

PROJECT 10073 RECORD

1. DATE-TIME GROUP 30 Nov 67	2. LOCATION Syracuse, New York
3. SOURCE Civilian	10. CONCLUSION Porbable: Astro: Possible Betelgeuse
4. NUMBER OF OBJECTS 1	
5. LENGTH OF OBSERVATION unknown	11. BRIEF SUMMARY AND ANALYSIS Observer sighted a star like object that alternated between red and green. The object was in the east at an ele. of about 45 deg. Comments: The observer later told the investigator at the local air force base that he tinks he and his wife were observing the planet Saturn. Saturn was roughly in the SW at the time of the sighting. Ele. of 40 degs. Betelgeuse was at an az. of 110 degs. and ele of 41 degs. There were numerous other bright stars in the eastern sky. Sirius, Procyon, Pollux Castor and Aldeboran are some of them.
6. TYPE OF OBSERVATION Ground Visual	
7. COURSE Stationary	
8. PHOTOS ☐ Yes ☒ No	
9. PHYSICAL EVIDENCE ☐ Yes ☒ No

REPLY TO
ATTN OF: 350IN

19 January 1968

SUBJECT: UFO Observation, 30 November 1967

TO: FTD (TDPT/UFO)

1. Mr. [REDACTED] was contacted on 21 December 1967 concerning the UFO report which his wife made. He stated that both were observing stars through a telescope when they observed the object which they reported. Mr. [REDACTED] said the object remained stationary and he never saw it change colors. He further stated that, after checking the newspaper, he believes he and his wife were observing the planet Saturn which was supposed to be visible at that time.

2. There were no unusual incidents reported by radar observers at this Direction Center.

FOR THE COMMANDER

Gerald L. White
GERALD L. WHITE, 2D Lt, USAF
Chief, Intelligence Division

*Saturn is roughly in SW at elev.
of 40°*

*Regulus is approx 116° and elev.
of 48°*

*numerous other bright stars in east
Sirius, Procyon Pollux and
Castor and Aldebaran.*

UNIDENTIFIED FLYING OBJECTS REPORT (UFOB)

FROM: 35000

DATE: 01 DEC 67

TIME: 0330

2

1. Description of the object(s):

- a. Shape SHIPPED LIKE A STAR
- b. Size compared to known object LARGER THAN A STAR
- c. Color ALTERNATING RED & GREEN
- d. Number ONE
- e. Formation, if more than one —
- f. Any discernible features or details NIL
- g. Tail, trail, or exhaust, including size of same compared to size of object(s) NIL
- h. Describable sound, if heard NIL
- i. Other pertinent or unusual features —

2. Description of course of object(s):

- a. What first called the attention of the observer to the object(s)? OBSERVING STARS THROUGH TELESCOPE
- b. Angle of elevation and azimuth of the object(s) when first observed EAST - 045°
- c. Angle of elevation and azimuth of the object(s) upon disappearance STATIONARY
- d. Description of flight path and maneuvers of object(s) —
- e. Manner of disappearance of object(s) —
- f. Length of time in sight

3. Manner of observation:

- a. Ground-visual, ground-electronic, air-visual, air-electronic. (If electronic, specify type of radar)
- b. Statement of optical aids (telescopes, binoculars, etc., and description thereof)
- c. If sighting is made while airborne, give type aircraft, identification number, altitude, heading, speed, and home station

4. Time and date of sighting:

- a. Zulu time-date group of sighting 0330Z 01 DEC 67 2230 local 3074V
- b. Light conditions: Night, day, dawn, dusk NIGHT (CLEAR)

5. Location of observer. Exact latitude and longitude of observer(s), Georef position, or position with reference to a known landmark

809 WOLF STREET SYRACUSE.

6. Identifying information of all observers:

- a. Civilian - Name, age, mailing address, occupation.

MRS. [REDACTED] NY

b. Military - Name, grade, organization, duty section, and estimate of reliability

~~DEVEAU SGT SGT SWDT~~

7. Weather and winds aloft conditions at time and place of sightings

a. Observer's account of weather conditions

b. Report from nearest AMS or U.S. Weather Bureau Office of wind direction and velocity in degrees and knots at:

Surface:	20,000'
6,000'	30,000'
10,000'	50,000'
15,000'	80,000'

c. Ceiling

d. Visibility

VERY CLEAR.

e. Amount of Cloud Cover

f. Thunderstorms in area and quadrant location

8. Any other unusual activity or condition, meteorological, astronomical, or otherwise, which might account for the sighting.

9. Interception or identification action taken

10. Location of any air traffic in the area at the time of sighting

11. Information concerning officer preparing UFOB reports

a. Name and position title DEVEAU SWDT

b. Comments and preliminary analysis of preparing officer:

FIRST OF THREE REPORTS ON THIS ONE OBJECT.

12. Existence of physical evidence, such as materials and photographs

13. Action taken:
