Observer saw lights only. Orange, red glow with flashing, occasional white light. The white light had a flash interval of approx 2-3 seconds. When the light flashed it obscured nearly all of the orange, red color. The white flash was as bright and/or intense as an electronic photo flash. The orange light had the intensity of a neon sign. Approx 5 min after the flashes an aircraft passed overhead heading approx S-E.

The white light had a flash interval of approximately two to three seconds. When it flashed it obscured nearly all of the orange-red color. The white flash was more intense than any stars visible that night. The light conditions were very deep dusk. To fix the time of the occurrence approximately five minutes later an aircraft of the C-54 or C-118 type passed overhead heading roughly south south-east.

MEMO FOR THE RECORD

Subject: UFO Report, 19 October 1967

On 20 October 1967 received a call from

[REDACTED]
[REDACTED] to
Parkersburg, W. Va. [REDACTED]

On 19 October at 9:05 pm EDT at Williamstown, W. Va. he sighted a UFO. The total duration of the sighting was about 40 seconds. (20 seconds in car and 20 seconds outside of car). There was one other witness to sighting. Mr. [REDACTED] did not know his name but got his license plate number.

The object had wings like a horseshoe and had lights all along the wing. The lights on the wing were red and green and there were (poss.) white lights on body of the craft. None of the lights flashed but were on constantly. These wings met in front and joined; the height of the object ^{about} at 1/4 mile.

He saw object while driving, it seemed to be hovering. He then stopped, it was directly overhead. He heard a deep jet sound and the craft started to move slowly. It did a semicircle and disappeared behind a hill. The observer was looking toward Williams-town when it dissappeared and estimated his distance as 4 miles from a local airport.

There was a full moon that you could just barely see and it was a clear night.

PROJECT 10073 RECORD

1. DATE 24 Oct 67		2. LOCATION Ft. Belvoir, AFB, Arkansas	
3. NUMBER OF OBJECTS 1		10. CONCLUSION Possible (BURNING BARN)	
5. LENGTH OF OBSERVATION 30 minutes		11. BRIEF SUMMARY AND ANALYSIS Observers described the object as "light-self-luminous solid. Fuzzy, appeared as a point of light. It appeared to be white light changing colors to red and green. Mostly white and red. The object was first seen approx. in WNW at elevation of 20 to 30 deg and disappeared suddenly at an elevation 15 to 20 deg in roughly the NW. COMMENTS: Arcturus was at an elevation of 25 deg and an azimuth of 275 deg at the beginning of the sighting and an elevation of 25 deg and azimuth of 280 deg at the disappearance. A B-52 observed a burning barn about 8 1/2 miles from tower in general area of the sighting. Because of the inversion and sudden disappearance of the object it seems likely that the observers were seeing the burning barn.

My wife, [REDACTED] saw what we believe
may have been a UFO. On Monday evening
2 Oct 1967, at approximately 2005 hrs. she
was in the back yard of our residence on
the near north side of Xenia Ohio. The add-
ress is [REDACTED]. She observed a
red-orange object in the sky. It was either
round or tear-drope in shape. It had a
white regularly flashing light in the center
of the object with a pulse similar to
a photographic electronic flash device. The
flash interval was appx. $2\frac{1}{2}$ to 3 seconds. The
object was first observed in the west
horizon. It moved directly overhead on a
heading very slightly north of due west and
disappeared in the west horizon. The elapsed
flight time from horizon to horizon was
appx. one minute. The apparent size of the
object was even-half or less than that of
a typical full moon. There was no sound. A neighbor who

I was inside the house at the time and heard nothing. At the time the object was observed the atmospheric conditions were very deep dusk and clear sky.

When I came out of the house two to three minutes later I could observe nothing. To fix the time of the occasion Appx. Five minutes after I came out of the house an aircraft, of C-54 or C-118 type PASSED overhead heading roughly south south-east.

Nothing of the sighting has been discussed with my own outside of car and my wife's family. If there were any other observations could we be informed of them as the incident has AROUSED our curiosity.
