3. SOURCE Civilian	10. CONCLUSION Sighting: Probable AIRCRAFT ~~Case:~~ (INSUFFICIENT CLARITY)
4. NUMBER OF OBJECTS 1	
5. LENGTH OF OBSERVATION 3-4 minutes	11. BRIEF SUMMARY AND ANALYSIS Observer sighted a white object that looked like a cigar with a dome toward the front. The object passed in front of and behind clouds and made no noise. Comments: The local investigating officer felt that there was a question to the reliability of the witness. A dome on a cylinderical body, as reported by the observer could not be seen on the photograph. Three aircraft were in the area at the time of the sighting. In particular a Cessra 411 was obscending from 3000 to 2100 ft arriving at Omaha at 0340Z. This would place the aircraft below the 4000ft broken to overcast condition that existed in the area.

FORM
FTD SEP 63 0-329 (TDE) Previous editions of this form may be used.

34. Date you completed this questionnaire: 13 (Day) November 1967 (Month) (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

In question 28 The drawing is in inches because it took pictures of the object with a Polaroid Camera and had to go into my house to develope the Pictures. There were 4 pictures but one didn't come out.

Dear Sirs: Please return the Pictures at your the soonest time Pasible.

14. Did the object disappear while you were watching it? If so, how?

Very slowly faded away

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

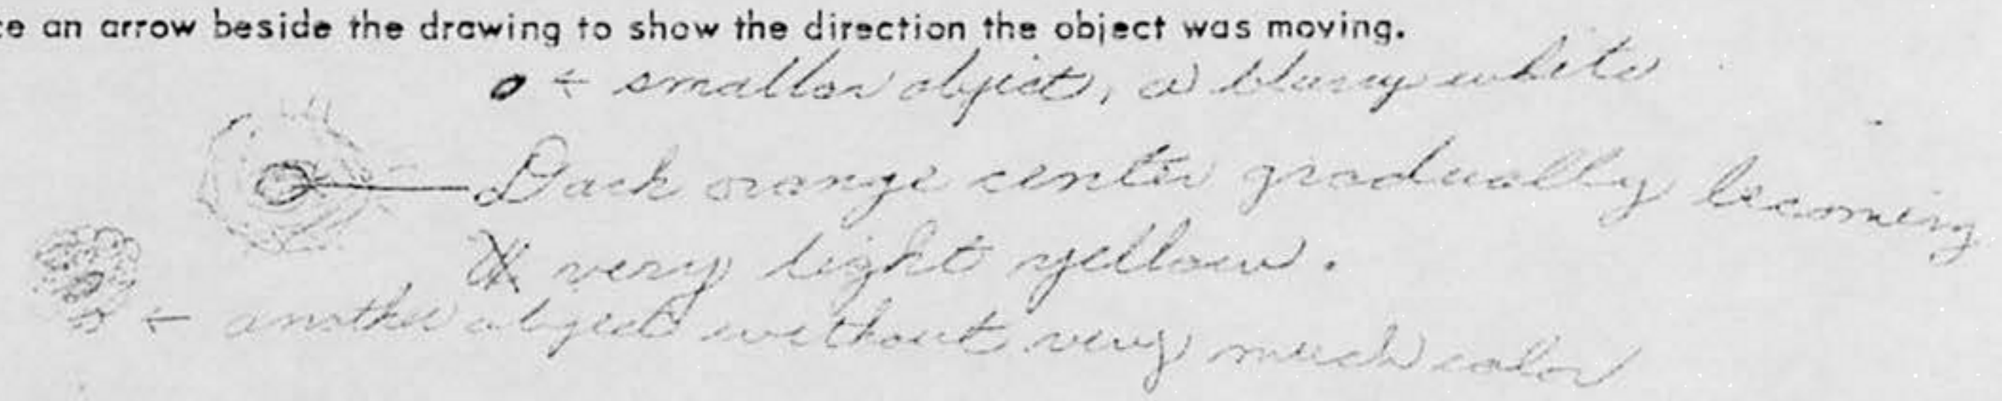
a. Sound no sound

b. Color bright orange

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

Very little about 1/5 of the object

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.



20. Do you think you can estimate the speed of the object?

(Circle One) (Yes) No

IF you answered YES, then what speed would you estimate? no speed no movement

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
(c. Outdoors)
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
(b. In the residential section of a city?)
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

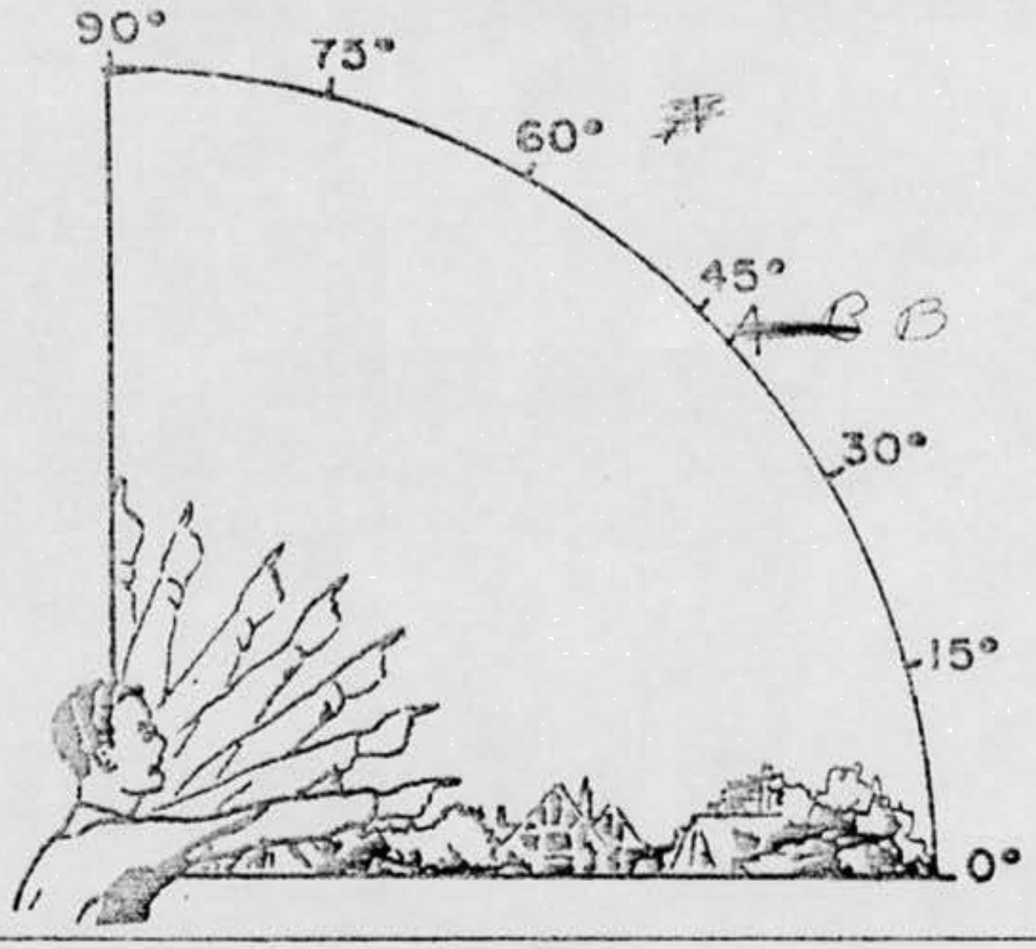
25. Did you observe the object through any of the following?

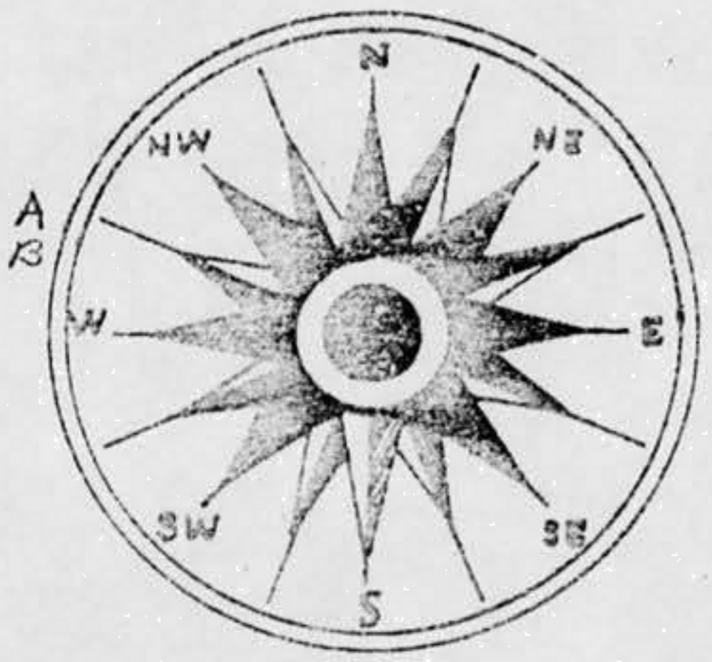
a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

The sun, but it was not as bright.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.





28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

Zero

29. IF there was MORE THAN ONE object, then how many were there? 3

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

No movement at all

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

No

31. Was anyone else with you at the time you saw the object? (Circle One) (Yes) No

31.1 IF you answered YES, did they see the object too? (Circle One) (Yes) No

31.2 Please list their names and addresses:

Mr. [redacted]
Mr. [redacted] Ridgewood N. Y. 11237

[redacted] (third witness other witness not known this time)

32. Please give the following information about yourself:

NAME [redacted] (Last Name) [redacted] (First Name) [redacted] (Middle Name)

ADDRESS [redacted] (Street) New York (City) 37 (Zone) N.Y (State)

TELEPHONE NUMBER — AGE 14 SEX Male

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

_____ (Day) October (Month) 1967 (Year)

I'm my sisters (my own Cousin) Bracken the employer and brother-in-law etc.

34. Date you completed this questionnaire: 5 December 1961
Day Month Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

We were about to come home when we noticed and object we first thought was the moon. But later realized that it was much larger. As we were going home we met a number of people who also saw it and one person commented to her husband "I told you it wasn't crazy, they saw it too." When we arrived home some neighbors told us they also saw it.

SIGHTING OF UNIDENTIFIED PHENOMENA QUESTIONNAIRE

THIS QUESTIONNAIRE HAS BEEN PREPARED SO THAT YOU CAN GIVE THE U.S. AIR FORCE AS MUCH INFORMATION AS POSSIBLE CONCERNING THE UNIDENTIFIED PHENOMENON THAT YOU HAVE OBSERVED. PLEASE TRY TO ANSWER ALL OF THE QUESTIONS. THE INFORMATION YOU GIVE WILL BE USED FOR RESEARCH PURPOSES. YOUR NAME WILL NOT BE USED IN CONNECTION WITH ANY OF YOUR STATEMENTS OR CONCLUSIONS WITHOUT YOUR PERMISSION. RETURN TO AIR FORCE BASE INVESTIGATOR FOR FORWARDING TO FTD (TDETR), WRIGHT-PATTERSON AFB, OHIO 45433, IAW 80-17. *(IF ADDITIONAL SHEETS ARE NEEDED FOR NARRATIVE OR SKETCHES ATTACH SECURELY TO THIS FORM OR ANNOTATE WITH YOUR NAME FOR IDENTIFICATION.)*

1. WHEN DID YOU SEE THE PHENOMENON?

DAY 7 MONTH October YEAR 1967

2. WHAT TIME DID YOU FIRST SIGHT THE PHENOMENON?

HOUR 7 MINUTES 15 ☐ A.M. ☒ P.M.

3. WHAT TIME DID YOU LAST SIGHT THE PHENOMENON?

HOUR 7 MINUTES 20 ☐ A.M. ☒ P.M.

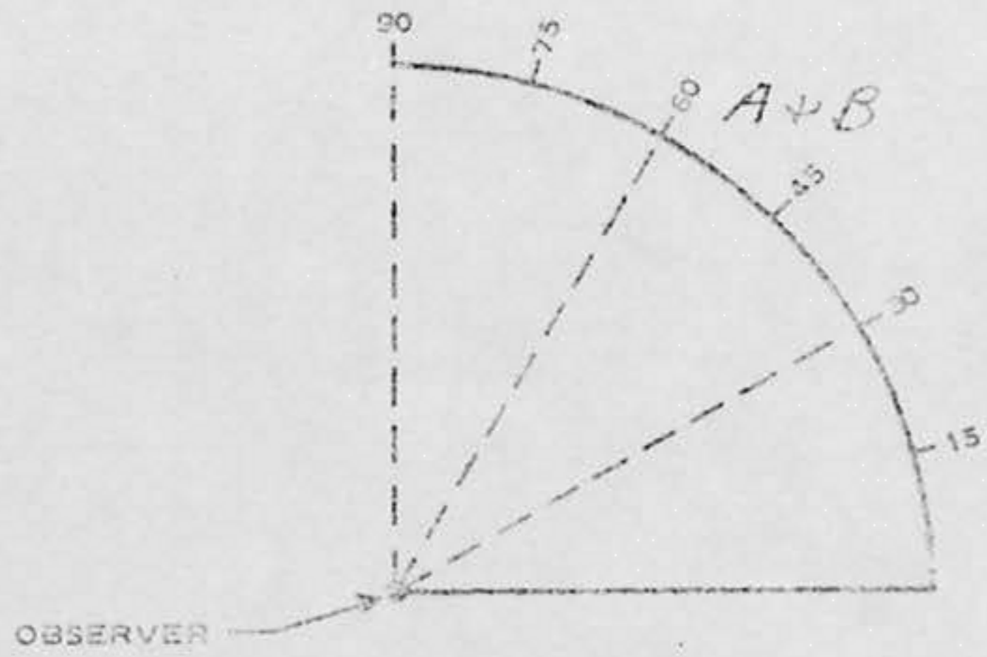
4. TIME/ZONE ☒ DAYLIGHT SAVINGS ☐ STANDARD

☐ EASTERN ☐ CENTRAL ☐ MOUNTAIN ☐ PACIFIC ☐ OTHER

5. WHERE WERE YOU WHEN YOU SAW THE PHENOMENON? IF IN CITY, GIVE THE NEAREST STREET ADDRESS AND INDICATE ON A HAND DRAWN MAP WHERE YOU WERE STANDING WITH REFERENCE TO THE ADDRESS. IF IN THE COUNTRY, IDENTIFY THE HIGHWAY YOU WERE ON OR NEAR AND TRY TO FIX A DISTANCE AND DIRECTION FROM SOME RECOGNIZABLE LANDMARK.

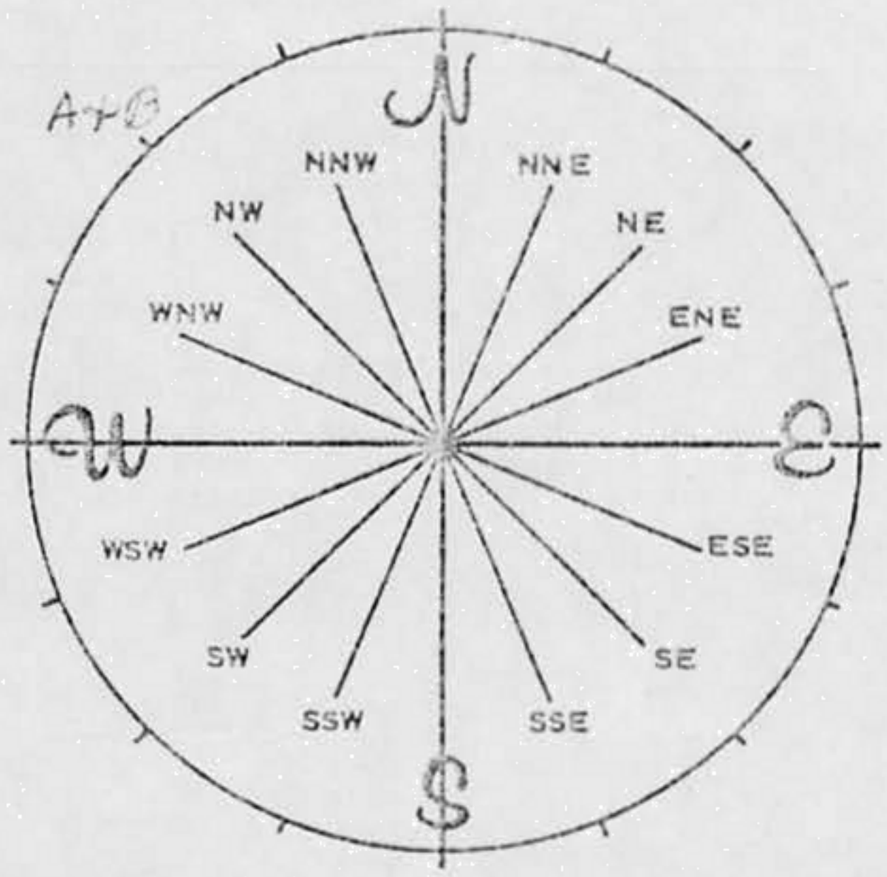
The nearest adress is not known, but it was just outside Grover Cleveland Park on Blankenship Ln.

6. IMAGINE YOU ARE AT THE POINT SHOWN IN THE SKETCH. PLACE AN "A" ON THE CURVED LINE TO SHOW HOW HIGH THE PHENOMENON WAS ABOVE THE HORIZON, OR SKYLINE, WHEN FIRST SEEN. PLACE A "B" ON THE SAME CURVED LINE TO SHOW HOW HIGH ABOVE THE HORIZON THE PHENOMENON WAS WHEN LAST SEEN.

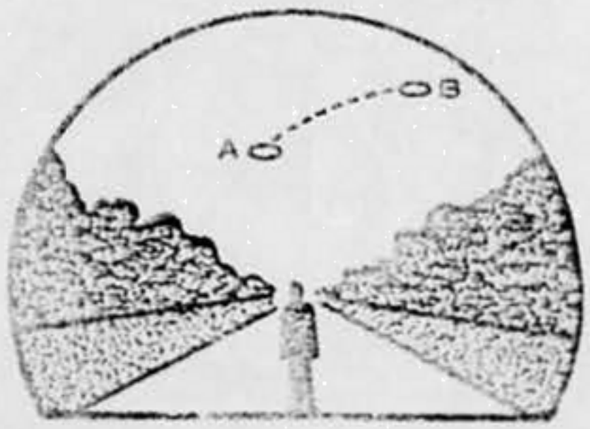


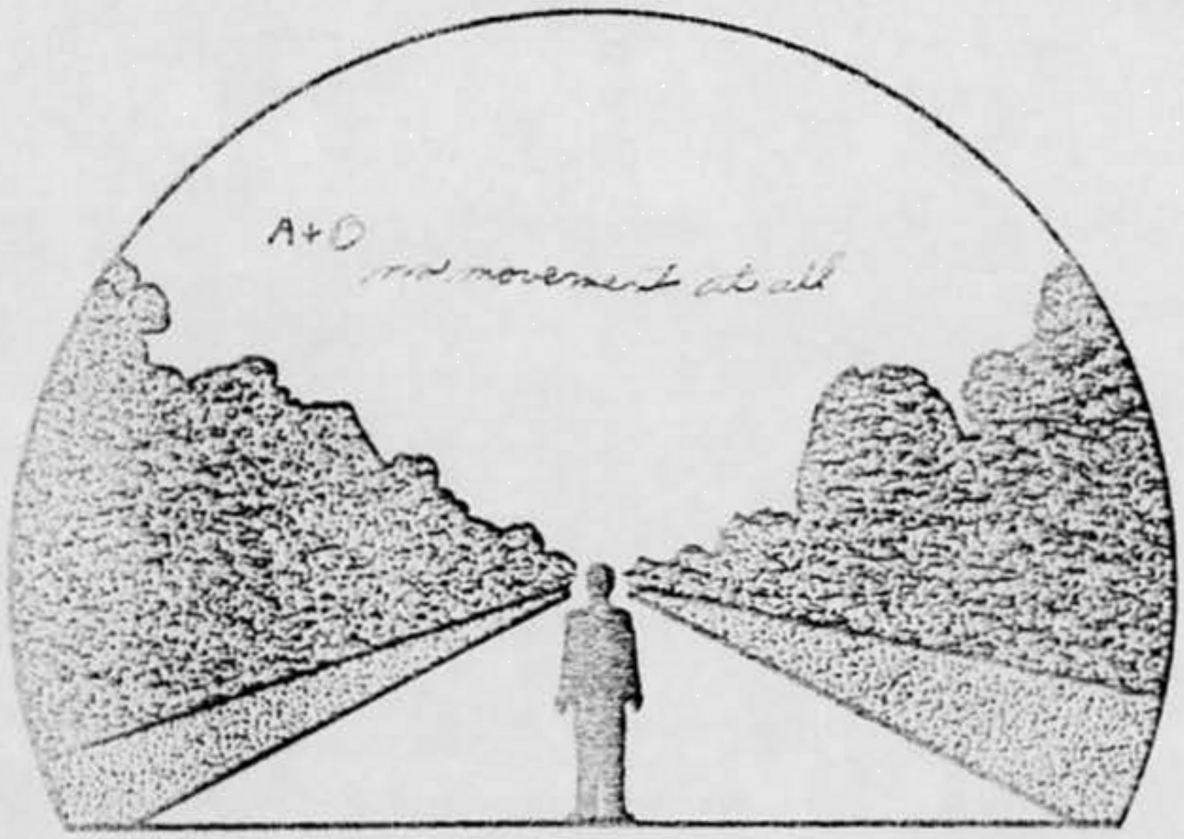
AF FORM AUG 67 117

5A. NOW IMAGINE YOU ARE AT THE CENTER OF THE COMPASS ROSE. PLACE AN "A" ON THE COMPASS TO INDICATE THE DIRECTION TO THE PHENOMENON WHEN FIRST SEEN. PLACE A "B" ON THE COMPASS TO INDICATE THE DIRECTION TO THE PHENOMENON WHEN LAST SEEN.



7. IN THE SKETCH BELOW, PLACE AN "A" AT THE POSITION OF THE PHENOMENON WHEN FIRST SEEN, AND A "B" AT THE POSITION OF THE PHENOMENON WHEN LAST SEEN. CONNECT THE "A" AND "B" WITH A LINE TO APPROXIMATE THE MOVEMENT OF THE PHENOMENON BETWEEN "A" AND "B". THAT IS, SCHEMATICALLY SHOW WHETHER THE MOVEMENT APPEARED TO BE STRAIGHT, CURVED OR ZIG-ZAG. REFER TO SMALLER SKETCH AS AN EXAMPLE OF HOW TO COMPLETE THE LARGER SKETCH.





8. WHERE WERE YOU WHEN YOU SAW THE PHENOMENON? *(Check appropriate blocks.)*

X	OUTDOORS		IN BUSINESS SECTION OF CITY
	IN BUILDING	X	IN RESIDENTIAL SECTION OF CITY
	IN CAR ☐ AS DRIVER ☐ AS PASSENGER		IN OPEN COUNTRYSIDE
	IN BOAT		NEAR AIRFIELD
	IN AIRPLANE ☐ AS PILOT ☐ AS PASSENGER		FLYING OVER CITY
	OTHER		FLYING OVER OPEN COUNTRY

A. IF YOU WERE IN A VEHICLE, COMPLETE THE FOLLOWING:

WHAT DIRECTION WERE YOU MOVING?

	NORTH		EAST
	SOUTH		WEST
	NORTHEAST		SOUTHEAST
	NORTHWEST		SOUTHWEST

HOW FAST WERE YOU MOVING?

DID YOU STOP ANYTIME WHILE OBSERVING THE PHENOMENON? ☐ YES ☐ NO

EXPLAIN WHETHER SUCH MOVEMENT EFFECTS YOUR SKETCHES IN ITEMS 5 AND 6.

DESCRIBE TYPE OF VEHICLE YOU WERE IN AND TYPE OF ROAD, TERRAIN OR BODY OF WATER YOU TRAVERSED DURING THE SIGHTING. STATE WHETHER WINDOWS OR CONVERTIBLE TOP WERE UP OR DOWN.

HOW MUCH OTHER TRAFFIC WAS THERE?

DID YOU NOTICE ANY AIRPLANES? ☐ YES ☐ NO. IF "YES," DESCRIBE WHEN THEY WERE IN SIGHT RELATIVE TO THE TIME OF SIGHTING THE PHENOMENON AND WHERE THEY WERE IN THE SKY RELATIVE TO THE POSITION OF THE PHENOMENON.

9. HOW LONG WAS THE PHENOMENON IN SIGHT?

LENGTH OF TIME				
about 6 minutes		CERTAIN OF TIME		NOT VERY SURE
	X	FAIRLY CERTAIN		JUST A GUESS

HOW WAS TIME DETERMINED?

Time it takes to walk from one parking lot to other entire length of.

WAS THE PHENOMENON IN SIGHT CONTINUOUSLY? ☒ YES ☐ NO. IF "NO," INDICATE WHETHER THIS IS DUE TO YOUR MOVEMENT OR THE BEHAVIOR OF THE PHENOMENON, AND DESCRIBE SUCH MOVEMENT OR BEHAVIOR. INDICATE DISAPPEARANCES ON PREVIOUS SKETCHES.

10. IF THERE WERE MORE THAN ONE PHENOMENON, HOW MANY WERE THERE? DRAW A PICTURE TO SHOW HOW THEY WERE ARRANGED. DID THIS ARRANGEMENT CHANGE DURING THE SIGHTING?

There were 3 objects.

11. CONDITIONS *(Check appropriate blocks.)*

A. SKY		B. WEATHER			
	DAY		CUMULUS CLOUDS *(Low fluffy)*		FOG OR MIST
	TWILIGHT	X	CIRRUS CLOUDS *(High fleecy or Herring-bone)*		HEAVY RAIN
X	NIGHT				LIGHT RAIN OR DRIZZLE

C. IF THE SIGHTING WAS AT TWILIGHT OR NIGHT, WHAT DID YOU NOTICE ABOUT THE STARS AND MOON?

(1) STARS		(2) MOON			
	NONE		BRIGHT MOONLIGHT	X	NO MOONLIGHT
X	A FEW		MOON WITH HALO		UNKNOWN
	MANY		MOON HIDDEN BY CLOUDS		
	UNKNOWN		PARTIAL *(New or quarter)*		

D. IF SIGHTING WAS IN DAYLIGHT, WAS THE SUN VISIBLE? ☐ YES ☐ NO. IF "YES," WHERE WAS THE SUN AS YOU FACED THE PHENOMENON?

	IN FRONT OF YOU		TO YOUR RIGHT		OVERHEAD *(Near noon)*
	IN BACK OF YOU		TO YOUR LEFT		UNKNOWN

E. SPECIFY THE MAJOR SOURCE OF ILLUMINATION PRESENT DURING THE SIGHTING, SUCH AS THE SUN, HEADLIGHTS OR STREET LAMP, ETC. FOR TERRESTRIAL ILLUMINATION, SPECIFY DISTANCE TO LIGHT SOURCE.

12. GIVE A BRIEF DESCRIPTION OF THE PHENOMENON, INDICATING WHETHER IT APPEARED DARK OR LIGHT, WHETHER IT REFLECTED LIGHT OR WAS SELF-LUMINOUS AND WHAT COLORS YOU NOTICED. DESCRIBE YOUR IMPRESSION OF WHETHER IT WAS SOLID OR TRANSPARENT, WHETHER EDGES WERE SHARP OR FUZZY. DESCRIBE THE SHAPE OR INDICATE IF IT APPEARED AS A POINT OF LIGHT. INDICATE COMPARISONS WITH OTHER OBSERVED OBJECTS, LIKE STARS, A LIGHT OR OTHER OBJECT IN YOUR FIELD OF VIEW.

There where 3 objects. The largest was about 6 x the size of moon. It was bright orange in center and gradually changed into a very light yellow or white. It remained the same shape but not in brightness. It was very clear in the center but fuzzy on the edges

13. DID THE PHENOMENON	YES	NO	UNKNOWN
MOVE IN A STRAIGHT LINE?		X	
STAND STILL AT ANYTIME?	X		
SUDDENLY SPEED UP AND RUN AWAY?		X	
BREAK UP IN PARTS AND EXPLODE?		X	
CHANGE COLOR?	X		
GIVE OFF SMOKE?		X	
CHANGE BRIGHTNESS?	X		
CHANGE SHAPE?		X	
FLASH OR FLICKER?	X		
DISAPPEAR AND REAPPEAR?		X	
SPIN LIKE A TOP?		X	
MAKE A NOISE?		X	
FLUTTER OR WOBBLE?		X	

14. WHAT DREW YOUR ATTENTION TO THE PHENOMENON?

When leaving park I noticed object and I made a remark to my mother about the size of the moon. I later realized it was not the moon.

A. HOW DID IT FINALLY DISAPPEAR?

It just gradually came apart or cleared away.

B. DID THE PHENOMENON MOVE BEHIND OR IN FRONT OF SOMETHING, LIKE A CLOUD, TREE, OR BUILDING AT ANY TIME?
☐ YES ☒ NO. IF "YES," DESCRIBE.

SUBJECT: UFO REPORT - Rt. #2, Cambridge, Mass.- 8:40 PM EDT - 10/3/67

DATE: 13 October 1967

FROM: NICAP MASS SUBCOM

TO: NICAP, Washington, D.C. cc: CU UFO PROJECT
FTD (TDETR)

The attached report of a UFO sighting near Fresh Pond, Cambridge is sent to you for your files. It took place on 3 October 1967.

The Wallops Island, Virginia Barium Cloud experiment is not responsible for this incident although this SUBCOM received many calls on that incident which was seen by many in the South at approximately 7:15 PM EDT. I saw the 10/4/67 experiment myself. The witness had also seen this experiment on 10/3/67 earlier in the evening at 7:15 PM EDT. The Barium clouds had dissipated by the time of this sighting. Time, direction and elevation are not compatible. The description of the UFO is strikingly familiar with the 10/2/67 sighting at Ipswich, Massachusetts between 8:00-9:15 PM EDT. This report has also been forwarded.

A check with the "Sky-Lite" advertising plane company's manager revealed that his aircraft was not airborne. There is no Astronomical phenomena which would account for what the witnesses described. As will be seen when reading this report, a check was made by NICAP Mass SUBCOM Investigator Nathan Gold to see if any signs or other things in the area would have given the appearance of the UFO described - the results were negative. Although conventional aircraft are a remote possibility, the object described did not appear to be such. What was seen was somewhat similar to the saturn-type UFO photographed over Trindade Island on January 16, 1958. Its lights were all red.

The witnesses are well-known by Mr. Gold. Mrs. June Annalan is his mother-in-law.

Respectfully submitted,-

3. Locality of Observation Over Route #2, Cambridge (near Fresh Water Pond

4. How long did you see the object? Hours Minutes 3 Seconds

5. Please describe weather conditions and the type of sky; i.e., bright daylight, nighttime, dusk, etc. nighttime

6. Position of the Sun or Moon in relation to the object and to you. didn't notice moon

7. If seen at night, twilight, or dawn, were the stars or moon visible? yes

8. Were there more than one object? No If so, please tell how many, and draw a sketch of what you saw, indicating direction of movement, if any.

9. Please describe the object(s) in detail. For instance, did it (they) appear solid, or only as a source of light; was it revolving etc? Please use additional sheets of paper, if necessary.

10. Was the object(s) brighter than the background of the sky? yes

11. If so, compare the brightness with the Sun, Moon, headlights, etc. Moon

12. Did the object(s) — (Please elaborate, if you can give details

    Xa. Appear to stand still at any time?
    b. Suddenly speed up and rush away at any time?
    c. Break up into parts or explode?
    d. Give off smoke?
    e. Leave any visible trail?

14. Was there any wind? did not notice If so, please give direction and speed.

15. Did you observe the object(s) through an optical instrument or other aid, windshield, windowpane, storm window, screening etc? What?

16. Did the object(s) have any sound? No What kind? How loud?

17. Please tell if the object(s) was (were) —

18. Was the object —

a. X Self-luminous?
b. Dull finish?
c. Reflecting?
d. Transparent?

19. Did the object(s) rise or fall while in motion? No

20. Tell the apparent size of the object(s) when compared with the following held at arm's length: size of Moon when overhead

a.	Pinhead	d.	Nickel	g.	Orange
b.	Pea	e.	Half dollar	h.	Grapefruit
c.	Dime	f.	Silver dollar	i.	Larger

Or, if easier, give apparent size in inches on a ruler held at arm's length.

21. How did you happen to notice the object(s)? My friend riding with me noticed it.

22. Where were you and what were you doing at the time? Driving on Rte. 16 approaching Rte 2.

23. How did the object(s) disappear from view? We drove away from it

24. Compare the speed of the object(s) with a piston or jet aircraft at the same apparent altitude. Stationary

25. Were there any conventional aircraft in the location at the time or immediately afterwards? If so, please elaborate. No

26. Please estimate the distance of the object(s). 1/2 mile

27. What was the elevation of the object(s) in the sky? Please mark on this hemisphere sketch:

28. Names and addresses of other witnesses, if any. Mary Stepanian, 146 Lockland Ave., Framingham, Massachusetts.

29. Please draw a map of the locality of the observation showing North; your position; the direction from which the object(s) appeared and disappeared from view; the direction of its course over the area; roads, towns, villages, railroads, and other landmarks within a mile.

30. Is there an airport, military, governmental, or research installation in the area? Not to my knowledge

31. Have you seen other objects of an unidentified nature? If so, please describe these observations, using a separate sheet of paper.

32. Please enclose photographs, motion pictures, news clippings, notes of radio or television programs (include time, station and date, if possible) regarding this or similar observations, or any other background material. We will return the material to you.

33. Were you interrogated by Air Force investigators? By any other federal, state, county, or local officials? If so, please state the name and rank or title of the agent, his office, and details as to where and when the questioning took place. No

Were you asked or told not to reveal or discuss the incident? If so, were any reasons or official orders mentioned? Please elaborate carefully. No

34. We should like permission to quote your name in connection with this report. This action will encourage other responsible citizens to report similar observations to NICAP. However, if you prefer, we will keep your name confidential. Please note your choice by checking the proper statement below. In any case, please fill in all parts of the form, for our own confidential files. Thank you for your cooperation.

You may use my name. (X) Please keep my name confidential. ( )

We were driving along Rte 16 at Fresh Pond in Cambridge when we looked, and to the left of us over Rte. 2 we saw something in the sky which caught our attention. I slowed down my speed to get a better and longer look at this object. It appeared to be standing still we watched it until we drove out of sight of it. To me it looked like the planet Saturn through a telescope. The center was lighted in a foggy amber glow. Around it was a circle of lights. When we first saw it, we saw a center glow with a circle completely around it. As we drove on we got a different angle, one from a side view. The top of the center was luminate and the outer rim now looked like a staggered line of lights.

ARROWS SHOW DIRECTIONS OF SIGHTINGS.

Mrs. Annaian also saw the Wallops Island rocket display and said this didn't look anything like that. The time is pretty accurate as she was hurrying to get to Sommerville before nine P.M.

After she described the object I showed her pictures of the Trindade Island UFO. She immediately identified it as the same thing she saw.

I checked the area during the daytime to see if there were any signs on high poles or other things that may have given the appearance described.when illuminated at night. There was nothing that even remotely fitted the description of the object seen.

I have known Mrs. Annaian for almost three years (she's my mother in law). She is not an excitable person, and I can vouch for her reliability in general.

Dear Mayor Buontempo

Tonight I saw three unidentified objects in the sky, four you can imagine, I was quite concerned.

I have had extensive notes on the subject of U.F.O.'s over to my elevated + I myself could not find a reasonable explanation. I am positive it is not marsh gas, or lights I do not believe in little green men with ray guns from Mars. I do believe that intelligent life organisms have my planet as their source, and probably on visits as the conditions are possible.

Hope [illegible] an answer. I am very [illegible] Interested in the Elizabeth Police Force

I stood looking for my cat when I saw them. I ran + called my parents to see + got my glasses. I was elated so I ran to the next door neighbors + 3 of them saw it also. Mr. Lucks said it was lights but we soon put that theary down due to the fact that the one stayed bright + very, very slowly moved, not like a searchlight. Within a 5 min time (aprox. 7:25 to 7:30) during the first 7 or 8 minutes I continually watched it + in the remaining minutes I ran in + out of the house at intervals of aproximatly 3 minutes. The last time I ran out the bigones had faded completely + the biggest one was just a very light fogg. The small bright one had moved out of view.

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

WORLD REPORT

On the Sonic Boom Merry-Go-Round

By United Press International

Theodore O. Elsner of Addison said today he got on a "merry-go-round" last July when a sonic boom created by a jet plane broke his mother's vase.

After learning from newspaper stories that all claims from sonic boom damage in Illinois must be sent to Chanute Air Force Base at Rantoul, Elsner notified the Air Force.

Officials at Chanute simply sent Elsner routine forms to fill out, "required by regulation," according to Col. John W. Miller of the Office of Information at the base.

Elsner said he received 18 pages of government forms. Miller said the Air Force sent only 5 forms, each of which had one, two or three copies, along with a letter of instructions on how to fill out the forms.

IN THE official letter, the Air Force said it would reimburse Elsner for the vase -- $595 -- if it found a sonic boom caused the damage.

Elsner refused to fill out the forms: "He thought it was ridiculous to fill out 18 forms," his mother said, "And so do I."

Rep. John N. Erlenborn, (R - Wheaton), got on what he called "one of those government merry - go - rounds which come straight out of never - never land" later that month when Elsner complained in a letter to his congressman.

Sees UFO . . . With Propeller!

The sighting of an unidentified flying object has been reported in Mount Prospect by a Rolling Meadows youth.

Fred Thoma, 19, of 2313 Eastman in Rolling Meadows, told police officer William Burtis that he saw a strange craft hovering over a field late Saturday night.

Thoma said he first noticed it as he was driving west with his girlfriend on Central Rd. near Busse Rd.

Thoma described the object as having a saucer-shaped body topped by a spinning propeller. He said that there was a white light between the propeller and the craft's body.

THOMA SAID he took his girl home, returned to the field in time to see the craft, "as big as a one-car garage," slowly descending.

Thoma left the scene and hailed Burtis, who was cruising nearby in a squad car.

When Burtis arrived at the field he found no trace of the mysterious object.

Just returned from a quick trip to England--I see that the same old thing is still going on. I even read an article in a Sunday magazine in London--"What is The Truth About UFO'S--etc"

I've stopped sending you everything I find on thesubject 'cause it's so redundant. Seems, however, that we should share the "double-header" that appeared in the paper that's left on my door at home each day.

To whom it may Concern,

On the advice of an educated gentleman from Philadelphia I am sending a copy of a U.F.O. report to your organization. Also enclosed is a topographical map of the area. Please be advised that the length of time that the object was in sight is estimated only. The report states approximately 60 seconds but it could have been only 30 seconds.

The weather was clear and the stars were out.

U. F. O. Sighting

Date: October 7, 1967

Time: 7:30 P. M.

Location: Inlet Creek (White Swan Lake area, East of Canal Flats, B.C.)

Description: Disc shape with dome. Lower section glowed firey red similiar to a star. Dome pulsated with a bright blue light.

Path of Flight: West to East on direct course.

Altitude: Impossible to estimate except high above mountains.

Speed: From skyline to skyline in approximately 1 minute.

Flight Description: U. F. O. appeared on the skyline above the mountains on the West moving rapidly East on a straight line across the valley. About 10 seconds after sighting, the object expelled a fire ball which appeared to be the same size as the object. The fire ball hovered in mid air and two seperate small particles were seen to glow and then burn out. Directly over the centre of the valley, the blue pulsating dome became visible and remained so until the object disappeared on the skyline to the East. The above information and sketch is accurate and correct to the best of our ability.

OCT 13 1967

Dear [redacted]:

This will reply to your letter of October 8, regarding your two sightings of UFOs.

The first happened so long ago, and so many details necessary to positive identification of a sighting are missing, that identification would be virtually impossible at this point in time. Perhaps the inclosed Project Blue Book report will help you to identify it.

The second sighting was more recent; however, necessary details are omitted. Therefore, if you would care to complete the attached questionnaire, and forward it in the postage-free envelope we are inclosing, to the address given on the envelope, we shall try to determine what you actually observed.

In the future, should you sight another UFO, please contact the UFO investigator at your nearest Air Force base immediately. By so doing, you will have a much greater chance of having your sighting identified.

Sincerely,

DAVID L. STILES
Major, USAF
Acting Chief, Civil Branch
Community Relations Division

To whom it may concern,

My name is [redacted]

I would like to report two sightings of U.F.O's that I and a number of friends have seen.

The first one, seen by my cousin, [redacted] and I, happened about a year ago in December. I don't remember the date but the time was around 9:30 P.M. to 10:30 P.M. It was on Lake Wallenpaupack in Pennsylvania. That's where I live - My cousin and I were clearing rocks off the ice that little kids had thrown on. The ice was thin, about two inches, so we crawled on our stomachs. I heard a strange sound. I shined my flashlight across the ice and saw a what looked like two reflectors over each other. I called my cousins attention to it. We put our lights out, but the thing was still there. I heard the noise again. It was loud and distinct. It was a thumping sound. The object began to move closer. When we first saw it, it was about 400 yd away. When it began moving the lights changed position and were now side by side. It started moving toward us very fast. We got off the ice and started to yell, trying to get an answer, but no answer was heard. The noise was getting faster the faster the object moved. We ran for the car. When we started to go across a bridge, that cross the lake,

The object was in a dim light from a near light. It appeared to be flat, oval, and a dome in the center, that's where the lights were, on the lower. We then took off in the cars that was the last we saw of it.

The second sighting happened only a few days ago, on October 3. A friend named Bill, and I were fishing about 7:30 P.M. It was dark. We heard a fisherman yell from across the stream he see. saw see something in the sky [redacted] and me ran out to see a white mass materialize in the sky. It was bright, slightly oval, and about 20 feet in diameter. It appeared about as big as a wheather balloon. It was revolving, like on its axis. Then another materialized over it. Then the second one disappeared and the first one shot two small objects in the direction where the second one was. There was a cloud formation nearly to the objects left. There was one long cloud in a vertical position. It beam a white light shot out of the cloud toward the object and remained in sight for 10 min. We watched as a jet maned in very fast and slowed to circle around the object when the object became very bright. The jet then took off. I know that a rocket was sent up that night, but they were in the south. The objects were in the East. The rockets should have changed its color to a blue or orange. Two friends saw the rocket and

said it had changed colors. About ten people fishermen witnessed the object including Bill and me.

I am a strong believer in flying saucers. I have read many books.

If there is no charge would you please send me information on the "Incident at Exeter" and, or information on other sightings.

Thank you for reading this letter. Would you please answer this letter. Tell me what the charge would be, if any, for a copy of "Project Blue Book" I have read people have received copies.

Thank you,

REPLY TO ATTN OF: BCXI(Capt. Cunningham/402-294-4050) 1 November 1967

SUBJECT: UFO Observation of 8 Oct 67

TO: TDET/UFO
Hq, Foreign Technology Div (AFSC)
Wright-Patterson AFB, Ohio 45433

1. Reference to your letter of 17 October 1967 in regard to the UFO report, I am enclosing the photos of the UFO so that photo analysis can be performed.

2. I stated in the initial message that a T-29 landed at 0442Z approximately one hour after the sighting. I mentioned it since it would be possible for the T-29 to have been near the area if he had been flying approaches prior to the landing. The active runway was 30 and an instrument missed approach would place the aircraft near the location of the sighting. I have no details on the flight of the T-29 as yet since it was not an Offutt aircraft. The aircraft was from the 4900 ABW, Kirtland AFB and was piloted by Captain Dale N. Amend, FR54039 and the copilot was Captain James A. Malek, FV3004637. I have sent a letter to Captain Amend to inquire about his flight in order to determine if he could have been in the area. I will forward the information concerning the T-29 when I receive it.

3. Mr. Griffin of the FAA reports that only three aircraft flew near this area at any time close to the time of the sighting. A Cessna 411 flew from Grand Island to Omaha descending from 6,000 feet to 2,100 feet arriving at Omaha at 0340Z. This would place the aircraft below the 4,000 ft broken to overcast condition that existed in the area of the sighting time also.

4. There were two other flights near that area. A DC-6 passed over Omaha at 08/0319Z at 12,000 feet descending to 6,000 feet going to Lincoln on a flight path approximately 3 miles north of the area. A United Airlines Boeing 727 flying from Denver, Colorado at Fl 210 passed over Omaha at 08/0327 on a path approximately 10 miles north.

5. The DC-6 and the Boeing 727 appear to both have passed the area too early and at too high an altitude to be a factor, but I mention them in case this is of any importance to you. I have enclosed a map showing the flight paths.

6. If I can be of any other assistance please let me know.

1. PURPOSE: This report is in reply to Work Order 68-4 submitted by Major H. Quintanilla, requesting that photo analysis be accomplished on three Polaroid prints to determine the nature of the image appearing on these prints.

2. ANALYSIS: Examination of the prints produced the following results: An image is present on each of the photographs. The images appear as a white streak on a black backgrou The lack of definitive detail precluded a precise determination as to image identity. A dom on a cylindrical body, as reported by the observer, could not be seen on the photograph.

1. This replies to your request for information on your unidentified flying object (UFO) observation and photograph. Your photograph is presently being forwarded to photo experts at Wright-Patterson AFB for analysis. It is quite likely that the analysis will take several months, since our photo experts must also devote their time to other Air Force projects. Upon completion of analysis we will return your print, however, in the meantime we are forwarding you a copy of your photograph.

1. Reference your unidentified observation of October 7, 1967 and subsequent photographs. Your photographs were submitted to our photo experts for analysis. Examination of the prints produced the following results:

a. An image is present on each of the photographs. The images appear as a white streak on a black background. The lack of definitive detail precluded a precise determination as to image identity. A dome on a clyindrical body, as reported by the observer, could not be seen on the photograph.

2. Thank you for reporting your observation to the Air Force; your photographs are inclosed.

SIGHTING OF UNIDENTIFIED PHENOMENA QUESTIONNAIRE

BUDGET BUREAU APPROVAL NUMBER 21-R258

THIS QUESTIONNAIRE HAS BEEN PREPARED SO THAT YOU CAN GIVE THE U.S. AIR FORCE AS MUCH INFORMATION AS POSSIBLE CONCERNING THE UNIDENTIFIED PHENOMENON THAT YOU HAVE OBSERVED. PLEASE TRY TO ANSWER ALL OF THE QUESTIONS. THE INFORMATION YOU GIVE WILL BE USED FOR RESEARCH PURPOSES. YOUR NAME WILL NOT BE USED IN CONNECTION WITH ANY OF YOUR STATEMENTS OR CONCLUSIONS WITHOUT YOUR PERMISSION. RETURN TO AIR FORCE BASE INVESTIGATOR FOR FORWARDING TO FTD (TDETR), WRIGHT-PATTERSON AFB, OHIO 45433, IAW AFR 80-17. *(IF ADDITIONAL SHEETS ARE NEEDED FOR NARRATIVE OR SKETCHES ATTACH SECURELY TO THIS FORM OR ANNOTATE WITH YOUR NAME FOR IDENTIFICATION.)*

1. WHEN DID YOU SEE THE PHENOMENON?

NICAP MASSACHUSETTS INVESTIGATING SUBCOMMITTEE

13 Friend Court
Wenham, Massachusetts

SUBJECT: UFO Sighting - Ipswich, Mass. - 10/02/67 - 8:30-9:15 PM EDT

DATE: 10 October 1967

FROM: Raymond E. Fowler
Chairman: NICAP MASS SUBCOM

TO: NICAP, Washington, D.C.

CC: COLORADO PROJECT
FTD (TDETR)

SIGHTING BACKGROUND:

On the evening of 2 October 1967 I returned home from lecturing on UFOs at 11:15 PM to find that a Mr. William Castle of the Ipswich Chronicle and NICAP MASS SUBCOM Investigator Robert Jackson had left telephone messages regarding a UFO sighting which had taken place in Ipswich earlier. I phoned both parties and learned that Bob Jackson had been informed about the sighting and that both he and Ipswich Chronicle reporter had interviewed the witnesses. Later, Investigator Jackson arrived at my home with preliminary data on the sighting. It was decided that the sighting was significant and further investigation was undertaken. The following summary with detailed attachments contain the NICAP MASS SUBCOM report on the sighting.

SIGHTING ACCOUNTS: (Typed from Investigator Jackson's Report)

GROUP # 1

Mr. and Mrs. Frank Dineen
Leslie Road,
Ipswich, Mass. 356-4914

Mrs. Thomas Quintiliani
Leslie Road,
Ipswich, Mass. 356-3186

Miss Marion Norcross
Leslie Road,
Rowley, Mass. 887-2805

Mr. Kenneth Robinson
Leslie Road,
Ipswich, Mass. 356-2024

At 8:30 PM, Mr. Frank Dineen left his house to go to his car at the rear of the house. Upon leaving the door he noticed a stationary object brightly lighted with red and green and a very bright white light source which seemed to change position from one end of the object to the other end. He watched it for a moment and then called to Mrs. Dineen and Mrs. Norcross who were in the Dineen's house at the time. They both came outside and stood with Mr. Dineen and watched for approximately 5 minute At this point it was at a 60° elevation and its position was 315° NW to the observers. Mr. Dineen had to get to a bank in Peabody before it closed so he left in the car. The object while at this position display a slight up-and-down motion and then begun very slowly moving to the right drifting along in back of some trees and stopping at a position of 360°. At this point the object was somewhat obscured by the trees. Mrs Dineen went into the house and made a quick phone call to her neighbor, Mrs. Thomas Quintiliani, who arrived a few moments later. The three women and a man named Kenneth Robinson (another neighbor) were standing at this time, on the right side of the house (50 feet right and north of their first position), and observed the object between two trees at

approximately 45° elevation and a position of 320° NW. The object turned erratically seemed to revolve, its color changed (or the lights changed position) and moved left-to-right within a space of 4°. At this time it appeared to approach and back off slowly.

The object appeared to most of the observers as being "oval-shaped" giving off a glow (yellow) which seemed to be most intense around the parallel circumference which illuminated the object and the sky in the area. After watching the object for approximately 10 minutes at this second position, Mrs. Dineen decided to report it to the Ipswich police and telephoned them about 8:50 PM. They gave her Bob Jackson's number. In the meantime, Miss Norcross had left around 8:40 to alert her father about the object. Patrolman Brian Lombard of the Ipswich police arrived about 9:00 PM and watched it moving away in the distance. By the time he arrived it was just a light source moving away and changing colors as previously described.

GROUP # 2 Mr. Hiram Norcross
Leslie Road,
Rowley, Mass. 887-2805

On October 3rd I interviewed Mr. Hiram Norcross at his home in Rowley The Rowley-Ipswich town line runs between the Dineen and Norcross residences. The distance between the two homes is approximately 200 feet. Miss Norcross drove back to alert her father about 8:40 PM He was welding in his mill at the rear of his house. She called to him and he came outside, looked up and saw a "perfectly circular" bright red disc moving "very slowly" across his line-of-sight at a position of 210° in the SSW moving from 140° SE to 320° NW at an elevation of 65°. He watched the object at this position for about 30 seconds and then got into the car with his daughter (Miss Norcross and drove the short distance to the Dineen residence to view the UFO from there. When he arrived the object was moving away to the NW and diminishing in size. He told me he left because "there was not much to see at that distance" and he wanted to get back to his mill and finish his welding job. Mr. Norcross told me that the object, even from Dineen's house, still appeared to be circular and that he could not detect any color change from the red. He left for the mill about 8:50 PM. During my interview I asked him what the apparent siz of the object was and he pointed to a pully on a wire of comparable apparent size which subtended about 2°.

GROUP # 3 Patrolman Brian Lombard
8 Capeview Road,
Ipswich, Mass. 356-3328

By the time Lombard arrived all that could be seen was a light source changing colors moving away in the distance. He said that it could have been anything and that one could not tell whether it were an aircraft or not. He did note that it was changing from red to white and back to red.

INVESTIGATOR'S COMMENTS:

Mrs. Dineen's sketch illustrating a "domed" object is probably partly imaginative and based upon an object that she and her husband had seen on Rt. #128 in Danvers in the Fall of 1965 which resembled "two pie plates stuck together". She mentioned other cars had pulled off Rt. #128 to watch this object.

However, from the other observer's accounts, the characteristics most emphasized was the: 1) oval shape 2) illuminating glow about the obje and sky 3) lights position changing and revolving 4) side-to-side motion 5) "no sound" 6) DOGS BARKING (See Animal Reaction).

All witnesses involved are of average intelligence. Most were unable to express themselves at any length in their narratives. Mrs. Dineen seemed to be best able to express herself. I re-contacted Mrs. Dineen concerning the question of distance. She confirmed, as she did with the others verbally on the date of the sighting, that to be under the object, she would have to approximately 500 feet in the direction of the object. However, I took compass readings at both positions of the observers which were approximately 50 feet apart (Group # 1) in parall with the object's path from 315° NW at the first position. When the observers were at the left side of the house (see sketch), the object was at a NW position and then it moved to the right for 45° into the North. Then the observers traversed the 50 feet parallel with the object's path to their second position on the right hand side of the house. It again regained a NW position. In other words, the observer movement of 50 feet in parallel and in the same Northward direction as the object OVERTOOK the 45° distance that the object travelled from it first NW position. Therefore, the object very likely was closer than 500 feet. (see sketch and triangulation). Mrs. Dineen told me that sh had not understood the question concerning the distance of the object when she first had answered the question on the form.

On October 4th I returned to the Dineen's home to obtain Frank Dineen' filled-in UFO report form. I again questioned Mr. and Mrs. Dineen as to the actual shape of the red, green and white lights. They stated that they could not actually discern separate lights on the object but that the object itself seemed to be changing colors. The center white light may have had a roundish shape and been attached to the oval object but they were not sure. I think that the overall descript of the object and lights indicate that the object itself was changing color. It is strange that Mr. Norcross only saw the color red. The Group #1 description of apparent size was 1° as opposed to Mr. Norcros estimate of 2°. He felt he was much closer at his mill and wished he had stayed there instead of joining the others.

CHAIRMANS' COMMENTS AND EVALUATION:

ANIMAL REACTION:

Everyone remembered distinctly that they heard dogs barking throughout the area during the sighting. No one remembers hearing them before the sighting or do they remember if they stopped barking after the sighting. None of the witnesses ever bothered to check and see whose dog(s) were barking.

I had Investigator Jackson do some checking on this aspect of the

b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
(d.) As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

(a.) Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

a street light

12. The edges of the object were:

(Circle One):
a. Fuzzy or blurred
b. Like a bright star
(c.) Sharply outlined
d. Don't remember

e. Other _____

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	(Yes)	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	(No)	Don't know
c. Break up into parts or explode?	Yes	(No)	Don't know
d. Give off smoke?	Yes	(No)	Don't know
e. Change brightness?	(Yes)	No	Don't know
f. Change shape?	Yes	(No)	Don't know
g. Flash or flicker?	Yes	(No)	Don't know
h. Disappear and reappear?	(Yes)	No	Don't know

sighting. His findings are summarized below:

1) A family named Fowler (no relation to me) on Leslie Road had both of their dogs shot on 10/7/67 because they were attacking each other. A German shepherd badly mauled the other dog, a Collie, and both were done away with.

2) Mrs. Quintiliani thought her dog may have caused the others to fight as her female dog was "in heat" so she had her dog shot.

3) A Mrs. Clark Budd of Leslie road who owns a Mink Farm stated that both of her dogs were barking on the night of the sighting and she remembers that one kept on barking up on a nearby hill and would not come house when called for a half-hour.

To attribute the temperment of the dogs and the resultant extermination of the dogs to some effect caused by the UFO is pure conjecture. It is most interesting that many dogs were heard barking during the sighti This and other aspects of the sighting bear resemblance to other UFO sightings.

ADDITIONAL DATA:

The trees which the UFO moved behind were about 150 feet from the witnesses (Group #1) and about 50 feet high.

ADVERTISING PLANE: Not airborne on this date

WEATHER: (U.S. Weather, Logan Airport, Boston, Mass.)

TIME: 8:30 PM TEMP: 55° VISIBILITY: Clear CEILING: Unlimited

WIND DIRECTION: South WIND SPEED: 9 mph

ASTRONOMICAL: Nothing in directions noticed that would give observers an impression of a large oval object. Movements, size, etc. rule out astronomical phenomena.

SATELLITE DATA: Not Applicable

CONVENTIONAL AIRCRAFT:

Configuration and noiseless factors seem to rule out aircraft unless all observers were greatly exaggerating. Color of lights were conventional but not description.

EVALUATION:

As one studies the complete report, it is apparent that many UFO characteristics were observed. It is felt that the report is significant and falls into the realm of an Unidentified Flying Object.

NOTE: I phoned several police stations along the path the object moved off but with negative results. (on 10/2/67 late PM)

Respectfully submitted,

II. ENVIRONMENTAL SITUATION

1. What was your exact location when you observed the UFO(s)? (Include the name of the city or town you were in, or the distance to the nearest city or town.) IPSWICH

2. What was the date? 10/2/67

3. How long did you observe the object(s)? Hours: _____ Minutes: 15 Seconds: _____

   From _____ A.M. _____ P.M. 8:30 ZONE (When FIRST seen)

   To _____ A.M. _____ P.M. 8:45 ZONE (When LAST seen)

4. Assuming you had stayed in one place, what is the longest time you COULD HAVE OBSERVED the UFO(s)?

   Hours: _____ Minutes 60 Seconds: _____

5. How did you first happen to notice the object(s)?

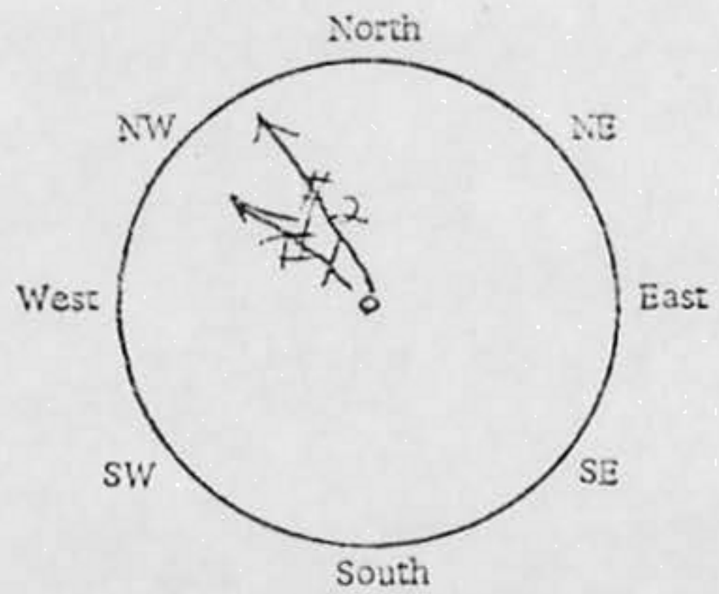
   LOOK UP IN THE SKY

6. What had you just been doing?

   WATCHING T.V.

7. A. In what direction did you FIRST see the Object(s)? (Indicate this in the diagram by drawing an arrow from the center of the circle (observer's position) to the point on edge representing the object's position. Label this point No. 1.

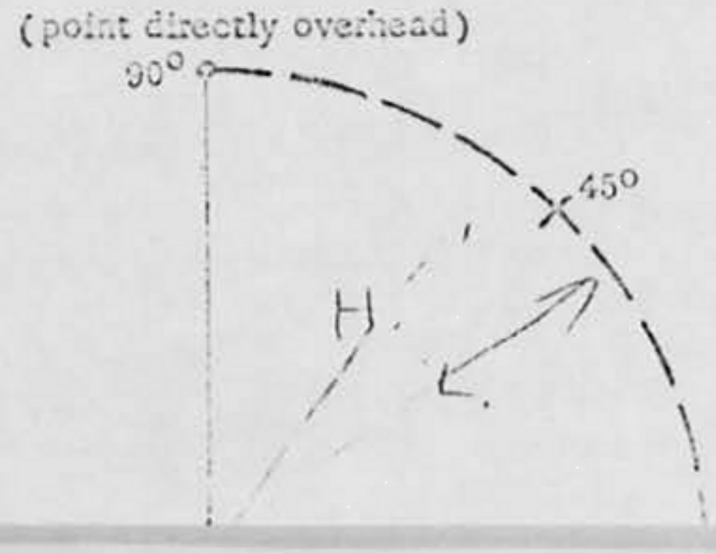
   B. In what direction did you LAST see the object(s)? (Indicate by drawing a second arrow labeled No. 2.)



8. Estimate the MINIMUM distance and altitude of the object(s) from you and how you determined this measurement.

   a. distance: 500 FT. b. altitude: 2 MILES

9. Estimate the elevation (in degrees) of the object(s) in the sky. Mark position on the dotted line in the diagram. If elevation of object changed, please mark BOTH highest position and lowest position.



10. Did you observe the object(s) through any of the following? (Circle) Include information on type of equipment: model, type of film, filters, etc. (See question number 45.) N O

37. What would you estimate the ACTUAL size of the object(s) to be (measured in feet along its greatest dimension)?

III. MOVEMENT OF OBJECT(S)

38. In what direction was the object(s) traveling? North - northwest

39. Describe the movement of the object(s), including the path(s) and nature of motion (i.e. steady, wobbling, waving, jerky, etc.). Did it (they) move significantly with respect to background of stars or landscape? Sketch path(s) showin orientation of object (s) in sky.

MOSTLY STATIONARY - BLINKING - A SIDE TO SIDE CLOSER THEN BACK - ROTATING

40. Did object pass in front of or behind any fixed physical objects such as trees, clouds, mountains, buildings, etc. Describe any notable relationships to such objects if observed.

DISAPPEARED behind TREE TOP AMONGST

41. Can you estimate the speed of the object(s) N/A How was this determined? _____

42. Did the object(s) disappear while you were watching? N/A If so, how? _____

44. Please give names and addresses of other witnesses, if any. Indicate relationship of witnesses to you, if it exists, and whether their sightings occurred before, during or after yours.

44a. Have you seen similar objects of an unidentified nature? YES If so, use separate forms or attach other pages to describe these sightings.

45. Please enclose photographs, motion pictures, news clippings, notes of radio or television programs (include time, station and date, if possible) regarding this or similar observations or any other background material. IF PHOTOGRAPHS OR MOTION PICTURES ARE ENCLOSED, BE SURE TO INCLUDE ALL INFORMATION ON CAMERA TYPE, FILM TYPE, FILTERS, CAMERA SETTINGS, WHERE DEVELOPED, ETC. ORIGINAL NEGATIVES ARE NECESSARY FOR PHOTOGRAPHIC ANALYSIS. If you wish to have items returned to you, please indicate.

