial Investigation and Research Inc., Room 711, West Court Building, 175 Main Street, White Plains, NY telephonically contacted Sergeant R.J. FRANEY at the Ithaca Station e stated he was investigating reports of U.F.O.'S in the area. Mr. DON

SUBJECT: Report of Unidentified Flying Objects (U.F.O.'S)

requested copies of any State Police reports on sightings of U.F.O.' and was advised to contact Troop Headquarters if he desired copies of any State Police reports. He requested any reports of U.F.O.'S be kept from any sensational news publicity as much as possible.

5. At 10:00 P.M., 11/1/67, STANLEY ORR, telephonically contacted Tpr. T.P. WEST at the Ithaca Station and requested to see patrol relative to finding a dead cow off Connecticut Hill Road. Tpr. A.J. HENDRIKS was assigned to interview complaint

6. On 11/1/67, Trooper HENDRIKS and H.C. WEIDMAN, personally interviewed [REDACTED] and [REDACTED] at the [REDACTED] residence. MR. [REDACTED] stated that while attempting to find tracks of a flying saucer landing, he found the carcass of a dead heifer in a field on property of [REDACTED], Newfield, N.Y. MR. [REDACTED] inferred that the animal had been killed by an U.F.O., and made statements about seeing U.F.O. in the area. MR. [REDACTED] lead the conversation, soliciting verification of his statements from [REDACTED]. Interview revealed that the dead heifer did belong to [REDACTED], Newfield, N.Y. who was aware of the death and contributed the cause of death to the animal being struck by lightning during a recent storm. Upon request of MR. [REDACTED], Tprs. [REDACTED] went to the rear of the [REDACTED] residence and looked into the sky. Nothing unusual was witnessed by either officer.

7. Upon completion of this tour of duty, Tpr. HENDRIKS close the incident by blotter entry. Attached find memorandum of Tpr. HEM covering incident.

8. At 9:50 P.M. 11/4/67 [REDACTED], telephonically contacted Zone Sergeant J.R. AYERS at the Ithaca Station. MR. [REDACTED] requested that Trooper EISENBERG be available on Thursday evening, 11/9/67, to meet with DR. J. ALLEN HYNEK, Dearborn Observatory, Evanstown, Illinois, who was flying into the area to investigate U.F.O. sightings. Sgt. AYERS advised MR. [REDACTED] that Lieut. CARROLL would contact him on 11/6/67, upon return from pass.

9. On 11/6/67, telephonically contacted [REDACTED] at the [REDACTED] residence. MR. [REDACTED] at this time, related having observed numerous U.F.O.'S in the Newfield area, some "as large as battleships high in the sky, with smaller craft leaving the larger craft, traveling at tremendous speeds and some hovering low in the area". He further described an incident where a U.F.O. had cast a white light on him, as previously related to Tpr. EISENBERG and described in paragraph #2 of this memorandum. He claimed that the U.S. Air Force has been "HOODWINKING" the American Public for twenty years, stating that they know they are here but refuse to let the American people know. He stated that numerous persons in the Newfield area had observed U.F.O. and that two young boys had observed a craft hovering from a distance of one-hundred fifty feet. He stated "I don't know who they are or where they are from Lieutenant, but they are here in Newfield". The

SUBJECT: Report of Unidentified Flying Objects (U.F.O.'S)

entire conversation cannot be recalled; however parts of MR. ORR'S conversation sounded like lines from a television show. MR. ORR stated that DR. J. ALLEN HYNEK, who is in charge of "Project Blue Boc" was flying to Ithaca to investigate the sightings and requested Tpr. EISENBERG be available for interview by DR. HYNEK. MR. ORR was advised to have DR. HYNEK call the Ithaca Station if he desired to interview Tpr. EISENBERG.

10. On 11/6/67 telephonically contacted MR. [REDACTED] A - Civilian Dispatcher, Griffiths Air Force Base, Rome, N.Y. and advised him of reports received. MR. [REDACTED] stated that he would advise the Duty Officer MAJOR AITES, U.S.A.F. of the reports.

11. On 11/6/67, [REDACTED] of A.I.R. Inc., White Plain subject of paragraph #4 of this report, telephonically contacted this office at the Ithaca Station. MR. [REDACTED] stated that DR. J. ALLEN H was flying to Auburn, N.Y. on 11/7/67 in conjunction with a speaking engagement at Auburn College. Further that in view of the reported sightings of U.F.O.'S in the Newfield area, DR. HYNEK planned to visit the area sometime during the afternoon of 11/8/67. MR. [REDACTED] advised that he would be in the Ithaca area on 11/7/67 arranging an itinerary for DR. HYNEK and that he would stop at the Ithaca State Police Station to see this officer.

