1. The Aerial Phenomena Office is in receipt of an unidentified flying object (UFO) report from the Lake Charles area for October 1967. Information on the date of the sighting is conflicting. Originally, the date was reported as 11 October 1967, however, we have subsequently received information stating that the date was 18 October 1967.
2. The sighting was of a series of bright flashes and appeared to the witnesses as explosions except no noise or tremor was felt. The sighting occurred north of Highway 90 and west of Iowa, Louisiana.
3. Previously, we contacted Barksdale AFB; they suggested we contact you concerning possible gunnery/flare activity. A letter from the Director of Operations on 20 December 1967 stated that there was no activity on the evening of 11 October that could have caused the sighting. We would appreciate it if you would check to see if there was any flare activity on 18 October between 2000 and 2200 hours.