UFO SIGHTING REPORT

I. PERSONAL ACCOUNT

In your own words, Please describe the incident as it happened. (If additional pages are needed, be sure they are numbered.)

[illegible]

14. Did the object disappear while you were watching it? If so, how?
Yes it went in the clouds

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): (Yes) No Don't Know. IF you answered YES, then tell what it moved behind: a cloud

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): (Yes) No Don't Know. IF you answered YES, then tell what in front of: a cloud

17. Tell in a few words the following things about the object:

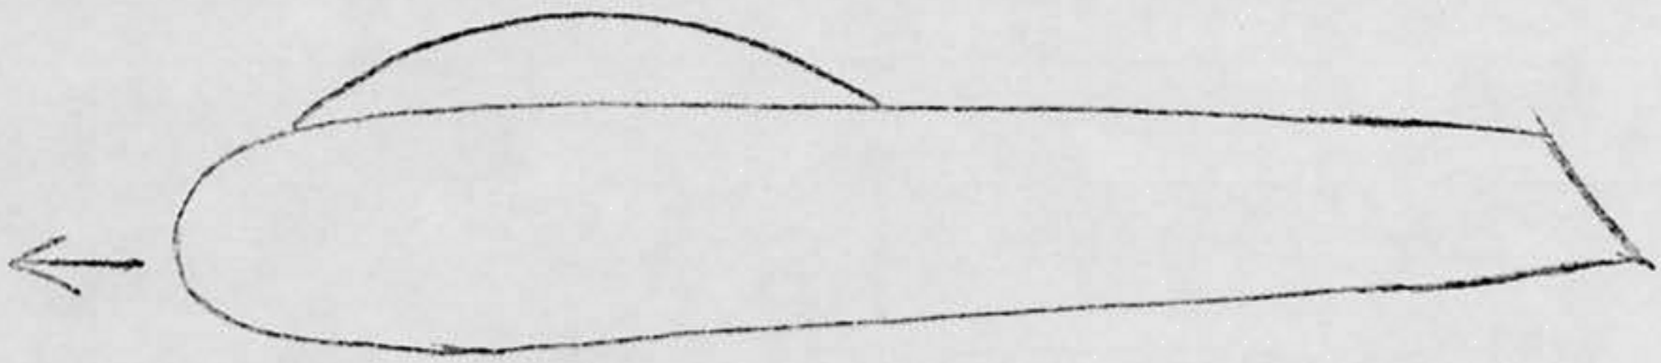
a. Sound It had no sound

b. Color It was a white object

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?
5 matches would have covered the object

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.



Note to observer: In filling out this form, please be as complete and accurate as possible. Some of the information asked for may not apply to your sighting or may be unavailable to you. In such cases, please indicate.

a.	Pinhead	d.	Nickel	g.	Orange
b.	Pea	e.	Half dollar	h.	Grapefruit
c.	Dime	f.	Silver dollar	i.	Larger

Or, if easier, give apparent size in inches on a ruler held at arm's length.

21. How did you happen to notice the object(s)?

22. Where were you and what were you doing at the time?

23. How did the object(s) disappear from view?

24. Compare the speed of the object(s) with a piston or jet aircraft at the same apparent altitude.

25. Were there any conventional aircraft in the location at the time or immediately afterwards? If so, please elaborate.

26. Please estimate the distance of the object(s).

27. What was the elevation of the object(s) in the sky? Please mark on this hemisphere sketch:

28. Names and addresses of other witnesses, if any.

29. Please draw a map of the locality of the observation showing North; your position; the direction from which the object(appeared and disappeared from view; the direction of its course over the area; roads, towns, villages, railroads, and othe landmarks within a mile.

30. Is there an airport, military, governmental, or research installation in the area?

31. Have you seen other objects of an unidentified nature? If so, please describe these observations, using a separate sheet of pape

NO

32. Please enclose photographs, motion pictures, news clippings, notes of radio or television programs (include time, station an date, if possible) regarding this or similar observations, or any other background material. We will return the material to you

33. Were you interrogated by Air Force investigators? By any other federal, state, county, or local officials? If so, please stat the name and rank or title of the agent, his office, and details as to where and when the questioning took place.

a neighbor had called my attention to it at about
8:45 calling on the telephone. When I arrived where
the object could be seen it was in a position
between two trees. The first color I saw was
red. It then turned to snow, from left to right
having also white and green like colors as
it turned around. It seemed to be in an oval
shape. Slowly it disappeared from sight at
about 9:15 P.M. The sky was very bright at
the time. After it disappeared the sky was a
bright snow white there were stars out.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? *(Circle One)*:

a. Inside a building
b. In a car
(c.) Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you *(Circle One)*

a. In the business section of a city?
b. In the residential section of a city?
c. In open countryside?
(d.) Near an airfield? 7 miles from C Hutt A.F.B.
e. Flying over a city?
f. Flying over open country?
g. Other Suburban area

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? *(Circle One)*

NA

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

a. Eyeglasses	(Yes)	No	e. Binoculars	Yes	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
d. Window glass	Yes	No	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

e. Don't remember

10. The object appeared: (Circle One):

a. Solid
b. Transparent
c. Vapor
(d.) As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

(a.) Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

different colors white, red, green bright around object

12. The edges of the object were:

(Circle One): a. Fuzzy or blurred
b. Like a bright star
(c.) Sharply outlined
d. Don't remember

e. Other _____

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	(No)	Don't know
b. Suddenly speed up and rush away at any time?	Yes	(No)	Don't know
c. Break up into parts or explode?	Yes	(No)	Don't know
d. Give off smoke?	Yes	(No)	Don't know
e. Change brightness?	Yes	(No)	Don't know
f. Change shape?	Yes	(No)	Don't know
g. Flash or flicker?	Yes	(No)	Don't know
h. Disappear and reappear?	Yes	(No)	Don't know

14. Did the object disappear while you were watching it? If so, how? It seemed to be going away toward New Hampshire at 9:15 P.M. by getting smaller.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): (Yes) No Don't Know. IF you answered YES, then tell what it moved behind: trees

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of:

17. Tell in a few words the following things about the object:

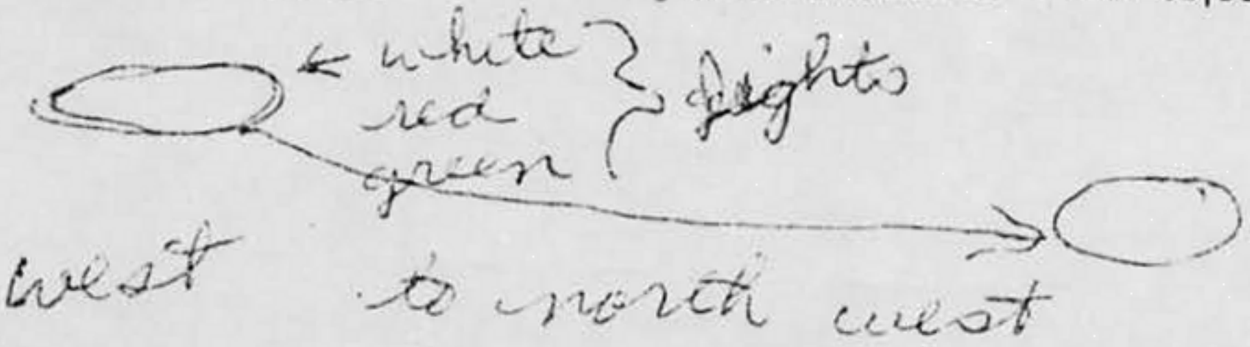
a. Sound no sound at all

b. Color it would change white to red to green

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note much of the object is covered by the head of the match. If you had performed this experiment at the time of sighting, how much of the object would have been covered by the match head?

about three as big.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any de of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.



20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

e. South
f. Southwest
g. West
(h.) Northwest

24.2 How fast were you moving? 20 miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) (Yes) No when I got outside my car

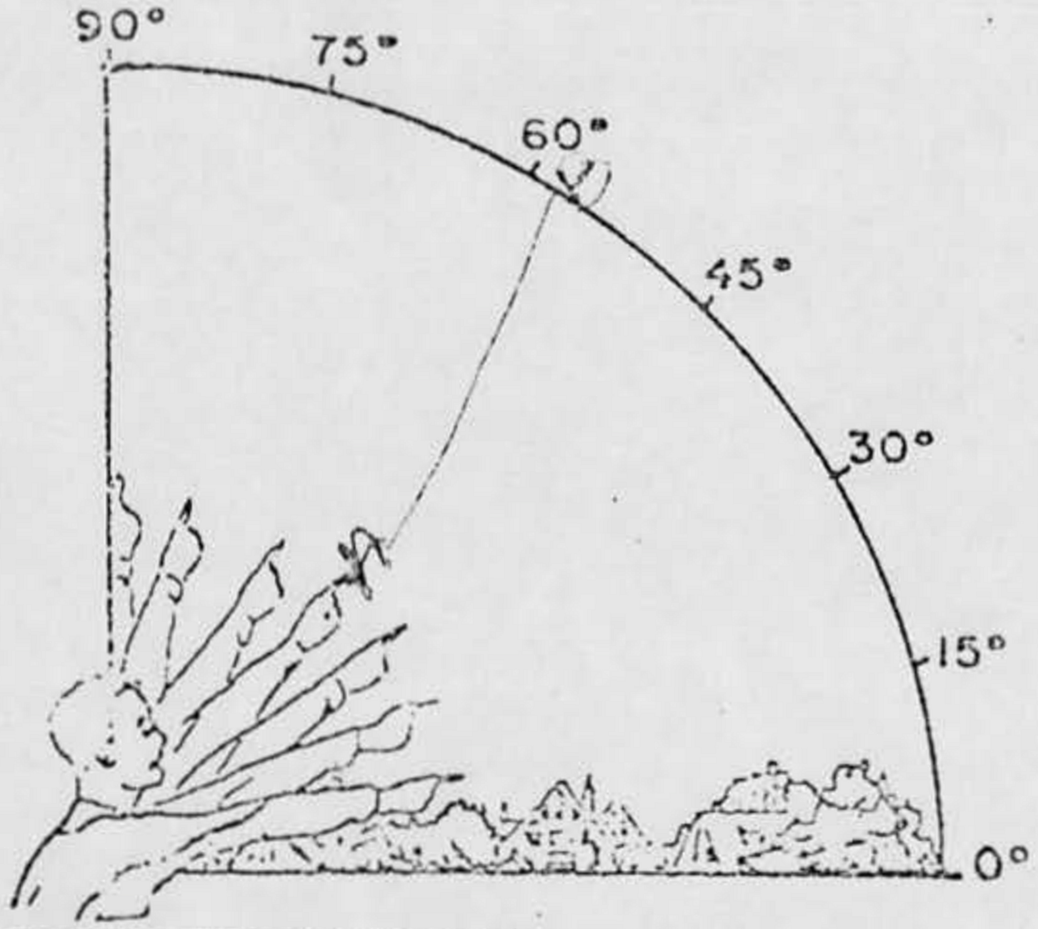
25. Did you observe the object through any of the following?

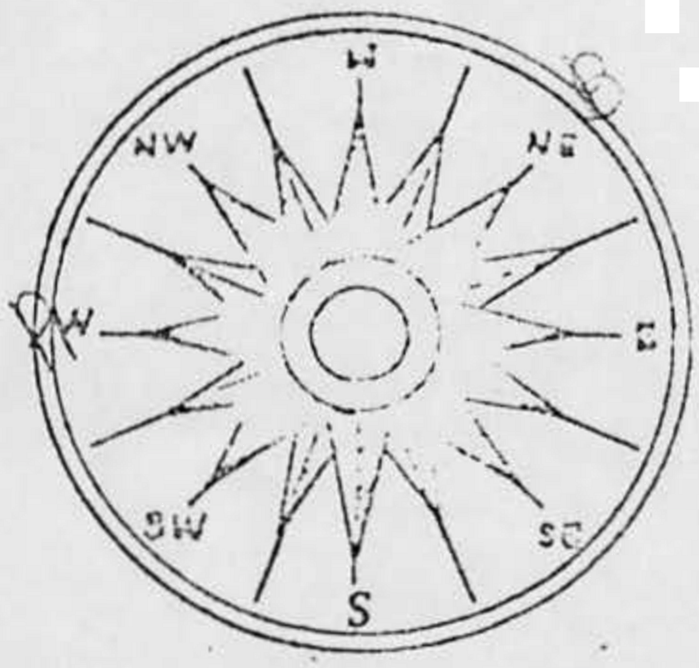
a. Eyeglasses	Yes	(No)	f. Binoculars	Yes	(No)
b. Sunglasses	Yes	(No)	g. Telescope	Yes	(No)
c. Wristwatch	Yes	(No)	h. Theodolite	Yes	(No)
d. Watch glass	Yes	(No)	i. Other _____		

26. In order to help us understand clearly a picture or possible of what you saw, does it remind you of any other object or objects which, when viewed in the sky, would give the same appearance as the object you saw?