12. On 11/7/67, [REDACTED] and an associate identified only as [REDACTED], an investigator for A.I.R. Inc., with STANLEY J. ORR, personally appeared at the Ithaca Station and conferr with this officer. MR. [REDACTED] stated that he had previously visited this area and interviewed the two boys who claimed to have seen a U.F.O. hovering in the Newfield area. He stated that he was continuin an investigation and that a meeting was being set up between DR. HYNEK and numerous persons who had seen U.F.O.'S in the Newfield area durin the evening of 11/8/67. MR. [REDACTED] at this time, personally reiterated to this officer, details of his sightings of U.F.O.'S as previously set forth in this memorandum. It should be noted that during this conversation and previous telephone conversations between STANLEY ORR and this officer, MR. [REDACTED] stated that he has sent a ten page letter to Life Magazine concerning the sightings and that he has spent approximately two-hundred dollars on telephone calls notifying personnel concerned with research on U.F.O.'S.

13. During the late evening of 11/9/67, Lieutenants GERALD WHITE and DENNIS EGAN, U.F. Air Force, Hancock Field, Syracuse, N.Y. stopped at the Ithaca Station and conferred with this officer. They advised that they had just attended a meeting at the WARTS residence, Newfield, N.Y. held by DR. HYNEK, [REDACTED] with thirty to forty persons in attendance. Neither officer placed any credence in stories of STANLEY ORR and they felt that he was imaginin

SUBJECT: Report on Unidentified Flying Objects (U.F.O.'S)

things and was possibly attempting to seek profit from his tales.

14. On 11/8/67, [REDACTED], Route 13, Newfield, N.Y. telephonically contacted Tpr. J.P. EISENBERG at the Ithaca Station and requested to see a Trooper relative to a flying saucer over her residence. Sergeant R.B. CLAUSON was assigned.

15. On 11/8/67, Sgt. CLAUSON, personally interviewed LAURA LA age 35, and her daughter [REDACTED], age 17, at their residence Route 13, Newfield, New York. These subjects claimed to have seen a U.F.O. passing over their house at approximately 10:10 P.M. flying from south west to north east, then west, then south west until out of sight. They described the object as having several red lights and two white lights. They could not offer any information concerning size, shape or speed. From the description given, Sgt. CLAUSON believes the women observed an aircraft flying at a high altitude. Incident was closed by blotter entry.

16. On 11/10/67 an article appeared in the Ithaca Journal Newspaper concerning the sightings and the meeting at Newfield. The article is being submitted with this memorandum.

17. On 11/10/67 an article also appeared in the Syracuse Post Standard newspaper and is being submitted with this memorandum.

18. At 8:35 P.M., 11/11/67, [REDACTED] Aurora Street, Ithaca, N.Y. telephonically contacted Trooper R.E. MENTER at the Ithaca Station and reported observing a U.F.O. flying over his residence at 5:30 or 5:45 P.M. of this date. Inasmuch as subject resided in the City of Ithaca and the sighting occurred within the city, Mr. Antunes agreed to report same to the Ithaca City Police Department.

19. On 11/15/67, [REDACTED] and [REDACTED] of A.I.R. Inc., telephonically contacted this officer at the Ithaca Station and advised they were continuing their investigation with their Headquarters at the [REDACTED] residence. They inquired relative to assistance from the State Police in the form of a helicopter that they could borrow to search for landing sites in the rural wooded areas of Newfield. They stated that they had inquired from the Tomp County Sheriff's Office relative to use of a helicopter and were told that the Troopers had one. MR. [REDACTED] was advised that the Division did not have a helicopter available to aid in his investigation. He advised that he would keep this office informed of any success in his investigation.

NEW YORK STATE POLICE

MEMORANDUM

Troop C Station IthacaDate November 8, 1967

To: Troop Commander Troop "C" Sidney, New York

From: Trooper J.P. Eisenberg *JPE*

Subject: [REDACTED] complaint of "U.F.O.'s"

1. On 10-26-67 received radio transmission to interview Stanley J. Orr age 33 residing at the Y.M.C.A. Ithaca, New York relative to the sighting of several U.F.O.'s in the Newfield, New York area.
2. On 10-26-67 interviewed complainant at residence of Barbara Waris age 17 of 13 Benjamin Hill Road, Newfield, New York. Complainant also in company of [REDACTED] age 24 also of the [REDACTED] A. Ithaca New York. All three subjects were standing in the back yard of the [REDACTED] residence with blankets over their heads looking into the sky. [REDACTED] stated they were looking for a flying saucer that had landed in a field to the rear of the [REDACTED] residence and ate the neighbors prize bull. All three subjects claim to have seen the flying saucer and described same as being round with many flashing lights on same, also casting small white lights at them. [REDACTED] stated these objects travel at 600 MPH.
3. Patrol waited in yard of Waris with complainant to observe objects in sky and noted several planes in flight. None fit description given by complainant.
4. Patrol contacted SP Sidney via radio for S.F.C. on above subject with negative results.
5. Patrolled area to south of area complainant states U.F.O.'s landed and noted no fires to give any glow in sky.
6. At end of tour proper blotter entry made.