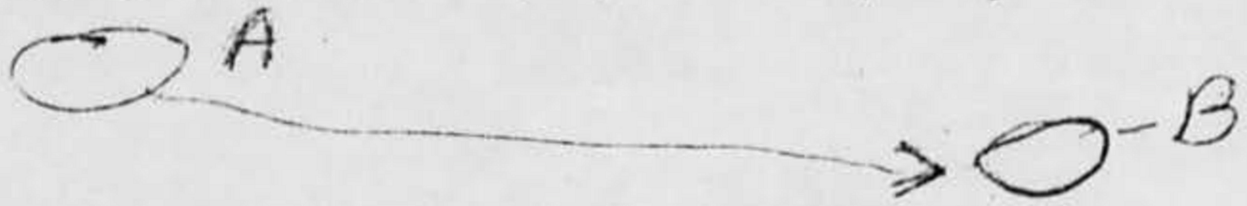
Like a helicopter moving around but no going any place with white, red, green light

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.





28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.



29. IF there was MORE THAN ONE object, then how many were there? just one
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

yes
Sept. - in Georgetown
1967 first part of month

31. Was anyone else with you at the time you saw the object? (Circle One) (Yes) No

31.1 If you answered YES, did they see the object too? (Circle One) (Yes) No

UFO SIGHTING REPORT

I. PERSONAL ACCOUNT

In your own words, Please describe the incident as it happened. (If additional pages are needed, be sure they are numbered.)

HN

Note to observer: In filling out this form, please be as complete and accurate as possible. Some of the information asked for may not apply to your sighting or may be unavailable to you. In such cases, please indicate.

II. ENVIRONMENTAL SITUATION

1. What was your exact location when you observed the UFO(s)? (Include the name of the city or town you were in, or the distance to the nearest city or town.) Ipswich, Mass

2. What was the date? Oct. 2, 1967

3. How long did you observe the object(s)? Hours: _____ Minutes: 15 Seconds: _____

   From _____ A.M. 8:35 P.M. _____ ZONE (When FIRST seen)

   To _____ A.M. 8:50 P.M. _____ ZONE (When LAST seen)

4. Assuming you had stayed in one place, what is the longest time you COULD HAVE OBSERVED the UFO(s)?

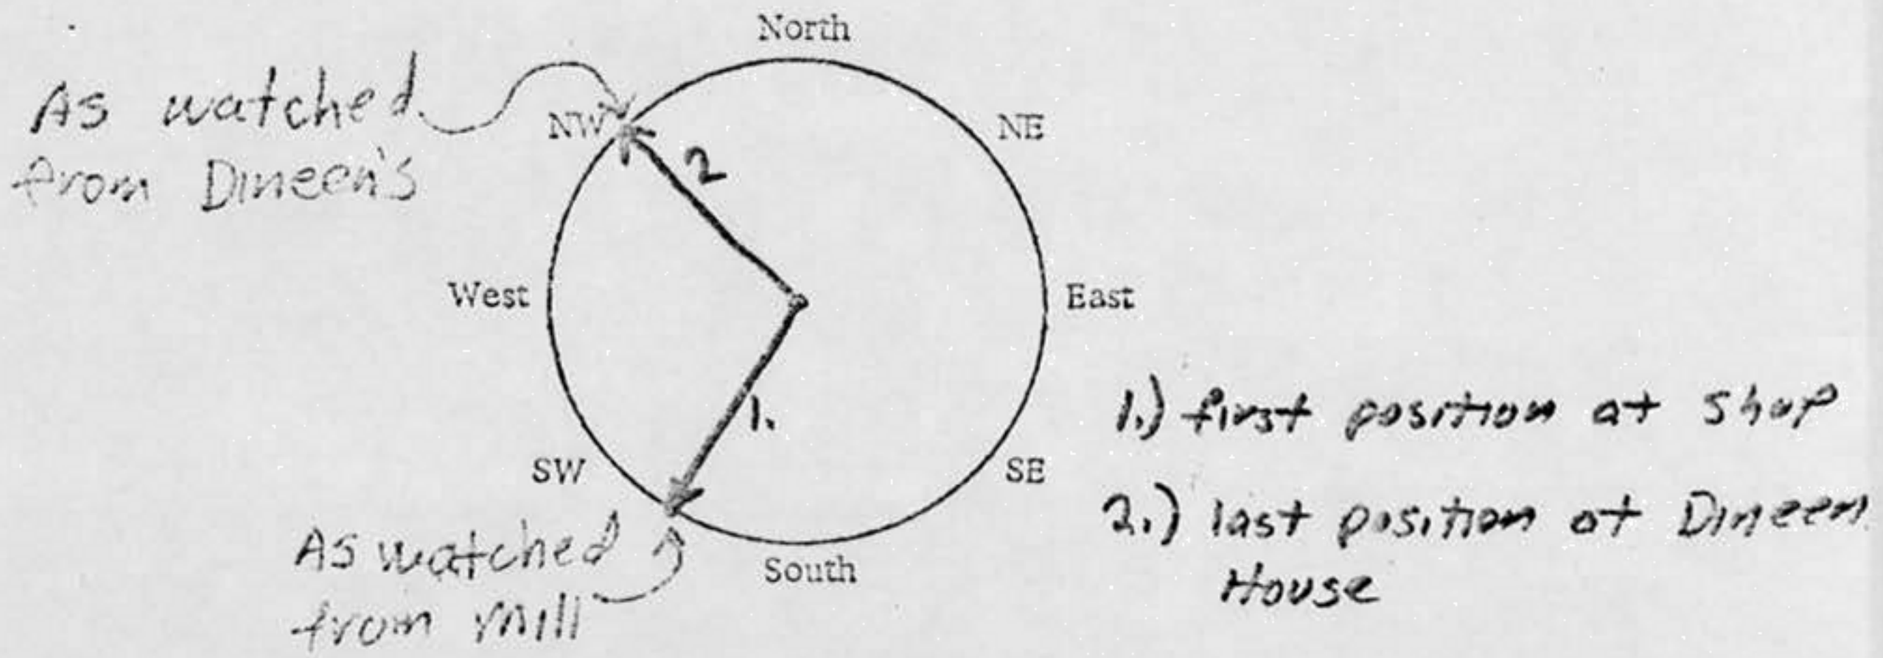
   Hours: _____ (10) Minutes _____ Seconds: _____

5. How did you first happen to notice the object(s)?
   daughter called my attention to it

6. What had you just been doing?
   welding in my shop

7. A. In what direction did you FIRST see the Object(s)? (Indicate this in the diagram by drawing an arrow from the center of the circle (observer's position) to the point on edge representing the object's position. Label this point No. 1.

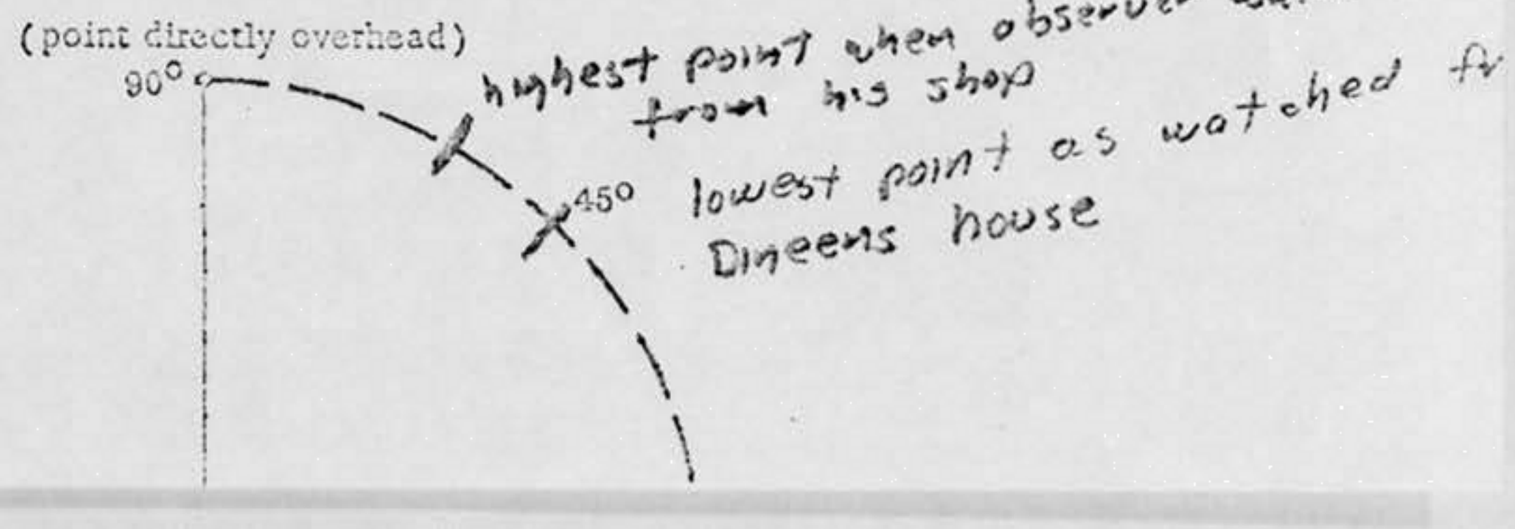
   B. In what direction did you LAST see the object(s)? (Indicate by drawing a second arrow labeled No. 2.)



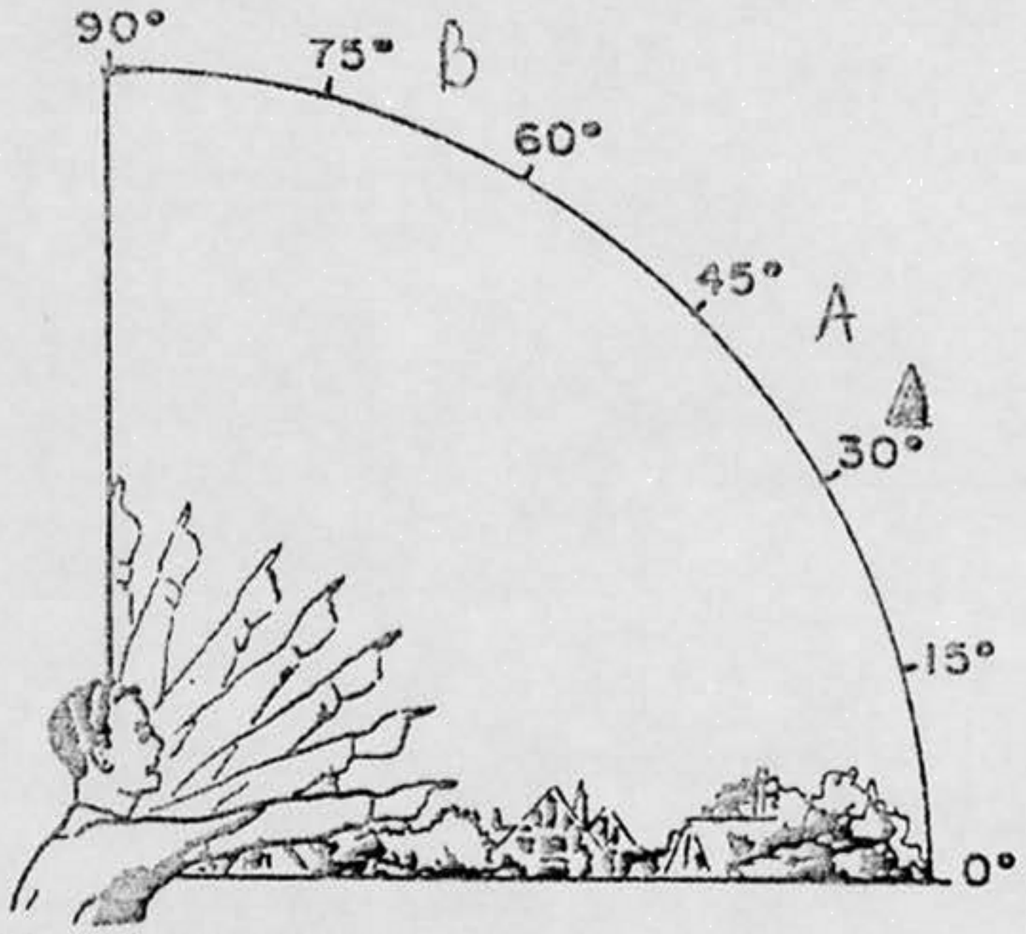
8. Estimate the MINIMUM distance and altitude of the object(s) from you and how you determined this measurement.

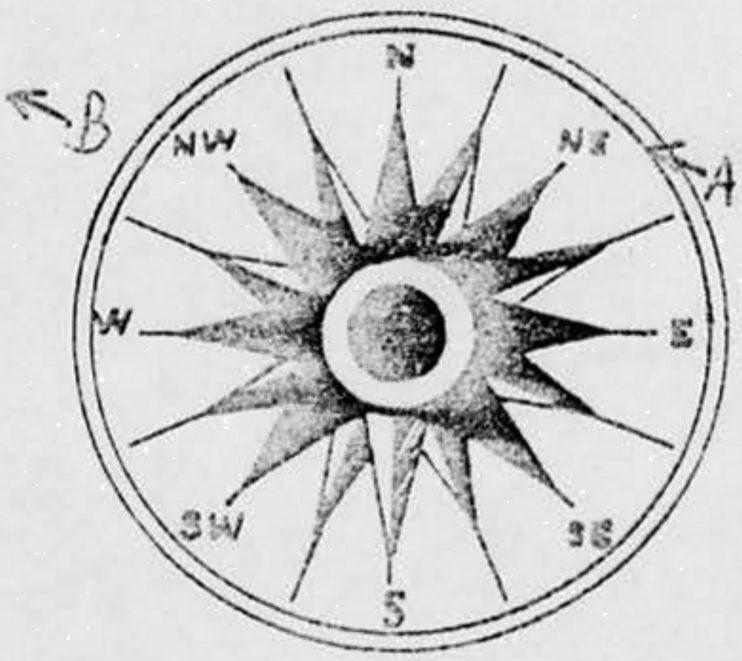
   a. distance: NO b. altitude: NO

9. Estimate the elevation (in degrees) of the object(s) in the sky. Mark position on the dotted line in the diagram. If elevation of object changed, please mark BOTH highest position and lowest position.



27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.





28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____

11. Was object(s) observed by radar? _____ If so, where was the radar located? (Give name(s) of radar operator(s) and information on speed and flight path(s), if available.)

don't know

12. Please describe weather conditions and type of sky; i.e. bright daylight, nighttime, dusk, etc. Were stars or moon visible?

nighttime - clear stars visible - no moon

13. Was there any wind? no If so, please give direction and speed as accurately as you can.

14. What was the position of the sun and/or the moon in relation to object(s) and to you? (Please explain.)

none

15. Briefly describe the type of terrain in the area.

Hilly - wooded

16. Did you see any conventional aircraft in the area immediately before, during, or after the incident? no

17. Please list any airport, military, governmental, or research installation(s) in the area. Are there any other unique features or landmarks (either natural or manmade) in the vicinity? _____ If so, please describe.

Sagamore Hill, Hamilton - Air Force radio telescope

18. Sketch or include a map of the area, labeling north, your position, the apparent course or position(s) of object(s) and any other important landmarks. (Please use separate piece of paper for sketch and attach to this report.)

DESCRIPTION OF OBJECT(S)

19. Were you able to see the object(s) clearly? Please describe any limiting factors. yes

20. Did you see more than one object? no If so, how many? _____ Make a sketch showing formation and position changes

21. Did the objects all appear to be similar to one another? _____ If not, describe the differences in question #22.

22. Please give a detailed description of the object(s), including shape, color, lights, surface features (if any), etc. Sketch the object(s) in detail according to your description.

See sketch

26. Did object(s) produce heat? NO If so, please explain.

27. Did object(s) produce an odor? NO If so, please describe it.

28. Did object(s) appear to be solid or gaseous? solid

29. Was object(s): (circle one) a. fuzzy or blurred? b. like a bright star? c. sharply outlined

30. How would you describe the brightness of the object(s)? (Circle one)

a. brighter than the sun?
b. brighter than the moon?
c. brighter than any star (or planet)?
d. brighter than the background?
e. same brightness as the background?
f. darker than the background?
g. other (explain)?

31. Was the object(s): (circle one)

a. self-luminous? b. dull finish? c. reflecting? d. transparent?

32. (Circle the items which apply and DESCRIBE as clearly as you can.) Did the object(s):

a. appear to rotate (as a whole or in part)? NO
b. change shape? NO
c. change color? didn't detect color change
. change brightness? NO
e. give off smoke or vapor? NO
f. leave any visible trail? NO
g. drop anything? NO
h. separate into parts or explode? NO
i. disappear and reappear? NO
j. appear to affect any animals? dogs barking

33. Did the object(s) appear to affect any mechanical or electrical devices (i.e. automobile engine, headlights, radio, T.V., appliances, clocks, watches, etc.)? NO If so, please explain in detail. (include make, model, transmission type if automobile, etc.)

37. What would you estimate the ACTUAL size of the object(s) to be (measured in feet along its greatest dimension)?
none

III. MOVEMENT OF OBJECT(S)

38. In what direction was the object(s) traveling? S.E 140° to 320° N.W

39. Describe the movement of the object(s), including the path(s) and nature of motion (i.e. steady, wobbling, waving, jerky, etc.). Did it (they) move significantly with respect to background of stars or landscape? Sketch path(s) showing orientation of object (s) in sky.

40. Did object pass in front of or behind any fixed physical objects such as trees, clouds, mountains, buildings, etc. no
Describe any notable relationships to such objects if observed. above trees

41. Can you estimate the speed of the object(s) no How was this determined? _____

42. Did the object(s) disappear while you were watching? _____ If so, how? _____
still visible when I left Dineen's House to go back and finish welding

H.N

43. Please give names and addresses of other witnesses, if any. Indicate relationship of witnesses to you, if it exists, and whether their sightings occurred before, during or after yours.

44. Have you seen other objects of an unidentified nature? no If so, use separate forms or attached pages to describe these sightings.

45. Please enclose photographs, motion pictures, news clippings, notes of radio or television programs (include time, station and date, if possible) regarding this or similar observations or any other background material. IF PHOTOGRAPHS OR MOTION PICTURES ARE ENCLOSED, BE SURE TO INCLUDE ALL INFORMATION ON CAMERA TYPE, FILM TYPE, FILTERS, CAMERA SETTINGS, WHERE DEVELOPED, ETC. ORIGINAL NEGATIVES ARE NECESSARY FOR PHOTOGRAPHIC ANALYSIS. If you wish to have items returned to you, please indicate.

Dear [redacted]

It was most gratifying to get your letter yesterday, and to know that you had found out what you had really seen.

No, now that you have identified your UFO, you will not need to send the questionnaire to Wright-Patterson AFB; we will let them know you are not going to send it.

And incidentally, we do not think you are a great big idiot; just remember that the only people who do not make mistakes are those who lack intelligence and the ability to observe the world around them. It takes a really big person to admit that he has made a mistake.

Thank you for letting us know what you saw.

Sincerely,

Dear [redacted],

I fell like a dummy after writing to you saying that I saw three U.F.O.'s in the sky on October 3,but usually when I write a letter or something to be mailed it has the tendancy to hang around my desk for about 12 years(I'm 17).Well with your letter I mailed it that night.I went to bed that night at about 11:30,and while listening to the radio,its a portable and under my pillow,I heard that N.A.S.A. was making the sky turn weird color's. What was happenning was that N.A.S.A. was experimenting with the atmosphere.(If you remember,you probaly dont,I said I saw the same things about two years before.)The next day guess what was on the front page of the two most popular newspapers. "SPACESHIPS LAND AND RED AND GREEN STRIPED CREATURE'S APPEAR". No it didnt say that ,but it did say,and explain,

that N.A.S.A. was experimenting with the atmastphere and that at the same time the following night the same thing would happen. Sure enough it did and I felt like an idiot,and a big one at that(I'm 6 foot 3 inches).

Well now that you have read the introduction to my question here it is: Should I fill out the questionnaire on the you-ef-owws (U.F.O.'s) because I ,NOW, know what I saw and certainly you know what it was.My address is on the bottem,and thanks again for listening to my complaints.

Yours Truly

Dear [redacted]:

Reference your letter of October 3 regarding your sighting of an unidentified flying object (UFO), it is impossible to tell precisely what you saw unless we have more information.

If you will complete the attached questionnaire and send it in the postage free envelope we are providing to the address given on the envelope, it is quite possible that you will find out what you observed.

Sincerely,

Dear Sirs,

I've read your March 1967 edition about U.F.O's and found it very interesting. All though I may not be a brain or some intellectual genius, I'm no dummy.

If the letter is still in your hands, and not in the wastepaper basket, I'll tell you the reason why I wrote to you. Tonight, at about 7:25, I went to look out of my window and saw three white objects that were about on the same horizon of the north star. They were drawn to my attenion by one of my brothers and my mother. (I just reread what I wrote and I want to clearify something. "the objects" were like masses and they were not moving, but eventually they did disappear, as I will explain later. "the same horizon as the north star", I determined this because in the 10th grade, I'm in 12th now, I used an astrolabe to show the earth rotated.)

These masses that I mentioned were about 3 to 4 inches, from where I was, in diameter, and as they faded away they just got larger and larger. They grew to about 5 or6 inches wide. While I was observing this phenomena I was missing another phenomena (I Dream of Gennie). The frist mass to go was the (The T.V. program) smallest and the brightest of the three. That left at about 7:40. The two other's, within the period of twenty minutes af-

ter the first one started to,you might say"fuse" together until about 7:50 and then it started to blend in with the rest of the sky.I saw something like this about one or two years ago ,but I didnt know who or where to give my information to.

Well if you have got this far and you are not asleep yet or have gone cross-eyed with my typing ,I would like to thank you for your time and patience in reading this letter and trying to cope with my (AHEM !) jokes.You are probaly piled down with papers ,such as mine, and are filing them all in the proper place,the wastepaper basket.If you have any explaination what this thing was I would sure like to know about it. My address is below. Thanks again

Dear Mr. [redacted],

I fell like a dummy after writing to you saying that I saw three U.F.O.'s in the sky on October 3, but usually when I write a letter or something to be mailed it has the tendency to hang around my desk for about 12 years(I'm 17). Well with your letter I mailed it that night. I went to bed that night at about 11:30, and while listening to the radio, its a portable and under my pillow, I heard that N.A.S.A. was making the sky turn weird color's. What was happenning was that N.A.S.A. was experimenting with the atmosphere.(If you remember, you probaly dont, I said I saw the same things about two years before.)The next day guess what was on the front page of the two most popular newspapers. "SPACESHIPS LAND AND RED AND GREEN STRIPED CREATURE'S APPEAR". No it didnt say that , but it did say, and explain,

that N.A.S.A. was experimenting with the atmastphere and that at the same time the following night the same thing would happen. Sure enough it did and I felt like an idiot,and a big one at that(I'm 6 foot 3 inches).

Well now that you have read the introduction to my question here it is: Should I fill out the questionnaire on the you-ef-owws (U.F.O.'s) because I ,NOW, know what I saw and certainly you know what it was.My address is on the bottem,and thanks again for listening to my complaints.

Yours Truly

Dear [redacted]

It was most gratifying to get your letter yesterday, and to know that you had found out what you had really seen.

No, now that you have identified your UFO, you will not need to send the questionnaire to Wright-Patterson AFB; we will let them know you are not going to send it.

And incidentally, we do not think you are a great big idiot; just remember that the only people who do not make mistakes are those who lack intelligence and the ability to observe the world around them. It takes a really big person to admit that he has made a mistake.

Thank you for letting us know what you saw.

Sincerely,

Dear Sirs,

I've read your March 1967 edition about U.F.O's and found it very interesting. All though I may not be a brain or some intellectual genius, I'm no dummy.

If the letter is still in your hands, and not in the wastepaper basket, I'll tell you the reason why I wrote to you. Tonight, at about 7:25, I went to look out of my window and saw three white objects that were about on the same horizon of the north star. They were drawn to my attenion by one of my brothers and my mother. (I just reread what I wrote and I want to clearify something. "the objects" were like masses and they were not moving, but eventually they did disappear, as I will explain later. "the same horizon as the north star", I determined this because in the 10th grade, I'm in 12th now, I used an astrolabe to show the earth rotated.)

These masses that I mentioned were about 3 to 4 inches, from where I was, in diameter, and as they faded away they just got larger and larger. They grew to about 5 or6 inches wide. While I was observing this phenomena I was missing another phenomena (I Dream of Gennie). The frist mass to go was the smallest and the brightest of the three. That left at about 7:40. The two other's, within the period of twenty minutes af-

ter the first one started to,you might say,"fuse" together until about 7:50 and then it started to blend in with the rest of the sky.I saw something like this about one or two years ago ,but I didn't know who or where to give my information to.
